Notice to Consulting Firms

The Kansas Department of Transportation (KDOT) is seeking proposals from consultants who are prequalified in Category 163 (ITS) and/or Category 231 (Traffic Engineering) to support the Wichita Traffic Management Center (TMC). A PDF (2Mb maximum size) of the interest response must be emailed to kdot.designcontracts@ks.gov. Interest and experience responses are limited to eight pages, the subject line of the reply email and the PDF file name must read "KDOT Project No. KA-1832-21_FIRM NAME". Project

KA-1832-21 – Wichita Statewide Traffic Management Center (TMC) Engineering Operations and Staffing Support.

The Wichita TMC is located in Wichita, Kansas, co-located with Sedgwick County 911, and provides TMC functions such as sign and camera control, for both statewide devices and in the Wichita (WICHway) metro area. This contract is for 60 hours per week of engineering operations support and four TMC operator positions to provide 24/7 operator coverage. KDOT also contracts with the Sedgwick County 911 center for one operator from 6:00 a.m. to 7:00 p.m. (M-F) to supplement the operator schedule.

Scope of Services to be Performed

Duties will be under the direction of the TMC manager and KDOT ITS unit and will include:

- Provide and train four TMC operators, as well as provide training for Sedgwick County 911 operators who will rotate to duty as a TMC operator.
- Manage TMC operators and day-to-day operations.
- Provide 24/7 TMC 1-800 phone number
- Traffic Incident Management (TIM) training and coordination with emergency responders (monthly and annual meetings) in the Wichita area
- Maintain TMC procedures to provide an efficient incident management program for the Wichita metro area

This annual budget must cover all staffing, training, management, and support (including up to four hours of support per month by a senior level engineer/principal), and all compensation associated with providing the position(s). Workstations, phones, and computers will be supplied by KDOT, thus a field overhead rate would be expected for operators.

This is a yearly contract which may be extended for up to four additional years.

Anticipated Schedule for Subsequent Events

- Evaluation and ranking of technical proposals on or about May 14, 2020, after which time all firms that submitted will be notified of the ranking.
- Negotiations with the most highly ranked firm to commence on or about May 21, 2020.
- Agreement in place and in effect July 1, 2020.

Instructions for Proposal

No costs shall be contained in the Request for Proposal (RFP). The RFP must not exceed eight (8) pages total to address the pertinent topics. Please use the following naming convention for submittal... KA-1832*21 – Firm Name. RFP’s submitted will consist of the proposal and a completed and signed Special Attachment No. 7 (“Certificate of Final Indirect Costs”), a completed and signed Special Attachment No. 8 (“Tax Clearance Certificate”), and a completed and signed Special Attachment No. 10 (“Policy Regarding Sexual Harassment”). Subconsultants will need to complete these attachments as well. All these forms are attached to the original email announcement.

RFP’s shall describe any processes or procedures, including best practices, that will be used to perform tasks and to produce deliverables described above under “Scope of Services to be Performed.” Also, include items such as:

- Project manager/engineer in charge.
- History of projects with similar tasks.
- Any subconsultant and their role (if any) that will be performing services on the project

The highest ranked firm will be asked to enter into negotiations with KDOT for an agreement. In the event KDOT cannot reach agreement with the ranked firm, it will terminate negotiations with such firm and commence negotiations with the next highest ranked firm, and so on, until either agreement is reached for a satisfactory scope of services for a fair and reasonable price, or KDOT decides to pursue other alternatives.

Exhibits to this RFP

- Special Attachment No. 7 (“Certificate of Final Indirect Costs”)
- Special Attachment No. 8 (“Tax Clearance Certificate”)

- Special Attachment No. 10 (“Policy Regarding Sexual Harassment”)

Contract Terms and Conditions

Questions about this RFP shall be sent by email to KDOT at kdot.designcontracts@ks.gov.

Article 301.—SPECIFIC LOTTERY GAMES AT LOTTERY GAMING FACILITIES

111-301-4. Characteristics of the game. Blackjack shall be played with at least two decks of playing cards. If the Blazing 7's Progressive optional side wager is offered at the gaming table, then six (6) decks of playing cards shall be used. All decks of cards used in a game shall be identical in appearance. Each deck of playing cards shall consist of 13 value cards (2, 3, 4, 5, 6, 7, 8, 9, 10, jack, queen, king, and ace) in each of four suits (hearts, spades, diamonds, and clubs). The value of the cards contained in each deck shall be as follows:

- (a) Any card from 2 to 10 shall have its face value;
- (b) Any jack, queen or king shall have a value of 10; and
- (c) An ace shall have a value of 11, unless that value would give a player or the dealer a score in excess of 21, in which case it shall have a value of one. (Authorized by K.S.A. 74-8710 and 74-8748; implementing K.S.A. 74-8710; effective, T-111-12-24-09, Dec. 3, 2009; amended, T-111-4-9-20, Jan. 15, 2020.)

111-301-5. Wagers. (a) Prior to the first card being dealt for each round of play, each player at the game of blackjack shall make a wager against the dealer which shall win if:

- (1) The score of the player is 21 or less and the score of the dealer is in excess of 21;
- (2) The score of the player exceeds that of the dealer without either score exceeding 21; or
- (3) The player has achieved a score of 21 in two cards and the dealer has achieved a score of 21 in more than two cards.

(b) Except as otherwise provided in these rules a wager made in accordance with this section shall be void when the score of the player is the same as the dealer; provided, however, that a player's wager shall be lost when the dealer has a blackjack and the player has a score of 21 which is not a blackjack.

(c) Except as otherwise provided in these rules, no wager shall be made, increased or withdrawn after the first card of the respective round has been dealt.

(d) All wagers at blackjack shall be made by placing gaming chips on the appropriate areas of the blackjack layout.

