#### **Notice of Requested Architectural Services**

Notice is hereby given of the commencement of the selection process for architectural services for the phased Heckert Wells Hall and Yates Hall renovations and addition at Pittsburg State University (PSU). Heckert Wells Hall and Yates Hall share a connecting atrium and, together, serve as PSU's core for STEM education. To reinforce connection and access to programs throughout the complex, the project includes adding space to expand the existing, shared single-story atrium to serve all primary levels of the existing complex.

Yates Hall is a 40,698 GSF facility built in 1963. It remains in average condition thanks to replacement of windows, doors, HVAC systems, switchgear, and lighting, but its mathematics and physics labs, classrooms, hallways, and several restrooms remain in near original condition. Heckert Wells Hall is a 65,393 GSF facility built in 1984 after its predecessor was suddenly condemned. It now has a range of deferred maintenance items of its own. Replacement of HVAC systems and switchgear occurred a decade ago, but the chemistry and biology labs, hallways, and restrooms remain in near original condition.

PSU has a program to redesign and upgrade these crucial facilities as a STEM eco-system to expand STEM education, make the facility more functional and attractive to today's students, and serve current needs for teaching and learning within this academic core. The School of Science and Mathematics provides basic support for the ecosystem that also includes the health sciences and engineering technology degree in addition to PSU's National Institute for Materials Advancement (NIMA) and National Center for Semiconductor Research and Testing (NCSRT).

PSU wishes to engage a professional design consultant for the entire project for delivery in one or more construction phases utilizing design-bid-build. Each phase will be bid independently based upon availability of funding. The initial \$6,000,000 phase of construction is anticipated to focus on the general chemistry lab for completion between June and December 2026. The estimated total project cost of the entire program is \$53,000,000.

An architectural/engineering program is available at <http://admin.ks.gov/offices/ofpm/dcc/arch-eng-programs>. For more information contact Lindell Haverstic at [lhaverstic@pittstate.edu](mailto:lhaverstic@pittstate.edu) or 785-532-2787.

To be considered, one (1) PDF file of the following should be provided: State of Kansas Professional Qualifications DCC Forms 051-054, inclusive, and information regarding similar projects. These forms may be found at <https://admin.ks.gov/offices/facilities-property-management/design-construction--compliance/forms-and-documents>. State of Kansas Professional Qualifications DCC Form 050 for each firm and consultant should be provided at the end of each proposal. Please include your firm name, agency abbreviation, and an abbreviated project name in the title of the PDF document. Proposals should be less than 5 Mb and follow the current State Building Advisory Commission guidelines which can be found in Part B – Chapter 2 of the Building Design and Construction Manual at <https://admin.ks.gov/offices/facilities-property-management/design-construction--compliance/building-design-and-construction-manual-bdcm>. Paper copies and flash drives containing copies of the proposals are not required.

Proposals should be sent to [professional.qualifications@ks.gov](mailto:professional.qualifications@ks.gov). Proposals received after the date and time noted below will not be forwarded to the State Building Advisory Commission for review. If you have questions about the proposal submissions, please contact Barbara Schilling at [barb.schilling@ks.gov](mailto:barb.schilling@ks.gov) or call 785-291-3695. The PDF proposal submissions shall be delivered to the attention of the State Building Advisory Commission by 2:00 p.m. on or before December 12, 2025.

## Notice to Contractors

Electronic copies of the letting proposals and plans are available on the Kansas Department of Transportation (KDOT) website at <https://kdotapp.ksdot.org/Proposal/Proposal.aspx>. The website will allow the contractor to request approval from KDOT to bid as a prime contractor and be included on the “Bid Holders List,” or to be included on the “Non-Bid Holders List” as a subcontractor/supplier. KDOT’s approval is required to bid as a prime contractor. To bid as a prime contractor, KDOT needs to be notified of the intent to bid no later than the close of business on the Monday preceding the scheduled letting date. Failure to obtain prior approval to bid as a prime contractor on any projects listed below will be reason to reject your bid. The Secretary reserves the right to reject bids that do not comply with all requirements for preparing a bidding proposal as specified in the 2015 edition of the Kansas Department of Transportation Standard Specifications for State Road and Bridge Construction.

