#### Request for Proposals

The Kansas Department of Health and Environment is proposing to issue a request for proposals related to federal funding received from the Office of the National Coordinator for Health Information Technology (ONC) under the State Health Information Exchange Cooperative Agreement Program to the KDHE, the ONC fiscal agent for the state of Kansas.

Kansas relies on existing health information organizations (HIOs) to enable exchange of health information and will grant funds to Kansas-certified HIOs to increase utilization of health information exchange in Kansas by subsidizing on-boarding costs that eligible entities incur when signing up with a health information organization, ensuring interoperability between HIOs via Health Information Service Provider (HISP) to HISP (DIRECT "push" exchange) and peer to peer (query-based exchange) clinical data exchange. These funds will be used to expand HIE capacity, support robust electronic exchange of health information statewide and help eligible entities achieve meaningful use goals.

These funds are available to those HIOs that have been previously certified by the Kansas Health Information Exchange (KHIE). Funds must be invested by eligible HIOs to increase exchange with users of other HIEs in Kansas and across the nation by subsidizing participation and ensuring interoperability with other certified HIOs.

Kansas' plan is to support KHIE-certified HIOs with technical assistance and funding. To this end, Kansas developed a grant program to provide partial funding for the increased utilization of local HIE initiatives and networks.

The RFP and all supporting documentation can be found at the following website:

Direct comments or questions regarding the RFP to Aaron Dunkel, Deputy Director and HIT Coordinator, KDHE, 1000 S.W. Jackson, Suite 540, Topeka, 66612, or ADunkel@kdheks.gov.

- (c) For this booklet, a play/prize symbol shall appear in multiple play spots within the play area or areas.
- (d) The ticket numbers in each book of tickets in this game shall start with 000 and end with 014.
- (e) The price of instant tickets sold by a retailer for this game shall be \$20.00 each.
- (f) The "Casino Game Book" is a ticket with eight different games over six pages. Game 1 is Poker, page 1 of 6. A player will scratch the "DRAW CARDS." The player will then scratch the cards in the "PLAYER" area that exactly match any of the "DRAW CARDS." If the player matches all five cards in any one "PLAYER" area, the player wins the prize shown for that "PLAYER."

Game 2 is Aces High, page 2 of 6. If the player matches any of the "YOUR CARDS" to any of the "WINNING CARDS" (rank and suit), the player wins the prize shown for that card. If the player reveals an "A" of spades symbol, the player wins double the prize shown.

Game 3 is 5 Card Draw, page 3 of 6. On each "TABLE" the player will scratch "YOUR HANDS" to reveal the card symbols. If a "HAND" matches the "LEGEND," the player wins the prize shown for that "HAND." The player will use the "DRAW CARDS" for that "TABLE" for additional chances to make a winning "HAND." Each "HAND" is played separately. Each "TABLE" is played separately.

Game 4 is Blackjack, page 4 of 6. For each table, the player will scratch "YOUR HANDS" and the "DEALER'S HAND." If the total of any one of "YOUR HANDS" is higher than the total of the "DEALER'S HAND," the player wins the prize shown for that hand. If the dealer "BUSTS," the player wins all five prizes on that table. Jack (J), queen (Q), and king (K) equal 10. Ace (A) equals 11.

Game 5 is Super Slots, page 5 of 6. A player will scratch "YOUR SYMBOLS." Then the player will scratch all of the symbols in "SLOTS 1 through 6" which exactly match any of the symbols in the "YOUR SYMBOLS" area. If the

player matches all symbols in the same horizontal, vertical, or diagonal line, the player wins the corresponding prize for that line.

Game 6 is Casino Pair, page 6 of 6. The player will scratch each "ROW." In each "ROW," if the player gets a pair, the player wins the prize shown. If the player gets a pair of kings, the player wins double the prize. If the player gets three kings, the player wins triple the prize. Only one prize per row will be awarded.

Game 7 is Roulette. The player will scratch the "YOUR NUMBERS" and "WHEEL NUMBER" on each wheel. Each "WHEEL" is played separately. For each "WHEEL," if the player matches any of the "YOUR NUMBERS" to the "WHEEL NUMBER," the player wins the prize shown below that number.

