Kansas Development Finance Authority

Notice of Hearing

A public hearing will be conducted at 9 a.m. Wednesday, November 24, in the offices of the Kansas Development Finance Authority, 555 S. Kansas Ave., Suite 202, Topeka, on the proposal for the KDFA to issue its Agricultural Development Revenue Bond for the project numbered below in the respective maximum principal amount. The bond will be issued to assist the borrower named below (who will be the owner and operator of the project) to finance the cost in the amount of the bond, which is then typically purchased by a lender bank who then, through the KDFA, loans the bond proceeds to the borrower for the purposes of acquiring the project. The project shall be located as shown:

Project No. 000798—Maximum Principal Amount: \$200,000. Owner/Operator: Derik M. Klaassen. Description: Acquisition of 160 acres of agricultural land and related improvements and equipment to be used by the owner/operator for farming purposes. The project is being financed by the lender for Derik M. Klaassen and is located at the Southeast Quarter of Section 10, Township 21 South, Range 1 West, McPherson County, Kansas, approximately 4 miles west of Goessel and 1 mile south on 28th Avenue.

The bond, when issued, will be a limited obligation of the KDFA and will not constitute a general obligation or indebtedness of the state of Kansas or any political subdivision thereof, including the KDFA, nor will it be an indebtedness for which the faith and credit and taxing powers of the state of Kansas are pledged. The bond will be payable solely from amounts received from the respective borrower, the obligation of which will be sufficient to pay the principal of, interest and redemption premium, if any, on the bond when it becomes due.

All individuals who appear at the hearing will be given an opportunity to express their views concerning the proposal to issue the bond to finance the project, and all written comments previously filed with the KDFA at its offices at 555 S. Kansas Ave., Suite 202, Topeka, 66603, will be considered. Additional information regarding the project may be obtained by contacting the KDFA.

Enbridge Pipelines (Ozark) LLC has applied for a Class I operating permit renewal in accordance with the provisions of K.A.R. 28-19-510 et seq. The purpose of a Class I permit is to identify the sources and types of regulated air pollutants emitted from the facility; the emission limitations, standards and requirements applicable to each source; and the monitoring, record keeping and reporting requirements applicable to each source as of the effective date of permit issuance.

Enbridge Pipelines (Ozark) LLC, 119 N. 25th St. East, Superior, WI 54880, owns and operates a crude oil storage terminal located at 1480 Purity Springs S.W., El Dorado, KS 67042.

A copy of the proposed permit, permit application, all supporting documentation and all information relied upon during the permit application review process is available for a 30-day public review during normal business hours at the KDHE, Bureau of Air, 1000 S.W. Jackson, Suite 310, Topeka; and a copy of the proposed permit can be reviewed at the KDHE South Central District Office, 130 S. Market, Suite 6050, Wichita. To obtain or review the proposed permit and supporting documentation, contact Kristin R. Fritchman, (785) 368-6683, at the KDHE central office; and to review the proposed permit only, contact David Butler, (315) 337-6042, at the KDHE South Central District Office. The standard departmental cost will be assessed for any copies requested.

Direct written comments or questions regarding the proposed permit to Kristin R. Fritchman, KDHE, Bureau of Air, 1000 S.W. Jackson, Suite 310, Topeka, 66612-1366. In order to be considered in formulating a final permit decision, written comments must be received before the close of business December 13.

A person may request a public hearing be held on the proposed permit. The request for a public hearing shall be in writing and set forth the basis for the request. The written request must be submitted to Sharon Burrell, Bureau of Air, not later than the close of business December 13 in order for the Secretary of Health and Environment to consider the request.

The U.S. Environmental Protection Agency has a 45-day review period, which will start concurrently with the 30-day public comment period, within which to object to the proposed permit. If the EPA has not objected in writing to the issuance of the permit within the 45-day review period, any person may petition the administrator of the EPA to review the permit. The 60-day public petition period will directly follow the EPA's 45-day review period. Interested parties may contact KDHE to determine if the EPA's 45-day review period has been waived.

Any such petition shall be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided for in this notice, unless the petitioner demonstrates that it was impracticable to raise such objections within such period, or unless the grounds for such objection arose after such period. Contact Patricia Scott, U.S. EPA, Region VII, Air Permitting and Compliance Branch, 901 N. 5th St., Kansas City, KS 66101, (913) 551-7312, to determine when the 45-day EPA review period ends and the 60-day petition period commences.

The Kansas Department of Health and Environment is soliciting public input regarding approval of the revised Post-Closure Plan and Sampling and Analysis Plan for the closed acid neutralization pond and the closed slop oil emulsion pond at the Williams Petroleum Services, LLC (Williams) facility located at 2nd and Oak St., Augusta. KDHE intends to approve the plans after the public comment period, November 12-December 11.

The acid neutralization and slop oil emulsion ponds were closed following sludge removal in 1988 and are under interim status with respect to RCRA Subtitle C. The acid neutralization pond received spent acids and caustics from refinery operations. The slop oil emulsion pond was utilized to dispose of a mixture of crude oil and water that did not readily separate. Following closure, volatile organic compounds (VOCs), semivolatile organic compounds (SVOCs) and heavy metals were detected in the groundwater below the former surface impoundments. The groundwater contamination plume in this area extends from the regulated units off-site to the southeast. Williams has been monitoring this contamination through quarterly or semiannual groundwater sampling following a KDHE-approved plan since 1989.

The proposed Post-Closure Plan and Sampling and Analysis Plan currently under public review were submitted in response to the October 2009 Groundwater Monitoring System Operation and Maintenance Inspection Report (2009 O&M Report). The plans were revised by updating site maintenance activities that are currently utilized at the site. Additional revisions to the plans include changes to the monitoring well network, changes to the groundwater sampling method, and changes to the post-closure cost estimate.

The Post-Closure Plan and Sampling and Analysis Plan are available for public review at the Augusta Public Library, 1609 State St., Augusta, and at the KDHE Bureau of Waste Management Office, 1000 S.W. Jackson, Suite 320, Topeka. Written public comments on the revised plans must be postmarked during the 30-day public comment period. Any request for a public hearing must be received by December 11.

The public may submit comments, requests for additional information or requests for a public hearing to Mostafa Kamal, KDHE, Bureau of Waste Management, Hazardous Waste Permitting Section, 1000 S.W. Jackson, Suite 320, Topeka, 66612, (785) 296-1609 or mkamal@kdheks.gov. Following the receipt of the public comments, KDHE intends to approve the plans. Any public concerns expressed during the comment period will be considered prior to KDHE approval of the plans.
