### **Notice of Intent to Lease Real Property**

Public notice is hereby given that Kansas State University (KSU) intends to lease, subject to all required state approvals, up to 5,724 square feet of real property located at 5970 Executive Court, Manhattan, KS 66503. The university is interested in leasing such space to any individual, organization, or entity whose presence would advance KSU's mission as an educational, cultural, and economic driver for Kansas and the greater public good. KSU intends to lease such space for a mutually agreeable period of time, but extended terms and renewal options would be considered. Interested tenants must be willing to be a good fit with KSU's educational mission and identify anticipated benefits to the university, its students, and the surrounding community (i.e. applied learning, joint research, curriculum or program support, community benefit commitments, etc.). Interested tenants will be evaluated on: proposal terms, demonstrated benefit to KSU and the surrounding community, design concepts, financial stability, and proposed use. Interested tenants will be responsible for all costs associated with the development and ongoing maintenance costs of any improvements. Rental rate shall be based on fair market value and negotiable based on term of lease, purpose/use of the improvement, and benefit to KSU. KSU will consider serious offers and inquiries from any financially qualified individual, group or organization. If interested, please contact Kansas State University Purchasing and Contract Services Office at [kspurch@ksu.edu](mailto:kspurch@ksu.edu). This publication is being published pursuant to K.S.A. 75-430a(d), to the extent applicable.

#### **Notice of Requested Engineering Services**

Notice is hereby given of the commencement of the selection process for engineering services for the Chiller Plant, Kansas Vet Diagnostics Laboratory, and Derby Complex at Kansas State University. Kansas State University invested heavily into expanding the campus district chilled water infrastructure in 2016. Since 2016, the university has connected several buildings/additions onto the district chilled water system, including the College of Business, College of Engineering Phase IV, Wefald/Kramer Dining Center, Nichols Hall, Student Union, Eisenhower Hall, Bluemont Hall, Call Hall, and several others.

The new chilled water plant, CP-2, was designed to expand with future demand and to operate in concert with the campus' original plant, CP-1. The total firm chilled water capacity for the campus is currently 8,289 tons; whereas, the connected campus load will soon exceed firm capacity by about 250 tons through additional connections currently underway and associated with projects at the Western Star Global Grain and Food Center, Fairchild Hall, Thompson Hall, and the Strong Complex. The recently completed and approved campus masterplan included a detailed study of campus utility infrastructure including analysis for the existing and projected cooling needs for campus. This data indicates an immediate need to expand CP-2 to meet the growing cooling needs of campus.

This advertisement is for a single design services contract for the following scope as indicated in our February 2026 Kansas Board of Regents approved program for Chilled Water Expansion:

1. Expanding CP-2 with an additional 2,950-ton chiller and all associated equipment needed for immediate expansion, including pumps electrical gear, cooling tower, and controls.
2. Connection and underground piping to serve the new Kansas Vet Diagnostics Laboratory with chilled water from the district system.
3. Connection, underground piping, and building modifications needed for serving the Derby Complex (West, Moore, Haymaker, Ford, and Derby) with chilled water from the district system.

The university intends to evaluate the ROI, necessary underground piping, infrastructure, and associated construction and operational costs for completing these enhancements. Estimated construction costs for the entire scope are estimated at \$13,520,000 construction and \$7,000,000 of equipment, for a total construction cost of \$20,520,000. The project will be phased, with design and construction executed when/as funds are available. The initial project phase for Chiller Plant 2 expansion is estimated to be: \$4.6M construction, with \$7M in equipment to be specified by engineer, ordered by owner, and installed by contractor (approximately \$12M in construction costs, total).

An architectural/engineering program is available at <http://admin.ks.gov/offices/ofpm/dcc/arch-eng-programs>. For more information, contact Lisa Johnson at [lisajohnson@ksu.edu](mailto:lisajohnson@ksu.edu) or phone at 785-532-0379. To be considered, one (1) PDF file of the following should be provided: State of Kansas Professional Qualifications DCC Forms 051-054, inclusive, and information regarding similar projects. These forms may be found at <https://admin.ks.gov/offices/facilities-property-management/design-construction--compliance/forms-and-documents>. State of Kansas Professional Qualifications DCC Form 050 for each firm and consultant should be provided at the end of each proposal. Please include your firm name, agency abbreviation, and an abbreviated project name in the title of the PDF document. Proposals should be less than 5 Mb and follow the current State Building Advisory Commission guidelines which can be found in Part B – Chapter 2 of the Building Design and Construction Manual at <https://admin.ks.gov/offices/facilities-property-management/design-construction--compliance/building-design-and-construction-manual-bdcm>. Paper copies and flash drives containing copies of the proposals are not required.

### Notice of Proposed Kansas/Federal Water Pollution Control Permits and Applications

In accordance with Kansas Administrative Regulations 28-16-57a through 63, 28-18-1 through 17, 28-18a-1 through 31 and 33, 28-16-150 through 154, 28-46-7, and the authority vested with the state by the administrator of the U.S. Environmental Protection Agency, various draft water pollution control documents (permits, notices to revoke and reissue, notices to terminate) have been prepared and/or permit applications have been received for discharges to waters of the United States and the state of Kansas for the class of discharges described below.