(e) After each round of play is complete, the dealer shall collect all losing wagers and pay off all winning wagers, except that if the cards in a player's hand exceed a total of 21 points ("busts"), the wager for that hand shall be lost and the wager shall be immediately collected by the dealer. All winning wagers made against the dealer in accordance with these rules shall be paid at odds of one to one with the exception of a blackjack which shall be paid at odds of three to two.

(f) Once the first card of any hand has been removed from the shoe by the dealer, no player shall handle, remove or alter any wagers that have been made until a decision has been rendered and implemented with respect to that wager except as permitted by these rules.

(g) Once a wager on the insurance line, a wager to double down, or a wager to split pairs has been made and confirmed by the dealer, no player shall handle, remove or alter such wagers until a decision has been rendered

and implemented with respect to that wager except as permitted by these regulations.

(h) A double down wager shall win if the total of the player's cards exceeds the total of the dealer's cards without exceeding a total of 21. A double down wager shall push or tie if the player's hand and the dealer's hand are equal. A double down wager shall lose if the total of the player's cards exceeds 21 or is less than the total of the dealer's cards. A double down wager shall be paid at the rate of one to one on both the original wager and the double down portion of the wager. A player may double down after splitting pairs.

(i) A split bet shall win if the total of the player's cards exceeds the total of the dealer's cards without exceeding a total of 21. A split bet shall lose if the total of the player's cards exceeds 21 or is less than the total of the dealer's cards. A split bet shall tie or push if the player's hand and the dealer's hand are equal. A split bet shall be paid at the rate of one to one on both the original wager and the split wager.

(j) An optional Blazing 7's Progressive side wager may be offered at gaming tables.

(1) Prior to the first card being dealt for each round of play, each player who makes a wager against the dealer may also make the progressive wager by placing gaming chips on the designated area on the blackjack layout, which wager shall also cause a light to illuminate on the gaming table to verify the wager was made. If the light fails to illuminate, the progressive wager shall be returned to the player.

(2) The dollar amount required for the Blazing 7's Progressive side wager shall be posted at the gaming table.

(3) Prior to the first card being dealt for each round of play, the dealer shall remove all progressive wagers but the light verifying the wager shall remain illuminated until the progressive wager is resolved.

(4) All Blazing 7's Progressive side wagers use only the player's first two cards and the dealer's card that is turned face up. The progressive wager shall win if either or both of the player's first two cards are 7's, or if both of the player's first two cards and the dealer's card turned face up are all 7's.

(5) After two cards have been dealt to all players at the table and the dealer, all winning Blazing 7's Progressive wagers shall be paid as follows:

Three 7's of diamonds	100% of progressive pot
Three 7's all in the same suit other than diamonds	10% of progressive pot
Three 7's of the same color but in different suits	Odds of 500 for 1
Three 7's in mixed suits and colors	Odds of 200 for 1
Two 7's in the player's hand	Odds of 25 for 1
One 7 in the player's hand	Odds of 2 for 1

Only the highest progressive prize for which a hand qualifies shall be paid. If during a round of play two or more hands qualify for any portion of the progressive pot, the applicable portion of the progressive pot shall be evenly divided between all qualifying hands and if necessary rounded up by the lottery gaming facility manager so that all qualifying hands are paid equal amounts.

(6) The Blazing 7's Progressive prize pot shall be initially funded by the lottery gaming facility manager in

the amount of \$10,000. Twenty-four percent (24%) of each progressive wager made thereafter shall be added to the progressive prize pot amount. The running total amount of the progressive prize pot shall be displayed on a meter at the gaming table and all progressive prizes shall be paid based upon the amount on the meter at the time the prize is won.

(7) After the top progressive prize is awarded, the lottery gaming facility manager shall again fund the progressive prize in the amount of \$10,000. (Authorized by K.S.A. 74-8710 and 74-8748; implementing K.S.A. 74-8710; effective, T-111-12-24-09, Dec. 3, 2009; amended, T-111-10-12-11, Sept. 14, 2011; amended, T-111-4-9-20, Jan. 15, 2020.)

111-301-6. Play. (a) After the cards have been shuffled, the dealer shall offer the stack of cards to a player to be cut. The player may cut the cards by placing a cutting card provided by the dealer. The cut card must be placed in the stack so there are no fewer than 52 cards on either side of the cut card for a six deck game or no fewer than 26 cards on either side of the cut card for a double deck game.

(b) At the commencement of each round of play, the dealer shall, starting on the dealer's left and continuing around the table, deal the cards in the following order:

(1) One card face upwards to each box on the blackjack layout in which a wager is contained;

(2) One card face down to the dealer; and,

(3) A second card face upwards to each box in which a wager is contained.

(4) A second card face down to the dealer at which time the dealer's first card shall be turned face up and placed on top of the dealer's second card.

(c) After two cards have been dealt to each player and the appropriate number to the dealer, all optional side wagers shall be resolved. After the side wagers are resolved, the dealer shall, beginning from his left, have each player indicate whether the player wishes to double down, split pairs, stand or draw.

(d) As each player indicates the player's decision(s), the dealer shall deal face upwards whatever additional cards, if any, which are necessary to effectuate such decision.

(e) After the decision(s) of each player have been implemented and all additional cards have been dealt, the dealer shall expose the dealer hole card. Any additional cards authorized to be dealt to the hand of the dealer shall be dealt face upwards.

(f) If the dealer has a blackjack, no additional cards shall be dealt and each player's wager shall be settled.

(g) Payment of blackjack shall be made as follows:

(1) If the first card dealt to the dealer is a 2, 3, 4, 5, 6, 7, 8, or 9 and a player has a blackjack, the dealer shall immediately pay the blackjack at odds of 3 to 2 and shall remove that player's cards before any player receives a third card. If the first card dealt to the dealer is a king, queen, jack or 10 and a player has a blackjack, the dealer shall check the dealer's hole card for an ace. If the dealer's hole card does not give the dealer a blackjack, the player having a blackjack shall immediately be paid at odds of 3 to 2. If the dealer's hole card gives the dealer

(continued)

a blackjack, the wager of the player having a blackjack shall be void and constitute a "push" or a "tie."

