This private development shall be located west of Oliver, between 17th and 18th streets, on the Wichita State University main campus. The university is interested in leasing such ground to any individual, organization, or entity whose presence on campus would advance the university's applied learning vision or its mission as an educational, cultural, and economic driver for Kansas and the greater public good, and specifically an emphasis on supporting and growing advanced laboratories for research, testing, and innovation in data infrastructure/storage, video surveillance storage, IOT, security, analytics, visualization/modeling, and machine learning/AI. The university intends to lease such ground for any period of time up to sixty-five years, but extended terms and renewal options would be considered. Interested tenants will be evaluated on: proposal terms, demonstrated benefit to WSU, design concepts, financial stability, and proposed use. Rental rate shall be assessed per leased or leasable square foot of the building but is negotiable based on term of lease and benefit to the university. The university will consider serious offers and inquiries with detailed proposal terms from any financially qualified individual, group, organization, or company and such offers will

be considered until a selection is made or this notice is withdrawn. Re: Counties and County Officers—County Commissioners—Powers of Board of Commissioners; Control of Expenditures

District Officers and Employees—District Attorneys—Election of District Attorneys in Certain Judicial Districts; Term; Oath; Bond; Abolition of Office of County Attorney in Said Districts; Duties; Representation of County Hospital not Required; Assistants, Deputies, Stenographic, Investigative and Clerical Hire; Appointment; Compensation; District Attorney and Assistants Full-Time Positions, Law Practice Prohibited; Office Space; Special Counsel January 24, 2019

Synopsis: A district attorney is an elected official who is not subordinate to the board of county commissioners (BOCC). As the county’s chief prosecutor, the district attorney has several statutory and ethical obligations, including a duty to manage his or her workload so that each matter can be handled adequately. Although the BOCC has general authority over county expenditures, it has a statutory duty to provide reasonable sums necessary for the district attorney to meet his or her statutory duties of office. The Kansas Supreme Court has held that a BOCC must approve an elected official’s expenditure if the expense is necessary for the official to fulfill his or her statutory duties. The Court also held that mandamus is the appropriate remedy if the BOCC fails to approve the necessary expenditure. Therefore, if the BOCC refuses to appropriate funds that the district attorney believes in good faith are necessary to fulfill his or her statuto-

ry obligations, the district attorney's remedy is to file a mandamus action against the BOCC. Cited herein: K.S.A. 2018 Supp. 19-101a; K.S.A. 19-212; 19-229; 22a-101; K.S.A. 2018 Supp. 22a-102; K.S.A. 22a-104; 22a-106; 22a-109. KW

Re: State Departments; Public Officers and Employees—Firearms—Personal and Family Protection Act; Restrictions on Carrying Concealed Handgun; Sign Requirements; Dormitory January 24, 2019

Synopsis: A one-story dormitory-type structure having a series of living/sleeping units, each with a separate exterior door, is a "building" under K.S.A. 2018 Supp. 75-7c10. The Personal and Family Protection Act requires that signage for such a structure be posted near all exterior doors of the building. Therefore, signage would need to be placed near the exterior door of each living/sleeping unit. Cited herein: K.S.A. 2018 Supp. 75-7c01; 75-7c10; K.S.A. 2013 Supp. 75-7c20; L. 2010, Ch. 140, § 9. Crimes and Criminal Procedure—Crimes—Firearms; Definitions; Unlawful Acts April 22, 2019

Synopsis: The Attorney General may deny a concealed carry handgun license to an applicant for only the reasons stated in the Personal and Family Protection Act. The Act authorizes the Attorney General to deny a license to an individual who is prohibited from shipping, transporting, possessing or receiving a firearm or ammunition pursuant to 18 U.S.C. § 922(g). The Act does not permit the Attorney General to deny a license to an individual who has been convicted of criminal possession of a firearm pursuant to K.S.A. 2018 Supp. 21-6301(a)(15) through (18). Because 18 U.S.C. § 922(g)(2), (5), (8), and (9) and K.S.A. 2018 Supp. 21-6301(a)(15) through (18) do not criminalize the same conduct, there are situations in which an individual might have been convicted under K.S.A. 2018 Supp. 21-6301(a)(15) through (18) and qual-

111-301-62. Play and payouts. (a) Cards may be manually shuffled or an automatic shuffler may be used in the game of Chase the Flush.