The proposed actions concerning the draft documents are based on staff review, applying the appropriate standards, regulations, and effluent limitations of the state of Kansas and the Environmental Protection Agency. The final action will result in a Federal National Pollutant Discharge Elimination System Authorization and/or a Kansas Water Pollution Control permit being issued, subject to certain conditions, revocation, and reissuance of the designated permit or termination of the designated permit.

Las acciones propuestas con respecto a los documentos preliminares se basan en la revisión del personal, aplicando los estándares, regulaciones y limitaciones de efluentes apropiados del estado de Kansas y de la Agencia de Protección Ambiental de Estados Unidos. La acción final resultará en la emisión de una Autorización Federal del Sistema Nacional de Eliminación de Descargas de Contaminantes y un permiso de Control de Contaminación del Agua de Kansas, sujeto a ciertas condiciones, revocación y reemisión del permiso designado o terminación del permiso designado. Si desea obtener más información en español o tiene otras preguntas, por favor, comuníquese con el Coordinador de No Discriminación al 785-296-5156 o en: [KDHE. An update to the Nutrient Management Plan (NMP) was received for this existing facility currently permitted for 14,000 head (14,000 animal units) of cattle weighing greater than 700 pounds, and 5 head (10 animal units) of horses, for a total of 14,010 animal units. The facility's NMP was updated to include changes in the application rate limitations for their fields. One of the fields application rate limitation has become less restrictive than the previous NMP. There are no changes to the permit or in the permitted number of animal units. Only the updated portion of the Nutrient Management Plan is subject to comment.

The proposed action consists of reissuing the above referenced Pretreatment permit. No changes were made to the permit. This facility manufactures specialty bodies and trailers for the glass and fire departments and performs conversion coating (iron phosphating) on steel parts, prior to painting them. The phosphating solution is sprayed on the parts with a wand system. Outfall 001 consists of the spent wash water when a discharge occurs. However, process wastewater is normally sent off-site for treatment and disposal. This permit contains limits for pH, Total Toxic Organic, Cadmium, Chromium, Copper, Lead, Nickel, Silver, Zinc, and Cyanide. The permit contains monitoring Flow-MGD.

## Department of Transportation

### Request for Proposals

#### Multiple Projects: Construction Inspection Services; Released March 2026

#### Notice to Consulting Firms

The Kansas Department of Transportation (KDOT) is seeking a qualified consulting firm, or team of firms, to perform construction inspection services on multiple projects in various counties. Summary information for each project is provided below in Table 1.

Interested consultants must upload a proposal by 12:00 p.m. (Central Time) March 25, 2026, to the Bid Express page to be considered for selection.

#### Consultant Prequalification

Consulting firms interested in providing service on any project listed below must be prequalified by KDOT in the following category(s):

- 241 – Construction Inspection and Testing

If a firm is not currently prequalified by KDOT, a proposal may still be submitted. Firms not prequalified must also provide documentation that demonstrates the firm is qualified for each specified category listed in this notice for the project. Firms must use the KDOT prequalification form to provide this documentation. KDOT 1050 Prequalification Category Definitions (Blue Book) can be found at <https://www.ksdot.gov/doing-business/design-consultants/design-consultant-prequalification>. Consultants may create a team to meet the prequalification requirements. All firms doing business with KDOT must be registered and in good standing under the laws of the State of Kansas at the time of contracting and must comply with applicable state and federal laws, rules, and regulations.

#### Background and Scope of Projects

With this single solicitation, KDOT is requesting consulting services for construction inspections on the projects listed in Table 1. This table provides summary information for each project. One consultant will be selected to perform services associated with each group listed. Firms can express interest in the groups for which they would like to be considered by submitting a response as indicated below. There is no guarantee that a firm which has expressed interest will be selected for any project(s).

Additional project information including construction scope to be inspected, a detailed description of the project location, and resources and inspection scope specifically requested from consultants in this request can be viewed in an online table at <https://www.ksdot.gov/home/showpublisheddocument/12582/639071707051530000>. Upon publication of this Request for Proposals, KDOT anticipates each of these inspection efforts will require full teams (project manager and inspectors, as opposed to single role staff augmentation as is occasionally request) for various types of construction inspection except as noted in the table. Watch the website linked above for updated information. Tabulated information (both in this Request for Proposals and on the website) shall not be relied upon during inspections. It is provided for the convenience of consultants, specifically to aid in making decisions about which projects they are interested in performing.

Specific project needs are subject to modification and/or cancellation at KDOT's discretion.

### Anticipated Consultant Scope

The scope of construction inspection services and certifications required will vary for each project and are listed in the table available on the website noted above. Inspection efforts will be managed out of the offices listed. Also included for the convenience of consultants are indications of which grouped projects are currently slated to be performed by the same contractors.

### Anticipated Schedule and Key Dates

- Proposals are due by or before 12:00 p.m. (Central Time) March 25, 2026.
- Ranking of proposals is expected to occur on or around March 27, 2026. Negotiations with the most highly ranked firm are expected to begin on or around April 6, 2026. An executed agreement is anticipated shortly thereafter.
- Anticipated scope starts dates and working days or anticipated calendar completion dates are shown in the table. All dates are subject to change.

