- **111-307-5. Wagers.** (a) All wagers at Ultimate Texas Hold'em shall be made by placing gaming chips or, if applicable, a match play coupon on the appropriate abetting areas of the table layout. A verbal wager accompanied by cash shall not be accepted.

- (c) Upon placing an ante wager and a blind wager, a player may also place a trips wager by placing a wager on the designated betting area of the layout. The outcome of the trips wager shall have no bearing on any other wager made by the player at the game of Ultimate Texas Hold'em.
- (d) Play wagers shall be made in accordance with the provisions et forth in these rules.

- **111-307-6. Play.** (a) For the start of play, the dealer shall, starting with the player farthest to his or her left and continuing around the table in a clockwise manner, deal the cards as follows:
- (1) One card face down to each player who has placed wagers.
- (2) One card face down to the area designated for the dealer's hand under a cover card.
- (3) A second card face down to each player who has placed wagers.
- (4) A second card face down to an area designated for the dealer's hand under a cover card.
- (b) After the dealing procedures specified above have been completed, each player shall examine his or her cards without exposing them to any person and replace the cards face down on the layout. The dealer shall then, starting with the player farthest to his or her left and proceeding in a clockwise manner around the table, ask each player if the player wishes to place a play wager prior to the dealing of the first three community cards. The player may either check or place a play wager in an amount equal to three or four times the amount of the player's ante wager.
- (c) If a player places a play wager, the wager shall be placed in the designated play betting area.
- (d) If a player checks, the player shall remain in the game and defer his or her decision to place a play wager to the next betting opportunity.

- (e) Once all players have either placed a play wager or checked, the dealer shall burn the next card. The dealer shall then deal the next three cards in the deck (the flop) face up to the designated area for the community cards.
- (f) After the flop has been dealt, the dealer shall, starting with the player farthest to his or her left and proceeding in a clockwise manner around the table, ask each player who has not placed a play wager if he or she wishes to place a play wager prior to the dealing of the final two community cards. The player may either check or place a play wager in an amount equal to two times the amount of the player's ante wager.
- (g) If a player places a play wager, the wager shall be placed in the designated play betting area.
- (h) If a player checks, the player shall remain in the game and defer his or her decision to place a play wager to the next betting opportunity.
- (i) Once all players have either placed a play wager or checked, the dealer shall burn the next card. The dealer shall then deal the next two cards in the deck face up to the designated area for the community cards.
- (j) After the final two community cards have been dealt, the dealer shall, starting with the player farthest to his or her left and proceeding in a clockwise manner around the table, ask each player who has not yet placed a play wager whether he or she wishes to fold his or her hand or place a play wager equal in amount to his or her ante wager.
- (k) If a player places a play wager, the wager shall be placed in the designated play betting area.
- (l) If a player folds, the ante and blind wagers of the player shall be collected by the dealer and placed in the table inventory container.
- (m) If the player has also placed a trips wager, the dealer shall place the cards of the player face down underneath the player's trips wager pending its resolution at the conclusion of the round of play.
- (n) If the player has not placed a trips wager, the dealer shall immediately spread the cards of the folded hand face down and place them in a discard rack.
- (o) After each player has either folded or placed a play wager, the dealer shall remove the cover card from the top of the dealer's cards and place it on the table layout. The dealer shall then turn his or her two cards face up, position his or her cards near the three community cards that can be used to form the best possible five-card hand and announce the dealer's hand to the players.
- (p) If the dealer's best possible five-card hand is lower than a pair, the dealer shall, starting with the player farthest to the dealer's right who has placed a play wager and proceeding in a counterclockwise manner around the table, return each player's ante wager and resolve all other wagers in accordance with subsection (q) below.
- (q) If the dealer's best possible five-card hand is a pair or above, the dealer shall, starting with the player farthest to the dealer's right who has placed a play wager and proceeding in a counterclockwise manner around the table, turn the two cards of each player who has placed a play wager face up and announce the best possible five-card poker hand that can be formed using the player's two cards and the five community cards. The wagers of each player shall be resolved one player at a time regard-

- less of outcome. After all wagers placed by a player are settled, the player's cards shall then be immediately collected by the dealer and placed in the discard rack.
- (r) If the player's five-card hand is ranked lower than the dealer's five-card hand, the player shall lose and the dealer shall immediately collect any ante, blind and play wagers made by the player and place the wagers in the table inventory container.
- (s) If the player's five-card hand is ranked higher than the dealer's five-card hand, the player shall win and the dealer shall pay any ante, blind and play wagers made by the player in accordance with the payout odds set forth below in the section "payment odds;" provided that the blind wager shall not be paid unless the player's winning hand has a rank of straight or higher.
- (t) If the player's five-card hand and the dealer's fivecard hand are of equal rank, the player's hand shall be a push. In such case, the dealer shall not collect or pay the player's ante, blind, or play wagers.
- (u) After settling a player's ante, blind, and play wagers, the dealer shall settle any trips wager made by the player by determining whether the player's five-card hand qualifies for a payout in accordance with K.A.R. 111-307-7. A winning trips wager shall be paid without regard to the outcome of any other wager made by the player. (Authorized by K.S.A. 2008 Supp. 74-8710 and 74-8748; implementing K.S.A. 2008 Supp. 74-8710; effective, T-111-6-18-10, May 19, 2010.)
- **111-307-7. Payout odds.** (a) A lottery gaming facility manager shall pay each winning ante and play wager at odds of 1 to 1.

- (2) A card that is found face up in the shoe or the deck while the cards are being dealt shall not be used in the game and shall be placed in this discard rack. - (4) If a player is dealt an incorrect number of cards, that player's hand shall be void. If the dealer is dealt an incorrect number of cards, all players' hands shall be void

- (6) If an automated dealing shoe is being used and the device jams, stops dealing cards, or fails to deal cards during a round of play, the round of play shall be void and the cards shall be removed from the device and reshuffled with any cards already dealt, in accordance with procedures approved by the Kansas lottery commission.
- (7) Any automated card shuffling device or automated dealing shoe shall be removed from a gaming table before any other method of shuffling or dealing may be utilized at that table.