(2) Whenever the first card dealt to the dealer is an ace, each player shall have the right to make an insurance bet which, except as otherwise provided herein, shall win if the dealer's second card is a king, queen, jack or 10 and shall lose if the dealer's second card is an ace, 2, 3, 4, 5, 6, 7, 8, or 9. An insurance bet may be made by placing on the insurance line of the layout an amount not more than half the amount staked on the player's initial wager, except that a player may bet an amount in excess of half the initial wager to the next unit that can be wagered in chips, when because of the limitation of the value of chip denominations, half the initial wager cannot be bet. After all insurance wagers have been placed, the dealer will check the dealer's hole card for blackjack. If the dealer has a blackjack, the dealer will collect all of the losing original wagers and then pay all insurance wagers at odds of 2 to 1. The wager of a player having the blackjack shall be void and constitute a "push" or a "tie." If the dealer does not have a blackjack, the dealer will immediately collect all of the losing insurance wagers. When a player has a blackjack, the player shall be given the option of taking even money for the player's wager instead of making an insurance wager. In such circumstances, the dealer shall pay the wager at 1 to 1 odds before checking the dealer's hole card and shall remove that player's cards before any player receives a third card.

(3) Except for a blackjack, a player may elect to double down, which means to make an additional wager not in excess of the amount of the player's original wager on the first two cards dealt to the player on the condition that one and only one additional card shall be dealt to the hand on which the player has elected to double down. If a dealer obtains a blackjack after a player doubles down, the dealer shall only collect the amount of the original wager of such player and shall not collect the additional amount wagered in doubling down. Upon a player's election to double down, the dealer shall deal the player's hand one additional card face upwards or sideways on the layout. In the alternative, if the one additional card is dealt face down, such card shall be turned face upward after the dealer has drawn additional cards to the dealer's hand and at such time as all players' wagers are to be settled at the conclusion of the round of play. A double down wager shall win if the total of the player's cards exceeds the total of the dealer's cards without exceeding a total of 21. A double down wager shall push or tie if the player's hand and the dealer's hand are equal. A double down wager shall lose if the total of the player's cards exceeds 21 or is less than the total of the dealer's cards, provided the total of the dealer's cards does not exceed 21. A double down wager shall be paid at the rate of 1:1 on both the original wager and the double down portion of the wager.

(h) If the initial two cards dealt to a player are identical in value, the player may elect to split the hand into two separate hands provided that the player makes a wager on the second hand so formed in an amount equal to the player's original wager. When a player splits pairs, the dealer shall deal a card to and complete the player's decisions with respect to the first incomplete hand on the

dealer's left before proceeding to deal any cards to any other hand. After a second card is dealt to a split pair, the player shall indicate the player's decision to stand or draw with respect thereto except that:

(1) A player may split pairs a maximum of three times to make a total of four hands; and

(2) A player splitting aces shall only have one card dealt to each ace and may not elect to receive additional cards.

(i) A player may elect to draw one or more additional cards whenever the player's point count total is less than 21 except that:

(1) A player electing to double down shall draw one and only one additional card;

(2) A player splitting aces shall only have one card dealt to each ace and may not elect to receive additional cards.

(j) A dealer shall draw additional cards to the dealer's hand until the dealer has:

(1) A hard total of 17, 18, 19, 20, or 21, whichever comes first; or

(2) A soft total of 18, 19, 20, or 21, whichever comes first. A dealer shall draw no additional cards to the dealer's hand, regardless of the point count, if decisions have been made on all players' hands and the point count of the dealer's hand will have no effect on the outcome of the round of play. A split bet shall win if the total of the player's cards exceeds the total of the dealer's cards without exceeding a total of 21. A split bet shall lose if the total of the player's cards exceeds 21 or is less than the total of the dealer's cards, provided the total of the dealer's cards does not exceed 21. A split bet shall tie or push if the player's hand and the dealer's hand are equal. A winning split bet shall be paid at the rate of 1:1 on both the original wager and the split wager.

(k) A card found turned face upwards in the shoe shall not be used in the game and shall be placed in the discard rack.

(l) A card drawn in error without its face being exposed shall be used as though it were the next card from the shoe.

(m) If the dealer has a hard total of 17 and accidentally draws a card for the dealer, such card shall be burned.

(n) If the dealer misses dealing a first or second card to the dealer, the dealer shall continue dealing the first two cards to each player, and then deal the appropriate number of cards to the dealer.

(o) If offered at a blackjack table at which six (6) decks of cards are being used, a player making a blackjack wager may also make an optional royal match 21 wager in the area on the table designated for the optional wager so long as the wager is made prior to the first card of the hand being removed from the shoe. The amount required to make the optional royal match 21 wager shall be posted at the table.

(1) If a player makes an optional royal match 21 wager, the player may also make a royal match 21 wager as a tip for the dealer so long as the tip wager is made prior to the first card of the hand being removed from the shoe.

(2) Resolution of all royal match 21 wagers shall be made after all players and the dealer have received their second card and before the blackjack game continues.

(3) A royal match 21 wager shall win if both of the player's two cards are in the same suit. A royal match 21 wa-

ger shall lose if both of the player's two cards are not in the same suit.

(4) Winning royal match 21 wagers shall be paid at odds of 2.5 to one, unless the two cards constitute a blackjack in which case the player's wager shall be paid at odds of 5 to one, or unless the two cards are a king and queen in which case the player's wager shall be paid at odds of 25 to one. (Authorized by K.S.A. 74-8710 and 74-8748; implementing K.S.A. 74-8710; effective, T-111-12-24-09, Dec. 3, 2009; amended, T-111-5-17-11, April 13, 2011; amended, T-111-7-6-11, May 18, 2011; amended, T-111-4-12-12, March 14, 2012; amended, T-111-4-9-20, Jan. 15, 2020.)

