

Sending a signed email on your Mac

Choose your email software from the options below for instructions.

Apple Mail

Mozilla Thunderbird

Mac OS X

Using Apple Mail

Apple Mail

1 of 1

Step one

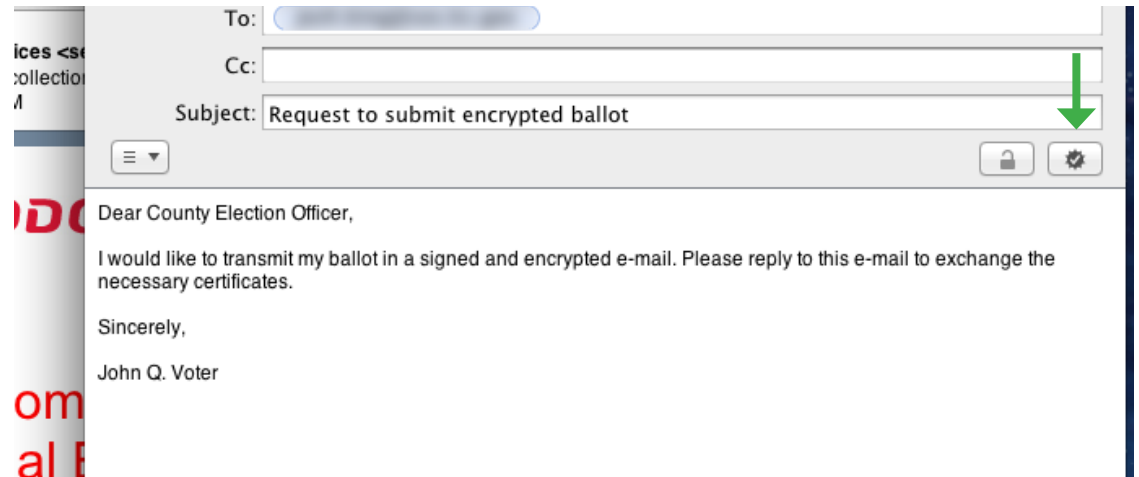

Obtain and install your certificate if you don't have one already. If you need help with this process, click [here](#).

Step two

Open Apple Mail and create a new mail message addressed to your county election officer. Mail will default to signing this message with your new certificate, as evidenced by the **check mark icon** to the right of the message window (green arrow).

Attach your voted ballot materials and send your message.

This concludes your ballot submission process.

Mac OS X

Using Mozilla Thunderbird

Mozilla
Thunderbird

1 of 1

Step one

Obtain and install your certificate if you don't have one already. If you need help with this process, click [here](#).

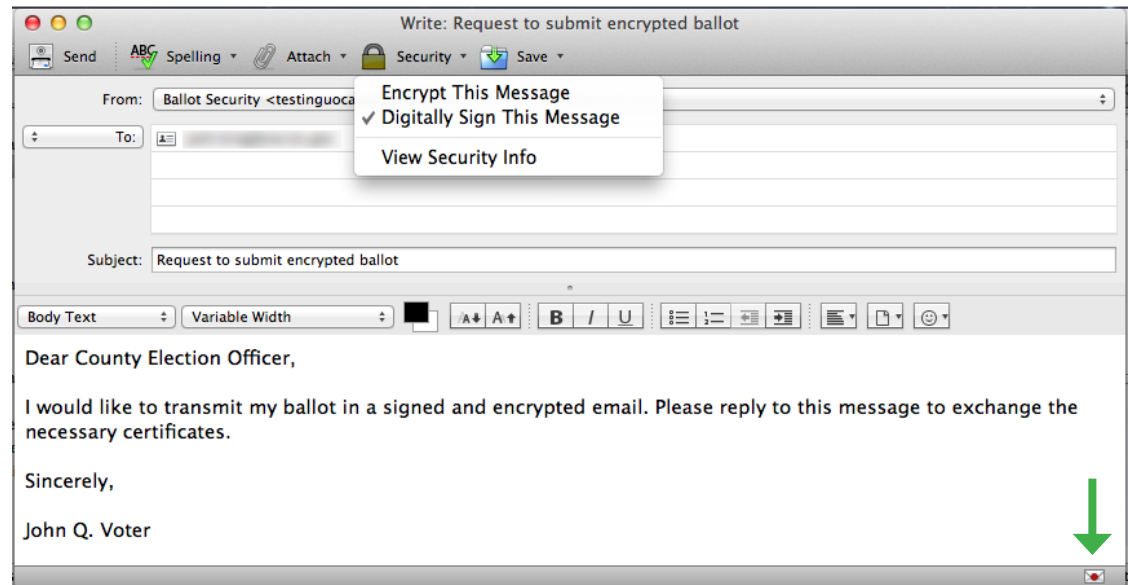

Step two

Create a new email and address it to your county election officer. Under Security in the message menu click ***Digitally Sign This Message***.

You can verify that your outgoing message will be digitally signed by the sealed envelope icon (green arrow) at the bottom right of your message window.

Attach your voted ballot materials and send your message.

This concludes your ballot submission process.
