**Kansas Development Finance Authority**

**Notice of Hearing**

A public hearing will be conducted at 9:00 a.m. Thursday, April 11, 2019, in the offices of the Kansas Development Finance Authority (K DFA), 534 S. Kansas Ave., Suite 800, Topeka, on the proposal for the K DFA to issue its Agricultural Development Revenue Bond for the project numbered below in the respective maximum principal amount. The bond will be issued to assist the borrower named below (who will be the owner and operator of the project) to finance the cost in the amount of the bond, which is then typically purchased by a lender bank who then, through the K DFA, loans the bond proceeds to the borrower for the purposes of acquiring the project. The project shall be located as shown:

**Project No. 001029 Maximum Principal Amount: \$195,000.** Owner/Operator: Lucas and Chantel Brooks; Description: Acquisition of 88.4 acres of agricultural land and related improvements and equipment to be used by the owner/operator for farming purposes (the "Project"). The Project is being financed by the Lender for Lucas and Chantel Brooks (the "Beginning Farmer") and is located at the Northeast Quarter of Section 8, Township 4 South, Range 6 East of the 6th PM, Marshall County, Kansas, approximately three miles Northwest of Waterville, Kansas on Sunflower Road.

The bond, when issued, will be a limited obligation of the K DFA and will not constitute a general obligation or indebtedness of the state of Kansas or any political subdivision thereof, including the K DFA, nor will it be an indebtedness for which the faith and credit and taxing powers of the state of Kansas are pledged. The bond will be payable solely from amounts received from the respective borrower, the obligation of which will be sufficient to pay the principal of, interest and redemption premium, if any, on the bond when it becomes due.

All individuals who appear at the hearing will be given an opportunity to express their views concerning the proposal to issue the bond to finance the project, and all

written comments previously filed with the K DFA at its offices at 534 S. Kansas Ave., Suite 800, Topeka, 66603, will be considered. Additional information regarding the project may be obtained by contacting the K DFA.

**Kansas Housing Resources Corporation**

**Notice of Hearing**

Kansas Housing Resources Corporation (KHRC) will conduct a public hearing to provide an opportunity for the public to comment upon the draft copy of the 2019 Weatherization State Plan. The public hearing will be held at 2:00 p.m. April 11, 2019, at the Kansas Housing Resources Corporation, 611 S. Kansas Ave., Suite 300, Topeka, Kansas.

The 2019 State of Kansas Weatherization State Plan draft includes only pages intended for public comment and can be found on KHRC's website at <http://www.kshousingcorp.org/more-program-information.aspx>. The 2019 State Plan will be very similar to the 2018 plan in policy. There has been a service territory realignment proposed for 2019. This proposal comes from the current service providers with the primary goal of reassigning eight counties to move the service areas closer to each agency's home base of operation. Under the proposal, East Central Kansas Economic Opportunity Corporation (ECKAN) would become the service provider for Allen, Bourbon, Linn, Morris, and Woodson counties and South Central Kansas Economic Development District (SCKEDD) would serve Butler, Harvey, and Marion counties. Public input on the proposed change is sought during this hearing. Limited hard copies of the 2019 State Plan will be available at the public hearing site and upon request. Written comments must be received by 2:00 p.m. April 11, 2019.

Parking is available along Kansas Avenue and the hearing will be less than the two-hour limit. If you are in need of a sign language interpreter, an assistive listening device, large print, or other material for accommodations to attend this meeting, you must notify KHRC at least one week prior to the meeting. Requests may be addressed to Kansas Weatherization Program, Kansas Housing Resources Corporation, 611 S. Kansas Ave., Suite 300, Topeka, KS 66603-3803, by telephone at 785-217-2003, or via the Kansas relay service.

*(continued)*

the Muddy Creek Watershed Joint District No. 27 and United States Department of Agriculture – Natural Resources Conservation Service (NRCS) will lead the public meeting to seek input regarding Watershed Project Plan Supplement No. 1 and Environmental Assessment (EA).

The objectives of the public meeting include, but are not limited to:

2. Promote an atmosphere of extra-agency cooperation.
3. Provide a forum for the reception and consideration of public input regarding the project.
4. Clarify the effects of the diverse alternatives under consideration.
5. Collect comments regarding Watershed Project Plan Supplement No. 1 and Environmental Assessment for Muddy Creek Watershed Joint District No. 27 Floodwater Retarding Dam No. 4-6 from agencies and citizens.
6. Incorporate written and verbal comments into the decision-making process.