111-301-43. Wagers. (a) Prior to the first card being dealt for each round of play, each player at the game of "21 + 3" or "TriLux" shall make a wager against the dealer which shall win if:

(1) The score of the player is 21 or less and the score of the dealer is in excess of 21;

(2) The score of the player exceeds that of the dealer without either score exceeding 21; or

(3) The player has achieved a score of 21 in two cards and the dealer has achieved a score of 21 in more than two cards.

(b) Except as otherwise provided in these rules a wager made in accordance with this section shall be void when the score of the player is the same as the dealer; provided, however, that a player's wager shall be lost when the dealer has a blackjack and the player has a score of 21 which is not a blackjack.

(c) Except as otherwise provided in these rules, no wager shall be made, increased or withdrawn after the first card of the respective round has been dealt.

(d) All wagers at blackjack shall be made by placing gaming chips on the appropriate areas of the "21 + 3" or "TriLux" layout.

(e) After each round of play is complete, the dealer shall collect all losing wagers and pay off all winning wagers. All winning wagers against the dealer made in accordance with these rules shall be paid at odds of one to one with the exception of a blackjack which shall be paid at odds of three to two.

(f) Once the first card of any hand has been removed from the shoe by the dealer, no player shall handle, remove or alter any wagers that have been made until a decision has been rendered and implemented with respect to that wager except as permitted by these rules.

(g) Once a wager on the insurance line, a wager to double down, or a wager to split pairs has been made and confirmed by the dealer, no player shall handle, remove or alter such wagers until a decision has been rendered and implemented with respect to that wager except as permitted by these regulations.

(h) A double down wager shall win if the total of the player's cards exceeds the total of the dealer's cards without exceeding a total of 21. A double down wager shall push if the player's hand and the dealer's hand are equal. A double down wager shall lose if the total of the player's cards exceeds 21 or is less than the total of the dealer's cards, provided the total of the dealer's cards does not exceed 21. A double down wager shall be paid at the rate of one to one on both the original wager and the double

down portion of the wager. A player may double down after splitting pairs, except a player may not double down after splitting aces.

(i) A split bet shall win if the total of the player's cards exceeds the total of the dealer's cards without exceeding a total of 21. A split bet shall lose if the total of the player's cards exceeds 21 or is less than the total of the dealer's cards. A split bet shall push if the player's hand and the dealer's hand are equal. A split bet shall be paid at the rate of one to one on both the original wager and the split wager.

(j) The following describes a list of the permissible wagers, payout odds, and what constitutes a win or loss for three-card wagers:

(1) An optional three-card wager may be made by the player prior to the first card of the hand being removed from the shoe in an area on the table layout designated for the three-card wager. The player must make an original blackjack wager in order to place the three-card wager. The minimum and maximum three-card wager will be posted at the table.

(2) An additional three-card wager may be made as a tip for the dealer.

(3) A three-card wager will win if the dealer's card turned face up and the player's original two cards combined equal a flush, straight, three-of-a-kind, or straight flush.

(4) A three-card wager will lose if the dealer's card turned face up and the player's original two cards combined do not equal a flush, straight, three-of-a-kind, or straight flush.

(5) Winning three-card wagers will be paid out as follows:

(A) When the player's original two cards and the dealer's card turned face up combined equal a flush, straight, three-of-a-kind, or a straight flush, the hand will be paid at the rate of 9 to 1.

(B) All three-card wagers will be taken or paid before the blackjack portion of the game continues.

(k) If the optional TriLux Super 3 side wager is offered at the gaming table, the following describes a list of the permissible wagers, payout odds, and what constitutes a win or loss for TriLux Super 3 wagers:

(1) Prior to the first card of the round of play being dealt, a TriLux Super 3 wager may be made by the player in an area on the table layout designated for the TriLux Super 3 wager. The player may be required to make a three-card wager in order to place the TriLux Super 3 wager. The minimum and maximum TriLux Super 3 wager and whether the three-card wager is required in order to make the TriLux Super 3 wager will be posted at the table and/or on the gaming table layout.

(2) An additional TriLux Super 3 wager may be made as a tip for the dealer.

(3) A TriLux Super 3 wager will win if the dealer's card turned face up and the player's original two cards combined equal a three-of-a-kind with all three cards in the same suit, straight flush or three of a kind and not all three cards are in the same suit.

(4) A TriLux Super 3 wager will lose if the dealer's card turned face up and the player's original two cards com-

(B) When the player's original two cards and the dealer's card turned face up combined equal a straight flush, the wager will be paid at the rate of 180 to 1; and

111-301-66. Play. (a) Only players who are seated at the gaming table shall be permitted to receive cards and participate in the game. Cards may either be manually shuffled and dealt from a shoe or an automatic shuffler may be used in the game of Cali LowBall.

(b) In order to participate in the game, prior to any cards being dealt in the round of play a player must:

(1) Place an ante wager on the designated spot on the gaming table; and,

(2) Place an x-tra bonus wager on the designated spot on the gaming table in an amount equal to his or her ante wager.

(c) Prior to any cards being dealt in a round of play a player may also place an optional lowball bonus wager on the designated spot on the gaming table.

(d) When dealing from a shoe, the dealer shall deal each player participating in the game and the dealer two cards face down followed by dealing the community cards face down. Each player shall receive two cards before dealing two cards to the next player or dealer. When an automatic shuffler is used in the game, the community cards shall be dealt first, which shall be placed face down by the dealer on the gaming table and followed by dealing cards to the players and dealer as described above.

(e) Each player shall then be given the opportunity to either place a raise wager that is equal to three times the amount of the player's ante wager, or check.

(f) Once all players have placed a raise wager or checked, the dealer shall turn the three community cards face up.

