Jackson, Suite 310, Topeka, and at the KDHE Southwest District Office, 302 W. McArtor Road, Dodge City. A person may request a public hearing be held on the proposed permit. The request for a public hearing shall be in writing and set forth the basis for the request. The written request must be submitted to Connie Ellis, KDHE, Bureau of Air, not later than noon October 13 in order for the secretary of health and environment to consider the request.

The U.S. Environmental Protection Agency has a 45-day review period, which will start concurrently with the public comment period, within which to object to the proposed permit. If the EPA has not objected in writing to the issuance of the permit within the 45-day review period, any person may petition the administrator of the EPA to review the permit. The 60-day public petition period will directly follow the EPA's 45-day review period. Interested parties may contact KDHE to determine if the EPA's 45-day review period has been waived.

Any such petition shall be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided for in this notice, unless the petitioner demonstrates that it was impracticable to raise such objections within such period, or unless the grounds for such objection arose after such period. Contact Ward Burns, U.S. EPA, Region 7, Air Permitting and Compliance Branch, 11201 Renner Blvd., Lenexa, 66219, 913-551-7960, to determine when the 45-day EPA review period ends and the 60-day petition period commences.

# **Notice of Hearing on Proposed** Administrative Regulations

The Kansas Department of Health and Environment, Division of Environment, Bureau of Water, will conduct a public hearing at 10 a.m. Thursday, November 20, in the Azure Conference Room, fourth floor, Curtis State Office Building, 1000 S.W. Jackson, Topeka, to consider the adoption of proposed amended regulations K.A.R. 28-16-28b, 28-16-28c, 28-16-28d, 28-16-28e, 28-16-28f and 28-16-58 regarding Kansas surface water quality standards. A summary of the proposed regulations and the estimated economic impact follows:

#### **Summary of Regulations:**

K.A.R. 28-16-28b. Definitions. Adds definitions for the terms digression, discharge design flow, duration of digression, EPA, excursion from numeric criteria, frequency of digression, numeric criteria value, and 30Q10 flow. Deletes the definition for fecal coliform bacteria because it is no longer used in the Kansas Surface Water Quality Standards.

K.A.R. 28-16-28c. General provisions. Adds paragraph titles for clarity and consistent regulatory style in antidegradation, mixing zones, special conditions and treatment requirements. Revises and updates adoptions by reference. Deletes special conditions for high flow because the Environmental Protection Agency disapproved this part of the regulation in 2004.

K.A.R. 28-16-28d. Surface water classification and use designation. Adds titles to subsections (b) and (c) for clarity and consistency. Clarifies the term recreational use. Updates adoption by reference language for the Kansas Surface Water Register.

K.A.R. 28-16-28e. Surface water quality criteria. Adds new language specifying duration and frequency of numeric criteria for assessment purposes. Adds subsection titles to clarify content. Updates regulatory style. Revises adoptions by reference. Adopts the October 1, 2012, "Kansas Surface Water Quality Standards: Tables of Numeric Criteria" in subsection (e) that updates the tables as follows: Updates Table 1a with a new table which adds Chemical Abstact Service (CAS) numbers for each parameter if available, adds national recommended criteria and maximum contaminant levels for parameters where criteria is adopted, adds criteria for toxic pollutants promulgated by EPA's National Toxic Rules that are applicable in Kansas but not adopted by KDHE, and regroups organic chemicals including pesticides for improved classification. Deletes equations for copper in Table 1b due to the adoption of the Copper Biotic Ligand Model for deriving acute and chronic aquatic life criteria of copper. Updates footnotes in Table 1g to modify and clarify application of the dissolved oxygen and temperature criteria. Updates Table 1h detailing the background concentrations as determined through total maximum daily loads (TMDL) development and approval. Adds new Table 1k detailing new chlorophyll-a criteria; the lesser value of 10 μg/l or the long-term chlorophyll-a average for lakes or reservoirs with active or reserve domestic water supply use. Adds new Table 11 listing lakes and reservoirs where the new chlorophyll-a criteria is applicable.

K.A.R. 28-16-28f. Administration of surface water quality standards. Updates language regarding variances and enforcement. Adds language to clarify the establishment of site-specific water quality criteria. Updates adoptions by reference and regulatory style.

K.A.R. 28-16-58. Definitions. Updates definitions of terms used in K.A.R. 28-16-57a through 28-16-63. Deletes the term industrial user. Revises adoptions by reference.

#### **Economic Impact:**

Costs to the agency: The proposed regulations will not result in any increased costs to the agency.