### Instructions for Proposal

- No cost or pricing information shall be submitted with the proposal. Proposals including cost or pricing information will be considered non-responsive and withdrawn from further consideration.

2. The consultant's proposal must not exceed the page limit laid out in Table 2 below (including any cover letter, index, etc.). All pages shall be standard letter size (8.5" x 11"). Any page larger than standard letter size will be counted as two or more pages depending on size.
3. A single PDF (10MB maximum size) of the proposal including all attachments must be uploaded to the appropriate bid form on Bid Express by the proposal due date and time.
4. The proposal PDF file name must read:
  - a. "ConstInsp Multiple Projects\_2026.03 Release FIRM NAME"
5. The proposal must be accompanied by Special Attachments No. 8 ("Tax Clearance Certificate"); No. 10 ("Policy Regarding Sexual Harassment"); and No. 12 ("Certification of Company Not Currently Engaged in the Procurement or Obtainment of Certain Equipment, Services, or Systems"). If you need a Tax Clearance Certificate, you can request one at <https://www.ksrevenue.gov/taxclearance.html>. Allow 2-3 business days for processing. All attachments are required for every firm involved in a multi-consultant team. Upload these files as instructed in Bid Express.
6. Note: Federal Restrictions on Foreign Drones - Effective December 22, 2025, the American Security Drone Act of 2023 (ASDA) and OMB Memorandum M-26-02 strictly prohibit the use of federal funds for UAS manufactured by covered foreign entities.

This includes any aircraft, flight controller, camera, or ground control station supplied by a manufacturer that is based in, or subject to the control of, a foreign adversary country, specifically the People's Republic of China.

This prohibition restricts the use of drones from these countries on any federal-aid project even if the drone related costs are billed separately or not at all. Any use of these covered drones including operation, maintenance or data processing on federal aid project is prohibited. KDOT is evaluating adding a contract provision acknowledging this requirement on contracts moving forward. The prime consultant shall remain fully responsible for monitoring their team, (subconsultant and vendor) compliance with this requirement.

7. The outline in Table 2 below describes the expected proposal organization, content sections, and limits on number of pages.
  - a. Each team is limited to a single, one-page cover letter.
  - b. Consultants may indicate interest in any and all projects, indicate preference (s) for up to three projects, and shall indicate both interest and preferences on the "March 2026 Construction Inspections Interest & Preference Form that is provided on the Bid Express page to complete and upload. Also, consultants are to use the bottom of that form to indicate any capacity limitations that need to be taken into account when making selections.
  - c. Thereafter, each team is limited to two pages per project in which they express interest. In these pages, consultants shall:
    - i. Describe the approach they plan to execute to deliver success on the project.
    - ii. Present the relevant qualifications and experience of the people they are proposing will provide the services.
    - iii. Provide the firm's familiarity with KDOT and the project area.
  - d. Finally, consultants are limited to a single, on-page descriptions of general qualifications ("Past Performance" selection plus "Approach to Quality Control" section) regardless of the number of projects in which they are expressing interest.
8. Table 3 lists the evaluation criteria and associated weights which will be used to make a selection.
9. Although not anticipated at this time, KDOT reserves the right to interview for the requested services associated with any of the listed projects prior to making final selections.

### Office of the Governor

#### Executive Order No. 26-02

#### Relief from certain Transportation Restrictions for Wildfire Response

**WHEREAS**, since February 15, 2026, there have been several large wildland fires causing extensive damage to property, including agricultural land, and continuing since that time, weather conditions are such that a risk exists for more wildland fires. The forecast includes the potential for above normal temperatures, high winds, low relative humidity, and fire warnings or watches due to ongoing drought and dry vegetation. Activation of the state emergency operations center and state mission assignments may be needed to support local fire suppression efforts.

**WHEREAS**, these conditions meet the definition of disaster in K.S.A. 48-904, and I verbally declared a state of disaster emergency on February 15, 2026.

**WHEREAS**, on March 2, 2026, the legislature extended this state of disaster emergency to March 25, 2026, in accordance with K.S.A. 48-924(b)(3).

**WHEREAS**, agricultural producers throughout Kansas and in other states are delivering hay and fencing supplies to drop off points or directly to ranches affected by wildfires in multiple locations in Kansas for immediate relief from loss of winter feed supplies and extensive damage to fences. Furthermore, most donated hay will be in large cylindrically shaped bales that constitute loads that exceed the standard width and height.

**NOW, THEREFORE**, pursuant to the authority vested in me as Governor of the State of Kansas, including the authority granted me by K.S.A 48-924 and K.S.A 48-925, to address the conditions noted above, I hereby direct and order the following:

1. Motor carriers participating in restoration and relief efforts must still obtain the requisite over-dimension permits as required by the Kansas Department of Transportation prior to operating; however, the fees associated with these permits are temporarily waived; permits may be obtained at <https://k-trips.ksdot.gov/>;
2. Participating motor carriers bringing foliage for livestock are limited to a load that does not exceed 12 feet in width and does not exceed a height of 14 feet, six inches
3. Participating motor carriers operating under over-dimension permits under this executive order may not haul over-dimension from thirty minutes after sunset to thirty minutes before sunrise.
4. All applicable state and federal regulations shall apply including but not limited to: Title 49 C.F.R. Part 382, Controlled Substances and Alcohol Use and Testing; the Kansas Motor Vehicle Driver's License Act, K.S.A. 8-234 *et. seq.* and Title 49 C.F.R. Part 383 Commercial Driver's License Standards as adopted by the Kansas Uniform Commercial Drivers' License Act, K.S.A. 8-2,125 *et. seq.*, the federal Minimum Levels of Financial Responsibility (insurance requirements) Title 49 C.F.R. Part 387 as adopted by K.A.R. 82-4-3n and state insurance requirements as provided in K.A.R. 82-4-23, and the regulations governing transportation of hazardous materials in Kansas in 49 C.F.R. Part 107, 171, 172, 173, 177, 178 and 180 as adopted by K.A.R. 82-4-20.