(g) Each player that did not previously place a raise wager shall then be given the opportunity to either place a raise wager that is equal to the amount of the player's ante wager or fold the hand.

(h) The dealer and all players remaining in the game shall then turn their hole cards face up.

(i) Each player remaining in the game and the dealer shall utilize their respective two cards and the three community cards to create the lowest ranking permissible Cali LowBall five-card hand.

(j) If the dealer does not have a qualifying hand, then the ante wager of each player who did not fold shall push. If the dealer has a qualifying hand and a player's hand is lower ranking than the dealer's hand, or if the dealer's and the player's hands are equal in rank, the player shall be paid at odds of one to one on the player's ante wager. If the player's hand is higher ranking than the dealer's

qualifying hand then the player shall lose the player's ante wager and the dealer shall collect the wager.

(k) If a player's hand is lower ranking than the dealer's hand or if the hands are equal in rank the player shall be paid at odds of one to one on the player's raise wager. If the player's hand is higher ranking than the dealer's hand then the player shall lose the player's raise wager and the dealer shall collect the wager.

(l) All x-tra bonus wagers shall lose if the player's hand is both of a higher rank than the dealer's hand and higher than a 10-high hand. All x-tra bonus wagers push on a player's winning five-card hand unless the player's lowest ranking hand consists of a 10-high or lower ranking hand, in which case the player will be paid at the following odds:

- (1) 10-high hand pays one to one;
- (2) 9-high hand pays two to one;
- (3) 8-high hand pays three to one;
- (4) 7-high hand pays five to one;
- (5) 6-high hand pays 20 to one;
- (6) 5-high hand pays 50 to one; and,
- (7) 5-high hand with all cards in the hand also being of the same suit pays 200 to one.

(m) Resolution of all lowdown bonus wagers is made irrespective of whether the player's hand is ranked higher or lower than the dealer's hand. If the rank of a player's hand is higher than a jack-high, the wager loses and the dealer shall collect the wager. If the rank of a player's hand is jack-high or lower, the player will be paid at the following odds:

- (1) jack-high hand pays one to one;
- (2) 10-high hand pays three to one;
- (3) 9-high hand pays five to one;
- (4) 8-high hand pays 10 to one;
- (5) 7-high hand pays 25 to one;
- (6) 6-high hand pays 40 to one;
- (7) 5-high hand pays 100 to one; and,
- (8) 5-high hand with all cards in the hand also being of the same suit pays 500 to one.

(n) A player shall not be permitted to make a wager and thereafter attempt to increase the amount of that wager once cards from the subsequent round have been exposed.

(o) No player may touch any of the gaming chips once placed on a designated spot on the gaming table once cards from the subsequent round have been exposed. (Authorized by K.S.A. 74-8710 and 74-8748; implementing K.S.A. 74-8710; effective, T-111-1-25-18, Nov. 8, 2017; amended, T-111-4-9-20, Jan. 15, 2020.)

Article 305.—SPECIFIC LOTTERY FACILITY GAMES AT GAMING FACILITIES; THREE CARD POKER

111-305-5. Wagers. (a) The following wagers may be placed in the game of three-card poker:

(1) A player may compete solely against the dealer by placing an ante wager in an amount within the posted minimum and maximum wagers and then placing a play wager in an equal amount; or

(2) A player may compete solely against a posted payout ledger by placing a pair plus wager in any amount within the posted minimum and maximum wagers; or

(3) A player may compete against both the dealer and the posted scale of payouts by placing wagers in accordance with the requirements of (a)1 and 2 above. A player must make either an ante wager or a pair plus wager, or both, in order to participate in the round of play; and

(4) If the six-card bonus wager is offered at the three-card poker table, a player making an ante wager or a pair plus wager, or both, may make an optional six-card bonus wager.

(b) All wagers at three-card poker shall be made by placing gaming chips or other authorized bet on the appropriate betting areas of the table layout. A verbal wager accompanied by cash is not permitted.

(c) Only players who are seated at a three-card poker table may wager at the game.

(d) All ante wagers, pair plus wagers and six-card bonus wagers shall be placed prior to dealing any cards. Other than a play wager, no wager shall be made, increased, or withdrawn after the first card has been dealt. (Authorized by K.S.A. 74-8710 and 74-8748; implementing K.S.A. 74-8710; effective, T-111-3-23-10, Feb. 17, 2010; amended, T-111-7-14-11, June 15, 2011; amended, T-111-4-9-20, Jan. 15, 2020.)

111-305-6. Play. (a) All play wagers shall be placed as provided below:

(1) Play-dealing. All ante wagers, pair plus wagers, and six-card bonus wagers shall be placed prior to the first card being dealt.

(2) Each player and the dealer are dealt three cards face down.

(b) After the dealing above has been completed, each player shall examine his or her cards. Each player who wagers at three-card poker shall be responsible for his or her own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

(c) After examination of his or her cards, each player who has placed an ante wager shall have the option to either make a play wager in an amount equal to the player's ante wager or forfeit the player's ante and pair plus wagers. The dealer shall then reveal the dealer's cards and place the cards so as to form the highest possible ranking hand.

(d) The dealer shall then settle the remaining wagers. Starting with the player farthest to the dealer's right and continuing counterclockwise around the table until the procedure has been completed as to all players, the dealer shall:

(1) Reveal the three card hand of each remaining player;

(2) Collect all losing wagers;

(3) Pay each winning wager in accordance with the payout odds listed below; and

(4) Collect all player hands and place them in the discard rack or automatic shuffling machine.

(e) All cards collected by the dealer shall be picked up in order and placed in the discard rack or automatic shuffling machine in such a way that they can be readily arranged to reconstruct each hand in the event of a question or dispute.

(f) There are four payout types, as follows:

(continued)

(1) A player in competition against the dealer shall be paid 1 to 1 on both the ante wager and the play wager if the player's hand is ranked higher than the dealer's hand; however, a player's hand must beat the dealer's qualifying hand of a queen or higher ranking card to win both wagers. If the dealer does not hold a hand with a "queen high or better" rank, the ante wager shall automatically be paid 1 to 1 and the play wager shall be returned to the player as a "draw."

