Department of Transportation

Notice to Consulting Engineers

The Kansas Department of Transportation is seeking qualified consulting engineering firms or teams, prequalified in Category 333—Geotechnical Specialist, for a three-year study of all airport pavements in the state with project scope as listed below. A PDF (1MB maximum size) of the interest response must be e-mailed to David J. Nagy, P.E., Assistant to the Bureau Chief of Design/Contracts Engineer, at DavidN@ksdot.org. Interest responses shall be limited to four pages, the PDF file name and the subject line of the e-mail must read "Firm Name — Cat. 333 Aviation Pavement Study LOI," and must be received by noon March 3 for the consulting engineering firm or team to be considered.

Category 333 Aviation Pavement Study (AV-0011-01, AV-0012-01, AV-0013-01)

The Kansas Department of Transportation's Division of Aviation is seeking a service provider (consultant) to utilize methodologies approved by the Federal Aviation Administration (FAA) to perform pavement condition reports/analysis for updating airport system planning data that will be used to assist in the continued development of airport capital improvement plans. The three-year project study (AV-0011-01, AV-0012-01, AV-0013-01) of all airport pavements in the state will use MicroPAVER technology to conduct PCI inspections and report on historical data and future needs for each of the Kansas airports with paved aircraft operation surfaces. Attention should be given to construction and maintenance history, performance models, current condition reports, and funding sources for predicted repairs. The work provided by the consultant or consultant team will be used to assist in the continued development of airport capital improvement plans and will assist airport sponsors in updating their pavement management plans, as required under their federal grant assurances.

The Consultant Shortlist Committee will select several of the most highly qualified firms expressing interest and schedule an individual interview. The consulting firms can more thoroughly discuss their qualifications, experience related to project(s), their approach to general project(s) design work, available schedule and the personnel qualifications at the interview. Firms not selected to be short-listed will be notified. Categories may be viewed at www.ksdot.org/divengdes/prequal.

The Consultant Selection Committee, appointed by the Secretary of Transportation, will conduct the discussions with the firms invited to the individual interview conferences. The committee will select several firms based on qualifications to perform the professional services required for completing projects on an on-call basis. After the selection, the firms not selected will be notified of the outcome.

It is KDOT's policy to use the following criteria as the basis for selection of the consulting engineering firms:

- 1. Size and professional qualifications.
- 2. Experience of staff.
- 3. Location of firm with respect to proposed project(s).
- 4. Work load of firm.
- 5. Firm's performance record.

The firm's accounting systems must have the following capabilities before the firm may be awarded a contract:

- Valid, reliable and current costs must be available within the system to support cost and pricing data.
- Capability to provide a means of measuring the reasonableness of incurred costs.
- Capability to identify and accumulate allowable costs by contract or project records that will reconcile with the general ledger.
- Ability to provide supporting documentation of actual expenditures for each billing, based on costs.

Department of Health and Environment

Request for Comments

The Kansas Department of Health and Environment is soliciting comments regarding a proposed air quality operating permit and amending a previously issued construction approval. Westar Energy, Inc. — Emporia Energy Center has applied for a Class I operating permit in accordance with the provisions of K.A.R. 28-19-510 et seq. The purpose of a Class I permit is to identify the sources and types of regulated air pollutants emitted from the facility; the emission limitations, standards and requirements applicable to each source; and the monitoring, record keeping, and reporting requirements applicable to each source as of the effective date of permit issuance. Notice also is given that the startup and shutdown definitions for the combustion turbines, and the submittal date for the semi-annual report in the construction approval dated April 17, 2007, are being modified by a modification of approval conditions.

Westar Energy, Inc. — Emporia Energy Center, 818 S. Kansas Ave., P.O. Box 889, Topeka, KS 66601, owns and operates a natural gas-fired power plant in Lyon County, located at 1385 Road 200, Emporia, KS 66801.