#### **Kansas Dam Rehabilitation Projects**

Sponsors in Kansas have built more than 830 flood control dams since 1948. Kansas has the third largest number of flood control projects in the United States. Due to age, sedimentation, or changing conditions, many of these dams now require rehabilitation. Certain dams built in rural areas to protect agricultural areas now need upgrading to protect homes and businesses that have sprung up in the flood plain. Some dams now have a higher hazard rating, requiring them to meet more stringent safety requirements.

Meeting current safety standards is part of the rehabilitation construction for Dam No. 4-6. The proposed work on Dam No. 4-6 following the Preferred Alternative includes: raising and widening the auxiliary spillway, raising and widening the top of the dam, extending the principal spillway, replacing the principal spillway riser, retro fitting a filter diaphragm on the principal spillway, and replacing the single stage foundation drain with a two-stage foundation drain.

Bruce Wells, Kansas NRCS Assistant State Conservationist for Water Resources said, "Having public input helps us make sure we are doing what the communities want. This meeting provides the opportunity for the watershed district and NRCS to explain alternatives identified, the economic cost and benefits, and acquire comments to incorporate into the decision-making process."

In 2018-2019, NRCS is also completing dam assessments on 7 additional existing dams in Kansas. These assessments will be distributed to watershed districts for evaluation and consideration of requesting rehabilitation funds. NRCS can help watershed districts obtain

Federal cost share assistance to rehabilitate aging dams. Under new rules, rehabilitation funds can also help provide new opportunities such as adding municipal and irrigation water supplies, recreation, and wetland wildlife enhancement.

Through 2018, 278 federally assisted dams in Kansas have met their design life. According to Wells, "Limited funding has been available in the past, but recently, within the 2018 Farm Bill, there is additional funding to help watershed districts get needed work done on their flood control dams. NRCS will be prepared to help watersheds every way we can as we identify rehabilitation needs involving federal assisted dams."

**Directive #19-048**

**Procedures and Guidelines for Valuing Property**

This directive is adopted pursuant to the provisions of K.S.A. 79-505, and shall take effect and be in force from and after the Director’s approval date for the 2020 valuation year and all subsequent valuation years.

The county appraiser shall follow the policies, procedures, and guidelines set forth in the Division of Property Valuation’s specifications, manuals, guides, schedules, memoranda, regulations, directives, and other instructions, as promulgated by the Director. *See* K.S.A. 79-1456; *In re Appeal of the Director of Property Valuation*, 14 Kan.App.2d 348, 791 P.2d 1338 (1989), *rev. denied* 246 Kan. 767 (1990).

If the director of property valuation has developed and adopted methodologies to value specific types of property, the county appraiser is required to follow such methodologies. K.S.A. 2018 Supp. 79-1456(a). The following guides set forth methodologies to value specific types of property:

1. Personal Property Guide
2. Oil and Gas Appraisal Guide
3. Grain Elevator Appraisal Guide
4. Commercial Feedlot Appraisal Guide
5. Affordable Housing Appraisal Guide

Some guides are revised annually and may set forth the valuation year (tax year) to which they apply. If a guide is not revised annually, then the county appraiser shall utilize the most current version of the guide which precedes the valuation date. The division of property valuation will notify county appraisers of proposed changes in guides and of the adoption of new or revised guides.

In valuing personal property required to be valued at fair market value, the county appraiser may deviate from the values shown in such guides on an individual piece of personal property for just cause shown and in a manner consistent with achieving fair market value. K.S.A. 2018 Supp. 79-1456(b).

