Notice to Consulting Firms

The Kansas Department of Transportation (KDOT) is seeking to secure ready availability of construction inspection services on an as-needed basis by entering into up to 25 contracts with qualified consulting engineering firms who may perform services, from time to time and on short notice, when KDOT does not have the personnel to perform the services. The services may require engineers and technicians to perform sampling and testing of materials, inspection of construction work as well as administration and recordkeeping associated with such services.

Requirements: Interested consulting firms must: (a) be prequalified by KDOT in category 241 Construction Inspection and Testing; (b) have employees who are experienced in inspection, sampling, and testing as well as certified under the *Certified Inspection and Testing Training Program* described online at www.citksu.com and in the *CIT Manual* found at <http://www.ksdot.org/descons.asp> on KDOT's website; and (c) submit a Letter of Interest on or before **February 23, 2017**, to David Nagy, P.E., Assistant to the Director of Design/Contracts Engineer for KDOT by email to DavidN@ksdot.org with the subject line reading "LOI As-Needed Construction Inspection [Firm Name]". Letters of Interest in the form of a PDF document (maximum size 6 pages) should express interest in performing services on an As-Needed basis and describe particular qualifications for the construction inspection services sought by KDOT, including any special expertise, certifications, training, skill, experience or knowledge of the firm and its employees as well as the number and type of KDOT certified inspectors. KDOT shall not consider the skills or expertise of subconsultant personnel because consultants will be required to perform all services with their own employees. If a firm is not currently prequalified by KDOT but is interested in obtaining prequalification, then please

view the requirements and categories at the website address of <http://www.ksdot.org/divengdes/prequal/default.asp>. For licensure and other requirements applicable to the practice of technical professions within the State of Kansas, please consult the website of the Kansas Board of Technical Professions at <http://www.ksbtp.ks.gov/>. All firms doing business with KDOT must be registered and in good standing under the laws of the State of Kansas and comply with applicable state and federal laws, rules and regulations.

Qualifications-Based Selection Process. Based on the qualifications submitted in the Letter of Interest and other information available to KDOT, on or about **March 16, 2017**, KDOT will shortlist firms and notify all firms submitting Letters of Interest of the names of the shortlisted firms by return email. Thereafter, KDOT will issue a Request for Proposal (RFP) to the shortlisted firms soliciting a technical proposal. At KDOT's option, shortlisted firms may be interviewed by telephone conference call or asked to attend meetings or participate in other discussions with KDOT. Technical proposals will be evaluated on the basis of the factors listed below, evenly weighted, to rank the most qualified firms in order of preference. Evaluation factors: 1) the quality of the response to the RFP; 2) qualifications and experience of consultant employees proposed for services; 3) past performance history; and 4) ability and availability to perform services on short notice in one or more regional areas of the State of Kansas. Up to 25 of the highest ranked firms will be asked to enter into negotiations with KDOT for an As-Needed Agreement for services under which KDOT may request construction inspection services via Task or Work Orders over a period of 4 years, subject to a maximum cumulative aggregate amount payable under the As-Needed Agreement. In the event KDOT cannot reach agreement with any of the highest ranked firms, it will terminate negotiations with such firms and commence negotiations with the next highest ranked firm, and so on, until either agreement is reached for a satisfactory scope of services for a fair and reasonable price, or KDOT decides to pursue other alternatives. KDOT intends to conclude or terminate negotiations on or before **June 1, 2017**.

Please do not call or write KDOT staff for information regarding the services in this Request for Qualifications. Email all inquiries/questions to David Nagy at David.Nagy@ks.gov.

Kansas Development Finance Authority

Notice of Hearing

A public hearing will be conducted at 9:00 a.m. Thursday, March 2, 2017, in the offices of Kansas Development Finance Authority (K DFA), 534 S. Kansas Ave., Suite 800, Topeka, on the proposal for the K DFA to issue its Agricultural Development Revenue Bond for the project numbered below in the respective maximum principal amount. The bond will be issued to assist the borrower named below (who will be the owner and operator of the project) to finance the cost in the amount of the bond, which is then typically purchased by a lender bank who then, through the K DFA, loans the bond proceeds to the borrower for the purposes of acquiring the project. The project shall be located as shown:

Project No. 000969—Maximum Principal Amount: \$346,000. Owner/Operator: Mark A Haug; Description: Acquisition of 156 acres of agricultural land and related improvements and equipment to be used by the owner/operator for farming purposes (the project). The bond, when issued, will be a limited obligation of the K DFA and will not constitute a general obligation or indebtedness of the state of Kansas or any political subdivision thereof, including the K DFA, nor will it be an indebtedness for which the faith and credit and taxing

powers of the state of Kansas are pledged. The bond will be payable solely from amounts received from the respective borrower, the obligation of which will be sufficient to pay the principal of, interest and redemption premium, if any, on the bond when it becomes due.

