A PDF (1MB maximum size) of the interest response must be e-mailed to David J. Nagy, P.E., Assistant to the Bureau Chief of Design/ Contracts Engineer, at DavidN@ksdot.org. Interest responses shall be limited to four pages, the PDF file name and the subject line of the e-mail must read "Firm Name Cat. 333 Aviation Pavement Study LOI," and must be received by noon March 3 for the consulting engineering firm or team to be considered.

### Category 333 Aviation Pavement Study (AV-0011-01, AV-0012-01, AV-0013-01)

The Kansas Department of Transportation's Division of Aviation is seeking a service provider (consultant) to utilize methodologies approved by the Federal Aviation Administration (FAA) to perform pavement condition reports/analysis for updating airport system planning data that will be used to assist in the continued development of airport capital improvement plans. The three-year project study (AV-0011-01, AV-0012-01, AV-0013-01) of all airport pavements in the state will use MicroPAVER technology to conduct PCI inspections and report on historical data and future needs for each of the Kansas airports with paved aircraft operation surfaces. Attention should be given to construction and maintenance history, per-

formance models, current condition reports, and funding sources for predicted repairs. The work provided by the consultant or consultant team will be used to assist in the continued development of airport capital improvement plans and will assist airport sponsors in updating their pavement management plans, as required under their federal grant assurances.

The Consultant Shortlist Committee will select several of the most highly qualified firms expressing interest and schedule an individual interview. The consulting firms can more thoroughly discuss their qualifications, experience related to project(s), their approach to general project(s) design work, available schedule and the personnel qualifications at the interview. Firms not selected to be short-listed will be notified. Categories may be viewed at www.ksdot.org/divengdes/prequal.

The Consultant Selection Committee, appointed by the Secretary of Transportation, will conduct the discussions with the firms invited to the individual interview conferences. The committee will select several firms based on qualifications to perform the professional services required for completing projects on an on-call basis. After the selection, the firms not selected will be notified of the outcome.

It is KDOT's policy to use the following criteria as the basis for selection of the consulting engineering firms:

- 1. Size and professional qualifications.
- 2. Experience of staff.
- 3. Location of firm with respect to proposed project(s).
- 4. Work load of firm.
- 5. Firm's performance record.

The firm's accounting systems must have the following capabilities before the firm may be awarded a contract:

- Valid, reliable and current costs must be available within the system to support cost and pricing data.
- Capability to provide a means of measuring the reasonableness of incurred costs.
- Capability to identify and accumulate allowable costs by contract or project records that will reconcile with the general ledger.
- Ability to provide supporting documentation of actual expenditures for each billing, based on costs.

# Notice of Hearing on Proposed Administrative Regulations

A public hearing will be conducted at 1:30 p.m. Thursday, April 21, in the third floor conference room, Kansas Insurance Department, 420 S.W. 9th, Topeka, to consider the adoption of a proposed rule and regulation.

The 60-day notice of the public hearing shall constitute a public comment period for the purpose of receiving written public comments on the proposed rule and regulation. All interested parties may submit written comments prior to the hearing to John Wine, Kansas Insurance Department, 420 S.W. 9th, Topeka, 66612-1678, via facsimile at (785) 291-3673, or via e-mail at jwine@ksinsurance.org. All interested parties will be given a reasonable opportunity to present their views orally on the adoption of the proposed regulation during the hearing.

A summary of the proposed regulation and its economic impact follows:

K.A.R. 40-10-16. Firefighters relief act; fund allocation. This proposed regulation prescribes the formula to be used by KID when making the annual redetermination allocation for Firefighters Relief Associations (FRAs); the formula used calculating new base allocation percentages; and the method for computing the distribution of FRA relief funds. These calculations also will be used for new, merged and requalified FRAs.

The economic impact, if any, would be minimal because this methodology has already been used by KID in annual redetermination orders issued the past two years. There will be little or no economic impact on the Kansas Insurance Department, consumers, small businesses or other governmental agencies.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulation and the economic impact statement in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting John Wine at (785) 296-7847 or via e-mail at jwine@ksinsurance.org. Any individual desiring a copy of this regulation and/or the policy and procedure that is being adopted by reference, if applicable, may obtain a copy from the department's Web site, www.ksinsurance.org (under the Legal Issues link), or by contacting John Wine. The charge for copies is 50 cents per page.

## **Request for Comments**

The Kansas Department of Health and Environment is soliciting comments regarding a proposed air quality operating permit and amending previously issued construction approval. SPX Cooling Technologies has applied for a Class I operating permit in accordance with the provisions of K.A.R. 28-19-510 et seq. The purpose of a Class I permit is to identify the sources and types of regulated air pollutants emitted from the facility; the emission limitations, standards and requirements applicable to each source; and the monitoring, record keeping and reporting requirements applicable to each source as of the effective date of permit issuance. Notice also is given that certain requirements in the construction approval dated October 20, 2005, are being modified by a modification of approval conditions.