KDOT will only accept electronic internet proposals using the Bid Express website at <https://bidx.com/ks/main> until 1:00 p.m. (Central Time) on letting day. The KDOT bid letting will be conducted remotely by audio broadcast only at 3:00 p.m. (Central Time) on letting day. For the conference call information see <https://www.ksdot.org/bureaus/burconsmain/lettinginfo.asp>. KDOT has tested the process, but in the event of an unforeseen issue, KDOT will provide updates.

Each bidder shall certify that such person, firm, association, or corporation has not, either directly or indirectly, entered into any agreement, participated in any collusion, or otherwise taken any action in restraint of free competitive bidding in connection with the submitted bid. This certification shall be in the form of a required contract provision provided by the state to each prospective bidder. Failure to complete the required contract provision and certify the completeness of the preceding statement when electronically signing the proposal will make the bid nonresponsive and not eligible for award consideration.

## Department of Health and Environment

### Notice of Proposed Kansas Air Quality Construction Permit

Notice is hereby given that the Kansas Department of Health and Environment (KDHE) is soliciting comments regarding a proposed air quality construction permit. Walmart Supercenter #382 has applied for an air quality construction permit in accordance with the provisions of K.A.R. 28-19-300. Emissions of volatile organic compounds (VOC), particulate matter (PM), PM with less than or equal to 10 microns in aerodynamic diameter (PM<sub>10</sub>), PM with less than or equal to 2.5 microns in aerodynamic diameter (PM<sub>2.5</sub>), carbon monoxide (CO), oxides of nitrogen (NO<sub>x</sub>), oxides of sulfur (SO<sub>x</sub>), and hazardous air pollutants (HAPs) were evaluated during the permit review process.

Walmart Supercenter #382, 702 SW 8th St., Mailstop 0505, Bentonville, AR 72716, owns and operates a miscellaneous general merchandise store located at 2101 S. Princeton St., Ottawa, Franklin County, KS 66067 at which two (2) diesel-fired non-emergency engines and one (1) 2000-gallon diesel fuel tank are to be installed.

A copy of the proposed permit, permit application, all supporting documentation, and all information relied upon during the permit application review process are available for public review from the date of publication during normal business hours at the KDHE, Bureau of Air (BOA), 1000 SW Jackson, Suite 310, Topeka, KS 66612-1366 and at the Northeast District Office, 800 W. 24th St., Lawrence, KS 66046. To obtain or review the proposed permit and supporting documentation, contact Emilee Agnew at the central office of KDHE at 785-296-1581, or Byron Dotson at the Northeast District Office at 785-330-8611. The standard departmental cost will be assessed for any copies requested. The proposed permit, accompanied with supporting information, is available, free of charge, at the KDHE BOA Public Notice website at <https://www.kdhe.ks.gov/413/Public-Notices>.

#### Notice of Proposed Kansas Air Quality Construction Permit

Notice is hereby given that the Kansas Department of Health and Environment (KDHE) is soliciting comments regarding a proposed air quality construction permit. Ferroloy has applied for an air quality construction permit in accordance with the provisions of K.A.R. 28-19-300. Emissions of volatile organic compounds (VOC), particulate matter (PM), particulate matter with less than or equal to 10 microns in aerodynamic diameter (PM<sub>10</sub>), particulate matter with less than or equal to 2.5 microns in aerodynamic diameter (PM<sub>2.5</sub>), carbon monoxide (CO), oxides of nitrogen (NO<sub>x</sub>), oxides of sulfur (SO<sub>x</sub>), and hazardous air pollutants (HAPs) were evaluated during the permit review process.

Ferroloy, 515 E. 29th St. N, Wichita, KS 67219-4109 owns and operates a grey and ductile castings facility. A small iron and steel foundry located at 515 E. 29th St. N, Wichita, Sedgwick County, KS 67219-4109, at which five (5) CNC machines, decommissioning of Pacemaster 75 emission unit, are to be installed.