Costs to the regulated community: Default inputs or KDHE stream chemistry data will be utilized to run the Biotic Ligand Model (BLM) when a facility is required to monitor for copper. National Pollutant Discharge Elimination System (NPDES) facilities may incur additional costs for sample collection and analysis for the parameters required for the BLM model if the facility elects to

utilize site-specific water quality data. Additional costs for sampling and analysis will not likely be significant or burdensome to these facilities. Resulting effluent limitations for copper from the BLM model may be more stringent, less stringent or unchanged from limitations emanating from the existing hardness-based copper criteria. The new chlorophyll-a criteria for public drinking water supply lakes is not anticipated to increase costs to the regulated community. Chlorophyll-a reflects the productivity of plants and algae in lakes and is directly linked to nutrient loading, as excessive algal growth leads to undesirable eutrophic conditions. The new chlorophyll-a criteria, achieved through implementation of eutrophication TMDL, will likely reduce the operating costs of drinking water plants, having to treat to prevent taste and odor problems. The criteria also provide warning to public water suppliers of threatening source water conditions to allow for contingency planning. The benefits to the drinking water plants, consumers, and local communities will offset and may outweigh the cost associated with nutrient reduction in the long term. Where nutrient reduction is imperative, any related costs are unchanged from the narrative criterion that is being replaced with the adoption of the numeric chlorophyll-a criteria. For all other proposed changes there are no known additional costs to the regulated communities or the public. Additional details are provided in the regulatory impact statement that is available, as listed below.

Costs to other governmental agencies or units: There are no known additional costs to other governmental agencies or units.

The time period between publication of this notice and 5 p.m. on the day of the scheduled hearing serves as the required public comment period of at least 60 days for the purpose of receiving written public comments on the proposed amended regulations. At any time during the public comment period interested parties may submit written comments to Trevor Flynn, Kansas Department of Health and Environment, Bureau of Water, 1000 S.W. During the hearing, all interested parties will be given a reasonable opportunity to present their views orally on the proposed regulations as well as an opportunity to submit their written comments. In order to give each individual an opportunity to present their views, it may be necessary for the hearing officer to request that each presenter limit any oral presentation to an appropriate time frame.

Factors considered by the commission in making the determination shall include the geographic locations of the proposed events and the availability of the commission staff and officials. If the commission is unable to regulate more than one event, a permit shall be issued to the first applicant that submits a complete application.

The overstamp shall be placed on the printed face of the ticket as well as on the stub retained by the ticket holder. Failure to comply with this subsection shall result in the full ticket price being used for purposes of computing the athletic fee required to be paid.
- (f) Each complimentary ticket shall be clearly marked "COMPLIMENTARY." A promoter shall not issue complimentary tickets for more than 15 percent of the seats in the venue, without the boxing commissioner's prior written authorization. Failure to comply with this subsection shall result in the required use of the full ticket price for the purpose of computing the athletic fee required to be paid.
- (g) The boxing commissioner, the commission's staff, each inspector, and each member of the athletic commission shall be admitted without a ticket or pass to any contest or professional wrestling performance over which the commission has jurisdiction.
- (h) No person without a ticket shall be admitted to an event unless that person is one of the following:
  - (1) A contestant scheduled to compete at the event;
- (2) an employee or independent contractor who provides identification from the promoter indicating that the individual is an employee or independent contractor working for the promoter;
- (3) a member of the media approved by the promoter to attend the event;

- (2) occupy a seat unless the ticket holder is in possession of the electronic ticket, ticket stub, or marked ticket.
- (j) If a ticket is electronic, the ticket shall be scanned before the ticket holder's admission into the venue.
- (k) Once the ticket holder gains entry to a venue by way of ticket, the individual shall be readmitted after leaving only if the individual presents a ticket stub or other evidence of admission and a notation stamp or other similar marking indicating that the individual is permitted to reenter.
- (l) The following duties shall be the responsibility of each inspector assigned to each event:
- (1) Supervising ticket sales, ticket boxes, and the entrances and exits to the site of the contest or performance for the purpose of checking admission controls; and
- (2) ensuring that all tickets are counted and that a final accounting, including computation of the number of complimentary tickets and passes that are used, the price of admission charged for each ticket, and the gross receipts from all ticket sales, is completed.
- (m) The final accounting shall be conducted in a private room or secured area and in the presence of both the promoter's representative and the assigned inspector. The final accounting shall include a determination by the assigned inspector of the amount of athletic fee due from the promoter.
- (n) Each promoter who obtains a permit for an event shall pay to the commission the athletic fee, which is five percent of the gross receipts derived from the admission charges for the event.
- (o) Gross receipts shall mean the total amount of all ticket sales, including complimentary tickets and passes, after sales tax is deducted. For the purposes of this subsection, complimentary tickets and passes shall be included in the calculation of gross receipts and counted as if the complimentary tickets and passes had been sold at the average ticket price of all those tickets offered for sale for the event.
- (p) If no admission is charged for an event and the promoter is promoting the event for a contracted amount, the five percent athletic fee shall be based on the contract price. A copy of the contract shall be submitted to the commission with the fee payment. If there is no written contract, the promoter and the entity with which the promoter has entered into an oral contract shall sign a notarized affidavit stating the amount paid to the promoter for the event. (Authorized by K.S.A. 2013 Supp. 74-50,187; implementing K.S.A. 2013 Supp. 74-50,186 and 74-50,187; effective April 4, 2008; amended Dec. 20, 2013; amended Sept. 26, 2014.)