In valuing real and personal property, the county appraiser shall interpret appraisal and valuation guides in a manner consistent with statutes. "To be valid, rules or regulations of an administrative agency must be within the agency's statutory authority. Rules or regulations that go beyond that authority, violate the statute, or are inconsistent with the agency's statutory powers are void. Further, administrative rules and regulations must be appropriate, reasonable, and consistent with the law." *In re Tax Appeal of City of Wichita*, 277 Kan. 487, 495, 86 P.3d 513 (2004); *Wagner v. The Orion computer assisted mass appraisal system is a tool for mass appraisal intended to facilitate performance of the three generally accepted appraisal methodologies of the sales comparison approach, the cost approach, and the income approach when data to perform each approach is readily available. When using the Orion computer assisted mass appraisal system for property required to be valued at fair market value, it is the responsibility of the county appraiser or appraiser's designee to consider all applicable valuation methodologies and any other appropriate factors and then to select the best indication of fair market value based on appraisal judgment. See K.S.A. 2018 Supp. 79-503a; Uniform Standards of Professional Appraisal Practice (USPAP). The county appraiser is expected to follow professionally recognized methods and techniques in order to maintain a high level of public trust in the appraisal practice.

Doc. No. 047038

**State of Kansas**

**Department of Revenue  
Division of Property Valuation**

**Directive #19-051**

**Uniform Standards of Professional Appraisal Practice**

This directive is adopted pursuant to the provisions of K.S.A. 79-505(a) and shall take effect and be in force from and after the Director's approval date.

For the 2019 and 2020 valuation years, the county or district appraiser shall perform all appraisal functions in conformity with *Uniform Standards of Professional Appraisal Practice* (USPAP), 2018-2019 Edition, the Appraisal Standards Board of The Appraisal Foundation, as required by K.S.A. 79-505(a)(1) and as further defined herein.

USPAP Standard 5 shall be followed in developing a mass appraisal for ad valorem taxation purposes. USPAP Standard 6 shall be followed in reporting a mass appraisal for ad valorem taxation purposes. Standards 5 and 6 must also be adhered to in revaluing individual properties that initially have been appraised through mass appraisal methods and techniques, but whose value estimates are reexamined and reconsidered as a result of the hearing and appeals processes. Supporting documentation must be developed and reported for all model component overrides and adjustments.

USPAP Standard 1 shall be followed in developing a "single real property appraisal" and USPAP Standard 2 shall be followed in reporting the results of a single real property appraisal. Most properties in Kansas can be valued through the Orion computer assisted mass appraisal (CAMA) system; however, some parcels in Kansas do not lend themselves to mass appraisal methods and techniques. If a parcel cannot be credibly appraised with a mass appraisal model (see Standards Rule 5), USPAP Standards 1 and 2 would apply.

USPAP Standards 3 and 4 shall be followed in developing and reporting an appraisal review. An appraisal review is the process of developing an opinion about the quality of an appraiser's work that was completed as part of an appraisal or appraisal review assignment. It is the responsibility of the county and district appraiser to analyze all relevant property appraisals provided by a property owner during the appeals process. A comparison of descriptive data, including subject property characteristics and comparable property information between the mass appraisal and single property appraisal report, and explanation of the findings, does not constitute a Standard 3 review.

A county or district appraiser will be required to report the assignment results for a single property that was appraised as part of a mass appraisal assignment. USPAP Advisory Opinion 32 advises however that USPAP Standards do not address this specific circumstance. The reporting requirements of STANDARD 2 apply to appraisal assignments developed under STANDARD 1 and do not apply to mass appraisal assignments prepared under STANDARD 5. However, the second sentence of the PREAMBLE states: It is essential that appraisers develop and communicate their analyses, opinions, and conclusions to intended users of their services in a manner that is meaningful and not misleading. Additionally, the ETHICS RULE states an appraiser must not communicate assignment results with the intent to mislead or defraud, and that an appraiser must not use or communicate a report that is known by the appraiser to be misleading or fraudulent. If a Kansas county or district appraiser communicates mass appraisal results for a single property, USPAP requires the communication to be meaningful and must not be misleading.

The workfile for the mass appraisal assignment shall contain the information and analyses to support the valuation models developed for all properties in the jurisdiction and provide an understanding of individual property valuation results. Substantial documentation and justification shall be provided for model adjustments and overrides made to individual parcels.

