## Office of Judicial Administration

## Notice of Available Grant Funding

The Access to Justice Fund is administered by the Kansas Supreme Court and is intended as a source of grant funds for the operating expenses of programs that provide access for persons who would otherwise be unable to gain access to the Kansas civil justice system. Its purpose is to support programs that provide persons, who otherwise may not be able to afford such services, with increased access to legal assistance for *pro se* litigation, legal counsel for civil and domestic matters, as well as other legal advice and dispute resolution services.

Applications for Access to Justice grant funds will be due May 31. Grant application packets may be requested from the Office of Judicial Administration, Room 337, Kansas Judicial Center, 301 S.W. 10th Ave., Topeka, 66612. Please direct telephone inquiries to Art Thompson at 785-291-3748.

## **Request for Proposals**

The Kansas Department for Children and Families (DCF), Prevention and Protection Services (PPS), announces the release of a request for proposals to provide family services to children and families who have been assessed by a DCF social worker as being in need of services that would prevent the need for out-of-home placement or prevent further involvement with the child welfare system. The proposal also seeks to provide flex funds for families who have either been referred by DCF for family services or solely for flex funds.

DCF invites applications from government agencies; public universities and colleges; and private, nonprofit organizations, including faith-based and community organizations. Eligible applicants are providers with specialization in substance misuse, child behavior, case management or mental health. For more information a complete copy of the RFP may be found at http://www.dcf.ks.gov/services/PPS/Pages/PPSservices.aspx under Grant Information, in the document entitled SFY14 Community Services Grant Request for Proposal.

Written questions about the RFP from potential bidders will be accepted until 5 p.m. March 20. Answers will be posted on the aforementioned webpage, under the RFP entry, by March 29. Questions must be emailed to Joy Bodyk, DCF procurement officer, at joy.bodyk@dcf. ks.gov. Proposals must be received not later than 5 pm. April 25.

## **Notice to Consulting Firms**

The Kansas Department of Transportation is seeking qualified consulting firms prequalified in Category 203 — Value Engineering for on-call services as described below. A PDF (1Mb maximum size) of the interest response must be emailed to David J. Nagy, P.E., assistant to the bureau chief of design/contracts engineer, at DavidN@ ksdot.org. Interest and experience responses are limited to four pages, the subject line of the reply email and the PDF file name must read "On-Call VE — Firm Name — LOI." The letter of interest is required and must be received by noon March 21 for the consulting firm to be considered. Categories may be viewed at www.ksdot.org/divengdes/prequal.

## Kansas On-Call Value Engineering (VE) Services

The Kansas Department of Transportation is seeking qualified firms to be on-call for small or short duration VE studies. The consultant will provide value engineering (VE), the systematic application of recognized techniques by a multi-disciplined team to identify the function, the worth, the alternatives through the use of creative thinking and the necessary functions to accomplish the original purpose of the project. The results are reliable and lowest life-cycle cost without sacrificing safety, quality and environmental attributes of the project.

The Consultant Shortlist Committee will select six to eight of the most highly qualified firms expressing interest and schedule an individual interview for the service. The consulting firms can more thoroughly discuss their experience related to the service at the interview and will be expected to discuss their approach to this service in detail and the personnel to be assigned to this service.

The Consultant Selection Committee, appointed by the secretary of transportation, will conduct the discussions with the firms invited to the individual interview conferences. The committee will select several firms to perform the professional VE services required for completing the advertised project.

It is KDOT's policy to use the following criteria as the basis for selection of the consulting engineering firms:

- 1. Size and professional qualifications.
- 2. Experience of staff.
- 3. Location of firm with respect to project(s).
- 4. Work load of firm.
- 5. Firm's performance record.

The firm's accounting systems must have the following capabilities before the firm may be awarded a contract:

- Valid, reliable and current costs must be available within the system to support cost and pricing data.
- Capability to provide a means of measuring the reasonableness of incurred costs.
- Capability to identify and accumulate allowable costs by contract or project records that will reconcile with the general ledger.
- Ability to provide supporting documentation of actual expenditures for each billing, based on costs.

For more information contact David Nagy at DavidN@ksdot.org.

## **Request for Qualifications**

The Kansas Department of Transportation will release a request for qualifications (RFQ) on Wednesday, March 20, for the Johnson County Gateway: I-435/I-35/K-10 Interchange Phase 2 Design-Build Project. The RFQ will be available at: http://www.jocogateway.com.