This document shall be filed with the Secretary of State as Executive Order No. 26-02 and shall become effective immediately. This order will continue in effect until 11:59 PM on March 25, 2026, or until rescinded, whichever occurs first.

Dated March 2, 2026.

**Authorizing Establishment of Federal Funds**

By virtue of the authority vested in the Governor as the head of the Executive Branch of the State of Kansas, the following transaction is hereby authorized:

Pursuant to the authority of the Secretary of the Kansas Department of Commerce to receive and expend federal funds, and pursuant to the authority granted the Governor by Section 214 of Chapter 117 of *The 2025 Session Laws of Kansas*, approval is hereby granted to the Kansas Department of Commerce for expenditure in FY 2026 of monies in the federal fund entitled "SSBCI Invest in America SBOP."

I have conferred with the Director of the Budget and members of my staff, and I have determined that the guidelines set forth in K.S.A. 75-3711 and 75-3711c have been applied and that none of the forgoing actions exceeds the limitations contained therein.

### Secretary of State

#### Notice of Hearing on Proposed Administrative Regulation

A public hearing will be conducted at 11:00 a.m. Tuesday, May 12, 2026, in the Docking State Office Building Twister conference room, room 126, 915 SW Harrison St., Topeka, Kansas, to review and consider the adoption of a proposed regulation, K.A.R. 7-47-2, of the Secretary of State. The hearing will be conducted in person. Additionally, interested parties wanting to participate remotely may contact Clay Barker at [clay.barker2@ks.gov](mailto:clay.barker2@ks.gov) to obtain remote access information.

This 60-day notice of the public hearing shall constitute a public comment period for the purpose of receiving written public comments on the proposed regulation. Comments may be submitted prior to the hearing to Clay Barker, General Counsel, Office of the Secretary of State, Docking State Office Building, 915 SW Harrison St., Topeka, KS 66612, or to [clay.barker2@ks.gov](mailto:clay.barker2@ks.gov). All interested parties will be given a reasonable opportunity at the hearing to present their views. It may be necessary to request each participant to limit any oral presentation to five minutes.

Any individual with a disability may request accommodation to participate in the public hearing and may request the proposed regulation and economic impact statement in an accessible format. Requests for accommodation should be made at least five days in advance of the hearing by contacting Clay Barker at 785-296-3483 or the Kansas Relay Center at 1-800-766-3777.

Copies of the full text of the regulation and economic impact statement may be obtained at the address above for the Office of the Secretary of State or by contacting Lara Murphy, Director of Administrative Regulations and Publications, at 785-296-0082 or [lara.murphy@ks.gov](mailto:lara.murphy@ks.gov). All proposed regulations open for comment are also available on the Secretary of State's website at [https://www.sos.ks.gov/publications/pubs\\_kar\\_inprocess.aspx](https://www.sos.ks.gov/publications/pubs_kar_inprocess.aspx).

A summary of the proposed regulation and its economic impact follows:

The authorizing statute, K.S.A. 25-3010, requires a regulation "enumerating the specific records and procedures to be examined" as part of the procedural audit conducted in four counties every odd year. K.A.R. 7-47-2 lists the items that will be inspected during the procedural audit in each county election office. There are no economic costs to private businesses and only de minimis costs incurred every odd year by state government and four county governments.

### Kansas Corporation Commission

#### Notice of Hearing on Proposed Administrative Regulations

The Kansas Corporation Commission (Commission) will conduct a public hearing at 10:00 a.m. Thursday, May 14, 2026, via Zoom, to consider the adoption of the proposed rules and regulations of the State Corporation Commission of the State of Kansas on a permanent basis.

This notice exceeds the 60-day notice requirement of the pending public hearing and shall constitute the beginning of the public comment period for the purpose of receiving written public comments on the proposed rules and regulations. A complete copy of the proposed regulations, economic impact statements and online comment form may be found on the State Corporation Commission website at <https://kcc-connect.kcc.ks.gov/s/public-comments>. Public comments will be accepted through 5:00 p.m. May 13, 2026. Comments may be submitted online or by contacting Ahsan Latif at [ahsan.latif@ks.gov](mailto:ahsan.latif@ks.gov) or by letter to Ahsan Latif, Litigation Counsel, State Corporation Commission, 1500 SW Arrowhead Road, Topeka, KS 66604.

All interested parties may participate in the Zoom meeting by registering on the State Corporation Commission website at <https://kcc-connect.kcc.ks.gov/s/public-comments> prior to 12:00 p.m. May 13, 2026. The meeting will also be broadcast on our YouTube channel at <https://www.youtube.com/@kansascorporationcommission>. No registration is required for viewing.

