Sandy Praeger Kansas Insurance Commissioner State of Kansas

Department of Health and Environment

Request for Comments

The Kansas Department of Health and Environment is soliciting comments regarding a revision to a previously issued air quality construction permit. Columbian Chemicals Company applied for an air quality construction permit in accordance with the provisions of K.A.R. 28-19-300 to construct an additional product dryer on Reactor #2 at its carbon black plant near Ulysses. Emissions of particulate matter (PM), volatile organic compounds (VOC), oxides of nitrogen (NOx), sulfur dioxide (SO₂), hydrogen sulfide (H₂S), total reduced sulfur (TRS) and carbon monoxide (CO) were evaluated during the permit review process. KDHE issued the construction permit for the product dryer December 19, 1995.

The revised permit is to be issued in accordance with the provisions of K.A.R. 28-19-350, prevention of significant deterioration (PSD), which adopt the federal standards, procedures and requirements of 40 CFR 52.21 by reference. These air quality regulations apply to major stationary emission sources located in areas designated as "attainment" under the federal Clean Air Act (CAA). Attainment areas are areas where the air quality meets or exceeds the national ambient air quality standards (NAAQS).

The revisions proposed by Columbian Chemicals Company (CCC) include raising the production limits on Reactor #2 and adding a combined production limit to Reactors #2 and #3, without affected PSD applicability, or violating any state or federal regulations.

The PSD regulations require evaluation of emission reduction techniques to identify the BACT for each pollutant for which the emission rate exceeds the PSD significant level. The purpose of BACT is to affect the maximum degree of reduction achievable, taking into account energy, and environmental and economic impacts for each pollutant under review. In 1995, evaluation of the estimated emissions for this project indicated that only the emission rate of CO exceeded the significance levels. At that time, CCC conducted the required BACT analyses. Currently, CO no longer exceeds the significance level because a tail gas flare and boiler were constructed in 2005. However, the tail gas flare and boiler increased NOx and SO₂ emissions above the significance levels. Therefore, a BACT analysis is required for each of these pollutants. The BACT analyses were conducted by CCC in another permitting action (which is being put on public notice at the same time). KDHE concurred with the BACT analyses.

A public comment period has been established until December 19 to allow citizens the opportunity to express any concerns they may have about this proposed permitting action. All comments should be submitted in writing to James D. Stewart, KDHE, Bureau of Air, 1000 S.W. Jackson, Suite 310, Topeka, 66612-1366, or may be presented at the public hearing.

Any member of the public may request a public hearing be conducted to receive comments on the proposed (continued)

issuance of the draft air quality construction permit. Written requests to hold a public hearing should be sent to the attention of Sharon Burrell at the address listed above or by fax to (785) 291-3953 and must be received by 5 p.m. December 19.

A copy of the proposed permit, permit application, all supporting documentation and all information relied upon during the permit application review process is available for public review for a period of 30 days from the date of publication during normal business hours, 8 a.m. to 5 p.m., at the KDHE, Bureau of Air, 1000 S.W. Jackson, Suite 310, Topeka; and a copy of the proposed permit can be reviewed at the KDHE Southwest District Office, 302 W. McArtor Road, Dodge City. To obtain or review the proposed permit and supporting documentation, contact James D. Stewart, (785) 296-1556, at the KDHE central office; and to review the proposed permit only, contact the air quality district representative, (620) 356-1075, in the KDHE Southwest District Office. The standard departmental cost will be assessed for any copies requested.

The Kansas Department of Health and Environment is soliciting comments regarding a proposed air quality construction permit. Columbian Chemicals Company applied for an air quality construction permit in accordance with the provisions of K.A.R. 28-19-300 to seek approval of a tail gas flare and tail gas boiler at its carbon black plant near Ulysses. Emission of particulate matter equal to or less than 10 microns in diameter (PM₁₀), volatile organic compounds (VOC), oxides of nitrogen (NOx), sulfur dioxide (SO₂), carbon monoxide (CO), hydrogen sulfide (H₂S), carbon disulfide (CS₂) and carbonyl sulfide (COS) were evaluated during the permit review process.