Prospective design-build teams must submit their Statement of Qualifications (SOQ) by 2 p.m. Wednesday, April 17. The SOQ presents, in general terms, the design-build teams' qualifications for the project. Design-build teams interested in submitting a Statement of Qualifications should look for the RFQ on March 20 at the website above

KDOT will use a two-step process to select a designbuild team. This RFQ to solicit SOQs is the first step KDOT will use to evaluate which teams are most qualified to successfully deliver the project. KDOT will shortlist up to four teams based on the SOQs. The second step, a request for proposals (RFP), will be released by KDOT on Wednesday, May 22, to the shortlisted teams. KDOT will score proposals from shortlisted teams submitted on Monday, December 2, and select a winning team on Friday, January 10, 2014.

The Johnson County Gateway Interchange is one of the busiest interchanges in the state of Kansas. The Phase 2 project boundaries are generally 95th Street to the north on I-435 and I-35, College Boulevard to the south on I-35, Woodland to the west on K-10 and US-69 on the east.

## **Notice of Requested Engineering Services**

Notice is hereby given of the commencement of the selection process for mechanical-electrical-plumbing engineering services for the Adjutant General's Department at the Nickell Barracks, Salina. The project will replace the existing boiler and other HVAC equipment to reduce energy costs and improve efficiency. New equipment must be compatible with a future geothermal field to be installed as part of a different project. The estimated construction cost is \$945,000.

For more information contact Tim Driggs at timothy.d. driggs.nfg@mail.mil or 785-274-1177. A scope of work is available at http://www.da.ks.gov/fp/ArchEngPrograms.htm.

To be considered, one (1) PDF file and one (1) bound proposal of the following should be provided: State of Kansas Professional Qualifications DCC Forms 051-054, inclusive, and information regarding similar projects. State of Kansas Professional Qualifications DCC Form 050 for each firm and consultant should be provided at the end of each proposal. Please include your firm name, agency abbreviation and an abbreviated project name in the title of the PDF document and if sent via email in the subject line of the email. Proposals should be less than 5MB and follow the current State Building Advisory Commission guidelines, which can be found in Part B Chapter 2 of the Building Design and Construction Manual at www.da.ks.gov/fp/manual.htm. Proposals should be sent to Barbara Schilling, Office of Facilities and Procurement Management, Suite 700, 800 SW Jackson, Topeka, 66612-1216. If you have questions call 785-291-3695 or email professional.qualifications@da.ks.gov. ## Kansas Development Finance Authority

## Notice of Hearing

The Kansas Development Finance Authority will conduct a public hearing at 9 a.m. Thursday, March 28, at the offices of the KDFA at 555 S. Kansas Ave., Suite 202, Topeka, regarding a plan by the KDFA and/or the Colorado Health Facilities Authority (the Colorado Authority) to pay or reimburse Sisters of Charity of Leavenworth Health System, Inc., a Kansas nonprofit corporation (SCL), for the payment of the costs of acquiring, constructing and equipping certain health care facilities of SCL, St. Joseph Hospital, Inc., Denver, Colorado (St. Joseph), and St. Francis Health Center, Inc. (St. Francis, and together with St. Joseph, the users), including without limitation the construction of an approximately 825,000 square foot hospital building on the campus of St. Joseph Hospital, Inc., Denver, Colorado, and certain renovation and equipping projects on the campus of St. Francis Health Center, Inc., Topeka, Kansas (collectively, the project). Public approval by the state of Colorado has been or will be obtained following a public hearing and public notice in the state of Colorado regarding the portion of the project located in that state.

The costs of the project will be financed or reimbursed with the proceeds of the sale (the disposition proceeds) by SCL of Providence Medical Center and St. John's Hospital (collectively, the hospitals). The amount of disposition proceeds will not exceed \$60,000,000. Certain costs of constructing, renovating and remodeling the hospitals were paid from the proceeds of certain revenue bonds previously issued by the KDFA (the prior bonds). The hospitals will be sold to a purchaser that is neither a "501(c)(3) organization" or a "governmental unit" and such sale will therefore constitute a "deliberate action" (as such terms are defined in the Internal Revenue Code of 1986, as amended, and the regulations issued thereunder (the code)). The disposition proceeds will be spent on costs of the project, which will constitute a "remedial action" (within the meaning of the code).