Any individual with a disability may request an accommodation in order to participate in the public hearing and may request the proposed regulations and economic impact statements in an accessible format. Requests for accommodation to participate in the hearing should be made at least five (5) working days in advance of the hearing by contacting the KCC's Office of Public Affairs at 800-662-0027 or the Kansas Relay Center at 1-800-766-3777.

A summary of the proposed regulations and their economic impact follows: (Note: Statements indicating that a regulation is "not anticipated to have an economic impact" are intended to indicate that no economic impact on the State Corporation Commission, other state agencies, state employees, or the general public has been identified.)

#### **K.A.R. 82-4-3a. Hours of service.**

This existing regulation adopts relevant portions of the Federal Motor Carrier Safety Administration (FMCSA) regulations (49 C.F.R. Part 395) which establish the hours of service requirements to be followed by motor carriers and their employees. The proposed amendments to this regulation include edits to reflect minor grammar and form corrections and the most recent updates to FMCSA regulations. The proposed amendments are not anticipated to have an economic impact.

#### **K.A.R. 82-4-3d. Safety fitness procedures.**

This regulation adopts portions of the FMCSA regulations (49 C.F.R. Part 385) governing motor carrier safety fitness procedures. The proposed amendments to this regulation include edits to reflect minor grammar and form corrections and the most recent updates to FMCSA regulations. The proposed amendments are not anticipated to have an economic impact.

**Article 3.—WATERSHED DAM CONSTRUCTION PROGRAM**

**11-3-1. Definitions.** (a) “Appurtenant works” means the following:

- (1) The primary spillway;
  - (2) other conduits through a dam;
  - (3) valves;
  - (4) the auxiliary spillway;
  - (5) the service spillway;
  - (6) the stilling basin;
  - (7) any constructed outlet channel;
  - (8) all dikes and berms designed and constructed to protect a dam;
  - (9) drains; and
  - (10) all other features constructed to protect or operate a dam.
- (b) “Breach” means a gap or an opening in an embankment or auxiliary spillway that results in the complete loss of reservoir storage.
- (c) “Breach analysis” means an analysis performed by a licensed professional engineer to determine the areas that would be inundated if a dam failed.
- (d) “Chief engineer” means the chief engineer, division of water resources, department of agriculture.
- (e) “Decommissioning” means the removal of a dam, the appurtenant works, and the embankment.
- (f) “Detention dam” means a single-purpose dam designed for the temporary storage of floodwaters and for the controlled release of those floodwaters.
- (g) “District” means a watershed district, drainage district, or any other special-purpose district that has been organized and incorporated according to appropriate statutes and has the power to levy taxes and the power of eminent domain.
- (h) “Division” means the division of conservation of the department of agriculture.
- (i) “Embankment” means a dam’s principal barrier made of earth or rock fill or a combination of earth and rock fill.

(j) “General plan” means a preliminary engineering report describing the characteristics of the project area, and the nature and methods of dealing with the soil and water problems within the project area. The general plan shall include maps, descriptions, and other data as necessary for the location, identification, and establishment

of the scope of the work to be undertaken and any other relevant data and information that the chief engineer may require.

(k) “Grade stabilization dam” means a structure designed to control the erosion of a watercourse.

(l) “Hazard” means any situation that creates the potential for adverse consequences that may include loss of life, property damage, and any other adverse impact.

(m) “Inundation area” means the area below a dam that would be inundated with water as determined by conducting a breach analysis.

(n) “Operation and maintenance” means the actions or upkeep, or both, necessary for a dam to continue to function properly, including the following:

(1) Woody vegetation control;

(2) grass seeding;

(3) burrowing animal control;

(4) the repair of minor erosion, cracks, animal burrows, and minor settling;

(5) the care of pipes, piezometers, drains, valves, gates, and other mechanical devices;

(6) the replenishment and proper placement of riprap;

(7) the removal of debris from spillways; and

(8) any other actions necessary for upkeep.

(o) “Permit” means the formal document issued by the chief engineer or other issuing agency to the district authorizing the construction or rehabilitation of a project.

(p) “Project” means the construction or rehabilitation of a detention dam or grade stabilization dam.

(q) “Rehabilitation” means any work, except work required due to inadequate operation and maintenance, to extend the service life of a dam and to meet the applicable safety and performance standards.

(r) “Structure condition report worksheet” means a current physical assessment of a rehabilitation project on a form prescribed by the division. (Authorized by K.S.A. 2-1904 and K.S.A. 2-1915; implementing K.S.A. 2-1915; effective, T-86-43, Dec. 18, 1985; effective May 1, 1986; amended March 24, 2006; amended March 27, 2026.)

**11-3-2. Application for construction.** (a) Any organized watershed district, drainage district, or other special-purpose district interested in state assistance may apply for state cost-share assistance funds appropriated for the construction of detention dams or grade stabilization dams that fall under the jurisdiction of the chief engineer. Each application for state assistance shall be submitted on a form supplied by the division. All applications shall be due at the division office on or before April 1 to be included in the evaluation process for possible funding during the next fiscal year.