The tail gas flare received a pollution control permit (PCP) March 11, 2004. The tail gas boiler received a construction approval (CA) June 24, 2004. Both units were constructed in 2005. Since the PCP provisions of prevention of significant deterioration (PSD) were vacated June 24, 2005, and additional items in the CA needed to be addressed, this permit was drafted to replace the PCP permit and the CA.

The permit is to be issued in accordance with the provisions of K.A.R. 28-19-350, prevention of significant deterioration (PSD), which adopt the federal standards, procedures, and requirements of 40 CFR 52.21 by reference. These air quality regulations apply to major stationary emission sources located in areas designated as "attainment" under the federal Clean Air Act (CAA). Attainment areas are areas where the air quality meets or exceeds the national ambient air quality standards (NAAQS).

The PSD regulations require evaluation of emission reduction techniques to identify the BACT for each pollutant for which the emission rate exceeds the PSD significant level. The purpose of BACT is to affect the maximum degree of reduction achievable, taking into account energy, environmental and economic impacts for each pollutant under review. Evaluation of the estimated emissions for the proposed tail gas flare and boiler project indicates that the emission rate of oxides of nitrogen and sulfur dioxide exceeds the significance levels. Columbian Chemicals Company (CCC) conducted the required BACT analyses. The department has reviewed CCC's BACT analyses and concurs with its findings that:

- the SO₂ BACT is limiting the carbon black feedstock oil to no more than 4.0% sulfur by weight (12 month rolling average);
- the tail gas flare NOx BACT is good combustion engineering; and
- the tail gas boiler NOx BACT is a modern properly designed burner system, primary fuel is tail gas, good combustion practices/combustion optimization; and minimize combustion temperature to reduce formation of thermal NOx.

A public comment period has been established until December 19 to allow citizens the opportunity to express any concerns they may have about this proposed permitting action. Comments should be submitted in writing to James D. Stewart, KDHE, Bureau of Air, 1000 S.W. Jackson, Suite 310, Topeka, 66612-1366, or may be presented at the public hearing.

Any member of the public may request a public hearing be conducted to receive comments on the proposed issuance of the draft air quality construction permit. Written requests to hold a public hearing should be sent to the attention of Sharon Burrell at the address listed above or by fax to (785) 291-3953 and must be received by 5 p.m. December 19.

A copy of the proposed permit, permit application, all supporting documentation and all information relied upon during the permit application review process is available for public review for a period of 30 days from the date of publication during normal business hours, 8 a.m. to 5 p.m., at the KDHE, Bureau of Air, 1000 S.W. Jackson, Suite 310, Topeka; and a copy of the proposed permit can be reviewed at the KDHE Southwest District Office, 302 W. McArtor Road, Dodge City. To obtain or review the proposed permit and supporting documentation, contact James D. Stewart, (785) 296-1556, at the KDHE central office; and to review the proposed permit only, contact the air quality district representative, (620) 356-1075, in the KDHE Southwest District Office. The standard departmental cost will be assessed for any copies requested.

State of Kansas

911 Coordinating Council

Notice of Hearing on Proposed Administrative Regulations

A public hearing will be conducted at 10 a.m. Tuesday, January 17, in Room 106 of the Landon State Office Building, 900 S.W. Jackson, Topeka, to consider the adoption of K.A.R. 132-2-1 and 132-4-1, rules and regulations of the 911 Coordinating Council, on a permanent basis.

This 60-day notice of the public hearing shall constitute a public comment period for the purpose of receiving written public comments on the adoption of K.A.R. 132-2-1 and 132-4-1. All interested parties may submit written comments prior to the hearing to the Governor's Grants Program, Room 304 North, Landon State Office Building, 900 S.W. Jackson, Topeka, 66612, or to Jennifer.Cook@ks.gov. All interested parties will be given a reasonable opportunity to present their views orally on the adoption of K.A.R. 132-2-1 and 132-4-1 during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to request that each participant limit any oral presentation to five minutes.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request K.A.R. 132-2-1 and 132-4-1 and the economic impact statement in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting Mary Greb-Hall at (785) 296-2701 or 1-800-766-3777 (TTY). The northwest entrance to the Landon State Office Building is accessible. Handicapped parking is located near the northwest entrance.

