

Sending a signed email with your Windows PC

Choose your email software from the options below.

Microsoft Outlook

Windows Mail

Mozilla Thunderbird

Windows

Using Microsoft Outlook

Microsoft
Outlook

1 of 1

Step one

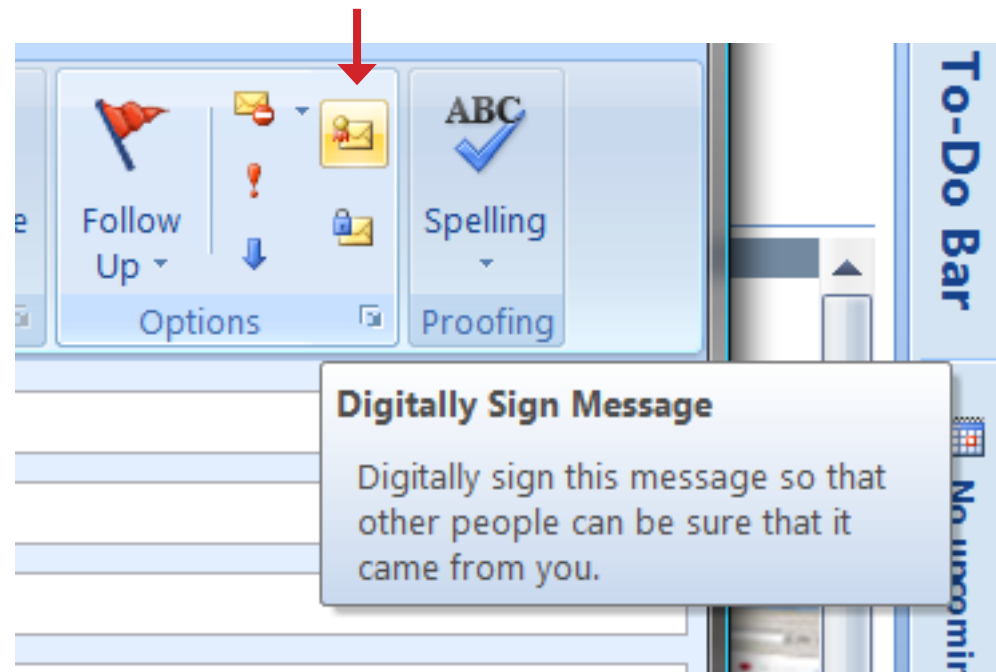

Obtain and install your certificate if you don't have one already. If you need help with this process, click [here](#).

Step two

Open Microsoft Outlook and create a new mail message addressed to your county election office. Under **Options** in the Office Ribbon, click the button (red arrow) to digitally sign your message.

Attach your voted ballot materials and send your message.

This concludes your ballot submission process.

Windows

Using Windows Mail

Windows
Mail

1 of 1

Step one

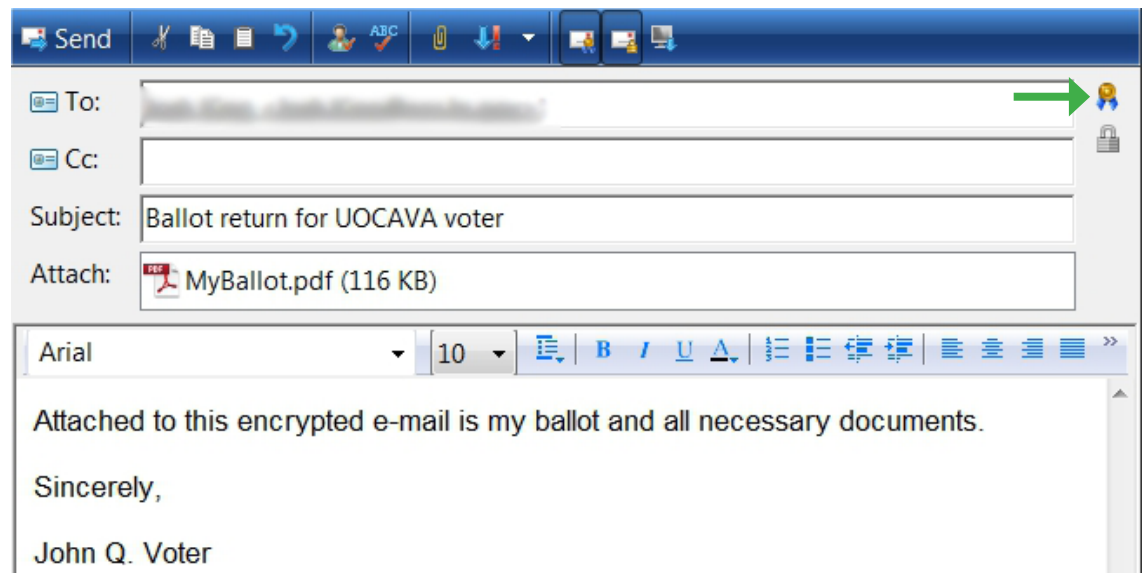

Obtain and install your certificate if you don't have one already. If you need help with this process, click here.

