Public Notice

The following ICFsMR cost center limits are being set forth for public comment. Comments should be sent to Pam Keller, Program Administrator, Community Supports and Services, 9th Floor, Docking State Office Building, 915 S.W. Harrison, Topeka, 66612. The comment period will expire 30 days from the publication of this notice.

K.A.R. 30-10-214 provides for the annual review and adjustment of Class II ICFsMR cost center limits, approved by the secretary of SRS or designee, based on current cost information supplied by the enrolled, licensed providers of ICF-MR services, and formula set forth in the Kansas State Medicaid Plan (Attachment 4.19-D, Part II, Subpart O, page 1). The formula is as follows: Total allowable costs, including an inflation factor, are compared to the amount to be reimbursed under the current limits. The formula threshold requires that 60 percent of all ICFsMR are reimbursed 90 percent of their allowable costs. If less than 60 percent of the facilities are reimbursed 90 percent of their allowable costs, then the cost center limits are adjusted until the threshold is met. The inflation factor is based on the Global Insight Health-Care Cost Review (formerly Data Resources, Inc. (DRI) — WEFA), National Skilled Nursing Facility Total Market Basket Index.

To determine where to make the adjustments, two major cost centers are analyzed according to the following prescription:

• Administrative costs are based on facility size.

• Habilitation costs are based on facility size and level of care (LOC).

The preliminary cost analysis for 2011 showed that 52 percent of the Class II ICFsMR were being reimbursed 90 percent or more of their allowable costs. Per the state plan the analysis indicates that adjustments were required. Adjustments were made to increase the Administrative and Habilitation cost center limits 9 percent. After adjustments, the cost analysis for 2011 showed that 62 percent of the Class II ICFsMR were being reimbursed 90 percent or more of their allowable costs.

Recommendations

Based on cost report analysis and available funding, cost center limits for Class II ICFsMR are as follows:

Fac	ility Size	Level I	Level II	Level III	Level IV	Level V
A.	+16 beds	\$162.86	\$154.71	\$146.98	\$139.64	\$132.65
B.	9-16 beds	\$204.61	\$194.40	\$184.68	\$175.46	\$166.67
C.	4-8 beds	\$239.39	\$227.42	\$216.04	\$205.24	\$194.98

Administrative per diem limits are based on the size of the facility, using the same classes as referred to above.

Administrative Per Diem Limits

- A. \$12.92
- B. \$30.68
- C. \$36.18

Fiscal Impact

Due to the increase in limits and changes to inflation factors, the estimated annual cost increase is \$319,680.

State Conservation Commission

Notice of 2010 WTAP Program Enrollment

The State Conservation Commission will accept applications under the Water Right Transition Assistance Pilot Project Program (WTAP) during the fall 2010 enrollment period (October 1-November 15).

WTAP is a voluntary, incentive-based program that permanently retires privately held irrigation water rights in exchange for payment by the state of Kansas. WTAP is a pilot program passed by the 2006 Legislature and first funded in FY 2008 that is intended to help restore aquifers and recover stream flows in critically depleted target areas. The designated target areas include Rattlesnake Creek Sub-basin, Prairie Dog Creek Basin and six "High Priority Areas" of Northwest Kansas Groundwater Management District No. 4. The WTAP rules and regulations, target area maps, application forms and other details are posted on the SCC Web site at www.scc.ks.gov.

Approximately \$500,000 is currently available for WTAP grants received during the fall 2010 enrollment. WTAP bids cannot exceed \$2,000 per acre-foot of the calculated historic consumptive water use over the last six years of annual water use of the water right(s) proposed for acceptance. Applications to accept partial water rights also can be considered. The award of WTAP grants for

water-right retirements is based on a competitive bidding process. Applications that propose a financial contribution from a local entity may increase the priority of an application.

More information about WTAP may be obtained by contacting the program administrator electronically at steve.frost@scc.ks.gov or by phone at (785) 296-8964.

The proposed revocations, amendments and adoptions are primarily needed to maintain federal authorization for KDHE to administer the hazardous waste management program. The regulations have been reorganized to avoid redundancy and make it easier for the regulated community to find and compare federal and state requirements.