A copy of the proposed permit, permit application, all supporting documentation, and all information relied upon during the permit application review process are available for public review from the date of publication during normal business hours at the KDHE, Bureau of Air (BOA), 1000 SW Jackson, Suite 310, Topeka, KS 66612-1366 and at the South Central District Office, 300 W. Douglas, Suite 700, Wichita, KS 67202. To obtain or review the proposed permit and supporting documentation, contact Donald Dyster Jr. at the central office of KDHE at 785-291-3271 or Joshua Webb at the South Central District Office at 316-337-6020. The standard departmental cost will be assessed for any copies requested. The proposed permit, accompanied with supporting information, is available, free of charge, at the KDHE BOA Public Notice website at <https://www.kdhe.ks.gov/413/Public-Notices>.

Please direct written comments or questions regarding the proposed permit to Donald Dyster Jr., KDHE, BOA, 1000 SW Jackson, Suite 310, Topeka, KS 66612-1366. In order to be considered in formulating a final permit decision, written comments must be received no later than 12:00 p.m. Monday, December 29, 2025.

A person may request a public hearing be held on the proposed permit. The request for a public hearing shall be in writing and set forth the basis for the request. The written request must be submitted to Donald Dyster Jr., KDHE, BOA, 1000 SW Jackson, Suite 310, Topeka, KS 66612-1366, no later than 12:00 p.m. Monday, December 29, 2025, in order for the Secretary of Health and Environment to consider the request.

## Notice of Proposed Kansas Air Quality Construction Permit

Notice is hereby given that the Kansas Department of Health and Environment (KDHE) is soliciting comments regarding a proposed air quality construction permit. Evergy, Inc. – McNew Energy Center (Evergy) has applied for an air quality construction permit in accordance with the provisions of K.A.R. 28-19-300 to construct a new electric power generation facility to be located near S. McNew Rd. and E. Morgan Ave., Hutchinson, Reno County, KS 67501. Emissions of oxides of nitrogen ( $\text{NO}_x$ ), carbon monoxide (CO), volatile organic compounds (VOC), particulate matter (PM), PM with less than or equal to 10 microns in aerodynamic diameter ( $\text{PM}_{10}$ ), PM with less than or equal to 2.5 microns in aerodynamic diameter ( $\text{PM}_{2.5}$ ), oxides of sulfur ( $\text{SO}_x$ ), sulfuric acid mist ( $\text{H}_2\text{SO}_4$ ), lead (Pb), hazardous air pollutants (HAPs), and greenhouse gases (GHGs) as carbon dioxide equivalent ( $\text{CO}_2\text{e}$ ) were evaluated during the permit review process.

The permit is to be issued in accordance with the provisions of K.A.R. 28-19-350, Prevention of Significant Deterioration (PSD) which adopt the federal standards, procedures and requirements of 40 CFR 52.21 by reference. These air quality regulations apply to major stationary emission sources located in areas designated as “attainment” or “unclassifiable” under the federal Clean Air Act (CAA). Attainment/unclassifiable areas are areas where the air quality meets or is better than the national ambient air quality standards (NAAQS).

The PSD regulations require evaluation of emission reduction techniques to identify the Best Available Control Technology (BACT) for each regulated pollutant, including GHGs, for which the emission rate exceeds the PSD significant level. The purpose of BACT is to affect the maximum degree of reduction achievable, taking into account energy, environmental and economic impacts for each pollutant under review. Evaluation of the estimated emissions for the proposed electric power generation facility indicates that the emission rates of  $\text{NO}_x$ , CO, PM,  $\text{PM}_{10}$ ,  $\text{PM}_{2.5}$ , VOC,  $\text{H}_2\text{SO}_4$ , and GHGs all exceed the PSD significance levels. Evergy conducted the required BACT analyses. KDHE has reviewed Evergy’s BACT analyses and concurs with its findings.