(b) For the start of play when cards are manually shuffled in the game, beginning with the player farthest to the dealer's left and continuing around the table in a clockwise manner, the dealer shall deal three cards at a time face down to each player who has placed an ante wager and x-tra bonus wager and to the dealer. For the start of play when an automatic shuffler is used in the game, the first four cards dispensed by the shuffler shall be the community cards, which shall be placed face down by the dealer on the gaming table and followed by dealing cards to the players and dealer as described above.

(c) After the dealing procedures specified above have been completed, each player shall examine his or her cards and replace the cards face down on the layout. Starting with the player farthest to the dealer's left and proceeding in a clockwise manner around the table, each player shall act by either checking or making an all in wager. If the player chooses to make an all in wager, the player must place chips equal to three (3) times the amount of the player's ante wager in the designated area of the layout. If a player checks, the player shall remain in the game and defer his or her decision to place an all in wager to the next wagering opportunity.

(d) After all players have either made an all in wager or checked, for games in which the cards are manually shuffled the dealer shall deal the flop by placing the next two cards in the deck face up in the area designated on the layout for community cards, and for games in which an automatic shuffler is being used the dealer shall turn face up the first two community cards.

(e) After the flop has been completed, for any player that has not yet made an all in wager and starting with the player farthest to the dealer's left and proceeding in a clockwise manner around the table, each player shall

act by either checking or making an all in wager. If the player chooses to make an all in wager, the player must place chips equal to two (2) times the amount of the player's ante wager in the designated area of the layout. If a player checks, the player shall remain in the game and defer his or her decision to place an all in wager to the next wagering opportunity.

(f) After all players have either made an all in wager or checked, for games in which the cards are manually shuffled the dealer shall deal the turn and river by placing the next two cards in the deck face up in the area designated on the layout for community cards, and for games in which an automatic shuffler is being used the dealer shall turn face up the last two community cards.

(g) After the turn and river have been completed, for any player that has not yet made an all in wager and starting with the player farthest to the dealer's left and proceeding in a clockwise manner around the table, each player shall act by either folding or making an all in wager. If the player chooses to make an all in wager, the player must place chips equal to the amount of the player's ante wager in the designated area of the layout. If a player folds the player loses all wagers made.

(h) Once all players have either placed an all in wager or folded, the dealer shall then turn the dealer's three cards face up and announce the longest flush using the dealer's three cards and the four community cards.

(i) If the dealer's hand does not qualify, then:

(1) The ante wager of each player who did not fold is returned to the player;

(2) Each player's hand that beats the dealer's hand is paid for any all in wager and x-tra bonus wager; and,

(3) The dealer shall collect any all in wager and x-tra bonus wager of each player's hand that does not beat the dealer's hand. Even in the event the dealer and player both have non-qualifying hands, to win the player must still have a longer or higher ranking flush than the dealer;

(4) If a player and the dealer's hands tie, any all in wager and x-tra bonus wagers shall be returned to the player;

(5) If the player's hand beats the dealer's hand with four or more cards of the same suit, the player shall be paid for any x-tra bonus wager; and,

(6) If the player's hand beats the dealer's hand with fewer than four cards of the same suit, the x-tra bonus wager is a tie and the player's wager shall be returned to the player.

