State of Kansas Department of Health

and Environment

Notice of Hearings

The Kansas Department of Health and Environment will conduct two public hearings on the 2012 Kansas 303(d) List of Impaired Waters. Section 303(d) of the Clean Water Act requires states to biennially prepare a list of waters failing to meet State Water Quality Standards. Such waters are required to have total maximum daily loads (TMDLs) prepared by the state to restore their water quality. A total maximum daily load is the maximum amount of the impairing pollutant that can enter the water without causing a violation of its water quality standards.

Since 1999, Kansas has developed TMDLs for impaired surface waters in each of the state's 12 river basins. KDHE develops and revises TMDLs for selected impairments identified in the current Section 303(d) list by rotating among the 12 basins generally over a five-year span. In accordance with the Kansas TMDL development cycle, TMDLs will be developed for the Marais des Cygnes and Missouri basins starting this year to be completed in 2013. Over the course of the next two years, TMDLs will be developed for the Neosho, Verdigris and Walnut basins in 2013 and 2014. The draft 2012 Kansas 303(d) list will emphasize waters in these five basins, including an initial designation of TMDLs to be developed over the next two years. The list and its methodology are available for review on the Internet at http://www.kdheks.gov/tmdl/.

The public hearings will open with a brief summary of the list and its methodology as it pertains to the waters of the applicable river basin. Public testimony will then be taken after the presentation. Please provide a written copy of any testimony at the hearings. Written testimony will be accepted by KDHE anytime prior to the close of business March 23. KDHE will prepare a response to all public comments and revise the draft list as necessary, and will submit the list, the methodology, the public comments and the KDHE response to Region VII of the U.S. Environmental Protection Agency on March 30, 2012.

The two public hearings will take place as follows:

Topeka — **Wednesday, March 7** — **1 to 3 p.m.** Curtis State Office Building Azure Conference Room (fourth floor) 1000 S.W. Jackson

Chanute — Thursday, March 8 — 1 to 3 p.m. KDHE Southeast District Office 1500 W. 7th St.

If accommodations at the hearing locations are needed by persons with disabilities, notify KDHE at least five business days before the respective hearing by contacting Thomas Stiles at (785) 296-6170 or tstiles@kdheks.gov. Other inquiries regarding this notice also should be directed to Thomas Stiles.

Notice of Draft General Wastewater Control Permit

The Kansas Department of Health and Environment has prepared a Kansas/NPDES Water Pollution Control General Wastewater Control Permit for operating wastewater treatment/retention facilities for ready-mixed concrete plants, concrete product plants and their associated facilities. The draft permit covers both total retention facilities and facilities that discharge treated wastewater to surface waters of the state. The draft permit also requires the permittee to continue to update and comply with its stormwater pollution prevention plan.

A general wastewater permit is provided for those entities engaged in similar activities and discharging the same types of wastewater. The wastewater from these types of activities has a low public health and environmental risk. A general permit is placed on public notice once during the life of the permit and then is made available, without further public notice, to entities for activities that meet the requirements of the permit. The permittees also are required to meet all other federal, state and local requirements, including local zoning ordinances.

The draft permit contains limits for oil and grease, total suspended solids and pH, and monitoring for effluent flow, sulfate and chlorides. The permittee also is required to conduct inspections of the stormwater runoff control system. To be covered under the draft permit, the permittee is required to submit the Notice of Intent and receive a signed and dated permit from KDHE.

Copies of the Notice of Intent application, instructions, draft permit and fact sheet may be viewed at the KDHE website at http://www.kdheks.gov/water/tech.html or requested in hard copy by writing the Kansas Department of Health and Environment, Bureau of Water - Technical Services Section, 1000 S.W. Jackson, Suite 420, Topeka, 66612-1367.

Persons wishing to comment on the draft permit must submit written comments to the address above by March 24.