An ambient air quality impact analysis was performed on the air emissions of  $\text{NO}_x$ , CO,  $\text{PM}_{10}$ , and  $\text{PM}_{2.5}$  from the proposed project. Likewise, a Modeled Emission Rates for Precursors (MERPS) analysis was performed for both ozone ( $\text{O}_3$ ) and secondary  $\text{PM}_{2.5}$  for this project. The analyses demonstrated no significant impact on ambient air quality for  $\text{NO}_x$ , CO,  $\text{PM}_{10}$ ,  $\text{PM}_{2.5}$ , and  $\text{O}_3$ .

On January 17, 2025, this project established the minor source baseline dates for  $\text{NO}_2$ ,  $\text{PM}_{2.5}$ , and  $\text{PM}_{10}$ . This project is the first PSD increment consuming source in Reno County. Maximum increment consumption from the PSD increment modeling results were included in the permit summary document.

No assessment of visibility impacts at a Class I area was performed by Evergy because there are no Federal Class I areas located within 300 kilometers (km) of the proposed project. Evergy did a visibility impact analysis for two local Class II areas, i.e., Carey Park (located 2.99 km away) and Fairgrounds Park (located 8.35 km away). KDHE also added a visibility analysis for the Hutchinson Regional Airport (located 8.79 km away). Results of the analyses showed that the proposed project will have no adverse impact on visibility of Federal Class I areas.

A public comment period has been established to allow citizens the opportunity to express any concerns they may have about this proposed permitting action. The public comment period is to begin Thursday, November 27, 2025, and end Monday, December 29, 2025. Written comments should be submitted to Arwa Alrefaai and must be received by 12:00 pm Monday, December 29, 2025, at KDHE/Bureau of Air, 1000 SW Jackson, Suite 310, Topeka, KS 66612- 1366 or presented at the public hearing.

Any member of the public may request to hold a public hearing to receive comments on the proposed issuance of the draft air quality construction permit. Written request to hold a public hearing should be sent

to the attention of Arwa Alrefaai, KDHE/Bureau of Air, 1000 SW Jackson, Suite 310, Topeka, KS 66612-1366 or by fax at 785-559-4256 and must be received by 12:00 p.m. Monday, December 29, 2025. If a request is received, a public hearing will be held at 6:00 p.m. Tuesday, January 6, 2026, at the Dillon Nature Center, 3002 E. 30th Ave., Hutchinson, KS 67502. If no requests to hold the public hearing are received by 12:00 p.m. Monday, December 29, 2025, the scheduled public hearing will be cancelled. A notice of the cancellation will be posted at the KDHE website at <https://www.kdhe.ks.gov/413/Public-Notices>.

If a hearing is conducted, all interested parties will be given a reasonable opportunity to present their views orally or by submission of written materials during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to limit oral presentations to a specific time limit. Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed materials in an accessible format. Requests for accommodation must be made no later than Wednesday, December 17, 2025, by contacting the Bureau of Air at 785-296-5231.

A copy of the proposed permit, permit application, all supporting documentation, and all information relied upon during the permit application review process are available for public review for a period of 30 days from the date of publication during normal business hours (8:00 a.m. to 5:00 p.m.) at the KDHE, Bureau of Air (BOA), 1000 SW Jackson, Suite 310, Topeka, KS 66612-1366. Also, a copy of the proposed permit only can be reviewed, at the South Central District Office, 300 W. Douglas, Suite 700, Wichita, KS 67202. To obtain or review the proposed permit and supporting documentation, contact, Arwa Alrefaai at the central office of KDHE at 785-368-7030 and to review the proposed permit only, contact Joshua Webb in the South Central District Office at 316-337-6042. The standard departmental cost will be assessed for any copies requested. The proposed permit, accompanied with supporting information, is available, free of charge, at the KDHE BOA Public Notice website at <https://www.kdhe.ks.gov/413/Public-Notices>.

#### Notice of Proposed Kansas Air Quality Class I Operating Permit Renewal

Notice is hereby given that the Kansas Department of Health and Environment (KDHE) is soliciting comments regarding a proposed air quality operating permit. Occidental Chemical Corporation has applied for a Class I operating permit renewal in accordance with the provisions of K.A.R. 28-19-510 et al. The purpose of a Class I permit is to identify the sources and types of regulated air pollutants emitted from the facility; the emission limitations, standards, and requirements applicable to each source; and the monitoring, record keeping, and reporting requirements applicable to each source as of the effective date of permit issuance.

