The purpose of a Class I permit is to identify the sources and types of regulated air pollutants emitted from the facility; the emission limitations, standards and requirements applicable to each source; and the monitoring, record keeping and reporting requirements applicable to each source as of the effective date of permit issuance.

Ash Grove Cement Company, Overland Park, 66210, owns an existing Portland cement manufacturing plant operated by Ash Grove Cement Company located at 1801 N. Santa Fe, Chanute, Neosho County, 66720.

A copy of the proposed permit, permit application, all supporting documentation and all information relied upon during the permit application review process is available for a public review during normal business hours, 8 a.m. to 5 p.m., at the KDHE, Bureau of Air, 1000 S.W. Jackson, Suite 310, Topeka, and at the KDHE Southeast District Office, 1500 W. 7th St., Chanute. To obtain or review the proposed permit and supporting documentation, contact Lynelle Ladd, 785-296-1719, at the KDHE central office, or Doug Cole, 620-431-2390, at the KDHE

The written request must be submitted to Lynelle Ladd, KDHE, Bureau of Air, not later than noon Monday, June 16, in order for the secretary of health and environment to consider the request. If a pertinent request is received, a public hearing is tentatively scheduled by KDHE on July 8 at the Sanders Auditorium, Sanders Building, on the Chanute Campus of Neosho County Community College, 800 W. 14th St., Chanute. A notice of the cancellation will be posted at the KDHE website at http://www.kdheks. gov/bar/publicnotice.html.

If a hearing is conducted, all interested parties will be given a reasonable opportunity to present their views orally or by submission of written materials during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to limit oral presentations to a specific time limit.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed materials in an accessible format. Requests for accommodation must be made not later than June 27 by contacting Sherry Walker at 785-296-1570.

The U.S. Environmental Protection Agency has a 45day review period, which will start concurrently with the public comment period, within which to object to the proposed permit. If the EPA has not objected in writing to the issuance of the permit within the 45-day review period, any person may petition the administrator of the EPA to review the permit. The 60-day public petition period will directly follow the EPA's 45 day review period. Interested parties may contact KDHE to determine if the EPA's 45-day review period has been waived.

Any such petition shall be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided for in this notice, unless the petitioner demonstrates that it was impracticable to raise such objections within such period, or unless the grounds for such objection arose after such period. The proposed action consists of reissuance of Kansas/NPDES Stormwater Pollution Control MS4 permits for the above-named permittees. The draft permits cover all areas within the permittee's jurisdiction and authorize all existing or new stormwater point source discharges that discharge to waters of the state from the municipal separate storm sewer system (MS4) located within the permit area.

The draft permits require the permittees to update the current stormwater management plans (SMP) to include the additional requirements in this permit including to reduce the discharge of pollutants from the MS4 to the maximum extent practicable (MEP), continue to implement the six minimum control measures and satisfy the Clean Water Act and Kansas surface water quality statutes and regulations.

The permittees are required to monitor the stormwater runoff from certain industrial and high-risk facilities, implement structural and nonstructural best management practices (BMPs) to reduce to the maximum extent practicable the discharge of the total maximum daily load (TMDL) regulated pollutants (bacteria, nutrients and sediment) as provided in the permits, and establish measurable goals to assess the effectiveness of the TMDL BMPs. The draft permits require implementation of a wet weather monitoring program including monitoring frequency, conditions and parameters, as designed to assess the improvements in the water body due to the BMP control measures implemented under the SMP.

The draft permits allow alternative stormwater off-site pollution reduction programs, as appropriate, when waters of the state are affected by TMDL-regulated pollutants from both the permit area and surrounding nonjurisdictional lands to achieve the measureable goals. The draft permits contain a schedule of compliance to implement and achieve various required activities and a reporting schedule.

Persons wishing to comment on the draft documents and/or permit applications must submit their comments in writing to the Kansas Department of Health and Environment if they wish to have the comments considered in the decision-making process. Comments should be submitted to the attention of the Livestock Waste Management Section for agricultural-related draft documents or applications, or to the Technical Services Section for all other permits, at the Kansas Department of Health and Environment, Division of Environment, Bureau of Water, 1000 S.W. Jackson, Suite 420, Topeka, 66612-1367.

All comments regarding the draft documents or application notices received on or before June 14 will be considered in the formulation of the final determinations regarding this public notice. Please refer to the appropriate Kansas document number (KS-AG-14-123/133, KS-Q-14-080/084) and name of the applicant/permittee when preparing comments.

After review of any comments received during the public notice period, the secretary of health and environment will issue a determination regarding final agency action on each draft document/application. If response to any draft document/application indicates significant public interest, a public hearing may be held in conformance with K.A.R. 28-16-61 (28-46-21 for UIC).

All draft documents/applications and the supporting information including any comments received are on file and may be inspected at the offices of the Kansas Department of Health and Environment, Bureau of Water. K.A.R. 1-9-22. Job injury leave. This is a proposed amendment to an existing regulation that would broaden the definition of "qualifying job injury" by allowing appointing authorities to grant job injury leave where the injury was sustained in situations in which an appointing authority determines that granting job injury leave is in the best interest of the state. The economic impact will depend on utilization but the job injury leave will be funded by the operating budgets of agencies granting such leave.

**K.A.R. 1-14-11. Furloughs.** Amendments to this regulation are made to distinguish planned administrative (continued)

Vol. 33, No. 20, May 15, 2014

furloughs which require furlough plans to be submitted to the Director of Personnel Services at least 30 days before implementation of the administrative furlough from emergency furloughs resulting in an unanticipated interruption of funding to an agency where submission of a furlough plan 30 days prior to implementation is not required. The economic impact of these changes is expected to be minimal due to the occurrence of emergency furloughs historically being relatively rare.