(j) If the dealer's hand qualifies, then:

(1) For each player who did not fold, starting with the player farthest to the dealer's right and proceeding in a counterclockwise manner around the table, the dealer shall combine each player's three cards with the community cards to determine that player's longest flush. If the dealer and the player both have the same number of cards in their flush, the winning hand is determined by the highest ranking card of the flush in each hand. If the highest ranking card is the same in both hands, the winning hand is determined by the second highest ranking card in each hand. The same rule is applied for each card thereafter until either a winner is determined or there is a tie between the hands;

(2) If the player's hand wins, any all in and ante wagers

(continued)

are paid at odds of one to one;

(3) If the player's hand loses to the dealer's hand, the ante and any all in and x-tra bonus wagers shall be collected by the dealer;

(4) If the player's hand and the dealer's hand tie, the ante and any all in and x-tra bonus wagers shall be returned to the player;

(5) If the player's hand beats the dealer's hand, any x-tra bonus wager by the player shall win and the dealer shall pay the player as follows:

(A) If the player has seven (7) cards of the same suit, the player shall be paid at odds of 250 to one (1);

(B) If the player has six (6) cards of the same suit, the player shall be paid at odds of 20 to one (1);

(C) If the player has five (5) cards of the same suit, the player shall be paid at odds of five (5) to one (1);

(D) If the player has four (4) cards of the same suit, the player shall be paid at odds of one (1) to one (1); and,

(E) If the player's winning hand has three (3) or fewer cards of the same suit, the player's hand is deemed a tie and the wager shall be returned to the player.

(6) Any same suit bonus wager shall win if the player has four or more cards of the same suit. It is irrelevant to the same suit bonus whether the player's hand beats the dealer's hand. A winning same suit bonus wager shall be paid as follows:

(A) If the player has a straight flush consisting of five (5), six (6) or seven (7) cards, the player shall be paid at odds of 500 to one (1);

(B) If the player has a flush consisting of seven (7) cards, the player shall be paid at odds of 400 to one (1);

(C) If the player has a flush consisting of six (6) cards, the player shall be paid at odds of 50 to one (1);

(D) If the player has a straight flush consisting of four (4) cards, the player shall be paid at odds of 20 to one (1);

(E) If the player has a flush consisting of five (5) cards, the player shall be paid at odds of five (5) to one (1);

(F) If the player has a flush consisting of four (4) cards, the player shall be paid at odds of one (1) to one (1); and,

(G) If the player has fewer than four (4) cards of the same suit, any same suit wager loses and the dealer shall collect the player's wager.

(k) If a player places an all in wager, the wager shall be placed in the designated all in betting area on the gaming table.

(l) Located on each gaming table that offers the bonus spin wager will be an electronic graphic representation of a wheel equally divided into twelve (12) segments. At the conclusion of the hand, the dealer shall determine if any player or players have won the bonus spin wager. If no player wins the bonus spin wager, the next hand of play shall commence. If one or more players win the bonus spin wager, moving from the dealer's left to right each player with a winning bonus spin wager shall in turn touch a lighted sensor located on the table gaming layout, which shall cause the electronic wheel to rotate and eventually stop on one of the twelve (12) segments. If only one dollar amount appears in the segment where the wheel stops, the player spinning the wheel shall win that prize amount. If the wheel stops on a segment containing two dollar amounts, the player spinning the wheel shall receive the higher of the two dollar amounts and each of

the other players at the table that also made a bonus spin wager during that round of play, if any, shall receive the smaller of the two dollar amounts. The amounts available to win on each of the twelve (12) segments and the approximate expected frequency of the wheel stopping on each segment every 30,000 spins are as follows:

Frequency	Dollar Amount(s) in a Segment
1	\$1,500
5	\$1,000
20	\$500
80	\$200
325	\$100 / \$25
500	\$75
900	\$50 / \$10
940	\$25
2,685	\$20 / \$3
4,100	\$15
7,300	\$10
13,144	\$5

(m) If a player folds, all wagers of the player shall be collected by the dealer. (f) "Fortune bonus bet" means an optional side bet with a separate pay table, which bet must be made concurrently with the base bet, with the minimum fortune bonus bet being \$1.00 and the maximum fortune bonus bet being \$25.00.