Appraisals developed for ad valorem taxation in Kansas must comply with Kansas law and regulations promulgated by the director of property valuation. Most of these requirements do not preclude compliance with any part of USPAP, but some place specific requirements on the scope of work. The director of property valuation has identified the following assignment elements that are necessary in Kansas to properly identify the ad valorem appraisal problem and develop credible assignment results:

(continued)

- The purpose of ad valorem taxation is to finance the taxing districts in Kansas (see K.S.A. 79-1468, K.S.A. 79-1801, K.S.A. 79-1803, and K.S.A. 79-1806). County or district appraisers are required to develop the appraisal estimates that become the assessments used by the taxing districts (see K.S.A. 79-5a27, K.S.A. 12-5250, K.S.A. 12-1775, K.S.A. 79-1409, K.S.A. 79-1411a and K.S.A. 79-1411b). Therefore, county commissioners serve as the client and the taxing districts are the intended users of the appraisal. This scope of work compliance requirement applies to Standards Rule 1-2(a), 2-2(a)(i), 3-2(a), 4-2(a), 5-2(a) or 6-2(a), as applicable. The definition of intended user has a specific meaning in USPAP. Parties who receive a copy of the appraisal as a consequence of disclosure requirements do not become intended users of the report. (USPAP Advisory Opinion 36). Taxpayers and property owners are not intended users of the appraisal prepared for ad valorem taxation in Kansas unless specifically stated as such in the appraiser's Scope of Work document.
  - The definition of fair market value for ad valorem appraisals in Kansas is found in K.S.A. 79-503a. This scope of work compliance requirement applies to Standards Rule, 1-2(c), 2-2(b)(v), 3-2(c), 5-2(c) or 6-2(e), as applicable.
  - The effective appraisal date for all property in Kansas is January 1, as required by K.S.A. 79-1455. This scope of work compliance requirement applies to Standards Rule 1-2(d), 2-2(vi), 3-2(d)(ii), 4-2(d), 5-2(d), 6-2(d), as applicable.
  - A minimum standardized set of physical property characteristics has been determined relevant and necessary for the effective and efficient mass appraisal of real property in Kansas, as required by K.S.A. 79-1477. This scope of work compliance requirement applies to Standards Rule 5-2(e) and 6-2(i).
- Kansas laws and regulations which prevent compliance with a part of USPAP may require the appraiser to invoke The USPAP JURISDICTIONAL EXCEPTION RULE. Only the part of USPAP negated by law or regulation becomes void. Law includes constitutions, legislative and court-mandated law, and administrative rules and ordinances. Regulations include rules or orders having legal force, issued by an administrative agency, such as appraisal directives issued by the director. Instructions from a client do not establish a jurisdictional exception. Following are jurisdictional exceptions for ad valorem appraisal assignments which must be disclosed if invoked by the appraiser (USPAP FAQ 106):
- Land devoted to agricultural use in Kansas shall be appraised at both market value and use value as required by K.S.A. 79-1476. The market value appraisal of agricultural land shall follow USPAP rules. However, the prescribed methods used to develop use values are a statutory requirement. Use value appraisal estimates shall be utilized for ad valorem taxation of agricultural land. The requirement to value agricultural land by use value for assessment purposes is a jurisdictional exception.
  - Kansas statutes require the following subclasses of tangible personal property to be appraised at fair market value: manufactured homes, oil and gas interest, material and equipment used in operating oil and gas wells, tax roll motor vehicles (with a 24M tag), trailers (non-business use), commercial and industrial machinery and equipment no longer being used in the production of income, and other personal property not elsewhere classified (such as aircraft, hot air balloons, golf carts, snowmobiles, watercraft and boat trailers). The county or district appraiser may choose from one of two options to develop and report the appraisal of such property:
    - The appraisal methodologies developed and adopted by the Division of Property Valuation and published in appraisal guides shall be followed by the county appraiser. (see K.S.A. 79-1412a *sixth*, K.S.A. 79-1412(b), K.S.A. 79-1456.
    - County or district appraisers may deviate from the guides on an individual property. Single property appraisals shall be developed by following USPAP Standard 7 and reported under requirements of USPAP Standard 8 (see K.S.A. 79-1456(b)).
  - The valuation of non-exempt commercial and industrial machinery and equipment (class 2, subclass 5) and certain motor vehicles is prescribed by statute (K.S.A. 79-5105a and amendments thereto). These valuation methods are based upon a mathematical formula and the director of property valuation invokes a jurisdictional exception to USPAP.

Approved February 21, 2019.

(c) For this game, a play symbol shall appear in each of 18 play spots within the “YOUR LETTERS” play area, in each of two play spots within the “BONUS” play area, in each of the five play spots within the “BONUS WORD,” and a variable number of times within the crossword puzzle grid.
