Notice of State Wildlife Grant Applications and Deadlines

Application materials for the State Wildlife Grants Private Land Program are now available from the Kansas Department of Wildlife and Parks (KDWP). State Wildlife Grants (SWG) are funded in part by CFDA 15.634, Fish and Wildlife Service, Department of the Interior, and administered in Kansas by the Kansas Department of Wildlife and Parks. The priority of this program is to fund projects that benefit fish and wildlife and their associated habitats. Federal regulations require that projects benefit Species of Greatest Conservation Need (SGCN), which may include endangered and threatened species listed by the federal government and by the state of Kansas.

KDWP will distribute up to \$400,000 of federal SWG funds and another \$200,000 in nonfederal funds to private landowners to assist with implementing projects competitive subgrants. Those who receive funding will be required to match a minimum of 25 percent of total project costs. This match can either be a cash contribution from a nonfederal source or contributions of labor, materials and equipment use.

To be eligible, proposals must address issues and strategies identified in the Kansas Comprehensive Wildlife Conservation Plan, entitled "A Future for Kansas Wildlife." Higher priority consideration will be given proposals that specifically address the following:

- Restore and/or enhance grasslands. Emphasis will be directed toward tracts that contribute to the development or maintenance of large blocks. Species of Greatest Conservation Need (SGCN) that will benefit include those that are area sensitive or require large home ranges for breeding, including Lesser Prairie-Chicken (Tympanuchus pallidicinctus), Greater Prairie-Chicken (Tympanuchus cupido), Ferruginous Hawk (Buteo regalis), Swainson's Hawk (Buteo swainsoni), Upland Sandpiper (Bartramia longicauda), Grasshopper Sparrow (Ammodramus savannarum), and Swift Fox (Vulpes velox).
- Restore and/or enhance playa lakes and surrounding uplands, with an emphasis directed toward areas supporting high playa densities. SGCN that will benefit include those that require wetland complexes for migration and breeding, including American Avocet (Recurvirostra americana), Northern Pintail (Anas acuta), Lesser Yellowlegs (Tringa flavipes), Whooping Crane (Grus americana), White-rumped Sandpiper (Calidris fusciollis), Least Tern (Sterna antillarum), Green Toad (Bufo debilis), and Northern Cricket Frog (Acris crepitans).
- Restore and/or enhance streams and associated riparian buffers. SGCN that will benefit include those that require complex stream habitats of sufficient quality, including Topeka Shiner (Notropis Topeka), Neosho Mucket (Lampsilis rafinesqueana), Neosho Madtom (Noturus placidus), and Arkansas Darter (Etheostoma cragini).

Applications will be solicited on a continuing basis. Interested landowners should contact KDWP for application materials and for consultation with a program biol-

ogist concerning the proposed project. Applications will be scored based on established ranking criteria to ensure all applicants are considered fairly and that the best projects are chosen. Applications will no longer be accepted in this round once the available funds have been committed.

Landowners interested in participating should contact Roger Wolf, Kansas Department of Wildlife and Parks, Region 2 Office, 300 S.W. Wanamaker Road, Topeka, 6606, (785) 271-7388. Persons with special communication needs may utilize the Kansas Relay Center, (800) 766-3777.

Board of Education

Notice of Hearing on Proposed Administrative Regulations

The State Board of Education will conduct a public hearing at 1:30 p.m. Tuesday, June 8, in the board room of the State Education Building, 120 S.E. 10th Ave., Topeka, to consider proposed amendments to special education regulations numbered K.A.R. 91-40-1 and 91-40-27.

Current state special education regulations have been amended to incorporate the requirements imposed by the new federal special education regulations. The proposed amendments do not impose any requirement that is not set forth in the federal regulations or state laws. The state regulations must conform with the federal regulations in order for the state to receive federal financial assistance for special education.

A summary of the regulations and the economic impact is provided below:

91-40-1. Definition of terms. This regulation defines the term "consent." The proposed amendment adds language to clarify that a parent may revoke consent for a particular service or placement only if the child's IEP team certifies in writing that the child does not need the particular service or placement in order to receive a free appropriate public education.

No economic impact is anticipated for the State Board of Education, school districts, other governmental entities, or for private businesses or individuals.

91-40-27. Parental consent. The proposed amendments to this regulation specify that when a parent revokes consent for services or placement, the services or placement shall not be continued, and the public school shall not be in violation of the requirement to make a free appropriate public education available to the child, be required to convene an IEP meeting or develop an IEP, or be required to amend education records. The proposed amendments also specify that if a parent revokes consent for all special education and related services and subsequently requests services be reinstated, the public school must conduct an initial evaluation of the child.

No economic impact is anticipated for the State Board of Education, school districts, other governmental entities, or for private businesses or individuals.