Summaries of K.A.R. 132-2-1 and 132-4-1 and the respective economic impacts follow:

K.A.R. 132-2-1 establishes prerequisites for the selection of the local collection point administrator (LCPA) and establishes criteria for extending the LCPA contract as authorized pursuant to the Kansas 911 Act (Act) (L. 2011, ch. 84, secs. 1-19 and 25 and amendments thereto).

In order to be selected, a LCPA candidate shall at a minimum (1) have the ability to comply with all contract requirements established by the secretary of administration; (2) have at least three years of experience in public sector financial administration and accounting; (3) secure and manage accounts and services at a federally insured financial institution with a physical presence in Kansas; and (4) have the ability to provide appropriate staffing to the council to meet the council's obligations under the Act.

The LCPA is selected by the council with the advice and consent of the Legislative Coordinating Council through a competitive procurement process. The initial LCPA contract will be two years, but a third year may be added by the council if (1) the council determines the LCPA has successfully fulfilled its contractual and legal responsibilities for at least 12 months; (2) the annual audit of the 911 fee receipts and disbursements by the LCPA demonstrates appropriate recordkeeping and administration of monies; and (3) the contract extension can control cost increases for services or reduce risks of disruption of essential LCPA services.

K.A.R. 132-4-1 establishes a regulation that authorizes the council to assess monetary penalties against providers that fail to comply with the provisions of the Act (L. 2011, ch. 84, secs. 1-19 and 25 and amendments thereto). Under the terms of the regulation, a provider can be deemed to be in delinquent status if it (1) failed to submit the provider's contact information on or before January 1, 2012, in the form and containing the information required by the council to the council or the council's designee; (2) has not previously provided service in Kansas and fails to submit the provider's contact information within three months of first offering services in Kansas, in the form and containing the information required by the council to the council or the council's designee; (3) fails to notify the council or the council's designee within 30 days of any change in the provider's contact information; or (4) fails to submit 911 fees and the return in the form required by the LCPA to the LCPA on or before the 30th of each calendar month following a return for the preceding month.

The penalty of \$500 a day or 10 percent of the 911 fees due from a delinquent provider for the corresponding month, whichever is greater, is to be assessed by written order of the council or the council's designee against any provider that is determined to be in delinquent status. Written notice of the penalty assessment, the violation and the right to a hearing is to be issued by the council.

The regulation requires any monetary penalties to be remitted to the council or the council's designee.

The council or a duly authorized agent of the council is required to administer the processes for determining and assessing penalties and hearing any appeals of the penalties in accordance with the provisions of the Kansas Administrative Procedures Act (KAPA).

With the adoption of K.A.R. 132-2-1, the economic impact on the council is minimal as the LCPA contract is funded by an administrative fee not to exceed 1.5 percent of 911 fees collected from service users.

The economic impact on providers is minimal or non-existent as the LCPA contract is funded with an admin-

istration fee not to exceed 1.5 percent of 911 fees collected from service users. The 911 fees statutorily required to be collected by providers from service users will not be affected by the implementation or the extension of the LCPA contract.

The economic impact on PSAPs is existent in that the LCPA contract is funded with an administration fee not to exceed 1.5 percent of 911 fees collected from service users. Therefore, the money used to fund the LCPA contract is potentially money that PSAPs may have otherwise received. However, LCPA services are necessary to facilitate the distribution of the 911 fees to PSAPs collected from providers.

The economic impact on subscriber rates will be minimal or nonexistent. The LCPA contract is funded with an administration fee not to exceed 1.5 percent of 911 fees collected from service users. Providers are statutorily required to collect the 911 fees from service users. Providers' statutory obligation will not change dependent upon the terms or length of the LCPA contract. Therefore, subscriber rates should not be affected.

With the adoption of K.A.R. 132-4-1, the economic impact on the council is minimal; the penalties collected by the council will be deposited by the LCPA into the 911 State Grant Fund.

The economic impact on any provider that does not accurately and timely remit data and fees as required by the Act could be significant depending on the severity and length of the provider's delinquency. K.A.R. 132-4-1 imposes penalties of \$500 per day or 10 percent of the 911 fees due from the delinquent provider for the corresponding month, whichever is greater. The economic impact on providers that fully comply with the data and fee remittance requirement is minimal or nonexistent.

