Request for Comments

The following ICFsMR cost center limits are being set forth for public comment. Comments should be sent to Rhonda Boose, reimbursement manager, Financial and Information Services, Department for Aging and Disability Services, 503 S. Kansas Ave., Topeka, 66603. The comment period will expire 30 days from the publication of this notice.

K.A.R. 30-10-214 provides for the annual review and adjustment of Class II ICFsMR cost center limits, approved by the secretary of KDADS or designee, based on current cost information supplied by the enrolled, licensed providers of ICF-MR services, and formula set forth in the Kansas State Medicaid Plan (Attachment 4.19-D, Part II, Subpart O, page 1). The formula is as follows: Total allowable costs, including an inflation factor, are compared to the amount to be reimbursed under the current limits. The formula threshold requires that 60 percent of all ICFsMR are reimbursed 90 percent of their allowable costs. If less than 60 percent of the facilities are reimbursed 90 percent of their allowable costs, then the cost center limits are adjusted until the threshold is met. The inflation factor is based on the Data Resources, Inc. (DRI) — WEFA, National Skilled Nursing Facility Total Market Basket Index.

To determine where to make the adjustments, two major cost centers are analyzed according to the following prescription:

- Administrative costs are based on facility size.
- Habilitation costs are based on facility size and level of care (LOC).

The cost analysis for 2012 showed that 68 percent of the Class II ICFsMR were being reimbursed 90 percent or more of their allowable costs. Per the state plan the analysis indicates that adjustments are not required.

Recommendations

Based on cost report analysis and available funding, cost center limits for Class II ICFsMR are as follows:

Facility Size	Level I	Level II	Level III	Level IV	Level V
A. +16 beds	\$162.86	\$154.71	\$146.98	\$139.64	\$132.65
B. 9-16 beds	\$204.61	\$194.40	\$184.68	\$175.46	\$166.67
C. 4-8 beds	\$239.39	\$227.42	\$216.04	\$205.24	\$194.98

Administrative per diem limits are based on the size of the facility, using the same classes as referred to above.

Administrative Per Diem Limits

A. \$12.92

B. \$30.68

C. \$36.18

Fiscal Impact

The estimated annual cost increase is \$47,293.

The projects shall be located as shown:

Project No. 000878 — Maximum Principal Amount: \$142,000. Owner/Operator: Brice A. and Kelsey A. Wiggers. Description: Acquisition of 65 acres of agricultural land and related improvements and equipment to be used by the owner/operator for farming purposes. The project is being financed by the lender for Brice A. and Kelsey A. Wiggers and is located at the north 65 acres in the Southeast Quarter of Section 8, Township 23, Range 1, Harvey County, Kansas, approximately 4 miles west of the corner of Meridan and 12th Street in Newton to Emma Creek

Project No. 000879 — Maximum Principal Amount: \$142,000. Owner/Operator: Collyn R. and Jill N. Wiggers. Wiggers and is located at the Southeast Quarter of Section 8, Township 23, Range 1, less the north 65 acres, Harvey County, Kansas, approximately 4 miles west of the corner of Meridan and 12th Street in Newton to Emma Creek

The bonds, when issued, will be a limited obligation of the KDFA and will not constitute a general obligation or indebtedness of the state of Kansas or any political subdivision thereof, including the KDFA, nor will they be an indebtedness for which the faith and credit and taxing powers of the state of Kansas are pledged. The bonds will be payable solely from amounts received from the respective borrower, the obligation of which will be sufficient to pay the principal of, interest and redemption premium, if any, on the bonds when they become due.

All individuals who appear at the hearing will be given an opportunity to express their views concerning the proposal to issue the bonds to finance the projects, and all written comments previously filed with the KDFA at its offices at 555 S. Kansas Ave., Suite 202, Topeka, 66603, will be considered. Additional information regarding the projects may be obtained by contacting the KDFA.