(g) "Foul" or "fouled hand" means when the two-card low hand is higher in rank than the five-card high hand. The banker cannot foul his or her hand and must reset the cards.

(h) "High hand" means the five-card hand which is formed from the seven cards dealt in the game of Pai Gow Poker so as to rank equal to or higher than the two-card low hand.

(l) "Rank" or "ranking" means the relative position of a card or group of cards in descending order.

(m) "Set" or "setting the hands" means the process of forming a high hand and a low hand from the seven cards dealt.

111-501-81. Payout odds and limitations. (a) Pai Gow Poker payout odds shall be as follows:

Seven card straight flush (without using the joker)	2,500 to 1, with \$1,000 envy bonus
Royal flush including royal match*	1,000 to 1, with \$750 envy bonus
Seven card straight flush (using the joker)	750 to 1, with \$250 envy bonus
Five aces	250 to 1, with \$100 envy bonus
Royal flush without royal match	125 to 1, with \$50 envy bonus
Straight flush	50 to 1, with \$20 envy bonus
Four of a kind	25 to 1, with \$5 envy bonus
Full house	5 to 1
Flush	4 to 1
Three of a kind	3 to 1
Straight	2 to 1

(continued)

*A "royal match" is defined as a king and queen of the same suit.

(b) Notwithstanding the payout odds above, the payout limit for any round of play shall be \$25,000 with regard to any number or combination of hands consisting of a seven card straight flush (with or without a joker), a royal flush plus a royal match or five aces (see the formula below for determining the pay-outs). All hands consisting of a royal flush, straight flush, four-of-a-kind, full house, flush, three of a kind or straight will be paid regardless of the \$25,000 limit stated above.

(c) The mathematical formula for determining the payout with a \$25,000 maximum is:

- (1) the individual awards each are determined;
- (2) the sum total of these awards are determined (SUM);
- (3) the ratio of LIMIT/SUM are determined as a percentage;
- (4) each player is paid the product of the individual awards multiplied by the percentage, with each amount rounded to the nearest whole dollar, with the player receiving the lowest payout receiving any additional amount, if any, necessary to bring the cumulative payout to \$25,000.

(5) By way of example only: Limit = \$25,000; player one ("A1") has a seven card straight flush without a joker and had wagered \$25, for a \$62,500 win; player two ("A2") has a royal flush plus royal match and had wagered \$30, for a \$30,000 win; player three ("A3") has five aces and had wagered \$15, for a \$3,750 win; the sum ("SUM") of all wins equals \$96,250; the \$25,000 limit divided by sum of all wins of \$96,250 equals .2597; player one gets \$62,500 times .2597, which equals \$16,231; player two gets \$30,000 times .2597, which equals \$7,791; and, player three gets \$3,750 times .2597, which equals \$974 (plus an additional \$4, as set forth hereinafter), for a total payout of \$25,000. Based on the formula there are four dollars left over after all payouts are made. The four dollars would be paid to the lowest payout. In the above example it would be paid to player three, who would receive a total of \$978.

(d) Players shall be paid on each winning progressive wager in accordance with the following pay table:

Player's Hand Payout	Percentage or Odds
Seven card straight flush (with or without using the joker)	100% of progressive pool*
Five aces (4 aces and the joker)	10% of progressive pool*
Royal flush	500 for 1*
Straight flush	100 for 1*
Four of a kind	75 for 1*
Full house	4 for 1*

*This does not include the return of the player's original bet and only the two prizes denoted as percentages shall be paid out of the progressive pool.