(b) Each district submitting an application shall employ or acquire the services of a person knowledgeable of watershed dam construction administrative procedures, who shall be known as the contracting officer for the proposed site. (Authorized by K.S.A. 2-1904 and K.S.A. 2-1915; implementing K.S.A. 2-1915; effective, T-86-43, Dec. 18, 1985; effective May 1, 1986; amended May 1, 1987; amended March 24, 2006; amended March 27, 2026.)

**11-3-3. Permit to construct or rehabilitate.** Before the allocation of funds to any project and before any district advertises for bids, the district shall submit to the division a copy of the permit to construct or rehabilitate, as issued by the chief engineer. (Authorized by K.S.A. 2-1904 and K.S.A. 2-1915; implementing K.S.A. 2-1915; effective, T-86-43, Dec. 18, 1985; effective May 1, 1986; amended March 24, 2006; amended March 27, 2026.)

**11-3-4. Allocation of funds.** (a) An evaluation of applications shall be made by the division to determine the priority ranking for all proposed projects. In addition, an amount that is contingent on appropriations shall be determined for projects in each district and other dams as authorized by the legislature.

(b) The maximum cost-share level for construction or rehabilitation costs, including engineering and inspection costs, shall be 80 percent.

(c) The maximum annual assistance per structure or district shall be determined as follows:

(1) Construction of new dam:

(A) Low hazard (class A): ..... \$200,000

(B) significant hazard (class B): ..... \$350,000

(C) high hazard (class C): ..... \$500,000

(2) Rehabilitation of existing dam:

(A) Low hazard (class A): ..... \$125,000

(B) significant hazard (class B): ..... \$275,000

(C) high hazard (class C): ..... \$500,000

(d) When uncommitted funds are available after all eligible structures have been funded, these uncommitted funds may be used to provide additional cost-sharing above the maximum limit.

(e) Assistance funds shall not be used for easements or administrative costs, except on rehabilitation projects if the division determines that easements within the inundation area are the most cost-effective alternative.

(f) The standard bidding procedures of the department of administration shall be used in the bidding process for approved applications for state assistance.

(g) Adequate accounting and fiscal records shall be maintained by the district to reflect the receipts and expenditures of all funds of the project.

(h) The district shall submit project documents and relevant information as required by the division.

(i) The district shall construct or cause the project to be constructed to final completion in accordance with the plans and specifications approved by the chief engineer. (Authorized by K.S.A. 2-1904 and K.S.A. 2-1915; implementing K.S.A. 2-1915; effective, T-86-43, Dec. 18, 1985; effective May 1, 1986; amended May 1, 1987; amended March 24, 2006; amended March 27, 2026.)

**11-3-5. Contract.** (a) Each contract shall be a fund-obligating document and shall include the contractual provisions required by the division and the state.

(b) Any contract not completed by the end of the fiscal year in which appropriation was made may be extended

upon written request. (Authorized by K.S.A. 2-1904 and K.S.A. 2-1915; implementing K.S.A. 2-1915; effective, T-86-43, Dec. 18, 1985; effective May 1, 1986; amended May 1, 1987; amended March 24, 2006; amended March 27, 2026.)

**11-3-6. Partial payments.** Partial payments of appropriated funds shall be made to the district no more often than once each month. Each partial payment shall be requested on a form furnished by the division. All partial payments shall be documented by the district as directed by the division. (Authorized by K.S.A. 2-1904 and K.S.A. 2-1915; implementing K.S.A. 2-1915; effective, T-86-43, Dec. 18, 1985; effective May 1, 1986; amended March 24, 2006; amended March 27, 2026.)

**11-3-7. Notification of completion.** (a) The district shall notify the division and the chief engineer when the district's approved project is complete and ready for final inspection.

(b) The notification to the division shall include the following:

(1) The date of completion of the project; and

(2) an itemized list of all costs of the following:

(A) Construction or rehabilitation; and

(B) engineering inspections and geological investigations.

(c) The district shall submit a request for final payment of state funds for the project on a form provided by the division, after the issuance of the certificate of completion by the chief engineer. (Authorized by K.S.A. 2-1904 and K.S.A. 2-1915; implementing K.S.A. 2-1915; effective, T-86-43, Dec. 18, 1985; effective May 1, 1986; amended March 24, 2006; amended March 27, 2026.)

**11-3-8. Alterations to project plan.** Each alteration of or change order regarding any original construction or rehabilitation plan shall require the prior approval of the chief engineer and notification to the division. (Authorized by K.S.A. 2-1904 and K.S.A. 2-1915; implementing K.S.A. 2-1915; effective, T-86-43, Dec. 18, 1985; effective May 1, 1986; amended March 24, 2006; amended March 27, 2026.)

**11-3-9. Supplemental application procedures.** Each supplemental request of funds for costs of construction or rehabilitation and engineering costs exceeding the approved funding shall be submitted on a form supplied by the division. (Authorized by K.S.A. 2-1904 and K.S.A. 2-1915; implementing K.S.A. 2-1915; effective, T-86-43, Dec. 18, 1985; effective May 1, 1986; amended May 1, 1987; amended March 24, 2006; amended March 27, 2026.)