The proposed facility, known as the Lacey Randall Generation Facility, LLC (Lacey Randall Generation), will be located in the Southwest Quarter of Section 17, Township 7 South, Range 33 West, Thomas County, Kansas, approximately 3.5 miles northeast of Colby.

Emissions of particulate matter (PM), PM equal to or less than 10 microns in diameter (PM₁₀), PM equal to or less than 2.5 microns in diameter (PM_{2.5}), volatile organic compounds (VOCs), oxides of nitrogen (NO_x), sulfur dioxide (SO₂), carbon monoxide (CO), sulfuric acid mist (H₂SO₄), hazardous air pollutants (HAPs) and greenhouse gases (GHGs) were evaluated during the permit review process.

The proposed permit is to be issued in accordance with the provisions of K.A.R. 28-19-350, prevention of significant deterioration (PSD), which adopt the federal standards, procedures and requirements of 40 CFR 52.21 by reference. These air quality regulations apply to major stationary emission sources located in areas designated as "attainment" under the federal Clean Air Act (CAA). Attainment areas are areas where the air quality meets or is better than the National Ambient Air Quality Standards (NAAQS).

The PSD regulations require evaluation of emission reduction techniques to identify the best available control technology (BACT) for each regulated pollutant, including GHGs, for which the emission rate exceeds the PSD significant level. The purpose of BACT is to affect the maximum degree of reduction achievable, taking into account energy, environmental and economic impacts for each regulated pollutant under review. Evaluation of the estimated emissions for the proposed Lacey Randall Generation Project indicates that the emission rates of NO_x, CO, PM, PM₁₀, PM_{2.5}, VOCs and GHGs all exceed the significance levels. The facility conducted the required BACT analyses. The department has reviewed the BACT analyses for the Lacey Randall Generation Project and concurs with its findings as follows:

 For the Wartsila 4SLB RICE, lean burn combustion with clean burn technology and selective catalytic re-

- duction (SCR) is BACT for NO_x , oxidation catalyst and good combustion practices are BACT for CO and VOC, combustion controls and low ash fuels are BACT for PM, PM_{10} and $PM_{2.5}$, use of efficient lean burn engines, use of pipeline quality natural gas fuel, and good combustion practices are BACT for GHGs;
- For the fuel gas heater, low NO_x burners are BACT for NO_x, good combustion practices are BACT for CO, VOC, PM, PM₁₀ and PM_{2.5}, and use of pipeline quality natural gas as fuel and good combustion practices are BACT for GHGs.
- For the emergency diesel generator, combustion control is BACT for NO_x, CO, VOC, PM, PM₁₀ and PM_{2.5}, and selection of the most efficient engines that meet the project needs is BACT for GHGs;
- For the emergency fire pump, combustion control is BACT for NO_x, CO, VOC, PM, PM₁₀ and PM_{2.5}, and selection of the most efficient engines that meet the project needs is BACT for GHGs.
- For the circuit breakers, use of state-of-the-art enclosed sulfur hexafluoride technology with leak detection systems and a density monitor alarm system is BACT for GHGs.
- For the fuel oil storage tank, the use of a submerged fill pipe is BACT for VOC.

An ambient impact analysis was performed on the potential air emissions of NO_2 , PM_{10} , $PM_{2.5}$ and CO from the Lacey Randall Generation Project.