K.A.R. 28-31-1, 28-31-2, 28-31-3, 28-31-5, 28-31-7, 28-31-8, 28-31-8b, 28-31-9, 28-31-14, 28-31-15 and 28-31-16. Revoked. In general, provisions contained in revoked regulations are moved to proposed new regulations.

K.A.R. 28-31-4. EPA identification numbers; notification requirement for hazardous waste, universal waste, and used oil activities. Most requirements are deleted from this regulation and moved to proposed new regulations. The amended regulation imposes 60-day deadlines for obtaining an EPA ID number if a generator is newly regulated due to a change in law or regulation and for updating information related to EPA ID numbers.

K.A.R. 28-31-6. Registration and insurance requirements for transporters of hazardous waste and used oil. Most requirements are deleted from this regulation and moved to proposed new regulations. The amended regulation imposes a 60-day deadline for updating information related to the transporter's registration.

K.A.R. 28-31-10. Hazardous waste monitoring fees. The fee structure is revised to conform to the new generator categories. There is no change in fees; each facility, transporter, and generator will pay the same fees that they paid under the old regulation.

K.A.R. 28-31-12. Inspections. Amendments clarify that the department has the authority to test and analyze waste-like materials.

K.A.R. 28-31-13. Variances. Amendments clarify that Kansas may only grant a variance to requirements that

are broader in scope or more stringent than the Federal requirements. Redundant language concerning emergency variances is deleted.

K.A.R. 28-31-100 through 28-31-100s. Substitution of state terms for federal terms. These proposed new regulations contain the provisions for substituting state terms for federal terms in the regulations that are adopted by reference.

Adoptions by Reference:

The following proposed new regulations adopt federal regulations by reference: K.A.R. 28-31-124, -260, -261, -262, -263, -264, -265, -266, -267, -268, -270, -273 and -279. The proposed adoptions contain detailed exclusions and modifications and change the adoption date from July 1, 2000 to July 1, 2006.

K.A.R. 28-31-124. Procedures for permitting; adoption and modification of federal regulations. This proposed new regulation adopts the provisions of 40 CFR 124.11 through 124.17 and Part 124 Subparts B and G that apply to the hazardous waste program. Subpart G, concerning standardized permits, was added after the date of the last Kansas adoption of the federal regulations. This regulation imposes no new requirements.

K.A.R. 28-31-124a through 28-31-124e. The following proposed new regulations contain the provisions of 40 CFR 124 Subpart A that apply to the Kansas hazardous waste program but are not adopted by reference in addition to provisions from regulations that are proposed for revocation. These regulations impose no new requirements.

- K.A.R. 28-31-124a. Procedures for permitting; application for a permit.
- K.A.R. 28-31-124b. Procedures for permitting; modification, revocation and reissuance, or termination of permits.
- K.A.R. 28-31-124c. Procedures for permitting; draft permits.
- K.A.R. 28-31-124d. Procedures for permitting; fact
- K.A.R. 28-31-124e. Procedures for permitting; public notice of permit actions and public comment period.

K.A.R. 28-31-260. General provisions and definitions; adoption and modification of federal regulations. This proposed new regulation adopts 40 CFR Part 260 by reference and imposes no new requirements. The federal definition of "small quantity generator" (SQG) is replaced with a more detailed definition that corresponds to the federal SQG definition. This new definition is part of the restructuring of the generator classes discussed under K.A.R. 28-31-260a.

K.A.R. 28-31-260a. General provisions and definitions; additional state definitions. This proposed new regulation contains definitions specific to the Kansas hazardous waste program.

The current Kansas regulations address three classes of generators: small quantity generators, Kansas generators, and EPA generators. Due to stringency and consistency issues concerning how Kansas generators have been regulated, the proposed generator regulations are structured around four classes of generators. This regulation adds the following new definitions: "conditionally exempt

small quantity generator" (CESQG); "Kansas small quantity generator" (KSQG); and "large quantity generator" (LQG). These definitions, together with the modified definition of "small quantity generator" (SQG) adopted by K.A.R. 28-31-260a, define the new structure of the hazardous waste generator classes.

The term "conditionally-exempt small quantity generator" replaces the term "small quantity generator." The "Kansas generator" category is divided into two new categories: "Kansas small quantity generator" and "small quantity generator." The term "large quantity generator" replaces the term "EPA generator." The change in names for the generator groups will make it easier for the regulated community to understand the relationship between the federal and Kansas generator groups.

