Wichita State University

Notice of Intent to Lease Real Property

Public notice is hereby given that Wichita State University (WSU), directly or through its affiliate corporation Wichita State Innovation Alliance, Inc., intends to lease, subject to all required state approvals, up to 1.22 acres of real property located on the northwest corner of the intersection of Fountain Avenue and 21st Street North, directly adjacent to the Wichita State University campus. This location would be designated for private development committed to supporting broadband infrastructure and Internet exchanges. The university is interested in leasing such ground to any individual, organization, or entity whose presence would advance WSU's vision or its mission as an educational, cultural, and economic driver for Kansas and the greater public good. WSU intends to lease such space for a mutually agreeable period of time, but extended terms and renewal options would be con-
(continued)

sidered. Interested tenants must be willing to be a good fit with WSU's educational mission and identify anticipated benefits to the university, its students, and the surrounding community (i.e. applied learning, joint research, faculty start-up, WSU curriculum or program support, community benefit commitments, etc.), and must agree to the essential ground lease terms and restrictive covenants. Interested tenants will be evaluated on: proposal terms, demonstrated benefit to WSU and the surrounding community, design concepts, financial stability, and proposed use. Interested tenants will be responsible for all costs associated with the development and ongoing maintenance costs of any improvements. Rental rate shall be based on fair market value and negotiable based on term of lease, purpose/use of the improvement, and benefit to WSU. WSU will consider serious offers and inquiries from any financially qualified individual, group, organization. If interested, please contact Property Manager Crystal Stegeman at crystal.stegeman@wichita.edu. This publication is being published pursuant to K.S.A. 75-430a(d), to the extent applicable.

Notice of Intent to Lease Real Property

Public notice is hereby given that Wichita State University (WSU), directly or through its affiliate corporation Wichita State Innovation Alliance, Inc., intends to lease, subject to all required state approvals, up to four acres of real property located on the Wichita State University's campus designated as the "Innovation Campus," for the private development and operation of a partnership building or buildings. The university is interested in leasing such ground to any individual, organization, or entity whose presence on campus would advance the university's applied learning vision or its mission as an educational, cultural, and economic driver for Kansas and the greater public good. The university intends to lease such space for a mutually agreeable period of time up to sixty years, but extended terms and renewal options would be considered. Interested tenants must be willing to be a good fit with the university's educational mission and identify anticipated benefits to the university, its students, and the WSU community (i.e. applied learning, joint research, faculty start-up, WSU curriculum or program support, etc.), and must agree to the essential ground lease terms and restrictive covenants. Interested tenants will be evaluated on: proposal terms, demonstrated benefit to WSU, design concepts, financial stability, and proposed use. Interested tenants will be required to construct adjacent and adequate surface parking that will not be included in the leased ground. Rental rate shall be based on fair market value and negotiable based on

term of lease, purpose/use of building improvement, and benefit to the university. The university will consider serious offers and inquiries with detailed proposal terms from any financially qualified individual, group, organization. Notice of Proposed Kansas Air Quality Class I Operating Permit Significant Modification

Notice is hereby given that the Kansas Department of Health and Environment (KDHE) is soliciting comments regarding a proposed significant permit modification of an air quality operating permit. Coffeyville Resources Refining & Marketing, LLC has applied for a significant permit modification of the facility's Class I operating permit in accordance with the provisions of K.A.R. 28-19-513 et al. Only those provisions that are being revised by this permit action are open for comment at this time.

Coffeyville Resources Refining & Marketing, LLC, PO Box 1566, Coffeyville, KS 67337, owns and operates a petroleum refinery located at 400 N. Linden St., Coffeyville, Montgomery County, KS 67337.