(2) A player placing a pair plus wager shall be paid in accordance with a posted pay table at no less than the following odds:

Pair	1 to 1
Flush	3 to 1
Straight	6 to 1
Three-of-a-kind	30 to 1
Straight flush	40 to 1

(3) A player placing an ante wager and a play wager shall be paid an ante bonus if the player's hand consists of one of the following:

Straight	pays	1 to 1
Three-of-a-kind	pays	4 to 1
Straight flush	pays	5 to 1

If the dealer's hand beats the player's hand, the player loses the ante and the play bets, but the player receives the ante bonus as specified above. The ante bonus is paid even if the player does not wager the pair plus wager.

(4) A player may also make an optional six-card bonus wager, as follows:

(A) A six-card bonus wager may be placed by a player in the designated area of the table game layout. A six-card bonus wager is resolved by using the player's three cards and the dealer's three cards to form the player's best five-card poker hand.

(B) An additional six-card bonus wager may be made as a tip for the dealer.

(C) Payout odds on a winning six-card bonus wager will be:

(i) If the player's five-card hand contains three-of-a-kind, 7 to 1;

(ii) If the player's five-card hand contains a straight, 10 to 1;

(iii) If the player's five-card hand contains a flush, 15 to 1;

(iv) If the player's five-card hand contains a full house, 20 to 1;

(v) If the player's five-card hand contains a four-of-a-kind, 100 to 1;

(vi) If the player's five-card hand contains a straight flush, 200 to 1;

(vii) If a player's five-card hand contains a royal flush, 1,000 to 1.

(D) A six-card bonus wager will win only if the player's five-card hand contains a three-of-a-kind, straight, flush, full house, four-of-a-kind, straight flush or a royal flush. (Authorized by K.S.A. 74-8710 and 74-8748; implementing K.S.A. 74-8710; effective, T-111-3-23-10, Feb. 17, 2010; amended, T-111-7-14-11, June 15, 2011; amended, T-111-7-2-19, June 12, 2019; amended, T-111-4-9-20, Jan. 15, 2020.)

Article 601.—SOUTHEAST GAMING ZONE

111-601-6. Rules of the game. (a) The cards shall be shuffled under the following circumstances:

(1) A new set of decks are put into play.

(2) When the cut card appears during the course of the play. The shuffle will take place prior to the next round of play.

(3) Whenever the cards have been dropped or otherwise mishandled by the dealer.

(4) Whenever instructed to do so by the table game supervisor or higher ranking casino official.

(5) At no time will the dealer shuffle at the request of a player unless authorized to do so by a table games supervisor or higher ranking casino official.

(b) The dealer is to maintain physical and visual contact with the cards at all times while the cards are out of the shoe; however, the cards shall be placed back in the dealer's shoe for commencement of play.

(c) A card shall be burned for the following reasons:

(1) After a shuffle of the cards.

(2) A card has been exposed or dealt by mistake unless the card was exposed or dealt by mistake to the player in the last occupied player position immediately before the dealer.

(3) When a dealer is relieved, the new dealer shall burn a card.

(4) If a table is dead (no players), upon the arrival of new players, the dealer shall burn a card.

(d) All cards shall be dealt from a dealing shoe secured to and located on the extreme left-hand side of the table.

(e) All players' cards should be delivered face up, starting on the dealer's left and continuing clockwise around the table.

(f) After each player has received one card, the dealer shall take one card face down. A second card should be dealt to each player face up and the dealer's second card will be dealt face down. The dealer's second card should be placed underneath the dealer's first card, the first card is now turned face up and should cover the second card in such a way that no part of that card is visible.

(g) Cards shall not touch a player's bet and shall be placed in a manner which allows the center spot of each card to be visible.

(h) Players shall not handle any of the cards.

(i) After two cards have been dealt to each player and the dealer, the dealer shall start with the player to the left and continue to the right until all players have acted upon the hand.

(j) Players shall indicate hit or stand by using visible hand signals.

(k) All hit cards are dealt face-up, utilizing the left hand for positions one (1) and two (2), and the right hand for positions three (3) through seven (7).

(l) After all players' hands have stood or broken, the dealer shall turn the dealer's hole card face-up and announce the point total.

(m) If there are players' hands still in action, the dealer must take a hit if the value of the dealer's cards totals 16 or less or a soft 17, but stand on a hard 17 or more.

(n) The dealer shall announce "over", "too many" or "busted" when the dealer's hand exceeds 21.

(o) The dealer shall then take or pay according to the hands dealt.

(p) A dealer accidentally hitting his hand while having a hard seventeen or more shall contact the table games supervisor or higher ranking casino official who shall handle the situation accordingly.

(q) A player may elect to double down with any initial two cards, and bet up to the amount of the player's original bet on the condition that only one additional card shall be dealt to the player.

(r) The additional chips for the double-down bet should be placed next to the original wager before the double down card is dealt.

(s) The double down card will be exposed and placed across the two cards involved, in such a manner as to keep the number exposed on the player's second card.

(t) When paying double down bets, the dealer shall not combine the chips used to pay the bet with the player's chips used to make the bet into a single stack, but instead shall stack the chips used to pay the bet next to the player's chips. The dealer is not permitted to move the player's bet with chips in the dealer's hand.

(u) Whenever the initial two cards to a player are of the same face value, the player may elect to split the cards into two separate hands, provided that the player makes a bet equal to the original bet. The following rules apply to splitting cards:

(1) After splitting, the first hand will receive a card. This hand will be completed by either hitting again or staying before the next hand is dealt to.

(2) The second hand will receive a card. This hand will be completed by either hitting again or staying before moving on to the next hand.