- Detailed modeling for the 1-hour and annual NO₂ demonstrated that the proposed Lacey Randall Generation Project will not cause or significantly contribute to any violation of the 1-hour or annual NO₂ NAAQS. It also demonstrated that 4.44% of the annual NO₂ Class II area maximum allowable increment is expected to be consumed by the proposed project. The EPA has not established a Class II area maximum allowable increment for 1-hour NO₂. Accordingly, no calculation of the potential consumption of such increment is possible.
- Detailed modeling for PM₁₀ demonstrated that the proposed Lacey Randall Generation Project will not cause or significantly contribute to any violation of the 24-hour PM₁₀ NAAQS. It also demonstrated that 25.9% of the 24-hour PM₁₀ and 6.41% of the annual PM₁₀ Class II area maximum allowable increment are expected to be consumed by the proposed project.
- Detailed modeling for PM_{2.5} demonstrated the proposed Lacey Randall Generation Project will not cause or significantly contribute to any violation of the 24-hour or annual PM_{2.5} NAAQS. It also demonstrated that 86.2% of the 24-hour PM_{2.5} and 27.2% of the annual PM_{2.5} Class II area maximum allowable increment are expected to be consumed by the proposed project.
- The CO screening modeling analysis demonstrated no significant impact on the 1-hour or 8-hour ambient air quality and that the emissions would not cause or contribute to any violation of ambient air standards. The EPA has not established any Class II maximum allowable increments for CO. Accordingly, no calcu-

- lation of the potential consumption of such increment is possible.
- An analysis of visibility was conducted for Scott State Park. The VISCREEN model results indicate no exceedances of the screening criteria. No adverse impacts on soils and vegetation in the area are expected.
- Any federal land manager who has reason to believe they may have a Class I area adversely impacted by the emissions from the proposed project has the opportunity to present KDHE with a demonstration of the adverse impact on the air quality-related values of the federal Class I area during the comment period.

A public comment period has been established until noon January 21 allow citizens the opportunity to express any concerns they may have about this proposed permitting action. All comments should be submitted in writing to Mindy Bowman, KDHE, Bureau of Air, 1000 S.W. Jackson, Suite 310, Topeka, 66612-1366.

Any member of the public may request a public hearing be conducted to provide comments on the proposed issuance of the draft air quality construction permit. A written request to hold a public hearing should be sent to the attention of Mindy Bowman at the address listed above or by fax to 785-291-3953 and must be received by noon January 21. If a pertinent request is received, a public hearing is tentatively scheduled by KDHE on Wednesday, January 22, at the Colby Community Building in the Little Theater Room, 285 E. 5th St., Colby. The hearing will begin at 5 p.m. and continue until audience members have an opportunity to submit comments. If no pertinent requests to hold the public hearing are received by noon January 21, the public hearing will be cancelled. A notice of the cancellation will be posted at the KDHE website at http://www.kdheks.gov/bar/publicnotice.html.

If a hearing is conducted, all interested parties will be given a reasonable opportunity to present their views orally or by submission of written materials during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to limit oral presentations to a specific time limit.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed materials in an accessible format. Requests for accommodation must be made not later than January 13 by contacting the Bureau of Air at 785-296-6421.

A copy of the proposed permit, permit application, all supporting documentation and all information relied upon during the permit application review process for the PSD permit is available for public review for a period of 30 days from the date of publication during normal business hours, 8 a.m. to 5 p.m., at the KDHE, Bureau of Air, 1000 S.W. Jackson, Suite 310, Topeka, and at the KDHE Northwest District Office, 2301 E. 13th St., Hays. To obtain or review the proposed permit and supporting documentation, contact Mindy Bowman, 785-296-6421, at the KDHE central office, or Larissa Parker, 785-625-5663, at the KDHE Northwest District Office. - (1) The number of emergency and nonemergency ambulance responses and the number of patients transported for the previous calendar year;
- (2) the charge for emergency and nonemergency patient transports, including mileage fees; and
- (3) the number of full-time, part-time, and volunteer staff.
- (k) As a condition of issuance of an initial ambulance service permit, each ambulance service operator shall provide with the application the ambulance service's operational policies and approved medical protocols pursuant to K.A.R. 109-2-5.
- (l) The operator of each type I, type II, type IIA, and type V ground ambulance service shall develop a list of supplies and equipment that is carried on each ambulance. This list shall include the supplies and equipment required by the board for the license type and any additional supplies or equipment necessary to carry out the patient care activities as indicated in the services medical protocols in accordance with K.S.A. 65-6112 and amendments thereto.