PX Cooling Technologies, 1200 W. Marley Road, Olathe, KS 66061, owns and operates a cooling tower facility located at 1200 and 1400 W. Marley Road, Olathe.

A copy of the proposed permit, permit application, all supporting documentation, all information relied upon during the permit application review process, and a copy of the modification of approval conditions are available for a 30-day public review during normal business hours at the KDHE, Bureau of Air, 1000 S.W. Jackson, Suite 310, Topeka; and a copy of the proposed permit can be reviewed at the Johnson County Environmental Department, 11811 S. Sunset, Suite 2700, Olathe. To obtain or review either document, contact Kristin R. Fritchman, (785) 368-6683, at the KDHE central office; and to review the proposed permit only, contact Mike Boothe, (913) 715-6939, at the Johnson County Environmental Department. The standard departmental cost will be assessed for any copies requested.

Direct written comments or questions regarding the documents to Kristin R. Fritchman, KDHE, Bureau of Air, 1000 S.W. Jackson, Suite 310, Topeka, 66612-1366. In order to be considered in formulating final document decisions, written comments must be received before the close of business March 21.

A person may request a public hearing be held on the proposed documents. The request for a public hearing shall be in writing and set forth the basis for the request. The written request must be submitted to Sharon Burrell, Bureau of Air, not later than the close of business March 21 in order for the Secretary of Health and Environment to consider the request.

The U.S. Environmental Protection Agency has a 45-day review period, which will start concurrently with the 30-day public comment period, within which to object to the proposed permit. If the EPA has not objected in writing to the issuance of the permit within the 45-day review period, any person may petition the administrator of the EPA to review the permit. The 60-day public petition period will directly follow the EPA's 45-day review period. Interested parties may contact KDHE to determine if the EPA's 45-day review period has been waived.

Any such petition shall be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided for in this notice, unless the petitioner demonstrates that it was impracticable to raise such objections within such period, or unless the grounds for such objection arose after such period. Contact Harriet Jones, U.S. EPA, Region VII, Air Permitting and Compliance Branch, 901 N. 5th St., Kansas City, KS 66101, (913) 551-7097, to determine when the 45-day EPA review period ends and the 60-day petition period commences.

## Public Notice No. KS-GP-11-001

# Type Of PermitLegal LocationPesticides General PermitState of Kansas

General Permit No. G-KPGP-0411-1 Federal Permit No. KSG870001

The Kansas Department of Health and Environment has prepared a Kansas Water Pollution Control and National Pollutant Discharge Elimination System general permit for discharges from the application of pesticides to, over or near waters of the United States within the borders of Kansas, except for Indian lands.

This general permit authorizes coverage for four specific pesticide use patterns as well as providing automatic coverage for pesticide research and development activities. The four specific pesticide use patterns are: mosquito and other flying or aquatic insect pest control; weed, algae, pathogen or fish parasite control; nuisance animal control; and forest canopy pest control. This general permit does not address or regulate pesticide application activities associated with conventional terrestrial agricultural practices that continue to be regulated through the requirements and provisions of FIFRA and/or the Kansas Pesticide Law. Discharges from the application of pesticides to waters of the United States for pesticide use patterns not listed in this permit, or approved by KDHE, and violations of this general permit are violations of the Clean Water Act (ČWA) and Kansas law. This general permit mirrors the scope and extent of the discharges from pesticide application activities being addressed in the EPA's draft pesticide general permit and fact sheet published in the June 4, 2010 Federal Register and announced amendments since that date.

The general permit describes the conditions under which a formal application [Notice of Intent (NOI)] is required. This general permit provides a one-year program startup period during which all operators are automatically covered for discharges from the application of pesticides for a designated pesticide use pattern during the period of April 9, 2011 through April 8, 2012. During this interim period, operators must comply with the provisions of this general permit and also with the special conditions that apply to operators proposing a discharge within .25 mile of a public water supply surface water intake or in, over or near an Outstanding National Resource Water (ONRW). After April 8, 2012, operators proposing to apply pesticides to a water of the United States for one of the designated pesticide use patterns, that triggers an annual treatment area threshold criteria, or that are proposing to discharge in, over or near an ONRW, or are proposing to discharge within .25 mile of a public water supply surface water intake are required to submit an NOI and \$60 permit fee. All other operators under this general permit continue to be automatically covered.

All operators covered by this general permit must comply with technology-based and water-quality based effluent limitations, standard conditions and monitoring, reporting, record keeping and document retention requirements. Coverage under this general permit does not negate the requirements of any federal or Kansas law, statute or regulation and specifically references FIFRA, the Kansas Agricultural Chemical Act, and the Kansas Pesticide Law. Copies of the Kansas Pesticide general permit and supporting documents can be found at the KDHE-Industrial Programs Section Web site at www.kdheks.gov/indust/index.htm.