Step two

Open Windows Mail and send an email to the address provided by your county. Windows Mail should default to signing all new messages, as evidenced by the badge icon to the right of the To field (green arrow).

Attach your voted ballot materials and send your message.

This concludes your ballot submission process.

Windows

Using Mozilla Thunderbird

Mozilla
Thunderbird

1 of 1

Step one

Obtain and install your certificate if you don't have one already. If you need help with this process, click here.

Step two

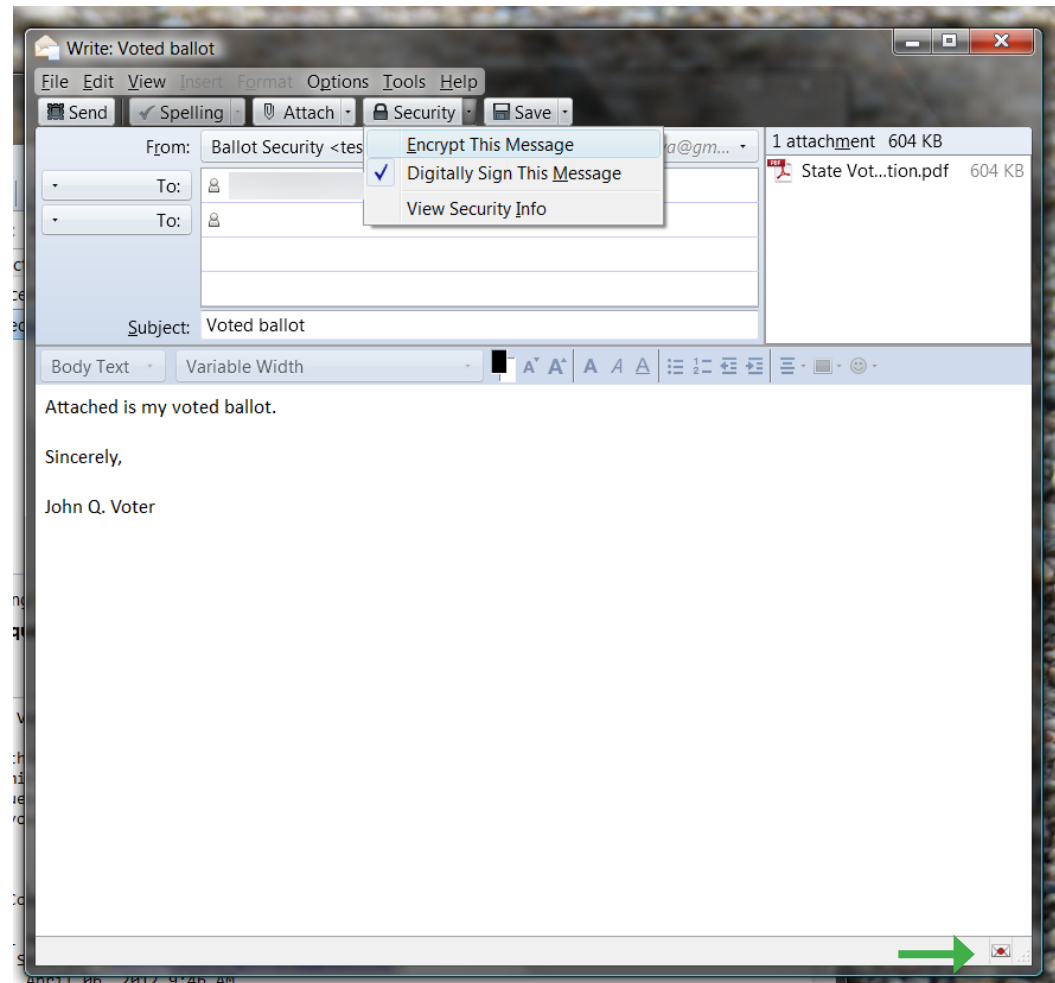

Create a new email and address it to your county election officer. Under Security in the message menu click **Digitally Sign This Message**.

You can verify that your outgoing message will be digitally signed by the sealed envelope icon (green arrow) at the bottom right of your message window.

Attach your voted ballot materials and send your message.

This concludes your ballot submission process.