The regulation also adds the definitions "Kansas hazardous waste facility permit," "Kansas hazardous waste program," "Kansas licensed geologist," "Kansas professional engineer," and definitions that address the difference in effective dates for HSWA provisions (authorized by the Hazardous and Solid Waste Amendments) and non-HSWA provisions.

K.A.R. 28-31-261. Identification and listing of hazardous waste; adoption and modification of federal regulations. This proposed new regulation adopts 40 CFR Part 261 by reference. Where possible, provisions concerning generation and accumulation limits have been modified to ease the regulatory burden; where necessary, provisions have been strengthened to ensure the KDHE regulations are as stringent as the federal regulations and to simplify compliance with the regulations.

K.A.R. 28-31-261a. Identification and listing of hazardous waste; additional state requirements. This proposed new regulation defines "commercial chemical product."

K.A.R. 28-31-262. Generators of hazardous waste; adoption and modification of federal regulations. This proposed new regulation adopts 40 CFR Part 262 by reference. Changes address EPA's concerns about less stringent provisions and remove provisions that were either redundant or in conflict with the federal regulations. Changes in quantity determinations could reduce costs for some generators. Exception reporting for KSQGs and SQGs and the Biennial Report require less paperwork. Closure requirements for KSQGs and tank inspection requirements for SQGs are reduced. The SQG accumulation time limit is 180 days (or 270 days in certain cases) and the quantity limit is 6,000 kg. If an SQG exceeds the accumulation amount or time, the facility must obtain a permit.

K.A.R. 28-31-262a. Generators of hazardous waste; additional state requirements. This proposed new regulation contains requirements for hazardous waste generators beyond those addressed in 40 CFR 262. Changes reflect more clearly how reporting requirements are implemented. Specific language regarding CESQG disposal options provides more information to the regulated community and makes the regulation easier to comply with.

SQGs and KSQGs have new requirements concerning when hazardous waste training must be provided to employees and how the records of the training must be kept. This training will take about two hours each year per employee and is estimated to cost the regulated community approximately \$280,000/yr.

Reduced manifesting requirements for KSQGs, decreased inspection frequencies for KSQGs and CESQGs, and reduced requirements for KSQGs that exceed the 1000 kg accumulation limit will retain standards that are at least as stringent as federal requirements while providing the regulated community an estimated \$880,000/yr in savings.

K.A.R. 28-31-263. Transporters of hazardous waste; adoption and modification of federal regulations. This proposed new regulation adopts 40 CFR Part 263 by reference. It results in no substantive changes to the requirements for transporters.

K.A.R. 28-31-263a. Transporters of hazardous waste; additional state requirements. This proposed new regulation contains requirements for hazardous waste transporters beyond those addressed in 40 CFR 263. The revised applicability retains standards that meet the statutory requirements of K.S.A. 65-3431(o) while providing the regulated community an opportunity for reducing operating costs.

K.A.R. 28-31-264. Hazardous waste treatment storage and disposal facilities; adoption and modification of federal regulations. This proposed new regulation adopts 40 CFR Part 264 by reference. The proposed modification requires facilities to continue to adjust postclosure care cost estimates for inflation during the postclosure period, ensuring that enough money is available to monitor, maintain and remediate hazardous waste sites. This change will apply to 10 hazardous waste facilities in Kansas. The estimated fiscal impact of approximately \$5,000 per year for the regulated community as a whole is not evenly distributed and will vary according to each company's cost estimates and inflation. This amount would increase each year with continued inflation. Since four of the 10 facilities are already voluntarily adjusting for inflation, the actual increase in cost would be even less than the estimate.

K.A.R. 28-31-264a. Hazardous waste treatment storage and disposal facilities; additional state requirements. Standards in this proposed new regulation ensure that each financial institution providing financial assurance meets industry standards for a facility doing business in Kansas. The financial institution that provides a purchased financial instrument must not have any ownership of or any controlling interest in the hazardous waste facility. Insurance companies may not be a captive insurance company. The new financial assurance requirements will not have any impact on the financial assurance instruments that hazardous waste facilities currently have on file with KDHE.

