Department of Health and Environment

Notice of Hearing on Proposed Administrative Regulations

The Kansas Department of Health and Environment (KDHE), Division of Public Health, Bureau of Epidemiology and Public Health Informatics, will conduct a public hearing at 10:00 a.m. Wednesday, February 21, 2018, in the Flint Hills Conference Room, third floor, Curtis State Office Building, Topeka, Kansas, to consider the adoption of proposed amended regulations K.A.R. 28-1-1, 28-1-2, 28-1-4, 28-1-6, 28-1-12, 28-1-13, and 28-1-18 and the proposed revocation of K.A.R. 28-1-7, all regarding infectious or contagious diseases.

A summary of the proposed regulations and estimated economic impact follows:

Summary of Regulations:

K.A.R. 28-1-1. Definitions. Updates defined terms re-

garding infectious or contagious diseases, conditions, or other events of public health importance.

K.A.R. 28-1-2. Reporting requirements of infectious or contagious diseases and conditions. Specifies reportable conditions, timeframes for reporting, and information required for each report.

K.A.R. 28-1-4. Hospital reporting requirements. Updates language for consistency with other regulations.

K.A.R. 28-1-6. Requirements for isolation and quarantine of specific infectious or contagious diseases. Adopts the department reference document "Requirements for Isolation and Quarantine of Infectious or Contagious Diseases" to incorporate the most recent information for procedures to declare isolation and quarantine status of individuals with infectious or contagious diseases. Specifies that the secretary has authority to alter procedures based on the most current medical knowledge. Lists specifications for each infectious or contagious disease of public health importance and for infectious or contagious diseases for which no isolation and quarantine are required.

K.A.R. 28-1-7. Revoked. Contains provisions that are included in K.A.R. 28-1-6 and the department reference document adopted in that regulation.

K.A.R. 28-1-12. Release from isolation or quarantine. Updates language for consistency with other infectious or contagious disease and condition regulations.

K.A.R. 28-1-13. Rabies control. Adopts the department reference document "Rabies Control Requirements" to incorporate the most recent procedures for addressing control of rabies exposures and infections and requirements for isolation and quarantine.

K.A.R. 28-1-18. Reporting and submission requirements for laboratories. Specifies requirements for reporting information regarding laboratory testing for infectious or contagious diseases and other conditions of public health importance. Adds requirements for electronic reporting, specifies information to report, and lists specific diseases and conditions requiring specimen submission.

Economic Impact

Cost to the agency: There is no increased annual cost to the agency to implement these proposed regulations since many of the processes are in place to capture information about infectious or contagious diseases and conditions. These programs are funded by the Centers for Disease Control and Prevention.

Cost to the public and regulated individuals or entities: The increased cost to persons who are required reporters would be minimal and would be associated with changes to electronic system programming for those persons reporting infectious or contagious diseases and conditions electronically. The increased cost to clinical laboratories associated with submission of additional isolates to the Office of Laboratory Services would be minimal. There is no anticipated cost to the public to implement these amended regulations.

Costs to other governmental agencies or units: There is no increased cost to other governmental agencies or units to implement the proposed amendments to these

regulations. All local health departments already have processes and personnel in place to investigate infectious or contagious diseases and conditions and to implement any necessary isolation and quarantine of persons affected by an infectious or contagious disease.

The time period between the publication of this notice and the scheduled hearing constitutes a 60-day public comment period for the purpose of receiving written public comments on the proposed regulations. All interested parties may submit written comments prior to 5:00 p.m. on the day of the hearing to Sheri Tubach, Director of Infectious Disease Epidemiology and Response, Bureau of Epidemiology and Public Health Informatics, Kansas Department of Health and Environment, 1000 SW Jackson, Suite 075, Topeka, KS 66612, by email to Sheri.Tubach@ks.gov, or by fax to 877-427-7318. During the hearing, all interested parties will be given a reasonable opportunity to present their views orally on the proposed regulations as well as an opportunity to submit their written comments. In order to give each individual an opportunity to present their views, it may be necessary for the hearing officer to request that each presenter limit an oral presentation to an appropriate time frame.

Complete copies of the proposed regulations and the corresponding economic impact statement may be obtained from the KDHE Bureau of Epidemiology and Public Health Informatics, Infectious Disease Epidemiology and Response Program website, at http://www.kdheks.gov/epi/regulations.htm or by contacting Sheri Tubach at the address above, 785-296-6215 or fax 877-427-7318. Questions pertaining to the proposed regulations should be directed to Sheri Tubach at the contact information above.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulations and the economic impact statement in an accessible format. Requests for accommodation to participate in the hearing should be made at least five working days in advance of the hearing by contacting Sheri Tubach.