Occidental Chemical Corporation, PO Box 12283, Wichita, KS 67277, owns and operates a chemical manufacturing facility in Wichita. The facility's major air emission sources are a bag hopper, a receiver filter, an absorber, three boilers, and a gas turbine. Other sources of regulated pollutants include storage tanks, process vents, refrigeration units, cell room seal pots, maintenance activities, maintenance and process wastewater, and equipment leaks located at 6200 S. Ridge Rd., Wichita, Sedgwick County, KS 67215. The facility requires a Class I Air Emission Source Operating Permit due to the following pollutants evaluated Carbon Monoxide (CO), Nitrogen Oxides (NO<sub>x</sub>), Particular matter less than or equal to 10 microns (PM<sub>10</sub>), and Hazardous Air Pollutants (HAPs) total emissions and individual HAPs emissions for Carbon Tetrachloride, Chloroform, Hydrochloric acid, Methyl Chloride, and Methylene Chloride.

A copy of the proposed permit, permit application, all supporting documentation, and all information relied upon during the permit application review process are available for public review during normal business hours of 8:00 a.m. to 5:00 p.m. at the KDHE, Bureau of Air (BOA), 1000 SW Jackson, Suite 310, Topeka, KS 66612-1366 and at the South Central District Office, 300 W. Douglas, Suite 700, Wichita, KS 67202. To obtain or review the proposed permit and supporting documentation, contact Donald Dyster Jr. at the central office of KDHE at 785-291-3271 or Joshua Webb at the South Central District Office at 316-337-6020. The standard departmental cost will be assessed for any copies requested. The proposed permit, accompanied with supporting information, is available, free of charge, at the KDHE BOA Public Notice website at <https://www.kdhe.ks.gov/413/Public-Notices>.

Please direct written comments or questions regarding the proposed permit to Donald Dyster Jr., KDHE, BOA, 1000 SW Jackson, Suite 310, Topeka, KS 66612-1366. In order to be considered in formulating a final permit decision, written comments must be received no later than 12:00 p.m. Monday, December 29, 2025.

A person may request a public hearing be held on the proposed permit. The request for a public hearing shall be in writing and set forth the basis for the request. The written request must be submitted to Donald Dyster Jr., KDHE BOA, 1000 SW Jackson, Suite 310, Topeka, KS 66612-1366, no later than 12:00 p.m. Monday, December 29, 2025, in order for the Secretary of Health and Environment to consider the request.

The United States Environmental Protection Agency (USEPA) has a 45-day review period, which will start concurrently with the public comment period, within which to object to the proposed permit. If the USEPA has not objected in writing to the issuance of the permit within the 45-day review period, any person may petition the administrator of the USEPA to review the permit. The 60-day public petition period will directly follow the USEPA 45-day review period.

Any such petition shall be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided for in this notice, unless the petitioner demonstrates that it was impracticable to raise such objections within such period, or unless the grounds for such objection arose after such period. Contact Ward Burns, USEPA, Region 7, Air Permitting and Standards Branch, 11201 Renner Blvd., Lenexa, KS 66219, phone 913-551-7960, to determine when the 45-day USEPA review period ends and the 60-day petition period commences.

#### **Aviso sobre una propuesta de Renovación de un permiso de funcionamiento Clase I con potencial impacto en la calidad del aire de Kansas**

Por medio del presente aviso, se notifica que el Departamento de Salud y Medio Ambiente de Kansas (KDHE, por sus siglas en inglés) solicita comentarios con respecto a una propuesta de un permiso de funcionamiento con potencial impacto en la calidad del aire. Scout V Hugoton Gathering, LP ha solicitado la renovación del permiso de funcionamiento Clase I de acuerdo a lo establecido en K.A.R. 28-19-510 y otros. El propósito de un permiso de Clase I es identificar las fuentes y los tipos de contaminantes del aire regulados que emite la instalación; las limitaciones, normas y requisitos de emisión aplicables a cada fuente; y los requisitos de control, mantenimiento de registros y presentación de informes aplicables a cada fuente a partir de la fecha de vigencia de la emisión del permiso.