(3) A player may split up to three times excluding aces which may only be split once. When aces are split, the player will only receive one card per ace.

(v) The dealer will ask if any player wishes to place an insurance bet when the dealer's "up" card is an ace.

(w) Insurance is a separate bet. The player is betting that the dealer has blackjack. If the dealer does not have blackjack, then the player loses the player's insurance bet.

(x) The player can take insurance for any amount up to one-half of the original bet.

(y) The insurance bet shall be placed on the insurance line on the table layout.

(z) The dealer will then verbally close the time for accepting insurance bets.

(aa) If the dealer's hand is a blackjack and the player has taken insurance, the dealer will take the losing bet and pay off the winning insurance bet with the losing bet in an amount not to exceed the player's original bet. Insurance will be paid at a rate of 2 to 1.

(bb) If the player's hand is a blackjack and the dealer's up card is an ace, the player can announce even money and be paid the amount of the player's bet.

(cc) Players may insure a toke bet and the bet is handled by the same procedure as any other insurance bet.

(dd) A player may place more than one-half of their original bet on the insurance line but only one-half of their original bet is in action. Any overage will be returned to the player after it is determined that the dealer does or does not have blackjack.

(ee) All blackjacks will be paid at odds of 3 to 2. The dealer shall pay the player having a blackjack during the normal course of the dealer's take and pay procedures.

(ff) If the dealer and a player have blackjack, the player's bet will be a push.

(gg) If the dealer looks at the dealer's hole card and fails to recognize the fact the dealer has a blackjack, the dealer's hand will be played as a total of 21 only, and not as a blackjack. A player that doubles down or splits will receive back any additional wagers made after their initial wager.

(hh) Any player's hand that exceeds a total of 21 has broke or "busted" and their hand loses.

(ii) If the dealer has an up card with the value of ten, the dealer will use the peeking device built into the gaming table to check to see if the dealer has a blackjack.

(jj) If the dealer has a blackjack all losing bets will be collected and all blackjacks will push.

(kk) If the dealer does not have blackjack the hand will continue as normal.

(ll) A card found turned upwards in the shoe shall not be used in that game and shall be placed in the discard rack.

(mm) A card drawn in error without its face being exposed shall be used as though it were the next card from the shoe.

(nn) After the initial two cards have been dealt to each player and a card is drawn in error and exposed to the players, such card shall be placed in the discard rack and will not be offered to any player or to the dealer unless the card was dealt by mistake to the player in the last occupied player position immediately before the dealer. In that case, if the card is needed by the dealer to complete the dealer's hand, then the card shall be retained by the dealer. If the card is not needed by the dealer to complete the dealer's hand, then the card shall be placed in the discard rack.

(oo) If the dealer has a point total of a hard seventeen or more and accidentally draws a card for the dealer, such card shall be placed in the discard rack.

(pp) If the dealer misses dealing his first or second card to the dealer, the dealer shall continue dealing the first two cards to each player, and then deal the appropriate number of cards to the dealer.

(qq) If there are insufficient cards remaining to complete a round of play, all of the cards in the discard rack shall be shuffled and cut, the first card shall be drawn face down and placed in the discard rack, and the dealer shall complete the round of play.

(rr) If no cards or only one card is dealt to a player's hand, the hand is dead, any wager made is returned to the player and the player shall be included in the next deal.

(ss) If any card is dealt and an error occurs, at no time as a result of the error will any card dealt to a player be taken from that player and dealt to another player.

(t) If a dispute occurs because of a mistake during a hand by the dealer or a player, the table games supervisor or higher ranking casino official shall be authorized to declare that all or part of the hand is dead (void) and can return any disputed money.

(continued)

(uu) If offered at the blackjack table, a player making a wager against the dealer may also make an optional three card poker wager in the area on the table designated for that optional wager so long as the wager is made prior to the first card of the hand being removed from the shoe.

(vv) If a player makes an optional three-card poker wager, the player may also make a three-card toke bet so long as the toke bet is made prior to the first card of the hand being removed from the shoe.

(ww) Resolution of all optional three-card poker wagers shall be made after all players and the dealer have received their second card and before the blackjack game continues.

(xx) An optional three-card poker wager will win if the dealer's card dealt face up and the player's two cards combined equal one of the following three-card poker hands:

- (1) A "flush";
- (2) A "straight";
- (3) A "three of a kind"; or,
- (4) A "straight flush."

(yy) All winning three-card poker wagers shall be paid at the rate of nine to one.

(zz) All three-card poker wagers shall be taken or paid from the dealer's right to left before the blackjack portion of the game continues.

(aaa) If offered at the blackjack table, a player making a wager against the dealer and three-card poker wager may also make an optional "Top 3" wager. The following describes a list of the permissible wagers, payout odds, and what constitutes a win and a loss for Top 3 wagers:

(1) An optional Top 3 wager may be made by the player prior to the first card of the hand being removed from the shoe in an area on the gaming table layout designated for the Top 3 wager.

(2) An additional Top 3 wager may be made as a tip for the dealer.

(3) A Top 3 wager will win if the dealer's card dealt face up and the player's original two cards combined equal a three of a kind, straight flush, or a suited three of a kind.

(4) A Top 3 wager will lose if the dealer's card dealt face up and the player's original two cards combined do not equal a three of a kind, straight flush, or a suited three of a kind.

(5) Winning Top 3 wagers will be paid out as follows:

(A) When the player's original two cards and the dealer's card dealt face up combined equal a three of a kind the hand will be paid at a rate of 90 to 1.

(B) When the player's original two cards and the dealer's card dealt face up combined equal a straight flush the hand will be paid at a rate of 180 to 1.

(C) When the player's original two cards and the dealer's card dealt face up combined equal a suited three of a kind the hand will be paid at a rate of 270 to 1.

(D) All Top 3 wagers will be taken or paid before the blackjack portion of the game continues.

