#### **Request for Comments**

The Kansas Department of Health and Environment and the U.S. Environmental Protection Agency Region VII have received a Resource Conservation and Recovery Act (RCRA) hazardous waste Part A and Part B permit renewal application from Nexeo Solutions, LLC (Nexeo), formerly Ashland Distribution, located at 5420 Speaker Road, Kansas City, Kansas. KDHE and the EPA are providing notice of their intent to renew a jointly issued RCRA hazardous waste storage permit to Nexeo, the owner and operator of the facility.

The facility was originally permitted to store hazardous wastes in 1988 and assigned the EPA identification number KSD057889313. The permit was renewed in 2000, and again the facility has submitted the necessary applications for the renewal of its permit to continue operating the hazardous waste storage facility.

In October 1985, the state of Kansas received final authorization from the EPA to implement its own hazardous waste management program in lieu of the federal program except for the portions covered by the Hazardous and Solid Waste Amendments (HSWA) of 1984. The KDHE portion of the permit (Part I) will be issued under the authority of K.S.A. 65-3430 et seq. and K.A.R. 28-31-4 through 28-31-279a, and the EPA portion of the permit (Part II) will be issued under the authority of sections 3001(g), 3001(h), 3002 (b), 3004(d), 3004 (u) and (v), 3005 and 6001 of RCRA.

Part I of the permit will authorize Nexeo to receive and store hazardous waste in approved containers generated

from on-site and off-site generators. A maximum of 9,240 gallons of containerized liquid and solid hazardous waste may be stored in the permitted storage area. The materials stored at the facility will include ignitable, corrosive, reactive, toxic, and listed liquid or solid hazardous wastes. The container storage area complies with 40 CFR Part 264 Subparts I and CC, and Part 270 requirements for container storage areas. Emergency equipment is available at the facility and appropriate warning signs are posted. The EPA portion (Part II) of the joint permit will address the requirements of HSWA.

A copy of the administrative record, which includes the draft permit, the permit application, and all information pertaining to this permit action, is available for public review through September 18, Monday through Friday during normal business hours, at the following locations:

Anyone wishing to comment on the draft permit should submit written comments postmarked not later than September 18 to Mostafa Kamal (KDHE) or Patricia Murrow (EPA) at the above addresses.

A public hearing has not been scheduled; however, if written requests are received that indicate a significant degree of public interest in the draft permit a public hearing will be scheduled. After consideration of all comments received, the Secretary of Health and Environment and the EPA Director of the Air and Waste Management Division (AWMD) will make a final permit decision. Notice will be given to the applicant, to all persons who submitted written comments, to those who commented at the public hearing, and to those who requested notice of the final permit decision. If none of the comments received during the public comment period result in revisions to the draft permit, the permit will become effective immediately upon its issuance. If comments received during the public comment period result in revisions, the permit will become effective 30 days after service of notice of the final decision or at a later date, if a review is requested under 40 CFR 124.19.

The Kansas Department of Health and Environment is soliciting comments regarding a proposed air quality operating permit. Bradken has applied for a Class I operating permit renewal in accordance with the provisions of K.A.R. 28-19-510 et seq. The purpose of a Class I permit is to identify the sources and types of regulated air pollutants emitted from the facility; the emission limitations, standards and requirements applicable to each source; and the monitoring, record keeping and reporting requirements applicable to each source as of the effective date of permit issuance.

Bradken, 400 S. 4th St., Atchison, 66002, owns and operates a steel foundry located at the same address.

A copy of the proposed permit, permit application, all supporting documentation and all information relied upon during the permit application review process is available for a 30-day public review during normal business hours at the KDHE, Bureau of Air, 1000 S.W. Jackson, Suite 310, Topeka; and a copy of the proposed permit can be reviewed at the KDHE Northeast District Office, 800 W. 24th St., Lawrence. To obtain or review the proposed permit and supporting documentation, contact Kristin R. Fritchman, (785) 368-6683, at the KDHE central office; and to review the proposed permit only, contact Pat Simpson, (785) 842-4600, at the KDHE Northeast District Office. The standard departmental cost will be assessed for any copies requested.

Direct written comments or questions regarding the proposed permit to Kristin R. Fritchman, KDHE, Bureau of Air, 1000 S.W. Jackson, Suite 310, Topeka, 66612-1366. In order to be considered in formulating a final permit decision, written comments must be received before the close of business September 6.

A person may request a public hearing be held on the proposed permit. The request for a public hearing shall be in writing and set forth the basis for the request. The written request must be submitted to Sharon Burrell, Bureau of Air, not later than the close of business September 6 in order for the Secretary of Health and Environment to consider the request.

The U.S. Environmental Protection Agency has a 45day review period, which will start concurrently with the 30-day public comment period, within which to object to the proposed permit. If the EPA has not objected in writing to the issuance of the permit within the 45-day review period, any person may petition the administrator of the EPA to review the permit. The 60-day public petition period will directly follow the EPA's 45-day review period. Interested parties may contact KDHE to determine if the EPA's 45-day review period has been waived.

Any such petition shall be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided for in this notice, unless the petitioner demonstrates that it was impracticable to raise such objections within such period, or unless the grounds for such objection arose after such period. Contact Patricia Scott, U.S. EPA, Region VII, Air Permitting and Compliance Branch, 901 N. 5th St., Kansas City, KS 66101, (913) 551-7312, to determine when the 45day EPA review period ends and the 60-day petition period commences.