The initial owners, operators or managers of the facilities being financed or reimbursed with the disposition proceeds are or will be SCL and the users.

Up to \$10,000,000 of the disposition proceeds will be used in the state of Kansas for the portion of the project to be owned and operated by SCL or St. Francis located at one or more of the following addresses in Topeka, Kansas: 634, 700, 701 and 707 S.W. Mulvane St. (including parking garage and parking lot); 708-710, 1501, 1505, 1507, 1511, 1513, 1515, 1516, 1517, 1523, 1701, 1925, 2001, 3500, 5800, 5820 and 6001 S.W. 6th Ave.; S.W. 6th Ave. and S.W. Corporate View; 600, 612, 635, 710, 714, 718, 722, 724, 732 and 736 S.W. College Ave.; 1700 (including parking garage and parking lot) and 1811 S.W. 7th St.; 610, 630, 631 and 700 S.W. Horne St.; 611 S.W. Jewell Ave.; 711 S.W. Garfield Ave.; 2835 S.W. Mission Woods Drive (including parking lot); 6730 S.W. Mission View Drive; 6730 S.W. 29th St.; 4646 N.W. Fielding Road; 3164 S.E. 6th St.; and 801 S.W. Fairlawn Road.

Up to \$60,000,000 of the disposition proceeds will be used in the state of Colorado for the portion of the project to be owned and operated by SCL or St. Joseph located at one or more of the following addresses in Denver, Colorado: 1825, 1830, 1831, 1835, 1845, 1895, 2005 and 2045 N. Franklin St.; 1099 E. 18th Ave.; 960, 1010, 1015, 1020, 1099 and 1375 E. 19th Ave.; 1116, 1386, 1436 and 1500 E. 20th Ave.; 1252 E. 21st Ave.; 1015, 1925, 1959 and 1975 N. Downing St.; 1839 and 1900 N. Lafayette St.; and 1960 and 1990 N. Ogden St.

The prior bonds are limited obligations of the authority and do not constitute a general obligation or indebtedness of the states of Kansas or Colorado or any political subdivision thereof, including the KDFA, nor do the prior bonds constitute an indebtedness for which the faith and credit and taxing powers of the states of Kansas or Colorado are pledged. The prior bonds are payable solely out of the revenues and other funds pledged and assigned for their payment in accordance with one or more loan agreements each between SCL and the KDFA and the indentures pursuant to which the prior bonds are issued or reissued.

The public hearing is required by Section 147(f) of the Internal Revenue Code of 1986, as amended. All individuals who appear at the hearing will be given an opportunity to express their views for or against the proposed plan of finance, and all written comments previously filed with the KDFA at its offices at 555 S. Kansas Ave., Suite 202, Topeka, 66603, will be considered. Additional information regarding the project described above may be obtained by contacting the KDFA.

In accordance with the Americans with Disabilities Act (ADA), any person with a disability as defined by the ADA needing special accommodations to participate in the public hearing should contact Rebecca Floyd at 785-357-4445 not later than two business days prior to the hearing.

## **State Corporation Commission**

## Notice of Hearing on Proposed Administrative Regulations

A public hearing will be conducted at 10 a.m. Thursday, May 16, at the office of the State Corporation Commission, 130 S. Market, Room 2078, Wichita, to consider the adoption of proposed permanent regulations. The new and amended regulations address horizontal wells, pits, spills and transfers of refuse.

This 60-day notice of the public hearing constitutes a public comment period for the purpose of receiving written public comments on the proposed rules and regulations. All interested parties may submit written comments prior to the hearing to Lane Palmateer, litigation counsel, State Corporation Commission, 130 S. Market, Room 2078, Wichita, 67202, or by email to oilandgas regcomments@kcc.ks.gov. In addition, interested parties will be given a reasonable opportunity to present their views regarding the adoption of the proposed regulations during the public hearing.

Any individual with a disability may request accommodation to participate in the public hearing and may request the proposed regulations and economic impact statement be provided in an accessible format. Requests for accommodation should be made at least 10 days in advance of the hearing by contacting Lane Palmateer at 316-337-6200.

Copies of the proposed regulations and economic impact statement may be obtained from the commission's office at the address above or from the commission's website at http://kcc.ks.gov. Internet access will not result in a fee. Provision of a physical copy of the regulations may result in the costs being assessed to the requesting party.