A copy of the proposed significant permit modification, significant permit modification application, all supporting documentation, and all information relied upon during the significant permit modification application review process are available for public review during normal business hours at the KDHE, Bureau of Air (BOA), 1000 SW Jackson, Suite 310, Topeka, KS 66612-1366 and at the Southeast District Office, 308 W. 14th St., Chanute, KS 66720. To obtain or review the proposed significant permit modification and supporting documentation, contact, Angel Gonzalez at the central office of KDHE at 785-296-1104, and review of the pro-

posed permit only, contact Ryan Jack at the Southeast District Office at 620-860-7235. The standard departmental cost will be assessed for any copies requested. The proposed permit, accompanied with supporting information, is available, free of charge, at the KDHE BOA Public Notice website at <https://www.kdhe.ks.gov/413/Public-Notices>.

Please direct written comments or questions regarding the documents to Angel Gonzalez, KDHE, BOA, 1000 SW Jackson, Suite 310, Topeka, KS 66612-1366. In order to be considered in formulating a final decision, written comments must be received no later than 12:00 p.m. Monday, December 30, 2024.

A person may request a public hearing be held on the proposed documents. The request for a public hearing shall be in writing and set forth the basis for the request. The written request must be submitted to Angel Gonzalez, KDHE, BOA, 1000 SW Jackson, Suite 310, Topeka, Kansas 66612-1366, no later than 12:00 p.m. Monday, December 30, 2024, in order for the Secretary of Health and Environment to consider the request.

The U.S. Environmental Protection Agency (EPA) has a 45-day review period, which will start concurrently with the public comment period, within which to object to the proposed permit. If the EPA has not objected in writing to the issuance of the permit within the 45-day review period, any person may petition the administrator of the EPA to review the permit. The 60-day public petition period will directly follow the EPA's 45-day review period. Interested parties may contact KDHE to determine if the EPA's 45-day review period has been waived.

Any such petition shall be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided for in this notice, unless the petitioner demonstrates that it was impracticable to raise such objections within such period, or unless the grounds for such objection arose after such period. Contact Ward Burns, U.S. EPA, Region 7, Air Permitting and Compliance Branch, 11201 Renner Blvd., Lenexa, KS 66219, phone 913-551-7960, to determine when the 45-day EPA review period ends and the 60-day petition period commences.

Notice of Proposed Kansas/Federal Water Pollution Control Permits and Applications

In accordance with Kansas Administrative Regulations 28-16-57a through 63, 28-18-1 through 17, 28-18a-1 through 31 and 33, 28-16-150 through 154, 28-46-7, and the authority vested with the state by the administrator of the U.S. Environmental Protection Agency, various draft water pollution control documents (permits, notices to revoke and reissue, notices to terminate) have been prepared and/or permit applications have been received for discharges to waters of the United States and the state of Kansas for the class of discharges described below.

The proposed actions concerning the draft documents are based on staff review, applying the appropriate standards, regulations, and effluent limitations of the state of Kansas and the Environmental Protection Agency. The final action will result in a Federal National Pollutant Discharge Elimination System Authorization and/or a Kansas Water Pollution Control permit being issued, subject to certain conditions, revocation, and reissuance of the designated permit or termination of the designated permit.

Las acciones propuestas con respecto a los documentos preliminares se basan en la revisión del personal, aplicando los estándares, regulaciones y limitaciones de efluentes apropiados del estado de Kansas y de la Agencia de Protección Ambiental de Estados Unidos. La acción final resultará en la emisión de una Autorización Federal del Sistema Nacional de Eliminación de Descargas de Contaminantes y un permiso de Control de Contaminación del Agua de Kansas, sujeto a ciertas condiciones, revocación y reemisión del permiso designado o terminación del permiso designado. The proposed action is to issue a new individual NPDES Municipal Separate Storm Sewer System (MS4) permit from an existing MS4 general permit. The proposed MS4 permit requires the permittee to develop, implement, and enforce a stormwater management program designed to reduce the discharge of pollutants from the MS4 to the maximum extent practicable, to protect water quality, and to satisfy the appropriate water quality requirements of the Clean Water Act and Kansas surface water quality statutes and regulations. The proposed permit requires the permittee to update the Stormwater Management Program document, implement six minimum control measures and implement best management practices to reduce any identified total maximum daily load (TMDL) regulated pollutants if listed in the permit (TMDL Table). If there is an identified TMDL regulated pollutant, surface water monitoring may be required on the impaired water body to evaluate performance of the best management practices. Monitoring of industrial stormwater discharges and oversight of construction activities within the MS4 may be required if it is applicable. The proposed permit requires the submittal of an annual report that addresses all compliance requirements for the previous year. This permit contains limits for Chlorides.