**11-3-10. Inspection.** The district shall conduct an annual operation and maintenance inspection of each completed new or rehabilitated state-funded structure and shall file an inspection report on a form provided by the division. The district shall submit a copy of the inspection report to the division and chief engineer. The district shall implement corrective maintenance or repair when needed. (Authorized by K.S.A. 2-1904 and K.S.A. 2-1915; implementing K.S.A. 2-1915; effective, T-86-43, Dec. 18, 1985; effective May 1, 1986; amended March 24, 2006; amended March 27, 2026.)

**11-3-11. Application for rehabilitation.** (a) Any organized watershed district, drainage district, other special-purpose district, or other dam owner as authorized by the legislature that is interested in state assistance may

apply for state cost-share assistance funds appropriated for the rehabilitation of detention dams and grade stabilization dams. Each application for state assistance shall be submitted on a form supplied by the division.

(b) Each applicant shall submit a letter of intent to the division by July 1 for a specific rehabilitation project to be considered for funding in the next fiscal year. The letter of intent shall include the following:

- (1) A preliminary rehabilitation design;
- (2) a preliminary cost estimate for the rehabilitation;
- (3) a cost estimate for a breach analysis;
- (4) the hazard classification; and
- (5) the structure condition report worksheet.

The chief engineer shall be notified upon division receipt of all rehabilitation applications.

(c) At the beginning of each fiscal year, each applicant shall be notified of the applicant's priority ranking by the division. Each applicant with a priority ranking high enough to be selected for possible funding shall complete the detailed design, total cost, and financial assistance funding requirements using forms prescribed by the division.

(d) The components eligible for financial assistance for the dam and appurtenant works, inundation area delineation, or inundation area easements shall include the following:

- (1) The engineering fees;
- (2) the construction or repair of embankments;
- (3) excavation;
- (4) metal, concrete, and other components;
- (5) breach of a dam;
- (6) establishment of permanent vegetation;
- (7) fencing;
- (8) riprap or filter material;
- (9) decommissioning;
- (10) upgrade of a spillway;
- (11) acquisition of inundation area easements;
- (12) inundation area mapping; and
- (13) any other components that the division deems necessary.

(e) Each request for financial assistance for any rehabilitation required because of deficient operation and maintenance shall receive the lowest priority for funding. (Authorized by K.S.A. 2-1904 and K.S.A. 2-1915; implementing K.S.A. 2-1915; effective March 24, 2006; amended March 27, 2026.)

**11-3-12. Application for financial assistance for inundation area mapping.** (a) Any organized watershed district, drainage district, other special-purpose district, or other dam owner authorized by the legislature may apply for state financial assistance for inundation area mapping. Each application shall be submitted on a form prescribed by the division.

(b) Each application for financial assistance for inundation area mapping within a district shall include the following:

(1) The identification of each person whose services will be employed to complete the map;

(2) an acknowledgement that the services specified in paragraph (b) (1) will be conducted by a licensed professional engineer; and

(3) a summary of how the district will use the inundation area map to encourage the prevention of future inundation area development.

(c) Prioritization for funding shall include consideration of the following factors:

(1) The applicant's plan for using the dam inundation map to encourage prevention of future inundation area development;

(2) the amount of funding provided by the district for each inundation area mapping application;

(3) any application that includes a strategic inundation area mapping plan. The plan shall include the district's prioritized mapping completion timelines to address inundation area mapping for all dams in the district; and

(4) other relevant criteria identified by the division that mitigate hazards associated with watershed dams.

(Authorized by K.S.A. 2-1904 and K.S.A. 2-1915; implementing K.S.A. 2-1915; effective March 24, 2006; amended March 27, 2026.)

## State of Kansas

### Department of Agriculture Division of Conservation Permanent Administrative Regulations

#### Article 13.—KANSAS SEDIMENT AND NUTRIENT REDUCTION INITIATIVE

**11-13-1. Definitions.** Each of the following terms, as used in this article of the division of conservation's regulations, shall have the meaning specified in this regulation:

- (a) "Body of water" means federal, state, or local reservoir or lake.
- (b) "Bottomland timber establishment" means the trees planted in floodplains adjacent to perennial streams to provide wildlife habitat and other benefits.
- (c) "Commission" means the State Conservation Commission.
- (d) "CRP" means the conservation reserve program administered by the USDA farm service agency.
- (e) "Director" means the executive director of the division of conservation, Kansas department of agriculture or the executive director's designee.
- (f) "Farmable wetland or farmable wetland buffer" means land eligible for restoration by improving the land's hydrology and vegetation.
- (g) "Filter strip" means a strip or area of grass for removing sediment, organic matter, and other pollutants from runoff and wastewater and for providing food and cover for wildlife.
- (h) "FSA" means the farm service agency in the USDA.
- (i) "Grassed waterway" means a designated strip of grass that is designed to convey runoff and gully erosion for the purpose of improving water quality and providing wildlife habitat.
- (j) "Habitat buffers for upland birds" means a narrow band of native grasses, legumes, forbs, or shrubs, or any combination of these, to provide habitat for bobwhite quail, ring-necked pheasant, and other upland birds and to limit the amount of nutrients, sediment, pesticides, and other contaminants entering water bodies.
- (k) "The initiative" means the Kansas sediment and nutrient reduction initiative and the application requirements for the program specified in this article of the division of conservation's regulations.
- (l) "NRCS" means natural resources conservation service.
- (m) "Practices" means the use of cultural techniques or structures installed or constructed on land for the purpose of improving or maintaining water quality.
- (n) "Riparian herbaceous cover" means grasses, sedges, rushes, ferns, legumes, and forbs tolerant of intermittent flooding or saturated soils, established or managed as the dominant vegetation in the transitional zone between upland and aquatic habitats.
- (o) "Secretary" means the secretary of the Kansas department of agriculture, or the secretary's authorized representative.
- (p) "Shallow water areas for wildlife" means wet areas that have been developed or restored and include 6-18 inches of water depth for wildlife.

