## 2015 Update to Guidelines for Takings of Private Property

The Private Property Protection Act, K.S.A. 77-701 et seq., requires the Attorney General to compile and annually update guidelines to be used by state agencies in determining whether proposed government actions may constitute a taking of private property. These guidelines are to be based on cases decided by the United States Supreme Court and the Kansas Supreme Court.¹ Government action is defined as legislation, regulations or directives, or agency guidelines and procedures for the issuing of licenses or permits.² The Act expressly excludes other types of activity, such as the formal exercise of eminent domain.³

Under the criteria of the Act, there are no cases to include in the 2015 update to the Attorney General's Guidelines.<sup>4</sup>

Kansas Ave., Suite 800, Topeka, on the proposal for the KDFA to issue its Agricultural Development Revenue Bond for the project numbered below in the respective maximum principal amount. The bond will be issued to assist the borrower named below (who will be the owner and operator of the project) to finance the cost in the amount of the bond, which is then typically purchased by a lender bank who then, through the KDFA, loans the bond proceeds to the borrower for the purposes of acquiring the project. The project shall be located as shown:

Project No. 000945 – Maximum Principal Amount: \$441,000. Owner/Operator: Lindsey A. and Julius I. Hornung. The bond will be payable solely from amounts received from the respective borrower, the obligation of which will be sufficient to pay the principal of, interest and redemption premium, if any, on the bond when it becomes due.

All individuals who appear at the hearing will be given an opportunity to express their views concerning the proposal to issue the bond to finance the project, and all written comments previously filed with the KDFA at its offices at 534 S. #### Article 56.—IGNITION INTERLOCK DEVICES

- **92-56-4.** Installation, inspection, and calibration standards. (a) Each ignition interlock device installed at the direction of the division shall be done at the driver's own expense, except as allowed by K.A.R. 92-56-2.
- (b) A manufacturer shall ensure that each service provider meets the following requirements:
- (1) Install each device in accordance with the manufacturer's instructions. Each service provider shall, within two weeks of installation, inform the division each time a device has been installed;
- (2) install each device so that the device will be deactivated if the driver has a BrAC of .03 or higher until a successful retest occurs;
- (3) set each device so that if the driver fails the initial ignition interlock device test, a retest cannot be done for 15 minutes;
- (4) set each device so that a rolling retest will be required of the driver of the vehicle within 10 minutes of starting the vehicle. Subsequent rolling retests shall occur as described in K.A.R. 92-56-1. The driver shall have five minutes to complete the retest. The free restart shall not be operative when the device is waiting for a rolling retest sample;
- (5) calibrate each device at least every 30 days at the driver's own expense and maintain an inspection and calibration record with the following information:
  - (A) The name of the person performing the calibration;
  - (B) the date of the inspection and calibration;
- (C) the method by which the calibration was performed;
- (D) the name and model number of the device calibrated;
- (E) a description of the vehicle in which the device is installed, including the license plate number, make, model, year, and color; and
- (F) a statement by the service provider indicating whether there is any evidence of circumvention or tampering; and
- (6) set each device so that a lockout will occur no later than seven days after any of the following events occurs:
- (A) The 30-day calibration and service requirement has been reached;
  - (B) five or more violations are recorded;
  - (C) the emergency bypass procedure has been used;
- (D) a hardware failure or evidence of tampering is recorded; or
  - (E) the events log has exceeded 90 percent of capacity.
- (c) Each driver restricted to driving a vehicle equipped with an ignition interlock device shall keep a copy of the inspection and calibration records in the vehicle at all times. The manufacturer shall retain the original record for each current driver for one year after the device is removed. The manufacturer shall notify the division within seven days after a device has been serviced due to a lockout that occurred for any of the reasons specified in paragraph (b)(6)(D).

- (d) The service provider shall enable each device's anticircumvention features when installing a device and keep the features enabled during the ignition interlock device period. Within two business days, a service provider shall notify the division of any evidence of tampering or circumvention. The evidence shall be preserved by the manufacturer or the manufacturer's representative until otherwise notified by the division.
- (e) The division may conduct or have conducted independent checks on any of the approved ignition interlock devices to determine whether the devices are operating in a manner consistent with the manufacturer's specifications, manufacturer's certifications, or these regulations. The director may require the manufacturer or the manufacturer's representative to correct any abnormality found in the installation, calibration, maintenance checks, or usage records of the device. The manufacturer and the manufacturer's representative shall report in writing to the division within 30 days after receiving notification of any abnormality. In conducting these checks, the manufacturer shall install the device in a vehicle chosen by the division, and the manufacturer shall waive any costs to the division for the installation, calibration, or testing of the device.
- (f) Each manufacturer shall ensure that its service providers meet all of the following requirements:

Written evidence shall include lease and ownership documents associated with each manufacturer's service providers in the required state judicial districts.
- (h) A manufacturer, manufacturer's representative, or service provider shall not compel any driver to travel out of Kansas to receive services.
- (i) A manufacturer shall not permit its service provider to install any device in that service provider's vehicle for the purpose of satisfying K.S.A. 8-1014, and amendments thereto.