Summaries of the proposed regulations and economic impact statement follow:

K.A.R. 82-3-103a. Deviated holes; notice and hearing required. The proposed amendment to this regulation removes the application and notice requirement for drilling a horizontal well.

**K.A.R. 82-3-135a. Notice of application.** The proposed amendment to this regulation clarifies the notice requirement for an application for a deviated wellbore. This is a technical change, and there is not a substantive change to this regulation.

K.A.R. 82-3-602. Closure of pits; disposal of pit contents; closure form; drilling fluid management; surface restoration. The proposed amendment to this regulation reduces the time allowed to close a work-over pit from 365 days to 90 days; provides limits on extensions for pit closure; removes the requirement to report chlorides in a reserve pit within 48 hours; limits the references to technical documents; removes language regarding transfer of pit waste to prevent a conflict with proposed new K.A.R. 82-3-608; removes the requirement to provide notice before transferring waste from a pit; and changes the surface restoration required from "to the greatest extent possible" to "as nearly as practicable."

(continued)

K.A.R. 82-3-603. Spill notification and cleanup; penalty; lease maintenance. The proposed amendment to this regulation requires "reasonable diligence" in preventing spills instead of a strict prohibition of spills. The regulation also references the refuse transfer reporting requirement in K.A.R. 82-3-608.

K.A.R. 82-3-604. Discharges into emergency pits and diked areas; removal of fluids; penalties. The proposed amendment to this regulation creates a reference to the refuse transfer reporting requirement in K.A.R. 82-3-608, except if the fluid is removed from the pit or diked area to an on-site tank.

K.A.R. 82-3-607. Disposal of dike and pit contents. The proposed amendment to this regulation creates a reference to the refuse transfer reporting requirement in K.A.R. 82-3-608, except if the refuse is removed to the same on-site tank or facility from which the refuse originated. The penalty amounts in subsection (b) are removed, and a reference to the penalty in K.A.R. 82-3-608(d) is added, to prevent the creation of a duplicative penalty.

K.A.R. 82-3-608. Transfer of refuse. This new regulation creates a form-filing requirement within 30 days after an operator transfers "refuse from any pit or diked area or refuse relating to any remediation or cleanup activity." The regulation specifies penalties for the failure to comply with the requirement. The regulation also provides commission staff with authority to require an operator to transfer "refuse from any pit or diked area or refuse relating to any remediation or cleanup activity" if it is reasonably likely that the refuse would cause pollution without the transfer. The regulation provides penalty amounts for the failure to timely transfer refuse.

**K.A.R. 82-3-1300. Definitions; horizontal wells.** This new regulation creates definitions relating to horizontal wells.

**K.A.R. 82-3-1301. Horizontal wells.** This new regulation provides that the regulations applicable to vertical wells shall apply to horizontal wells except as specifically provided, and in addition to, the requirements in K.A.R. 82-3-1300 through K.A.R. 82-3-1307.

K.A.R. 82-3-1302. Notice of intention to drill; setback. This new regulation provides a form-filing requirement before drilling a horizontal well, with information specific to horizontal wells. The regulation also provides that the setback specified in K.A.R. 82-3-108, K.A.R. 82-3-207, and K.A.R. 82-3-312 shall apply to the entire completion interval of each horizontal wellbore.

**K.A.R. 82-3-1303.** Oil and gas allowables. This new regulation provides horizontal oil wells with an allowable of 200 barrels per 660 feet of completion interval, with each remainder of less than 660 feet resulting in a correspondingly proportionate addition to the allowable. Horizontal gas wells are granted an allowable of 3,000,000 cubic feet per day.

K.A.R. 82-3-1304. Gas well test exemption. This new regulation exempts horizontal wells from the gas well testing requirements in K.A.R. 82-3-303 and K.A.R. 82-3-304

**K.A.R. 82-3-1305. Venting and flaring.** This new regulation prohibits venting from any horizontal well and provides requirements for flaring from a horizontal well.

**K.A.R. 82-3-1306. High-volume pumps.** This new regulation exempts horizontal wells from the requirements in K.A.R. 82-3-131 pertaining to high-volume pumps.

K.A.R. 82-3-1307. Well completion report. This new regulation provides that an operator of a horizontal well will provide a well completion report pursuant to K.A.R. 82-3-106 and K.A.R. 82-3-130, including information specific to horizontal wells and a directional survey.