The proposed action consists of reissuance of an existing Kansas Water Pollution Control Permit/NPDES permit for an existing facility. The permit is a continuation of the existing permit for: 1) the existing Custer Hill Wastewater Treatment Plant (CHWWTP) which has been removed from service and is currently undergoing closure; 2) an Installation Vehicle Wash Facility (IVWF) discharging lagoon system; 3) Industrial Stormwater Discharges at various locations within the Base Boundary; and 4) Active Borrow Management Areas at various locations within the base boundary. Fort Riley is a government-owned, government operated military installation consisting of activities and facilities for housing, training, and supporting trained and ready forces to meet Joint Force requirements. This permit covers the discharge of on-site generated wastewater treated in the following wastewater treatment facilities. This permit contains limits for TSS, Oil and Gas, pH, and TMDL Phosphorus. The permit contains monitoring for TPH – MRH, TPH – HRH, Total Heavy Metals, VOC Scan, Chlorides, Total Phosphorus, and TMDL Phosphorus.

The proposed action consists of issuance of a Kansas Water Pollution Control (KWPC) NPDES Permit for newly designed facility, formerly known as Element. This facility is engaged in processing grain into ethanol with capability to produce 80 million gallons of denatured ethanol per year which is used in fuel grade gasoline. Grain (Corn) will be used as a feedstock to manufacture ethanol via natural fermentation. The resulting products will include 200 proof ethanol, animal feed and CO2. This permit contains limits for pH, Total Nitrogen, Total Nitrogen, Total Phosphorus, Total Residual Oxidant/Chlorine, and White Effluent Toxicity Chronic. The permit contains monitoring for Flow – MGD, Chemical Oxygen Demand, Total Chloride, Nitrate + Nitrite, Total Kjeldahl Nitrogen, Total Nitrogen, Sulfates, Oil and Grease, Temperature, Total Recoverable Metals, and Wastewater and Stormwater Runoff.

Persons wishing to comment on or object to the draft documents and/or permit applications must submit their comments in writing to the Kansas Department of Health and Environment (KDHE) if they wish to have the comments or objections considered in the decision-making process. All written comments regarding the draft documents, application or registration notices received on or before December 28, 2024, will be considered in the formulation of the final determination regarding this public notice. Please refer to the appropriate Kansas document number (KS-AG-24-378/383, KS-Q-24-243/248) and name of the applicant/permittee when preparing comments.

All comments received will be responded to at the time the Secretary of Health and Environment issues a determination regarding final agency action on each draft document/application. If response to any draft document/application indicates significant public interest, a public hearing may be held in conformance with K.A.R. 28-16-61 (28-46-21 for UIC). A request for public hearing must be submitted in writing and shall state the nature of the issues proposed to be raised during the hearing.

Comments or objections for agricultural related draft documents, permit applications, registrations or actions should be submitted to the attention of Casey Guccione, Livestock Waste Management Section at the KDHE, Bureau of Environmental Field Services (BEFS), 1000 SW Jackson, Suite 430, Topeka, KS 66612. Comments or objections for all other proposed permits or actions should

be sent to Andrew Bowman at the KDHE, Bureau of Water, 1000 SW Jackson St., Suite 420, Topeka, KS 66612.

All draft documents/applications and the supporting information including any comments received are on file and may be inspected at the offices of the KDHE. For agricultural related draft documents or applications an appointment can be scheduled, or copies requested by contacting Jada Martin at 1000 SW Jackson St., Suite 430, Topeka, KS 66612, telephone 785-296-0076 or email at kdhe.feedlots@ks.gov. Las preguntas o comentarios por escrito deben dirigirse a Erich Glave, Director, Bureau of Environmental Field Services en KDHE: 1000 SW Jackson St., Suite 430, Topeka, KS 66612-1367; por correo electrónico: kdhe.feedlots@ks.gov; por teléfono: 785-296-6432. For all other proposed permits or actions an appointment can be scheduled, or copies requested by contacting Jamie Packard, Bureau of Water, 1000 SW Jackson St., Suite 420, Topeka, KS 66612, telephone 785-296-4148 or email at Jamie.Packard@ks.gov. These documents are available upon request at the copying cost assessed by KDHE. Notice to Contractors

Electronic copies of the letting proposals and plans are available on the Kansas Department of Transportation (KDOT) website at <https://kdotapp.ksdot.org/Proposal/Proposal.aspx>. The website will allow the contractor to request approval from KDOT to bid as a prime contractor and be included on the "Bid Holders List," or to be included on the "Non-Bid Holders List" as a subcontractor/supplier. KDOT's approval is required to bid as a prime contractor. To bid as a prime contractor, KDOT needs to be notified of the intent to bid no later than the close of business on the Monday preceding the scheduled letting date. Failure to obtain prior approval to bid as a prime contractor on any projects listed below will be reason to reject your bid. The Secretary reserves the right to reject bids that do not comply with all requirements for preparing a bidding proposal as specified in the 2015 edition of the Kansas Department of Transportation Standard Specifications for State Road and Bridge Construction.

KDOT will only accept electronic internet proposals using the Bid Express website at <https://bidx.com/ks/main> until 1:00 p.m. (Central Time) on letting day. The KDOT bid letting will be conducted remotely by audio broadcast only at 3:00 p.m. (Central Time) on letting day. For the conference call information see <https://www.ksdot.org/bureaus/burconsmain/lettinginfo.asp>. KDOT has tested the process, but in the event of an unforeseen issue, KDOT will provide updates.

Each bidder shall certify that such person, firm, association, or corporation has not, either directly or indirectly, entered into any agreement, participated in any collusion, or otherwise taken any action in restraint of free competitive bidding in connection with the submitted bid. This certification shall be in the form of a required contract provision provided by the state to each prospective bidder. Failure to complete the required contract provision and certify the completeness of the preceding statement when electronically signing the proposal will make the bid nonresponsive and not eligible for award consideration.

Notice of Requested Architectural and Engineering Services

Notice is hereby given of the commencement of the selection process for architectural and mechanical-electrical-plumbing (MEP) engineering services for infrastructure replacement in Sudler Hall at the University of Kansas Medical Center (KUMC). KUMC has elected to upgrade the failing and inefficient MEP infrastructure in Sudler Hall (Building #07) at this time in an effort to limit any damage to recent and ongoing remodel work in the building.

Sudler Hall is currently used for office spaces and support areas for the health system due to the close proximity to the hospital. It serves a very important use with the main campus datacenter housed in the basement. Additionally, recently renovated areas on the east/west wing for the Rehab Bioengineering Offices were constructed in 2014 on 1st Floor and the ZIEL Simulation labs were built in 2015 on ground floor. This plan assumes that the future use of the building will stay the same. The project construction budget is \$1,296,500.00. An architectural/engineering program is available at <http://admin.ks.gov/offices/ofpm/dcc/arch-eng-programs>. For more information contact AJ Woodworth at awoodworth@kumc.edu or 913-588-9006.

To be considered, one (1) PDF file of the following should be provided: State of Kansas Professional Qualifications DCC Forms 051-054, inclusive, and information regarding similar projects. These forms may be found at <https://admin.ks.gov/offices/facilities-property-manage->

ment/design-construction--compliance/forms-and-documents. State of Kansas Professional Qualifications DCC Form 050 for each firm and consultant should be provided at the end of each proposal. Please include your firm name, agency abbreviation, and an abbreviated project name in the title of the PDF document. Proposals should be less than 5 Mb and follow the current State Building Advisory Commission guidelines which can be found in Part B – Chapter 2 of the Building Design and Construction Manual at <https://admin.ks.gov/offices/facilities-property-management/design-construction--compliance/building-design-and-construction-manual-bdcm>. Paper copies and flash drives containing copies of the proposals are not required.

Proposals should be sent to professional.qualifications@ks.gov. Proposals received after the date and time noted below will not be forwarded to the State Building Advisory Commission for review. If you have questions about the proposal submissions, please contact Randy Riveland at randy.riveland@ks.gov or call 785-296-0749. The PDF proposal submissions shall be delivered to the attention of the State Building Advisory Commission by 2:00 p.m. on or before December 12, 2024.

The State of Kansas, as a matter of public policy, encourages anyone doing business with the State of Kansas to take steps to discourage human trafficking. If prospective bidders/vendors/contractors have any policies or participate in any initiatives that discourage human trafficking, then the prospective bidder/vendor/contractor is encouraged to submit same as part of their bid response.

State of Kansas

Governmental Ethics Commission

Opinion No. 2024-03

Written November 20, 2024 to Jake Eastes, Professional Geologist, Conservation Division, Kansas Corporation Commission, 500 E. 20th St., Hays, KS 67601.

Synopsis: A state employee whose job duties include regulating oil and gas wells for the Kansas Corporation Commission may create a Geological Evaluation and Prospect Business so long as the employee complies with the relevant state governmental ethics law. A state employee who creates Business A that transacts with Business B has a substantial interest in Business B if the employee is compensated by Business A with over \$2,000.00 worth of fees or commissions associated with the transaction.

Cited herein: K.S.A. 46-229; K.S.A. 46-233; K.S.A. 46-235; K.S.A. 46-241; K.S.A. 46-286.

Dear Mr. Eastes,

In response to your October 21, 2024, letter, this opinion is provided by the Kansas Governmental Ethics Commission ("Commission"), concerning application of the state governmental ethics law, K.S.A. 46-214a *et seq.* The Commission's jurisdiction is limited to applicability of this law. This opinion, provided pursuant to K.S.A. 46-254, does not address whether some other statutory system, common law theory, agency rule, or regulation applies to your inquiry.

Factual Statement

You state you are currently employed as a Professional Geologist for the Kansas Corporation Commission, Conservation Division and, in your position, you do the following:

- recommend approval or denial of various applications submitted by entities in the oil and gas indus-

try, although final authorization is up to the KCC Commissioners,

- enforce KCC gas gathering and UIC/injection well regulations,
- review gas well test reports,
- monitor monthly production from the Hugoton/Po-mona gas wells, and
- provide expert testimony for KCC hearings.

While working for the KCC, you would like to create a Geological Evaluation and Prospect Business where you would perform geological evaluations and then sell oil and gas "Prospect(s)" to entities in the oil and gas industry in exchange for a monetary fee and an Overriding Royalty Interest in the oil or gas produced. You presented the Commission with a Hypothetical Prospect Sale where you indicate your business would receive \$2,500.00 with a 3% overriding royalty interest assignment to every barrel of oil or thousand cubic feet of gas sold from the target tracts of land outlined in the "Prospect."

Questions

1. May you, as a Professional Geologist for the Kansas Corporation Commission, operate a geological evaluation and prospect business while employed by the KCC?
2. Additionally, may your geological evaluation and prospect business own overriding royalty interests in oil and gas producing wells that are in the State of Kansas?

Analysis and Opinion

1. May you, as a Professional Geologist for the Kansas Corporation Commission, operate a geological evaluation and prospect business while still employed by the KCC?

The Commission first addressed this question in Advisory Opinion 2001-09. There are five state governmental ethics law statutes referenced in Advisory Opinion 2001-09 that apply. First, K.S.A. 46-233(a)(1) relevantly states:

No state officer or employee shall in the capacity as such officer or employee be substantially involved in the preparation of or participate in the making of a contract with any person or business by which such officer or employee is employed or in whose business such officer or employee or any member of such officer's or employee's immediate family has a substantial interest[.]

Further, K.S.A. 46-229(d) defines a substantial interest to mean, among other things, "[i]f an individual or an individual's spouse holds the position of officer, director, associate, partner or proprietor of any business, the individual has a substantial interest in that business, irrespective of the amount of compensation received by the individual or individual's spouse."

As a KCC employee, you are prohibited by K.S.A. 46-233(a)(1) from being substantially involved in the preparation of or from participating in the making of a contract between the KCC and your geological evaluation and prospect business because you have a substantial interest in your business as its proprietor. However, the prohibition does not apply to contracts that are let after competitive bidding has been advertised for pub-

lic notice nor does it apply to contracts for services or property that have the price or rate fixed by law. K.S.A. 46-233(d).

If the two outlined exceptions do not apply and you participate in the preparation or making of a contract with your business in your capacity as a KCC employee, then operating your business may violate K.S.A. 46-233(a)(1).

The next statute is K.S.A. 46-235, which relevantly states:

No state officer or employee shall accept compensation for performance of official duties, other than that to which such person is entitled for such performance . . . [and] [t]he receipt of wages or salary from an individual's non-state employer during a period of service as a state officer or employee shall not be construed as compensation for performance of official duties.

So long as you are not being paid for the performance of your official job duties as part of operating your business, then operating your business would not violate K.S.A. 46-235.

K.S.A. 46-241 is also relevant, and it prohibits any state officer or employee from disclosing or using "confidential information acquired in the course of his or her official duties in order to further his or her own economic interest or those of any other person."

If you have access to confidential information as part of your KCC employment, then you may not disclose or use that confidential information to further the interests of you, your business, or anyone else.

Finally, K.S.A. 46-286(a) should also be considered and it states: "No state officer or employee, in the officer's or employee's official capacity, shall participate directly in the licensure, inspection or administration or enforcement of any regulation of . . . any outside organization with which the officer or employee holds a position."

To comply with K.S.A. 46-286, you must ensure that you are not directly involved in the licensure, inspection or administration or enforcement of any regulation of your business.

2. Additionally, may your geological evaluation and prospect business own overriding royalty interests in oil and gas producing wells that are in the State of Kansas?

You also ask if the state governmental ethics laws prohibit your business from owning an overriding royalty interest in oil and gas wells in Kansas. Advisory Opinion 2001-09 does not address this question.

K.S.A. 46-229(e) defines a substantial interest to include:

If an individual or an individual's spouse receives compensation which is a portion or percentage of each separate fee or commission paid to a business or combination of businesses, the individual has a substantial interest in any client or customer who pays fees or commissions to the business or combination of businesses from which fees or commissions the individual or the individual's spouse, either individually or collectively, re-

(continued)

ceived an aggregate of \$2,000 or more in the preceding calendar year.

Based on the hypothetical you presented in your request, your business (Business A) will be receiving \$2,500.00 and a 3% overriding royalty interest assignment for every barrel of oil or thousand cubic feet of gas sold from the target tracts of land included in the "Prospect" purchased by the oil and gas company (Business B). The current structure of your hypothetical prospect sale will likely result in you having a substantial interest in every oil and gas company that your business enters a Prospect Sale Agreement with.

In the hypothetical, you would receive compensation from Business A which is a portion or percentage of the fee or commission paid to Business A by Business B in the sale. If the portion of the fee or commission that you receive as compensation from Business A's transaction with Business B exceeds an aggregate of \$2,000.00 per calendar year, then you have a substantial interest in Business B. Consequently, the state governmental ethics laws regulating the interaction of a state employee with entities in which the employee has a substantial interest apply.

Additionally, if you are required to file a statement of substantial interest annually with the Commission, then you should ensure you report your substantial interest in each applicable oil and gas company that you enter a Prospect Sale Agreement with. Specifically, this would apply to oil and gas companies where you receive an aggregate of \$2,000.00 per calendar year in compensation from the fees and commissions generated by each oil and gas company's respective Prospect Sale Agreement with your business.

Under the facts presented, the state governmental ethics laws would not prohibit you from operating your business so long as the statutes outlined above are followed.

Sincerely,

Nick Hale, Chairman
By Direction of the Commission

Kansas Development Finance Authority

Notice of Hearing

A public hearing will be conducted at 9:00 a.m. Tuesday, December 17, 2024, in the offices of the Kansas Development Finance Authority (KDFA), 534 S. Kansas Ave., Suite 800, Topeka, Kansas, on the proposal for the KDFA to issue its Agricultural Development Revenue Bond for the project numbered below in the respective maximum principal amount. The bond will be issued to assist the borrower named below (who will be the owner and operator of the project) to finance the cost in the amount of the bond, which is then typically purchased by a lender bank who then, through the KDFA, loans the bond proceeds to the borrower for the purposes of acquiring the project. The project shall be located as shown:

Project No. 001152 Maximum Principal Amount: \$230,000. Owner/Operator: Brennan Zabokrtsky; De-

scription: Acquisition of 80 acres of agricultural land and related improvements and equipment to be used by the owner/operator for farming purposes (the "Project"). The Project is being financed by the Lender for Brennan Zabokrtsky (the "Beginning Farmer") and is located in the West Half of the Southeast Quarter of Section 20, Township 3, Range 6, Marshall County Kansas, approximately 9 miles south of Bremen, Kansas and 1/2 mile east.

The bond, when issued, will be a limited obligation of the KDFA and will not constitute a general obligation or indebtedness of the state of Kansas or any political subdivision thereof, including the KDFA, nor will it be an indebtedness for which the faith and credit and taxing powers of the state of Kansas are pledged. The bond will be payable solely from amounts received from the respective borrower, the obligation of which will be sufficient to pay the principal of, interest and redemption premium, if any, on the bond when it becomes due.

Interested individuals may participate in the public hearing in person or via conference call. Please call 844-621-3956 and use conference identification number 145 880 8929 followed by # to join the conference.

All individuals who appear at the hearing will be given an opportunity to express their views concerning the proposal to issue the bond to finance the project, and all written comments previously filed with the KDFA at its offices at 534 S. Kansas Ave., Suite 800, Topeka, KS 66603, will be considered. Additional information regarding the project may be obtained by contacting the KDFA.

Notice of Hearing on Proposed
Administrative Regulations

A public hearing will be conducted at 2:00 p.m. January 30, 2025, in the 1st floor meeting room 124 of the Kansas Department of Agriculture, 1320 Research Park Dr., Manhattan, Kansas, to consider the adoption of the proposed regulations. The public hearing will be conducted in person and via video conferencing system. Members of the public who wish to attend the public hearing virtually must pre-register at <https://kansasag.zoom.us/meeting/register/tZlPdOCgrTwiGdU-23o-bKgKxkHMEB7eljvt>.

After registering, you will receive a confirmation email containing information about joining the meeting.

This 60-day notice of the public hearing shall constitute a public comment period for the purpose of receiving written public comments regarding the proposed regulations. All interested parties may submit written comments prior to the hearing by mail or email to Kansas Department of Agriculture, Attn: Ronda Hutton, 1320 Research Park Dr., Manhattan, KS 66502, or ronda.hutton@ks.gov. Comments may also be made via the Kansas Department of

Agriculture's website at <https://www.agriculture.ks.gov/public-resources/public-comments>.

All interested parties will also be given a reasonable opportunity to orally present their views regarding the adoption of the proposed regulations during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to request that each participant limit any oral presentation to five minutes. These regulations are proposed for adoption on a permanent basis.

The Kansas Department of Agriculture (KDA) is proposing revisions to existing regulations authorized by K.S.A. 47-417. The changes will help meet the increasing operational costs necessary to maintain the program to meet the industry needs and expectations.

A summary of each proposed regulation and their economic impact follows:

K.A.R. 9-15-2 eliminates the restriction that ear marks be recorded at the time of the original brand registration and eliminates the fee requirement for the recording of ear marks on subsequent brand registrations.

K.A.R. 9-15-4 implements an increase for livestock brand registration and renewal fees from \$45 to \$70 for a five-year recording period. Additionally, there will be a fee of \$5.00 for new brand registration application.

The proposed regulations are not mandated by federal law as a requirement for participating in or implementing a federally subsidized or assisted program. The proposed changes do not exceed the requirements of applicable federal law.

KDA does not anticipate that the proposed regulations will significantly enhance or restrict business activity or growth in Kansas. The proposed regulations will simply implement the streamlined process of recording ear marks as part of a brand registration as well as implement the fee increases authorized by recent statutory changes. In developing the proposed regulations, KDA consulted the Kansas Animal Health Advisory Board, Kansas Cattlemen's Association, Kansas Livestock Association, Kansas Farm Bureau, Kansas Horse Council, Livestock Marketing Association, Kansas Pork Association, K-State Research and Extension, Kansas Veterinary Medical Association, and United States Department of Agriculture Veterinary Services. None of the groups expressed concern that the proposed regulation would restrict their business activities or growth.

KDA anticipates that the proposed regulations will have minimal economic effect for Kansans. The use of a livestock brand in the state of Kansas is not required and the registration of a brand is only required of those that elect to utilize the brand. The economic impact of the proposed regulations will increase the cost of a registered brand by \$25. This will raise the cost from the current \$45 to \$70 for a five-year period. Additionally, for those that are seeking a new brand, there will be a new cost of \$5 for the new brand application process.

The proposed regulations will directly affect those producers that elect to register a brand in the state of Kansas.

The benefits of the proposed regulations outweigh the costs by supporting a viable and accurate brand record program. The livestock brands program has a historical

significance to the state of Kansas as well as those that are registered brand owners. More importantly, having a brand recorder program that is robust, capable and accurate is vital in supporting livestock brand use in Kansas. In contrast with the \$25 increase for a 5-year registration (or \$5 per year), the benefits outweigh the costs.

The agency has evaluated the historical costs of implementing the brand recording program and coupled this with the resource projections from the number of annual brand registrations and determined the modest fee increases proposed are necessary to maintain the current program. The brand registration fee has not increased since 2000.

Based on an average of 3200 brand renewal registrations and 1500 new brand applications per year, KDA extrapolated the \$25 increase and \$5 application fee as follows:

$$\begin{aligned} 3200 \text{ brand renewals} \times \$25 &= \$80,000 \\ 1500 \text{ new brand applications} \times \$5 &= \$7,500 \end{aligned}$$

State revenues should increase by approximately \$87,500 in the current fiscal year as well as the next (based on the amounts calculated above).

As previously stated, impacts of these proposed regulations should be limited to those individuals that choose to register a brand in Kansas. Individuals would see an initial increase of \$5 due to the application fee and an increase of \$25 every 5 years. KDA does not anticipate any impacts, immediate or long-range, for small employers or the public.

KDA circulated drafts of the proposed regulations to stakeholders involved in the Kansas Animal Health Advisory Board, Kansas Cattlemen's Association, Kansas Livestock Association, Kansas Farm Bureau, Kansas Horse Council, Livestock Marketing Association, Kansas Pork Association, K-State Research and Extension, Kansas Veterinary Medical Association, and United States Department of Agriculture Veterinary Services. Those individuals that responded indicated support for the proposed amendments.

Any individual with a disability may request accommodations to participate in the public hearing and may request the proposed regulations and their economic impact statement in an accessible format. Requests for accommodations should be made at least five working days in advance of the hearing by contacting Ronda Hutton, via telephone at 785-564-6715 or via fax at 785-564-6777. Handicapped parking is located on the west side of the building at 1320 Research Park Dr., Manhattan, Kansas, and the west entrance to the building is accessible to individuals with disabilities.

Copies of the regulations and their economic impact statement may be obtained by contacting the Department via mail at Kansas Department of Agriculture, Attn: Ronda Hutton, 1320 Research Park Dr., Manhattan, KS 66502, via telephone at 785-564-6715, or via the Department's website at <http://agriculture.ks.gov>.