The economic impact on PSAPs is potentially positive as any penalties collected will be deposited into the 911 State Grant Fund. All PSAPs are eligible to apply for funding from the 911 State Grant Fund.

The economic impact on subscriber rates could potentially be negative. If a provider is consistently determined to be delinquent and therefore is subject to civil penalties, a provider may find it necessary to increase subscriber rates to compensate for losses sustained by assessed civil penalties.

With the adoption of K.A.R. 132-2-1 and 132-4-1, the economic impact on other state agencies is minimal or nonexistent. The council is the only state agency involved with the LCPA contract and the assessment of civil penalties.

Copies of K.A.R. 132-2-1 and 132-4-1, and the associated economic impact statement, may be obtained by contacting the Governor's Grants Program at the address above or (785) 291-3205. K.A.R. 132-2-1 and 132-4-1 and the economic impact statement also may be viewed at https://governor.ks.gov/serving-kansans/grants-program boards-and-councils.

Jackson, Topeka, 66612, or to Jennifer.Cook@ks.gov. All interested parties will be given a reasonable opportunity to present their views orally on the revocation of K.A.R. 1-64-1 during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to request that each participant limit any oral presentation to five minutes.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request K.A.R. 1-64-1 and the economic impact statement in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting Mary Greb-Hall at (785) 296-2701 or 1-800-766-3777 (TTY). The northwest entrance to the Landon State Office Building is accessible. Handicapped parking is located near the northwest entrance.

Summaries of K.A.R. 1-64-1 and its economic impact follow:

K.A.R. 1-64-1 established a regulation that authorized the Secretary of Administration to assess monetary penalties against wireless carriers and voice-over Internet protocol (VoIP) providers that fail to comply with the provisions of the Wireless Enhanced 911 Act (K.S.A. 12-5321 et seq.) or the VoIP Enhanced 911 Act (K.S.A. 12-

5351 et seq.). Under the terms of the regulation, the local collection point administrator is to notify the secretary or the secretary's duly authorized agent of any wireless carrier or VoIP provider that (1) has not submitted the carrier's or provider's wireless enhanced 911 local fees or the corresponding return within 14 days of its due date; or (2) has submitted fees and a return that are substantially inconsistent with each other. A penalty of 10 percent of the enhanced 911 local fees due from a delinquent wireless carrier or VoIP provider is to be assessed by written order of the secretary against any carrier or provider that is determined to be in delinquent status. Written notice of the penalty assessment, the violation and the right to a hearing is to be issued by the secretary. Interest at an annual rate of 10 percent accrues if a wireless carrier or VoIP provider remains in delinquent status for 30 days or more after the date on which the fees and return were

The regulation requires any monetary penalties to be remitted to the secretary or the secretary's duly appointed agent. K.S.A. 12-5325 and 12-5354 direct any civil penalty recovered to be deposited with the local collection point administrator and subsequently routed back to the corresponding PSAP.

The secretary or a duly authorized agent of the secretary is required to administer the processes for determining and assessing penalties, hearing any appeals of the penalties in accordance with the provisions of the Kansas Administrative Procedures Act (KAPA), and forwarding the recovered penalties to the local collection point administrator.

With the revocation of K.A.R. 1-64-1, the economic impact on the Department of Administration associated with the administration of the penalty process will be eliminated.

With the revocation of K.A.R. 1-64-1, the economic impact on any wireless carrier or VoIP provider that does not accurately and timely remit data and fees as required by the Wireless Enhanced 911 Act and the VoIP Enhanced 911 Act will be eliminated.

Revocation of K.A.R. 1-64-1 is not anticipated to have an economic impact on PSAPs as penalties were not issued under the regulation. Therefore, PSAPs did not receive additional revenue as a result of assessed penalties authorized by the implementation of K.A.R. 1-64-1.

It is assumed that because penalties were not actually assessed to wireless carriers and VoIP providers, there was not an identifiable impact on subscriber rates or fees. Therefore, the revocation should not trigger a change in subscriber rates or fees.

Copies of K.A.R. 1-64-1 and the associated economic impact statement may be obtained by contacting the Governor's Grants Program at the address above or (785) 291-3205.