Scout V Hugoton Gathering, LP, 211 N. Colorado, Midland, TX 79701, posee y opera estación compresora de gas natural con domicilio en Section 32, Township 26 South, Range 36 West, Kearny County, KS 67860.

El público podrá consultar una copia del permiso propuesto, de la solicitud del permiso, de toda la documentación de respaldo y de toda la información utilizada durante el proceso de revisión de la solicitud de permiso durante el horario de atención habitual (de 8:00 a.m. a 5:00 p.m.) en el Departamento de Salud y Medio Ambiente de Kansas (KDHE), Oficina de Calidad del Aire (Bureau of Air, BOA), 1000 SW Jackson, Suite 310, Topeka, KS 66612-1366, y en la KDHE Oficina del Distrito Suroeste, 302 W. McArtor Road, Dodge City, KS 67801. State of Kansas

## Department of Health and Environment

### Notice of Proposed Kansas/Federal Water Pollution Control Permits and Applications

In accordance with Kansas Administrative Regulations 28-16-57a through 63, 28-18-1 through 17, 28-18a-1 through 31 and 33, 28-16-150 through 154, 28-46-7, and the authority vested with the state by the administrator of the U.S. Environmental Protection Agency, various draft water pollution control documents (permits, notices to revoke and reissue, notices to terminate) have been prepared and/or permit applications have been received for discharges to waters of the United States and the state of Kansas for the class of discharges described below.

The proposed actions concerning the draft documents are based on staff review, applying the appropriate standards, regulations, and effluent limitations of the state of Kansas and the Environmental Protection Agency. The final action will result in a Federal National Pollutant Discharge Elimination System Authorization and/or a Kansas Water Pollution Control permit being issued, subject to certain conditions, revocation, and reissuance of the designated permit or termination of the designated permit.

Las acciones propuestas con respecto a los documentos preliminares se basan en la revisión del personal, aplicando los estándares, regulaciones y limitaciones de efluentes apropiados del estado de Kansas y de la Agencia de Protección Ambiental de Estados Unidos. La acción final resultará en la emisión de una Autorización Federal del Sistema Nacional de Eliminación de Descargas de Contaminantes y un permiso de Control de Contaminación del Agua de Kansas, sujeto a ciertas condiciones, revocación y reemisión del permiso designado o terminación del permiso designado. Si desea obtener más información en español o tiene otras preguntas, por favor, comuníquese con el Coordinador de No Discriminación al 785-296-5156 o en: [KDHE.NonDiscrimination@ks.gov](mailto:KDHE.NonDiscrimination@ks.gov).

# Kansas Development Finance Authority

## Notice of Hearing

A public hearing will be held at 9:00 a.m. December 12, 2025, in the offices of Kansas Development Finance Authority, 534 S. Kansas Ave., Suite 800, Topeka, Kansas, on the proposal for the Kansas Development Finance Authority to issue its Agricultural Development Revenue Bonds for the Project(s) numbered below, in the respective maximum principal amounts. The Bond(s) will be issued to assist the respective Borrower (the "Beginning Farmer") named below (who will be the owner and operator of the respective Project) to finance the cost in the amount of the Bond, which is then typically purchased by a lender bank ("Lender") who then through Kansas Development Finance Authority, loans the bond proceeds to the Borrower for the purposes of acquiring the respective Project(s) as described below. Each Project shall be located as shown:

**Project No. 001182 Maximum Principal Amount: \$338,000.** Owner/Operator: Walter "Brett" and Brittney M. Neibling; Description: Acquisition of 87.71 acres of agricultural land and related improvements and equipment to be used by the owner/operator for farming purposes (the "Project"). The Project is being financed by the Lender for Walter "Brett" and Brittney M. Neibling (the "Beginning Farmer") and is located in in the Southwest Quarter of Section 16, and the Southeast Quarter of Section 17, Township 2 South, Range 19 East of the Sixth P.M., approximately 1 mile north and 1.5 miles west of Highland, Kansas (Heading east on 240th Street, or old Highway 36, go north on Castleton Road for  $\frac{3}{4}$  mile, then west on 250th Road  $\frac{1}{4}$  mile which curving back north becomes Buffalo Road, go  $\frac{1}{4}$  mile, then west on 255th Road  $\frac{1}{4}$  mile to subject property driveway).

