Request for Comments

In accordance with the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) requirements, the Kansas Department of Transportation (KDOT) requests comments on the draft Federal Fiscal Year (FFY) 2017-2020 Statewide Transportation Improvement Program (STIP) for Kansas.

The STIP is a project-specific publication that lists KDOT administered projects, regardless of funding source, including projects for counties and cities as well as projects on the state highway system for a four-year period (October 1, 2016 to September 30, 2020). In addition, an index of projects being advance constructed, summarizing the conversion year(s) and conversion amount by phase for each project listed, is provided. Projects that are developed or revised after the preparation of this STIP document will use the STIP amendment process.

Supplementing the project information is a narrative that briefly describes KDOT's public involvement process, project selection process, program financing and fiscal constraint anticipated for the STIP, and an overview of KDOT's public transportation program. Also, included within the STIP narrative are brief descriptions of the programs administered by entities other than KDOT. These programs which are required by federal law to be included in the STIP are: the Federal Lands and Tribal Transportation programs administered by the Office of Federal Lands Highway and the Bureau of

(continued)

Notice of Public Hearing on Proposed Administrative Regulations

The Kansas Department of Health and Environment (KDHE), Division of Environment, Bureau of Air, will conduct a public hearing at 10 a.m. Thursday, October 13, 2016, in the Azure Conference Room, fourth floor, Curtis State Office Building, 1000 S.W. Jackson, Topeka, to consider the adoption of proposed amended air quality regulations K.A.R. 28-19-11, 28-19-300 and 28-19-304. Upon adoption of these proposed amended regulations, KDHE will submit these regulations to the U.S. Environmental Protection Agency (USEPA) for approval into the State Implementation Plan (SIP).

A summary of the proposed regulations and the estimated economic impact follows.

Summary of Regulations:

K.A.R. 28-19-11. KDHE proposes to amend K.A.R. 28-19-11 to comply with the USEPA SIP call and avoid a Federal Implementation Plan if the state does not comply. Amendments remove the authority of KDHE to declare excess emissions from a startup, shutdown, malfunction or scheduled maintenance event "not a violation" of applicable emission limitations and standards.

K.A.R. 28-19-300. KDHE proposes to amend K.A.R. 28-19-300 to implement the revised National Ambient Air Quality Standard (NAAQS) for Fine Particulate Matter (PM2.5) and to clarify and refine applicability criteria for sources subject to the Kansas Minor New Source Review (NSR) permitting program.

K.A.R. 28-19-304. KDHE proposes to amend K.A.R. 28-19-304 to update the NSR preconstruction permitting program fee structure from an estimated capital cost mechanism to one based on complexity of source and permit type. Current preconstruction permitting fees were established January 23, 1995, and have not been amended or evaluated since inception.

(continued)

The proposed amendments impose no additional costs to the implementing agency, other governmental agencies, units, or the general public.

Costs to the regulated community and consumers: Sources required to obtain a minor NSR construction approval or permit will incur a cost ranging from \$750 for an approval or \$1,000 to \$4,000 for a permit depending on the source category. If the source is required to obtain a Prevention of Significant Deterioration or Nonattainment NSR permit they will incur a cost ranging from \$3,000 to \$18,000 depending on the complexity of the project and the requirement for refined modeling.

The time period between the publication of this notice and the scheduled hearing constitutes a 60-day public comment period for the purpose of receiving written public comments on the proposed regulations. All interested parties may submit written comments prior to 5 p.m. on the day of the hearing to Douglas Watson, Chief, Air Monitoring and Planning Section, Kansas Department of Health and Environment, Bureau of Air, 1000 S.W.