All individuals who appear at the hearing will be given an opportunity to express their views concerning the proposal to issue the bond to finance the project, and all written comments previously filed with the K DFA at its offices at 534 S. Kansas Ave., Suite 800, Topeka, 66603, will be considered. Additional information regarding the project may be obtained by contacting the K DFA.

KanCare – Summary of Program and Extension Information

KanCare is the program through which the State of

Kansas administers Medicaid. After a long period of study, the state determined that contracting with multiple managed care organizations would result in the provision of more efficient and effective health care services to the populations covered by Medicaid and Children's Health Insurance Program (CHIP) in Kansas, and would ensure coordination of care and integration of physical and behavioral health services with each other and with home- and community-based services (HCBS).

On August 6, 2012, the State of Kansas submitted a Medicaid Section 1115 demonstration proposal, entitled KanCare, to the Centers for Medicare & Medicaid Services (CMS), a division of the U.S. Department of Health and Human Services. CMS approved that proposal on December 27, 2012, effective from January 1, 2013, through December 31, 2017. The state is now preparing to submit an application to extend the KanCare program for one year, effective from January 1, 2018 through December 31, 2018.

KanCare is operating concurrently with the state's section 1915(c) Home- and Community-Based Services (HCBS) waivers. Together, those seven waivers provide the authority necessary for the state to require enrollment of almost all Kansas Medicaid beneficiaries (including the aged, disabled, and some dual eligibles) into a managed care delivery system to receive state plan and waiver services. This represents an expansion of the state's previous managed care program, which provided services to children, pregnant women, and parents in the state's Medicaid program, as well as carved out managed care entities that separately covered mental health and substance use disorder services. KanCare also includes a safety net care pool to support certain hospitals that incur uncompensated care costs for Medicaid beneficiaries and the uninsured, and to provide incentives to hospitals for programs that result in delivery system reforms that enhance access to health care and improve the quality of care.

The KanCare demonstration program will:

- Maintain Medicaid state plan eligibility;
- Maintain Medicaid state plan benefits;
- Allow the state to require eligible individuals to enroll in managed care organizations (MCOs) to receive covered benefits through such MCOs, including individuals on HCBS waivers, except:
 - American Indian/Alaska Natives, who are presumptively enrolled in KanCare but will have the option of affirmatively opting out of managed care.
- Provide benefits, including long-term services and supports (LTSS) and HCBS, via managed care; and
- Create a Safety Net Care Pool to support hospitals that provide uncompensated care to Medicaid beneficiaries and the uninsured.

The KanCare demonstration will assist the state in its goals to:

- Provide integration and coordination of care across the whole spectrum of health to include physical health, behavioral health, and LTSS/HCBS;
- Improve the quality of care Kansas Medicaid beneficiaries receive through integrated care

Economic Impact Statement:

The proposed new regulations are adopted by the Kansas Animal Health Commissioner to implement the Kansas Pet Animal Act. Within these proposed regulations are requirements such as adequate veterinary care, feeding, watering, cleaning, and general requirements for housing facilities for small animals defined under the Kansas Pet Animal Act (KPAA).

The proposed new regulations are intended to streamline and consolidate six different subsets of existing regulations, and create uniform requirements for all licensees subject to the KPAA. These regulations will implement a more easily understandable, customer-friendly set of requirements not only for the licensees, but also for the Kansas Department of Agriculture Animal Facility Inspectors.

These proposed regulations are not mandated by Federal Law.

The proposed regulations should not have a negative fiscal impact upon the Kansas Department of Agriculture.

K.A.R. 9-18-6 Fees. This regulation will bring in an estimated additional revenue of approximately \$4,800 annually to the KDA Animal Facility Inspection program within the Division of Animal Health.

The additional revenue of \$4,800 will be derived from the increase in fees for the existing Group Home Shelters and Rescue Home Shelters, which will be combined in the proposed regulations as Rescue Networks with an annual fee of \$125. This fee was increased to cover the additional staff time and expenses of inspecting these types of shelters.

The current fees for licensure under the Kansas Pet Animal Act will not change, except for the addition of a new category (Rescue Network). This addition will combine two existing categories (Group Home Shelters and Rescue Home Shelters). This addition could pose a financial impact to these two existing categories.

These two existing categories currently pay \$50 annually for a license. These proposed regulations will increase the fees for these existing categories by \$75, with a new proposed fee of \$125.

A number of proposed requirements were discussed in multiple meetings of the Kansas Pet Animal Advisory Board. The fees and other requirements in the proposed regulations are the result of these discussions.

The proposed regulations are not expected to have an environmental impact.

Any individual with a disability may request accommodations in order to participate in the public hearing and may request the proposed regulations and impact statement in an accessible format.