## **Economic Impact Statement:**

The horizontal well regulations will not add a substantial cost to either the commission or the industry. The horizontal well regulations will lessen the costs associated with obtaining authorization to drill a horizontal well in Kansas and expedite the process. As detailed in the application, testimony, hearing transcript, and Order in KCC Docket 12-CONS-117-CEXC, commission staff has spent substantial time obtaining recommendations from stakeholders regarding horizontal wells.

The regulations addressing transfer of refuse will create a small direct cost for the commission that will be handled by current staff members. The regulations will expand a form filing requirement for the industry, but the expansion will not create a substantial additional cost to the industry. Commission staff has spent substantial time discussing the expansion with stakeholders to ensure the final product is appropriately tailored to meet the objective. The refuse transfer regulations will provide an environmental benefit by assisting commission staff in ensuring that proper disposal techniques are employed with regard to transferred refuse.

(2) Any licenses not otherwise specified in this regulation for possession and use of special nuclear material, except licenses authorizing special nuclear material in unsealed form in combination that would constitute a critical mass.

(b) Source material.

(1) Licenses that authorize only the possession, use, or installation of source material for shielding.

(2) All other source material licenses not otherwise specified in this regulation.

Annual fee ...... \$4,745.00

(c) Radioactive or by-product material.

(1) Licenses of broad scope for possession and use of radioactive or by-product material issued for processing or manufacturing items containing radioactive or byproduct material for commercial distribution.

(2) Other licenses for possession and use of radioactive or by-product material issued for processing or manufacturing items containing radioactive or by-product material for commercial distribution.

(3) Licenses authorizing the processing or manufacturing and the distribution or redistribution of radiopharmaceuticals, generators, reagent kits, sources, or devices containing radioactive or by-product material. This category shall include the possession and use of source material for shielding when included on the same license.

(4) Licenses authorizing distribution or redistribution of radiopharmaceuticals, generators, reagent kits, sources, or devices not involving processing of radioactive or by-product material. This category shall include the possession and use of source material for shielding when included on the same license.

(5) Licenses for possession and use of radioactive or byproduct material in sealed sources for irradiation of materials in which the source is not removed from its shield.

(6) Licenses for possession and use of less than 10,000 curies of radioactive or by-product material in sealed sources for irradiation of materials in which the source is exposed for irradiation purposes. This category shall include underwater irradiators for irradiation of materials in which the source is not exposed for irradiation purposes.

(7) Licenses for possession and use of at least 10,000 curies of radioactive or by-product material in sealed sources for irradiation of materials in which the source is exposed for irradiation purposes. This category shall include underwater irradiators for irradiation of materials in which the source is not exposed for irradiation purposes.

(8) Licenses issued to distribute items containing radioactive or by-product material that require device review to persons exempt from licensing, except specific licenses authorizing redistribution of items that have been authorized for distribution to persons exempt from licensing.

(9) Licenses issued to distribute items containing radioactive or by-product material or quantities of radioactive or by-product material that do not require device review

to persons exempt from licensing, except for specific licenses authorizing redistribution of items that have been authorized for distribution to persons exempt from licensing.

(10) Licenses issued to distribute items containing radioactive or by-product material that require a safety review of the sealed source or device to any person with a general license, except specific licenses authorizing redistribution of items that have been authorized for distribution to any person with a general license.

(11) Licenses issued to distribute items containing radioactive or by-product material or quantities of radioactive or by-product material that do not require a safety review of the sealed source or device to any person with a general license, except specific licenses authorizing redistribution of items that have been authorized for distribution to any person with a general license.

(12) Licenses of broad scope for possession and use of radioactive or by-product material issued for research and development that do not authorize commercial distribution.

Annual fee ...... \$4,940.00

(13) Other licenses for possession and use of radioactive or by-product material issued for research and development that do not authorize commercial distribution.

(14) Licenses that authorize services for other licensees, except the following:

(A) Licenses that authorize only calibration or leak-testing services, or both, shall be subject to the fee specified in paragraph (c)(16).

(B) Licenses that authorize waste disposal services shall be subject to the fees specified in the fee categories in subsection (d).

(15) Licenses for possession and use of radioactive or by-product material for industrial radiography operations. This category shall include the possession and use of source material for shielding when authorized on the same license.

(16) All other specific radioactive or by-product material licenses not otherwise specified in this regulation.

