Kansas Development Finance Authority

Notice of Hearing

A public hearing will be conducted at 9 a.m. Thursday, September 16, in the offices of the Kansas Development Finance Authority, 555 S. Kansas Ave., Suite 202, Topeka, on the proposal for the KDFA to issue its Agricultural Development Revenue Bond for the project numbered below in the respective maximum principal amount. The bond will be issued to assist the borrower named below (who will be the owner and operator of the project) to finance the cost in the amount of the bond, which is then typically purchased by a lender bank who then, through the KDFA, loans the bond proceeds to the borrower for the purposes of acquiring the project. The project shall be located as shown:

Project No. 000793—Maximum Principal Amount: \$108,500. Owner/Operator: Trey A. and Jodi K. Bennett. Description: Acquisition of 200 acres of agricultural land and related improvements and equipment to be used by the owner/operator for farming purposes. The project is being financed by the lender for Trey A. and Jodi K. Bennett and is located at the East Half of the Southeast Quarter and the West Half of the Southeast Quarter and the Northeast Quarter of the Southwest Quarter of Section 25, Township 30, Range 21, Crawford County, Kansas, approximately 3 miles north of McCune on Highway 126 and 2 miles west on County Road 540th Ave.

The bond, when issued, will be a limited obligation of the KDFA and will not constitute a general obligation or indebtedness of the state of Kansas or any political subdivision thereof, including the KDFA, nor will it be an indebtedness for which the faith and credit and taxing powers of the state of Kansas are pledged. The bond will be payable solely from amounts received from the respective borrower, the obligation of which will be sufficient to pay the principal of, interest and redemption premium, if any, on the bond when it becomes due.

All individuals who appear at the hearing will be given an opportunity to express their views, and all written comments previously filed with the KDFA at its offices at 555 S. Kansas Ave., Suite 202, Topeka, 66603, will be considered. Additional information regarding the project may be obtained by contacting the KDFA.

Department on Aging

Notice of Hearing on Proposed
Administrative Regulations

A public hearing will be conducted at 9 a.m. Tuesday, November 9, in the Kansas Department on Aging's office, 503 S. Kansas Ave., Topeka, to consider the adoption of proposed rules and regulations of the Kansas Department on Aging (KDOA) on a permanent basis.

This 60-day notice of the public hearing shall constitute a public comment period for the purpose of receiving written public comments on the proposed rules and regulations. All interested parties may submit written comments prior to the hearing to Patsy Samson, Policy Analyst, Kansas Department on Aging, 500 S. Kansas, Topeka, 66603, or by e-mail to Patsy.Samson@aging.ks.gov. All interested parties will be given a reasonable opportunity to present their views orally regarding the adoption of the proposed regulations during the public hearing. In order to provide all parties an opportunity to present their views, it may be necessary to request that each participant limit any oral presentation to five minutes.

Any individual with a disability may request an accommodation in order to participate in the public hearing and may request the proposed regulations and economic impact statement in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting Patsy Samson at (785) 296-0378 or TTY (785) 291-3167. Handicapped parking is located on the east side of the New England Building's entrance on Kansas Avenue.

Summaries of the proposed regulations follow. These regulations will have an economic impact on businesses and consumers of nursing facility care. Copies of the proposed regulations and the economic impact statement for the proposed regulations can be viewed at the following Web site: <http://www.agingkansas.org/index.htm>.

K.A.R. 26-39-100. Definitions. The amendment to this KDOA regulation coincides with the proposed nursing

facility (NF) physical environment regulations listed below, with the following revisions incorporated: (1) Definitions for "addition," "alteration," "minor alteration" and "renovation" of an adult care home have been added or revised; (2) nursing unit in a nursing facility has been redefined to serve no more than 30 residents; and (3) certain terminology has been changed to promote resident-centered care.

K.A.R. 26-39-101. Licensure of adult care homes. The amendment to this KDOA regulation updates regulatory references to coincide with the proposed NF physical environment regulations listed below. In addition, requirements have been removed for providers who are making alterations, remodeling, or relocating required rooms that do not involve structural elements.

K.A.R. 26-39-105. Adoptions by reference. The amendment to this KDOA regulation coincides with the proposed NF physical environment regulations listed below and centralizes adopted standards applicable to adult care homes into a single regulation. Certain materials adopted by reference in existing KDHE NF physical environment regulations have been incorporated into this regulation and updated to reflect current standards.

K.A.R. 26-40-301. Nursing facility physical environment; construction and site requirements. This is a new regulation that updates the standards and terminology that were originally adopted by the Kansas Department of Health and Environment's (KDHE's) K.A.R. 28-39-162. Minor provisions have been added, including requirements for adequate parking and access for service vehicles.

K.A.R. 26-40-302. Nursing facility physical environment; applicants for initial licensure and new construction. This is a new regulation that updates the standards and terminology that were originally adopted by KDHE's K.A.R. 28-39-162a. Please note that requirements established by KDHE's regulation have been separated into two new regulations. K.A.R. 26-40-302 establishes standards for new licensure and new construction, whereas K.A.R. 26-40-303 establishes standards for currently licensed nursing facilities. Changes to requirements for new licensure and new construction reflect the movement in nursing home care to a smaller group of residents living in a home environment. Significant changes in regulatory requirements include an increase in square footage in resident rooms and other certain areas; an increase in the minimum percentage of private rooms from 5 percent to 50 percent; and an increase in the minimum number of resident toilet rooms and showers.

K.A.R. 26-40-303. Nursing facility physical environment; existing nursing facilities. This is a new regulation that adopts the standards that were originally adopted by KDHE's K.A.R. 28-39-162a. This regulation applies only to nursing facilities licensed as of the date this regulation becomes effective and primarily reflects current regulatory standards. However, this regulation does limit the number of residents in a single room to two and will impose minimal changes to other regulatory requirements, e.g., updating the Food Code that is adopted by reference. The regulation has been reformatted and the terminology revised to enable stakeholders to more readily identify and understand regulatory requirements.

K.A.R. 26-40-304. Nursing facility physical environment; details and finishes. This is a new regulation that updates the standards and terminology that were originally adopted by KDHE's K.A.R. 28-39-162b. This regulation is applicable to both new and existing nursing facilities; however, provisions have been included that allow nursing facilities licensed before certain dates specified in the regulation to maintain regulatory compliance. The regulation has been reformatted and includes applicable requirements previously included in other regulations.

K.A.R. 26-40-305. Nursing facility physical environment; mechanical, electrical, and plumbing systems. This is a new regulation that updates the standards and terminology that were originally adopted by KDHE's K.A.R. 28-39-162c. However, most of the technologically-related mechanical, electrical and plumbing requirements included in KDHE's regulation have been replaced with the adoption of professional codes and standards. The regulation also has undergone significant reformatting. Changes to ventilation and lighting requirements reflect recommendations obtained from professional sources.

K.A.R. 28-39-162, K.A.R. 28-39-162a, K.A.R. 28-39-162b and K.A.R. 28-39-162c are being revoked.

The program may be offered at no cost to the nursing facility or long-term care unit or at a fee of not greater than \$10 per registrant to be paid for by the nursing facility or long-term care unit. KDOA will reimburse the entity based on the proposed budget cost per number of participants and the number of actual participants that attend the program.