(q) "Tree and shrub establishment" means establishing woody plants by planting, by direct seeding, or through natural regeneration.

(r) "Unfarmable field" means the remaining portion of a field in which 51 percent or more of the total acreage has been enrolled in CRP.

(s) "USDA" means United States department of agriculture.

(t) "Wetland restoration" means the restoration of constructed wetlands for the purpose of intercepting tile runoff, reducing nutrient loss, improving water quality, and enhancing agricultural production practices.

(Authorized by and implementing K.S.A. 2-1915; effective June 1, 2018; amended March 27, 2026.)

**11-13-2. Initiative requirements for new applications; funds for existing contracts.** On and after the effective date of this regulation, all new applications for the initiative shall be required to meet the requirements in this article of the division of conservation's regulations. These requirements shall be known as the Kansas sediment and nutrient reduction initiative, which consists of the new requirements for the Kansas water quality buffer initiative. All persons with parcels currently enrolled in the initiative with contracts whose terms have not yet expired shall continue to be paid through funds made available under K.S.A. 2-1915, and amendments thereto, and any other available sources. (Authorized by and implementing K.S.A. 2-1915; effective June 1, 2018; amended March 27, 2026.)

**11-13-3. Selection of applicants for initiative; program eligible areas.** (a) Funding may be distributed to the initiative applicants in eligible areas for proposed projects that meet the eligibility requirements specified in K.S.A. 2-1915 and K.S.A. 2-1933, and amendments thereto.

(b) Program eligible areas shall be set on an annual basis by the director, in consultation with the commission, and approved by the secretary, based on the following factors:

- (1) Sedimentary and nutrient loading of a body of water;
- (2) watershed or drainage area impact on the water quality of a body of water;
- (3) security of publicly used water; and
- (4) nutrient impacts on the recreational uses and aquatic life of a selected body of water.

(c) Program eligible areas shall include the watershed and drainage area of a selected body of water.

(d) The program eligible areas for the next fiscal year shall be announced annually at the commission's March monthly meeting or at a meeting thereafter that occurs before the end of the fiscal year. The program eligible areas shall be posted on the Kansas department of agriculture, division of conservation website. (Authorized by K.S.A. 2-1915; implementing K.S.A. 2-1915 and 2-1933; effective June 1, 2018; amended March 27, 2026.)

**11-13-4. Haying and grazing.** (a) Any eligible initiative applicant shall be allowed to hay or graze a filter strip without penalty after development of a grazing management plan developed in cooperation with the USDA-NRCS.

(b) Any eligible initiative applicant that is authorized to hay or graze, or both, pursuant to an existing CRP contract may conduct these activities upon initiative-eligible land without penalty. (Authorized by K.S.A. 2-1915; implementing K.S.A. 2-1915 and 2-1933; effective June 1, 2018; amended March 27, 2026.)

**11-13-5. Practices eligible for incentive payments.** (a) Any of the following practices may be eligible for incentive payments:

- (1) Grassed waterways;
- (2) shallow water areas for wildlife;
- (3) filter strips;
- (4) riparian buffers;
- (5) wetland restorations;
- (6) improvements to farmable wetland or farmable wetland buffers by utilizing any of the practices listed in this regulation or any other conservation practice approved by the director;
- (7) bottomland timber establishment;
- (8) habitat buffers for upland birds;
- (9) tree and shrub establishment;
- (10) riparian herbaceous cover;
- (11) field borders; or
- (12) other conservation practices that assist in reducing sediment and nutrient loads in water bodies approved by the director.

(b) Participants may receive payments through the initiative in addition to any CRP payments. (Authorized by K.S.A. 2-1915; implementing K.S.A. 2-1915 and 2-1933; effective June 1, 2018; amended March 27, 2026.)

**11-13-6. Incentive payments; refunds.** (a) Incentive payments under the initiative shall be made on a one-time basis. Each incentive payment shall be an upfront payment on all eligible acres enrolled.

(b) Incentive payments shall be set annually by the director, in consultation with the commission, at the commission's March monthly meeting, or at a meeting thereafter that occurs before the end of the fiscal year, based on the following factors:

- (1) CRP rental rates;
- (2) land rental rates from the annual USDA-NASS Kansas county cash rent value statistics;
- (3) current land values;
- (4) current commodity prices; and
- (5) availability of funds.

(c) Any application meeting the requirements of this article may be approved contingent upon the availability of appropriated funds in RW fund 1800-1260, or any other fund that may apply to this program. Funds will remain available until expended to depletion.

(d) The director may make a single lump sum payment for the remaining amount of any contract. Upon a participant's receipt of a lump-sum payment, the participant shall still be responsible for meeting the requirements of all other terms and practices contained in the contract.