(17) Registration of general licenses for devices or sources specified in part 3 of this article, except those authorized by K.A.R. 28-35-178f.

(d) Waste disposal and processing.

(1) Licenses authorizing the possession and use of radioactive or by-product material, source material, or special nuclear material waste for a commercial, low-level radioactive waste disposal facility.

(A) Amendment to license concerning safety and environmental questions.

as specified in K.A.R. 28-35-146a

(B) Amendment to license concerning administration questions.

(2) Licenses specifically authorizing the receipt of radioactive or by-product material, source material, or special nuclear material waste from other persons for the purpose of packaging or repackaging the material. The licensee shall dispose of the material by transfer to another person authorized to receive or dispose of the material.

(3) Licenses specifically authorizing the receipt of prepackaged radioactive or by-product material, source material, or special nuclear material waste from other persons. The licensee shall dispose of the material by transfer to another person authorized to receive or dispose of the material.

(e) Well logging.

(1) Licenses for possession and use of radioactive or byproduct material, source material, or special nuclear material for well logging, well surveys, and tracer studies other than field flooding tracer studies.

(2) Licenses for possession and use of radioactive or byproduct material for field flooding tracer studies.

(f) Nuclear laundries.

Licenses for commercial collection and laundry of items contaminated with radioactive or by-product material, source material, or special nuclear material.

(g) Medical licenses.

(1) Licenses issued for human use of radioactive or byproduct material, source material, or special nuclear material in sealed sources contained in teletherapy devices. This category shall include the possession and use of source material for shielding when authorized on the same license.

(2) Licenses of broad scope issued to medical institutions or two or more physicians authorizing research and development, including human use of radioactive or byproduct material, except licenses for radioactive or byproduct material, source material, or special nuclear material in sealed sources contained in teletherapy devices. This category shall include the possession and use of source material for shielding when authorized on the same license. Separate annual fees shall not be assessed for pacemaker licenses issued to medical institutions who also hold nuclear medicine licenses under categories in this paragraph or paragraph (g)(3).

(3) Other licenses issued for human use of radioactive or by-product material, source material, or special nuclear material, except licenses for radioactive or by-product material, source material, or special nuclear material in sealed sources contained in teletherapy devices. This category shall include the possession and use of source

material for shielding when authorized on the same license. Separate annual fees shall not be assessed for pacemaker licenses issued to medical institutions who also hold nuclear medicine licenses under categories in this paragraph or paragraph (g)(2).

(h) Civil defense.

Licenses for possession and use of radioactive or byproduct material, source material, or special nuclear material for civil defense activities.

(i) Device, product, or sealed source safety evaluation.

(1) Safety evaluation review of each device or product containing radioactive or by-product material, source material, or special nuclear material, except any reactor fuel device, for commercial distribution. This fee shall apply to each device or product.

(2) Safety evaluation review of each device or product containing radioactive or by-product material, source material, or special nuclear material manufactured in accordance with the unique specifications of, and for use by, a single applicant, except any reactor fuel device. This fee shall apply to each device or product.

(3) Safety evaluation of each sealed source containing radioactive or by-product material, source material, or special nuclear material, except reactor fuel, for commercial distribution. This fee shall apply to each sealed source.

(4) Safety evaluation of each sealed source containing radioactive or by-product material, source material, or special nuclear material manufactured in accordance with the unique specifications of, and for use by, a single applicant. This fee shall apply to each sealed source.

(j) Reciprocity.

(1) Licensees who conduct activities under a reciprocal agreement.

(2) Registrants who conduct activities under a reciprocal agreement.

(k) X-ray machines.

(1) Base registration fee per facility.

(2) Registration fee for each x-ray tube at a facility. This fee shall be in addition to the base registration fee.

Annual fee per x-ray tube ...... \$35.00

(1) Particle accelerators.

(Authorized by and implementing K.S.A. 48-1606; effective Oct. 8, 2004; amended March 29, 2013.)

#### INDEX TO ADMINISTRATIVE REGULATIONS

This index lists in numerical order the new, amended and revoked administrative regulations and the volume and page number of the Kansas Register issue in which more information can be found. Temporary regulations are designated with a (T) in the Action column. This cumulative index supplements the 2009 Volumes of the Kansas Administrative Regulations and the 2012 Supplement of the Kansas Administrative Regulations.