A copy of the proposed permit, permit application, all supporting documentation, all information relied upon during the permit application review process, and a copy of the modification of approval conditions are available for a 30-day public review during normal business hours at the KDHE, Bureau of Air, 1000 S.W. Jackson, Suite 310, Topeka; and a copy of the proposed permit can be reviewed at the KDHE Southeast District Office, 1500 W. 7th, Chanute. To obtain or review either document, contact Jessica Webb, (785) 296-1578, at the KDHE central office; and to review the proposed permit only, contact Doug Cole, (620) 431-2390, at the KDHE Southeast District Office. The standard departmental cost will be assessed for any copies requested.

Direct written comments or questions regarding the documents to Jessica Webb, KDHE, Bureau of Air, 1000 S.W. Jackson, Suite 310, Topeka, 66612-1366. In order to be considered in formulating final document decisions, written comments must be received before the close of business March 28.

A person may request a public hearing be held on the proposed documents. The request for a public hearing shall be in writing and set forth the basis for the request. The written request must be submitted to Sharon Burrell, Bureau of Air, not later than the close of business March 28 in order for the Secretary of Health and Environment to consider the request.

The U.S. Environmental Protection Agency has a 45-day review period, which will start concurrently with the 30-day public comment period, within which to object to the proposed permit. If the EPA has not objected in writing to the issuance of the permit within the 45-day review period, any person may petition the administrator of the EPA to review the permit. The 60-day public petition period will directly follow the EPA's 45-day review period.

Interested parties may contact KDHE to determine if the EPA's 45-day review period has been waived.

Any such petition shall be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided for in this notice, unless the petitioner demonstrates that it was impracticable to raise such objections within such period, or unless the grounds for such objection arose after such period. Notice of Hearing on Proposed Administrative Regulations

The Kansas Department of Health and Environment, Division of Environment, Bureau of Environmental Field Services, will conduct a public hearing at 2 p.m. Thursday, May 26, in Room 530 of the Curtis State Office Building, 1000 S.W. Jackson, Topeka, to consider the adoption of K.A.R. 28-16-28g, a proposed amended regulation regarding Kansas Surface Water Quality Standards and adopting the Kansas Surface Water Register. The following is a summary of the proposed amendments and estimated economic impact:

Summary of Regulation:

K.A.R. 28-16-28g is the classification and use designation section of the Kansas Surface Water Quality Standards. Designated uses of surface waters are listed in the Kansas Surface Water Register, which is adopted by reference in K.A.R. 28-16-28g. The register identifies major classified streams, lakes and wetlands and the uses that are existing or attainable. In the period of January 1, 2007 through July 30, 2008, 971 stream segments and 36 lakes were evaluated by a designated use attainability analysis (UAA) to determine the appropriate use designations. These proposed revisions identify the designated use changes for 709 stream segments and 36 lakes as a result of UAA findings. Three stream segments are proposed for deletion from the Kansas Surface Water Register (removed from classification); 16 stream segments are proposed for secondary contact recreation; 20 stream segments are proposed for primary contact recreation; and 703 stream segments added or changed designated use assignments for aquatic life support use, food procurement, domestic water supply, industrial water supply, livestock watering, irrigation and groundwater recharge. Two lakes are proposed for deletion and 30 lakes are proposed for domestic water supply, industrial water supply, livestock watering, irrigation and groundwater recharge.

Economic Impact:

There are no anticipated costs of compliance resulting from these changes in designated use designations.

The time period between the publication of this notice and the scheduled hearing constitutes a 60-day public comment period for the purpose of receiving written public comments on the proposed regulatory action. Comments should be submitted to Steve Haslouer, KDHE, Bureau of Environmental Field Services, 1000 S.W. Jackson, Suite 430, Topeka, 66612-1367, by fax to (785) 296-6247, or by e-mail to shasloue@kdheks.gov. All interested parties will be given a reasonable opportunity to present their views orally on the proposed regulatory action during the hearing, as well as to submit their written comments at that time. In order to give all parties an opportunity to present their views, it may be necessary to require each participant to limit any oral presentation to five minutes.

Copies of the proposed regulation and document adopted by reference, economic impact and environmental benefits statements and notice of hearing may be obtained on the Bureau of Environmental Field Services Web site at http://www.kdheks.gov/befs or by contacting Melissa Hammond at the address above, (785) 296-6603 or fax (785) 296-6247.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulation and the economic impact and environmental benefits statements in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting Melissa Hammond.