(bbb) If offered at a blackjack table at which one, two or six decks of cards are being used, a player making a blackjack wager may also make an optional "Lucky Ladies" wager. The following describes a list of the permissible wagers, payout odds, and what constitutes a win or loss for Lucky Ladies wagers:

(1) An optional Lucky Ladies wager may be made by the player prior to the first card of the hand being removed from the shoe in an area on the gaming table layout designated for the Lucky Ladies wager.

(2) An additional Lucky Ladies wager may be made as a tip for the dealer.

(3) A Lucky Ladies wager will win if the sum of the player's first two cards is twenty (20).

(4) A Lucky Ladies wager will lose if the sum of the player's first two cards is anything other than twenty (20).

(5) Winning Lucky Ladies wagers will be paid out as follows:

(A) When the player's first two cards are both queens of hearts and the dealer's hand constitutes a blackjack, the optional side bet will be paid at a rate of 1,000 to 1.

(B) When the player's first two cards are both queens of hearts and the dealer's hand constitutes anything other than a blackjack, the optional side bet will be paid at a rate of 125 to 1.

(C) When the player's first two cards are identical but not queens of hearts, and each card has a value of 10, the optional side bet will be paid at a rate of 19 to 1.

(D) When the player's first two cards are not identical but are both in the same suit and the sum of the two cards is 20, the optional side bet will be paid at a rate of 9 to 1.

(E) When the sum of the player's first two cards is 20 and the cards are in two different suits and are not identical, the optional side bet will be paid at a rate of 4 to 1.

(F) All Lucky Ladies wagers will be taken or paid before the blackjack portion of the game continues. Beginning from the dealer's right and proceeding counter-clockwise around the gaming table, the dealer shall take all losing Lucky Ladies wagers and pay all winning Lucky Ladies wagers, except that if any player making a Lucky Ladies wager is dealt two queens of hearts and the dealer's card dealt face up is an ace, king, queen, jack or ten, then the dealer shall immediately notify the casino table games supervisor. Upon the table games supervisor's direction the dealer shall then perform the following steps:

(1) Remove all losing Lucky Ladies wagers and pay all winning Lucky Ladies wagers, except for the player(s) with the two queens of hearts:

(2) If the dealer's card dealt face up is a king, queen, jack or ten, the following steps shall be performed:

(i) Upon the table games supervisor's instruction, the dealer shall view the dealer's card that was dealt face down without revealing the card to anyone else;

(ii) If the dealer determines the dealer's hand does not constitute a blackjack, the dealer shall pay any player with the two queens of hearts and the round of play shall then proceed;

(iii) If the dealer determines the dealer's hand does constitute a blackjack, the dealer shall turn over the card that was dealt to the dealer face down and collect all losing blackjack wagers from all players. The dealer shall then remove all of the players' cards remaining on the table layout, if any, except for any player's hand with the two queens of hearts, at which time the dealer shall pay the Lucky Ladies wager to the player with the winning hand and then remove all remaining cards from the table layout.

(3) If the dealer’s card dealt face up is an ace, the following steps shall be performed:

- (i) The dealer shall offer insurance to all players;
- (ii) If the dealer does not have a blackjack, the dealer shall remove all losing insurance wagers. The dealer shall then pay the Lucky Ladies wager to any player with two queens of hearts and the round of play shall then proceed;
- (iii) If the dealer does have a blackjack, the dealer shall turn over the dealer’s card that was dealt face down and collect all losing blackjack wagers and pay all winning insurance wagers from all players. The dealer shall then remove all of the players’ cards on the table layout except for any player with the two queens of hearts. The dealer shall then pay the Lucky Ladies wager to any player with the two queens of hearts and then remove all remaining cards from the table layout.

(4) The outcome of a Lucky Ladies wager shall have no bearing on the wager against the dealer. Once all Lucky Ladies wagers have been resolved the blackjack game shall proceed as normal.

(ccc) If the optional bonus spin wager is offered at a table, a player may also make a bonus spin wager by placing a \$5.00 wager on the designated wagering area of the layout prior to the first card of the hand being removed from the shoe. The outcome of the bonus spin wager shall have no bearing on any other wager made by the player.

(1) A player placing an optional bonus spin wager may win in one of two different ways. If either of the player’s first two cards is an ace but the player’s hand does not constitute a blackjack, the player will be paid \$10 on the optional wager, which shall be paid immediately before the game continues. If the first two cards of the player’s hand constitute a blackjack, the player will be entitled to a bonus spin, which will take place at the end of the round of play. Split hands cannot win the bonus spin wager.

(2) Located on each gaming table that offers the bonus spin wager will be an electronic graphic representation of a wheel equally divided into twelve (12) segments. If no player is entitled to a bonus spin, the next round of play shall commence. If one or more players are entitled to a bonus spin, moving from the dealer’s left to right each such player shall in turn touch a lighted sensor located on the table gaming layout, which shall cause the electronic wheel to rotate and eventually stop on one of the twelve (12) segments. If only one prize amount appears in the segment where the wheel stops, the player spinning the wheel shall win that prize amount. If the wheel stops on a segment containing two prize amounts, the player spinning the wheel shall receive the higher of the two prize amounts and the other players at the table that also made a bonus spin wager during that round of play, if any, shall each receive the smaller of the two prize amounts. The prizes available to win on each of the twelve (12) segments and the approximate expected frequency of the wheel stopping on each segment every 40,000 spins are as follows:

Frequency	Prize Amount(s) in a Segment
1	Fixed prize*
5	\$5,000

75	\$500 / \$100
50	\$750
100	\$250
675	\$200 / \$50
3,400	\$40 / \$15
2,200	\$75
3,000	\$70
4,744	\$60
9,000	\$55
16,750	\$50

*The amount of the “fixed prize” shall be posted at the gaming table and shall be in the amount of \$5,000, \$10,000, \$25,000 or \$50,000, which prize shall be funded by the lottery gaming facility manager.