Game 8 is Roll the Dice. The player will scratch the "DICE" and "PRIZE" in each roll. If "YOUR DICE" total seven in the same "ROLL," the player wins the prize shown for that "ROLL." If the "YOUR DICE" total 11 in the same "ROLL," the player wins double the prize for that "ROLL."

- (h) A double down wager shall win if the total of the player's cards exceeds the total of the dealer's cards without exceeding a total of twenty-one (21). A double down wager shall push if the player's hand and the dealer's hand are equal. A double down wager shall lose if the total of the player's cards exceeds twenty-one (21) or is less than the total of the dealer's cards. A split bet shall lose if the total of the player's cards exceeds twenty-one (21) or is less than the total of the dealer's cards. A split bet shall push if the player's hand and the dealer's hand are equal. A split bet shall be paid at the rate of one to one on both the original wager and the split wager.
- (j) The following describes a list of the permissible wagers, payout odds, and what constitutes a win or loss for three-card wagers:
- (1) An optional three-card wager may be made by the player prior to the first card of the hand being removed from the shoe in an area on the table layout designated for the three-card wager. The player must make an original blackjack wager in order to place the three-card wager. The minimum and maximum three-card wager will be posted at the table. The three card wager cannot exceed the player's original blackjack wager.
- (2) An additional three-card wager may be made as a tip for the dealer.
- (3) A three-card wager will win if the dealer's card dealt face up and the player's original two cards combined equal a flush, straight, three-of-a-kind, or straight flush.
- (4) A three-card wager will lose if the dealer's card dealt face up and the player's original two cards combined do not equal a flush, straight, three-of-a-kind, or straight flush.
- (5) Winning three-card wagers will be paid out as follows:
- (A) When the player's original two cards and the dealer's card dealt face up combined equal a flush, straight, three-of-a-kind, or a straight flush, the hand will be paid at the rate of 9 to 1.
- (B) All three-card wagers will be taken or paid before the blackjack portion of the game continues. (Authorized by K.S.A. 2011 Supp. 74-8710 and 74-8748; implementing K.S.A. 2011 Supp. 74-8710; effective, T-111-5-16-12, April 11, 2012.)
- **111-301-44.** Play. (a) After the cards have been shuffled, the dealer shall offer the stack of cards to a player to be cut. The player may cut the cards by placing a cutting card provided by the dealer at a random place in the stack of cards.
- (b) At the commencement of each round of play, the dealer shall, starting on the dealer's left and continuing around the table, deal the cards in the following order:
- (1) One card face upwards to each box on the table layout in which a wager is contained;

- (2) One card face down to the dealer;
- (3) A second card face upwards to each box in which a wager is contained; and
- (4) A second card face down to the dealer at which time the dealer's first card shall be turned face up and placed on top of the dealer's second card.
- (c) After two cards have been dealt to each player and the appropriate number to the dealer, the dealer shall, beginning from his left, announce the score of each player's hand. The score is determined by adding the point total of all cards in the hand. As each player's score is announced, such player shall indicate whether the player wishes to double down, split pairs, stand or draw.
- (d) As each player indicates the player's decision(s), the dealer shall deal face upwards whatever additional cards, if any, which are necessary to effectuate such decision.
- (e) After the decision(s) of each player have been implemented and all additional cards have been dealt, the dealer shall turn the dealer's second card face upward. Any additional cards authorized to be dealt to the hand of the dealer shall be dealt face upwards after which the dealer shall announce the dealer's score.
- (f) If the dealer has a blackjack, no additional cards shall be dealt and each player's wager shall be settled.
  - (g) Payment of blackjack shall be made as follows:
- (1) If the first card dealt face up to the dealer is a 2, 3, 4, 5, 6, 7, 8, or 9 and a player has a blackjack, the dealer shall immediately announce and pay the blackjack at odds of 3 to 2 and shall remove that player's cards before any player receives a third card. If the first card dealt face up to the dealer is an ace, king, queen, jack or 10 and a player has a blackjack, the dealer shall announce the blackjack but shall make no payment nor remove any cards until all other cards are dealt to the players and the dealer receives the dealer's second card. If, in such circumstances, the dealer's second card does not give the dealer a blackjack, the player having a blackjack shall immediately be paid at odds of 3 to 2. If the dealer's second card gives the dealer a blackjack, the wager of the player having a blackjack shall be void and constitute a push.
- (2) Whenever the first card dealt to the dealer is an ace, each player shall have the right to make an insurance bet which, except as otherwise provided herein, shall win if the dealer's second card is a king, queen, jack or 10 and shall lose if the dealer's second card is an ace, 2, 3, 4, 5, 6, 7, 8, or 9. An insurance bet may be made by placing on the insurance line of the layout an amount not more than half the amount staked on the player's initial wager, except that a player may bet an amount in excess of half the initial wager to the next unit that can be wagered in chips, when because of the limitation of the value of chip denominations, half the initial wager cannot be bet. All winning insurance wagers shall be paid at odds of 2 to 1. All insurance wagers shall be collected or paid by the dealer immediately after the dealer draws the dealer's second card that is dealt face up or discloses the dealer's card that was dealt face down, and before the dealer draws any additional cards.
- (3) Except for a blackjack, a player may elect to double down, which means to make an additional wager not in excess of the amount of the player's original wager on the first two cards dealt to the player on the condition that one and only one additional card shall be dealt to the hand on which the player has elected to double down. If