(e) The progressive pool shall be funded as follows:

(1) The casino manager shall initially contribute \$4,000 to establish the beginning amount for the progressive pool, and each time the progressive pool falls below \$4,000 the casino manager shall contribute such amount necessary to restore the progressive pool back to \$4,000;

(2) For each progressive wager made the following allocation shall apply:

(A) 60% shall be added to the progressive pool;

(B) 10% shall be paid as follows: one-half (1/2) of said 10% shall be paid to the casino manager to repay the initial contribution of \$4,000 and/or to repay all amounts paid by the casino manager to restore the progressive pool back to \$4,000 and the other one-half (1/2) of said 10% shall be placed into a promotional fund and utilized for various player promotions as approved by the Kansas lottery, except that once either of the \$4,000 amounts are fully funded the entire 10% shall be placed into said promotional fund; and

(C) 30% to the casino manager. (Authorized by K.S.A. 74-8710 and 74-8748; implementing K.S.A. 74-8710; effective, T-111-12-22-11, Oct. 12, 2011; amended, T-111-12-20-19, Nov. 13, 2019.)

111-501-152. Wagers and play. (a) All wagers at Criss Cross Poker shall be made by placing gaming chips and,

if applicable, a match play coupon on the appropriate betting areas of the table layout. A verbal wager accompanied by cash shall not be accepted.

(b) A player must make an ante wager on the across cards and an ante wager on the down cards to participate in that round of play. Both ante wagers must be in the same amount.

(c) A player may also make an optional five card bonus wager.

(d) All wagers in subsection (b) and (c) must be made before the dealer deals the first card of the round.

(e) Once a player has placed a wager and received cards, that player must remain seated until the completion of the round of play. Only players who are seated at the table may touch the cards.

(f) Criss Cross Poker is played with one standard deck of 52 playing cards consisting of a 2, 3, 4, 5, 6, 7, 8, 9, 10, jack, queen, king and ace in each of the following four suits: hearts; diamonds; clubs; and spades.

(g) Before the first card is dealt in a round of play, all cards shall be shuffled with an automatic shuffle machine. Manual shuffling of the cards is not permitted.

(h) The dealing of cards for the game of Criss Cross Poker is as follows:

(1) To begin each round the dealer shall deal the five (5) community cards face down on the gaming table in the form of a cross with the three across cards first placed horizontally on the gaming table, followed by one down card placed above the middle card of the across cards and then one down card placed below the middle card of the across cards;

(2) The dealer shall then deal two (2) cards face down to the player farthest to his/her left, continuing to deal each player two cards face down in a clockwise manner. Each player shall receive two cards before the next player receives his or her cards;

(3) After all players have been given the opportunity to look at their two cards, in turn from the dealer's left to right the players have the following options:

(A) Fold and not participate further in that round of play, which will forfeit all wagers made by the player except for a five card bonus; or

(B) Make an across wager;

(4) The dealer shall then turn face up the first and last cards of the across cards, but not expose the middle card;

(5) The remaining players then have the following options:

(A) Fold and not further participate in that round of play, which will forfeit all wagers made by the player except for a five card bonus wager; or

(B) Make a down wager;

(6) The dealer shall then turn face up the top and bottom cards of the down cards, but not expose the middle card.

(7) The remaining players shall then have the following options:

(A) Fold and not further participate in that round of play, which will forfeit all wagers made by the player except for a five card bonus wager; or

(B) Make a middle card wager; and

(8) The dealer shall then reveal the middle card, which card shall be used for all remaining wagers.

(continued)

(i) Working from right to left, for any player remaining in that round and/or who has made a five card bonus wager, the dealer shall reveal each player's two cards and combined with the five (5) community cards shall determine the player's best hand(s).

(j) The dealer shall then pay all winning wagers and collect all losing wagers. (Authorized by K.S.A. 74-8710 and 74-8748; implementing K.S.A. 74-8710; effective, T-111-12-20-19, Nov. 13, 2019.)

(b) All winning across wagers and down wagers that have not been surrendered will receive payout odds using the following pay table:
