Cimarron Valley Railroad

Request for Proposals

Interested parties are invited to submit a proposal to complete the scope below for the proposed Cimarron Valley Railroad (CVR) track rehabilitation project near Satanta, Kansas.

Scope of Work

CVR track rehabilitation project from Satanta, Kansas to Hugoton, Kansas. Provide all necessary labor, equipment and logistical services to provide labor cost to complete all rehab and track construction work, ties, ballast, etc.

The scope is further described as follows:

- Demolition of old 90# rail (42,240 track feet); install 112# (42,240 feet) rail and needed OTM – plates, spikes, anchors, bolt/washer/nut assemblies, and comp bars.
- Any pre-existing rail, ties, or OTM that is removed when installing switch components, must be removed and disposed of according to all local, state, and federal regulations.
- Additional details concerning the scope of work needing to be done with each portion of the project will be addressed at the pre-bid meeting.

Minimum Requirements

MSA and Roadway Worker Protection

Contractors must complete, and have on file, a current Master Services Agreement with CVR Railroad. Prior to submitting a proposal:

1. Contractors shall comply with all parts of 49 CFR Part 214 and 219 regarding FRA Roadway Worker Safety at all times. Men and equipment shall remain clear of the track unless they have gained Roadway Worker Protection from a qualified person.
2. Contractor, contractor employees, agents and/or subcontractors must be enrolled and comply with the FRA 219 approved drug testing program.
3. Any subcontracted work will need to be approved by the CVR Railroad prior to any work starting.

Work Windows

Impact to current railroad operations must be kept to a minimum. When work must take place that causes an active track to be taken out of service for the purposes of performing work that pertains to the project, the contractor must pre-arrange a defined work window with the railroad. Contractor can anticipate a minimum work window of eight (8) hours with no more than one schedule of interruption in that time frame, between the hours of 07:00 and 17:00. For work windows extending more than 8 hours, a minimum of 72 hours of notification is required to the railroad to arrange this window. Work windows may be arranged 7 days a week, if desired.

Current railroad operations consist of at least one train per day through the work area. This train operates in the evening hours; however, this schedule is subject to change at any time. This topic will be further discussed and clarified during the pre-proposal meeting.

Standards

All standards referenced by the project plans and specifications, as well as all applicable AREMA standards must be upheld during all phases of the project work, unless certain standards are excluded from the project with written approval by CVR. All rails shall be replaced at standard gauge of 56-1/2".

111-301-77. Name of the game; rules and regulations. The Kansas lottery may conduct a lottery facility game at the Boot Hill Casino & Resort in Dodge City, Kansas, entitled “Double Down Madness Blackjack.”

The rules and regulations for the game of “Blackjack” are contained in K.A.R. 111-301-77 through 111-301-79, and applicable generic rules are contained in K.A.R. 111-201-1 et seq. (Authorized by K.S.A. 2024 Supp. 74-8710 and K.S.A. 74-8748; implementing K.S.A. 2024 Supp. 74-8710; effective, T-111-7-9-25, June 18, 2025.)

111-301-78. Definitions. The following definitions, when used in the Southwest Kansas Lottery Gaming Zone and pertaining to the game of “Double Down Madness Blackjack,” shall have the following meanings unless the context clearly indicates otherwise.

(a) “A blackjack” shall mean an ace and any card having a point value of 10 dealt as the initial two cards to a player or a dealer.

(b) "Burned" shall mean to remove a card from play.

(c) "Dealer" shall mean the person responsible for dealing the cards at a gaming table.

(d) "Discard rack" shall mean the receptacle into which cards are placed after each round of decisions is rendered in a game.

(e) "Double down wager" shall mean an optional wager made that doubles the amount of the player's current wager.

(f) "Flush" shall mean three cards in the same suit.

(g) "Hard total" shall mean the total point count of a hand which contains no aces or which contains one or more aces that are each counted as having one point in value.

(h) "Hit" shall mean the player requests one or more additional cards be dealt to the player.

(i) "Insurance wager" shall mean an optional wager made when the dealer's card dealt face up is an ace.

(j) "Push" or "tie" shall mean the player does not lose or win the hand played.

(k) "Score" shall mean the cumulative value of all cards in a player's hand or a dealer's hand.

(l) "Shoe" shall mean the receptacle into which cards are placed to be held for dealing to the players and dealer.

(m) "Soft total" shall mean the total point count of a hand containing an ace when the ace is counted as having 11 points in value. (Authorized by K.S.A. 2024 Supp. 74-8710 and K.S.A. 74-8748; implementing K.S.A. 2024 Supp. 74-8710; effective, T-111-7-9-25, June 18, 2025.)

111-301-79. Play and payouts. (a) Before play begins, all cards shall either be shuffled by an automatic shuffling device or manually shuffled by the dealer. If manually shuffled, after the cards have been shuffled, the dealer shall offer the stack of cards to a player to be cut. The player may cut the cards by placing a cutting card provided by the dealer. The cut card shall be placed in the stack so there are no fewer than approximately 52 cards on either side of the cut card.

(b) Before any cards are dealt, each player wishing to participate in that round of play must place a blackjack wager within the limits posted at the table and may make an optional Push 22 side wager.

(c) At the commencement of each round of play, the dealer shall deal one card to the dealer face down, and then starting on the dealer's left and continuing around the table, deal the cards in the following order:

(1) One card face upwards to each spot on the table game layout in which a wager is contained; and

(2) One additional card face down to the dealer, at which time the dealer shall turn the dealer's first card face up and place it on top of the dealer's second card.

(d) Whenever the first card dealt to the dealer is an ace, each player shall have the right to make an insurance bet which, except as otherwise provided herein, shall win if the dealer's second card is a king, queen, jack or 10 and shall lose if the dealer's second card is an ace, 2, 3, 4, 5, 6, 7, 8, or 9. An insurance bet may be made by placing on the insurance line of the table game layout an amount up to one-half the amount bet on the player's original blackjack wager.

(e) If the dealer's face up card is an ace, king, queen, jack or 10, then using the peeking device at the table, the dealer will then check the dealer's second card to determine if it constitutes a blackjack. If the dealer has a blackjack, the dealer will turn the dealer's first card face up, collect all original blackjack wagers and Push 22

wagers, and pay all insurance wagers at odds of two to one, at which time that round of play is over.

(f) If the dealer does not have a blackjack, the dealer will collect all losing insurance wagers. Beginning with the player to the dealer's left, the dealer shall then have each player indicate whether the player wishes to stand by maintaining their current hand, hit by requesting an additional card or double down by wagering any amount up to double their most recent blackjack wager. This process shall be repeated until the player stands or the cumulative point value of the player's hand exceeds 21. If the player's first card is an ace, the player shall only receive one additional card. If the player's hand constitutes a blackjack, no double down is allowed. No splitting of pairs is permitted.

(g) If the player's hand constitutes a blackjack, the player shall immediately be paid at odds of three to two.

(h) As each player indicates the player's decision(s), the dealer shall deal face upwards additional cards, if any, necessary to effectuate such decision.

(i) If the cumulative point value of a player's hand exceeds 21, the player's blackjack wager shall be collected, the dealer shall remove that player's cards from the table game layout and that player shall not participate further in that round of play, except a Push 22 wager made by that player shall remain in play and will be settled at the appropriate time.

(j) After the decision(s) of each player has been implemented and all additional cards have been dealt, the dealer shall turn the dealer's second card face up. If needed, the dealer shall then draw additional cards to the dealer's hand face up until the dealer has:

(1) A hard total of 17, 18, 19, 20, or 21, whichever comes first; or

(2) A soft total of 18, 19, 20, or 21, whichever comes first.

(k) All remaining wagers shall then be settled as follows:

(1) If the cumulative point value of the dealer's hand is less than the player's hand or if the cumulative point value of the dealer's hand exceeds 21, the player's blackjack wager shall be paid at the odds of one to one;

(2) If the cumulative point value of the of the player's hand is less than the dealer's hand and the dealer's hand has a cumulative point value of 21 or less, the player's hand shall lose, and the dealer shall collect the player's blackjack wager;

(3) If the cumulative point values of the dealer's and player's hands are equal, the hands will be a push and the player's blackjack wager will be returned to the player; and

(4) If the cumulative point value of the dealer's hand is anything other than 22, each Push 22 wager shall lose, and the wagers shall be collected by the dealer. If the cumulative point value of the dealer's hand is exactly 22, the dealer shall pay each Push 22 wager at odds of eleven to one. (Authorized by K.S.A. 2024 Supp. 74-8710 and K.S.A. 74-8748; implementing K.S.A. 2024 Supp. 74-8710; effective, T-111-7-9-25, June 18, 2025.)

- (1) The dealer shall shake a lidded container with three dice inside at least three times so as to cause a random mixture of the dice.
 - (A) The dealer shall then remove the lid covering the container, total the sum of pips facing up on all three dice and announce the total.

 - (C) The dealer shall replace the lid on the container, shake it once and then place it to the left of the dealer's rack; or
- (2) The dealer may use a computerized random number generator to select and display a number from 1 through 7, inclusive. To determine the starting position, the dealer shall count counterclockwise around the table, with the position of the dealer considered number one, and continuing around the table with each betting position counted in order, including the dealer, regardless of whether there is a wager at the position, until the count matches the number displayed by the random number generator.

hands dealt.

(e) The dealer shall then collect any cards dealt to a position where there is no wager and place them in the discard rack without exposing the cards.

(f) Once seven cards have been dealt to each position and the dealer, and any cards dealt to a position with no wagers have been collected, the dealer shall expose and set the dealer's hand before the players' hands are set.

(g) The dealer shall set his or her hands by arranging the cards into a high and low hand using the following rules:

(1) No pair: Use the highest card in the high hand. Use the second and third highest cards in the low hand.

(2) One pair: Always play the pair in the high hand.

(3) Two pair: Always use the following rules for two pairs:

2, 3, 4, 5 = low pair

6, 7, 8, 9 = medium pair

ten, jack, queen, king = high pair

aces = aces

Low-Low or Low-Medium: Always split unless a king or higher hand can be played in the low hand.

Medium-Medium or Low-High: Always split unless an ace and a jack, queen, or king can be played in the low hand.

Medium-High or High-High: Always split

Aces: Always split with any other pair

(4) Three Pair – Play the highest of the three pairs as low hand.

(5) Three of a kind – Always keep unless AAA, then use one Ace with the next highest card as the low hand. 2 Three of a kind–Play a pair of highest 3 of a kind as the low hand.

(6) Straight, flush, straight flush, or royal flush – With a 6 or 7 card straight, flush, straight flush, or royal flush, use the highest card(s) in the low hand. With a straight, flush, straight flush, or royal flush along with an additional pair, use the pair as the low hand keeping the straight, flush, straight flush, or royal flush as the high hand. Break a straight, flush, straight flush, or royal flush when having two pair. The two pair rule applies as set forth above. Choose a straight over a flush dependent on whichever results in the highest low hand.

(7) Full House – Always split. If the dealer has an additional pair, then play the highest of the two pair in the low hand.

(8) Four of a kind – Apply the two pair rule, above, except that if the hand also contains an additional pair, use the pair in the low hand. Four aces always split unless the hand also contains an additional pair of kings.

(9) Five aces – Keep only with a pair of kings, otherwise split.

(h) All players shall then set their hands. The dealer shall then expose both hands of each player, starting from the right and proceeding counterclockwise around the table. The dealer shall compare the high and low hand of each player to the high and low hand of the dealer and shall announce if the pai-gow poker wager of that

player shall win, lose, or be considered a tie.

(i) All losing pai gow poker wagers shall be immediately collected by the dealer and put in the table games chip tray. A pai-gow poker wager made by a player shall lose if:

(1) The high hand of the player is lower in rank than the high hand of the dealer and the low hand of the player is lower in rank than the low hand of the dealer;

(2) The high hand of the player is identical in rank to the high hand of the dealer or the low hand of the player is identical in rank to the low hand of the dealer (a copy hand) and the other hand of the player is identical in rank or lower in rank than the other hand of the dealer;

(3) The high hand of the player was not set so as to rank equal to or higher than the low hand of that player; or

(4) The two hands of the player were not otherwise set correctly in accordance with the rules of the game (for example, a player forms a three-card low hand and a four-card high hand).

(j) All hands that resulted in a winning pai-gow poker wager shall remain face up on the layout. Winning wagers shall be paid as the dealer exposes the players' cards with the exception of the hands that require income tax withholding and/or reporting, which are paid once the necessary documents are completed.

(k) After a winning pai-gow poker wager has been paid, and the vigorish collected, the dealer shall, if applicable, then pay any optional bonus wager, envy bonus, ace-high wager or progressive wager of that player. Before paying a winning optional wager or envy bonus, the dealer shall, if necessary, reset the player's high hand and low hand to form the hand type yielding the highest bonus payout to which the player is entitled. The dealer shall then collect the cards from that player.

(l) All cards collected by the dealer shall be picked up in order and placed in the discard rack in such a way the cards can be readily arranged to reconstruct each hand in case of a question or dispute. (Authorized by K.S.A. 2024 Supp. 74-8710 and K.S.A. 74-8748; implementing K.S.A. 2024 Supp. 74-8710; effective, T-111-7-9-25, June 18, 2025.)

111-501-147. Rules of the game and bet definitions. (a) Control of the dice at a craps no more table is the responsibility of the stickperson at the table.

(b) The first player to accept the dice when offered shall become the shooter who shall select and retain two of the dice offered. Prior to selecting the dice, the shooter shall make a pass bet after which the shooter shall throw the two selected dice so that they leave the shooter's hand simultaneously and in a manner calculated to cause them to strike the end of the table farthest from the shooter. It shall be the option of the shooter, after any roll, either to pass the dice or remain the shooter except that the shooter shall pass the dice upon throwing a losing total of 7 (this does not apply to the come-out roll). The table games supervisor may order the shooter to pass the dice to another player if the shooter unreasonably delays the game, repeatedly makes invalid rolls or violates applicable rules and regulations pertaining to the game of craps no more.

(c) If a shooter, after making the come-out point, elects not to place a pass bet, and other wagers remain on

the table with respect to come bet numbers, the craps no more stickperson shall offer the dice to the player immediately to the left of the previous shooter.

(d) The stickperson, boxperson, table games supervisor or a higher-ranking casino employee shall have the authority to invalidate a roll of the dice by calling “no roll” for any of the following reasons:

- (1) If the wrong player picks up the dice and throws or rolls them.
- (2) If the dice do not hit the end of the table opposite the shooter.
- (3) The dice do not leave the shooter’s hand simultaneously.
- (4) Either or both of the dice come to rest on the chips constituting the craps bank.
- (5) Either or both of the dice come to rest in the dice bowl in front of the stickperson or on one of the rails surrounding the table.
- (6) Either or both of the dice go off the table.
- (7) Whenever one die comes to rest on top of the other.
- (8) The shooter does not have a pass bet.
- (9) Either or both of the dice do not move with forward motion.
- (10) If the shooter removes either one or both dice from the view of the boxperson or table games supervisor or higher-ranking casino official.
- (11) If the shooter attempts to deface or actually defaces the dice, no matter if done purposely or unintentionally.
- (12) Any other reason deemed necessary to protect the integrity of the game.

(e) Whenever new dice are put into the game or existing dice are returned to the game, they shall be inspected by the boxperson before being put into the dice bowl.

(B) The “pass bet” shall lose if, on the come-out roll a total of 2, 3, 4, 5, 6, 8, 9, 10, 11 or 12 is thrown and a 7 subsequently appears before that total is thrown again.