a dealer obtains a blackjack after a player doubles down, the dealer shall only collect the amount of the original wager of such player and shall not collect the additional amount wagered in doubling down. Upon a player's election to double down, the dealer shall deal the player's hand one additional card face upwards or sideways on the layout. In the alternative, if the one additional card is dealt face down, such card shall be turned face upward after the dealer has drawn additional cards to the dealer's hand and at such time as all players' wagers are to be settled at the conclusion of the round of play. A double down wager shall win if the score of the player's cards exceeds the score of the dealer's cards without exceeding a score of twenty-one (21). A double down wager shall push if the player's hand and the dealer's hand are equal in score. A double down wager shall lose if the score of the player's cards exceeds twenty-one (21) or is less than the score of the dealer's cards. A double down wager shall be paid at the rate of 1:1 on both the original wager and the double down portion of the wager.

(h) If the initial two cards dealt to a player are identical in rank, the player may elect to split the hand into two separate hands provided that the player makes a wager on the second hand so formed in an amount equal to the player's original wager. When a player splits pairs, the dealer shall deal a card to and complete the player's decisions with respect to the first incomplete hand on the dealer's left before proceeding to deal any cards to any other hand. After a second card is dealt to a split pair, the dealer shall announce the score of such hand and the player shall indicate the player's decision to stand or

draw with respect thereto except that:

(1) A player may split pairs a maximum of three times to make a total of four hands; and,

- (2) A player splitting aces shall only have one card dealt to each ace and may not elect to receive additional cards.
- (i) A player may elect to draw one or more additional cards whenever the player's score is less than 21 except that:
- (1) A player electing to double down shall draw one and only one additional card;
- (2) A player splitting aces shall only have one card dealt to each ace and may not elect to receive additional cards.
- (j) A dealer shall draw additional cards to his or her hand until he or she has:
- (1) A hard total score of 17, 18, 19, 20 or 21, whichever comes first; or
- (2) A soft total score of 18, 19, 20 or 21, whichever comes first

A dealer shall draw no additional cards to his or her hand, regardless of the point count, if decisions have been made on all players' hands and the point count of the dealer's hand will have no effect on the outcome of the round of play. A split bet shall win if the score of the player's cards exceeds the total of the dealer's cards without exceeding a score of twenty-one (21). A split bet shall lose if the score of the player's cards exceeds twenty-one (21) or is less than the score of the dealer's cards. A split bet shall push if the player's hand and the dealer's hand are equal in score. A split bet shall be paid at the rate of 1:1 on both the original wager and the split wager.

(k) A card found turned face upwards in the shoe shall not be used in the game and shall be placed in the discard rack.

- (l) A card drawn in error without its face being exposed shall be used as though it were the next card from the shoe.
- (m) If the dealer has a score of 17 and accidentally draws a card for the dealer, such card shall be burned (discarded).
- (n) If the dealer misses dealing the dealer's first or second card to the dealer, the dealer shall continue dealing

the first two cards to each player, and then deal the appropriate number of cards to the dealer. (Authorized by K.S.A. 2011 Supp. 74-8710 and 74-8748; implementing K.S.A. 2011 Supp. 74-8710; effective, T-111-5-16-12, April 11, 2012.)