K.A.R. 28-31-265. Interim status hazardous waste treatment storage and disposal facilities; adoption and modification of federal regulations. This proposed new regulation adopts 40 CFR Part 265 by reference. Facilities are required to adjust postclosure care cost estimates for inflation during the post-closure period. There are no economic impacts beyond those discussed under 28-31-264.

K.A.R. 28-31-265a. Interim status hazardous waste treatment storage and disposal facilities; additional

(continued)

state requirements. This proposed new regulation states that interim status facilities are subject to the proposed requirements of K.A.R. 28-31-264a. There is no economic impact beyond that discussed under 28-31-264a.

K.A.R. 28-31-266. Specific hazardous wastes and specific types of hazardous waste management facilities; adoption and modification of federal regulations. This proposed new regulation adopts 40 CFR 266 by reference. It imposes no new requirements and will not have any economic impact.

K.A.R. 28-31-267. Hazardous waste facilities operating under a standardized permit; adoption and modification of federal regulations. This proposed new regulation adopts 40 CFR Part 267, which did not exist at the time the federal regulations were last adopted by reference in Kansas. A standardized permit is a special kind of permit that will be available to certain facilities that manage hazardous waste in tanks, containers and containment buildings. Adding standardized permits to the Kansas program should help to streamline the permitting process for these facilities, reducing costs both to facilities seeking a permit and to KDHE in developing these permits.

K.A.R. 28-31-267a. Hazardous waste facilities operating under a standardized permit; additional state requirements. This proposed new regulation states that facilities that operate under a standardized permit are subject to the proposed requirements of K.A.R. 28-31-264a. There will be no economic impact beyond that discussed under 28-31-264a.

K.A.R. 28-31-268. Land disposal restrictions; adoption and modification of federal regulations. This proposed new regulation adopts 40 CFR 268 by reference. It imposes no new requirements and will not have any economic impact.

K.A.R. 28-31-270. Hazardous waste permits; adoption and modification of federal regulations. This proposed new regulation adopts 40 CFR 270 by reference. It adopts Subpart H which addresses Remedial Action Plans (RAPs), a form of permit that accommodates the special needs of facilities that must treat, store or dispose of remediation waste. The availability of RAPs should reduce the compliance costs for these facilities as well as reduce permit approval costs for KDHE.

K.A.R. 28-31-270a. Hazardous waste permits; petition to be granted an exception to the prohibition against underground burial of hazardous waste. This proposed new regulation contains the provisions that had been in K.A.R. 28-31-5, which is proposed to be revoked. Any exception from the prohibition against underground burial of hazardous waste must be obtained prior to applying for a permit. This regulation imposes no new requirements.

K.A.R. 28-31-273. Universal waste; adoption and modification of federal regulations. This proposed new regulation adopts 40 CFR 273 by reference, adding mercury-containing equipment (MCE) as a new universal waste. In general, the universal waste handling requirements are less burdensome than those for hazardous waste. The addition of MCE to Kansas' universal waste program will facilitate MCE collection and will likely reduce the amount of mercury going to landfills and incinerators.

K.A.R. 28-31-279. Used oil; adoption and modification of federal regulations. This proposed new regulation adopts 40 CFR 279 by reference. Spill response requirements are modified to require cleanup regardless of when the spill occurred, removing language that contradicts state statutes.

K.A.R. 28-31-279a. Used oil; additional state prohibitions and requirements. This proposed new regulation contains Kansas' additional used oil prohibitions. The regulation no longer requires sellers of use oil to display a sign concerning used oil collection and recycling. This proposed new regulation imposes no new requirements.

Economic Impact:

Changes to the regulations will impose increased costs to the regulated community of approximately \$285,000 per year, which are more than offset by savings of at least \$880,000 per year. Therefore, these regulations will result in a net savings to the regulated community of \$595,000 per year or more. The proposed regulations are not anticipated to result in any additional costs to KDHE or other state agencies.

The time period between the publication of this notice and December 17 serves as the required public comment period of at least 60 days for the purpose of receiving written public comments on the proposed regulatory action. All interested parties may submit written comments prior to 5 p.m. December 17 to Christine Mennicke, Kansas Department of Health and Environment, Bureau of Waste Management, 1000 S.W.