The 60-day notice of the public hearing shall constitute a public comment period for the purpose of receiving written comments on the proposed amendments to the regulations. All interested persons will be given a reasonable opportunity at the hearing to present their views or arguments, either orally or in writing, in regard to the proposed regulations. Written comments may be submitted by mail to the secretary of the State Board of Education at the address above or by e-mail to pplamann@ksde.org. The hearing shall be conducted in compliance with the public hearing procedures of the State Board of Education.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulations and economic impact statements in an accessible format. Requests for ac-

- (c)(1) Dust samples for clearance purposes shall be taken using one or more of the documented methodologies in K.A.R. 28-72-13(d)(1).
- (2) Dust samples for clearance purposes shall be taken a minimum of one hour after completion of final postabatement or lead hazard control cleanup activities.
- (d) The following postabatement or lead hazard control activities shall be conducted as appropriate, based upon the extent or manner of lead abatement activities conducted in or to the residential dwelling or child-occupied facility:
- (1) After conducting a lead abatement or lead hazard control with containment between abated and unabated areas, one dust sample shall be taken from one window, if available, and at least one dust sample shall be taken from the floors of no fewer than four rooms, hallways, or stairwells within the containment area. In addition, one dust sample shall be taken from the floor outside the containment area. If there are fewer than four rooms, hallways, or stairwells within the containment area, then all rooms, hallways, or stairwells shall be sampled.

- (2) After conducting a lead abatement or lead hazard control in which no containment was utilized, two dust samples shall be taken from no fewer than four rooms, hallways, or stairwells in the residential dwelling or child-occupied facility. One dust sample shall be taken from one window, if available, and one dust sample shall be taken from the floor of each room, hallway, or stairwell selected. If there are fewer than four rooms, hallways, or stairwells within the residential dwelling or child-occupied facility, then all rooms, hallways, or stairwells shall be sampled.
- (3) Following an exterior paint abatement or lead hazard control, a visual inspection shall be conducted. All horizontal surfaces in the outdoor living area closest to the abated surface shall be found to be free of visible dust and debris. In addition, a visual inspection shall be conducted to determine the presence of paint chips on the dripline or next to the foundation below any exterior surface abated. If paint chips are present, they shall be removed from the site and properly disposed of, according to all applicable federal, state, and local requirements.
- (e) The rooms, hallways, or stairwells selected for sampling shall be selected according to one or more of the documented methodologies in K.A.R. 28-72-13(d)(1).
- (f) The risk assessor shall compare the residual lead level, as determined by the laboratory analysis, from each dust sample with applicable clearance levels for lead in dust on floors and windows as established below in this subsection. If the residual lead levels in a dust sample exceed the clearance levels, all the components represented by the failed sample shall be recleaned and retested until clearance levels are met. - (1) Provide the owner of the unit with the pamphlet and renovation notice and comply with one of the following:
- (A) Obtain, from the owner, a written acknowledgment that the owner has received the pamphlet and renovation notice; or
- (B) obtain a certificate of mailing at least seven days before the renovation; and
- (2) if the owner does not occupy the dwelling unit, provide an adult occupant of the unit with the pamphlet and renovation notice, and comply with one of the following:

- (A) Obtain from the adult occupant a written acknowledgment that the occupant has received the pamphlet and renovation notice, or certify in writing that the pamphlet and renovation notice have been delivered to the dwelling and that the renovator has been unsuccessful in obtaining a written acknowledgment from an adult occupant. This certification shall include the following:
 - (i) The address of the unit undergoing renovation;
- (ii) the date and method of delivery of the pamphlet and renovation notice;
- (iii) the names of persons delivering the pamphlet and renovation notice;
- (iv) the reasons for lack of acknowledgment, including the occupant's refusal to sign and unavailability of adult occupants;
 - (v) the signature of the renovator; and

- (B) obtain a certificate of mailing at least seven days before the renovation;
- (2) provide a pamphlet and a renovation notice to each unit of the multifamily housing before the start of renovation. This notification shall be accomplished by distributing written notice to each affected unit. The notice from the renovator shall describe the general nature and locations of the planned renovation activities and the expected starting and ending dates; and
- (3) if the scope, location, or expected starting and ending dates of planned renovation activities change after the initial notification, provide further written notification to the owners and occupants providing revised information on the ongoing or planned activities. This subsequent notification shall be provided before the renovator initiates work beyond that which was described in the original notice.
- (c) Written acknowledgment. Sample language for the written acknowledgments required in paragraphs (a)(1)(A), (a)(2)(A), and (b)(1)(A) shall be provided by the KDHE upon request from the renovator. These acknowledgments shall be written in the same language as that in the text of the contract agreement for the renovation or, in the case of non-owner-occupied target housing, in the same language as that in the lease or rental agreement or the pamphlet and shall include the following:
- (1) A statement recording the owner or occupant's name and acknowledging receipt of the pamphlet and renovation notice before the start of renovation, the address of the unit undergoing renovation, the signature of the owner or occupant as applicable, and the date of the signature; and

- (2) either a separate sheet or part of any written contract or service agreement for the renovation.
 - (d) Lead poisoning prevention poster.

- (A) The dry sanding and the dry scraping of paint in dwellings built before 1978 are dangerous.
- (B) The improper removal of old paint is a significant source of lead dust and the primary cause of lead poisoning.
- (C) Renovators are required by regulation to notify owners and occupants of the hazards associated with lead paint before doing work.

The commercial establishment shall also include contact information so that consumers and renovators can obtain more information.

- (2) Sample posters and materials that commercial establishments may use to comply with this subsection shall be available from KDHE.
- (e) Compliance. A commercial establishment shall be deemed to be in compliance with this regulation if the commercial establishment displays the lead poisoning prevention poster as required in subsection (d) and makes the pamphlet available to its customers.