**Project No. 001185 Maximum Principal Amount: \$374,350.** Owner/Operator: Isaac Detweiler; Description: Acquisition of 80 acres of agricultural land and related improvements and equipment to be used by the owner/operator for farming purposes (the "Project"). The Project is being financed by the Lender for Isaac Detweiler (the "Beginning Farmer") and is located at the South Half of the Southeast Quarter of Section 24, Township 1, Range 9 Marshall County, Kansas, approximately 3 miles south of Summerfield, Kansas on Highway 99.

Each Bond when issued, will be a limited obligation of the Kansas Development Finance Authority and will not constitute a general obligation or indebtedness of the State of Kansas or any political subdivision thereof, including the Authority, nor will it be an indebtedness for which the faith and credit and taxing powers of the State of Kansas are pledged, but each Bond will be payable solely and only from amounts received from the respective Borrower, the obligation of which will be sufficient to pay the principal of, interest and redemption premium, if any, on each Bond as and when it shall become due.

Interested individuals may participate in the public hearing in person or via conference call. Please call 844-621-3956 and use conference identification number 145 880 8929 followed by # to join the conference.

At the time and place fixed for the hearings, all individuals who appear will be given an opportunity to express their views for or against the proposal to issue any specific Bond for the purpose of financing the respective Project, and all written comments previously filed with the Authority at its offices at Suite 800, 534 S. Kansas Ave., Topeka, KS 66603, will be considered. Additional information regarding any of the projects described above may be obtained by contacting the Authority at the address of its offices shown above.

## **Board of Emergency Medical Services**

### **Notice of Hearing on Proposed Administrative Regulation**

A public hearing will be conducted at 10:00 a.m. Tuesday, February 3, 2026, in Room 560 of the Landon State Office Building, 900 SW Jackson, Topeka, Kansas, to consider the adoption of a proposed administrative regulation of the Board of Emergency Medical Services on a permanent basis. The hearing will also be held via GoToMeeting conferencing. Remote access information will be provided upon request to any person wishing to observe, participate in, or listen to the hearing. Request for access must be submitted prior to 4:30 p.m. Thursday, January 29, 2026, via email to [joseph.house@ks.gov](mailto:joseph.house@ks.gov).

This 60-day notice of the public hearing shall constitute a public comment period for the purpose of receiving written public comments on the proposed amendments to the regulation. All interested parties may submit written comments prior to the hearing to the Board of Emergency Medical Services, Landon State Office Building, 900 SW Jackson, Room 1031, Topeka, KS 66612 or by email to [joseph.house@ks.gov](mailto:joseph.house@ks.gov). All interested parties will be given a reasonable opportunity to present their views orally on the adoption of the proposed amendments to the regulation during the public hearing. In order to provide all parties an opportunity to present their views, it may be necessary to request that each participant limit any oral presentations to five minutes.

Any individual with a disability may request an accommodation in order to participate in the public hearing and may request the proposed regulation and economic impact statement in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting Joseph House at 785-296-7296 (or TTY 1-800-766-3777). Handicapped parking is located in front of and to the north of the Landon State Office Building.

K.A.R. 109-11-8 is being amended to eliminate a seven-day requirement for notification of successful course completion prior to challenging the state's cognitive knowledge examination.

There is no anticipated economic impact in the adoption of this regulation.

Copies of the complete regulation and the complete economic impact statement may be obtained from the Board of Emergency Medical Services at the contact information above or can be accessed at <http://www.ksbems.org>.
