Kansas Prevention Collaborative-Community Initiative (KPCCI) Substance Abuse Prevention Planning Grant-Cohort V

Overview

The Kansas Department for Aging and Disability Services (KDADS), Behavioral Health Services Commission, announces the release of a Request for Applications (RFA) for planning grant (Cohort V) that will allow eligible applicants to engage in a comprehensive community-based strategic plan that will result in community driven strategies to reduce underage drinking, youth marijuana use, shared risk and protective factors and produce sustainable systems change.

This Kansas Prevention Collaborative-Community Initiative (KPCCI) is intended to reduce and prevent substance abuse in identified communities and enrich prevention efforts across the state through the implementation and sustainability of effective, culturally competent prevention strategies. Grantees will be supported by each of the Kansas Prevention Collaborative partners. You can find out more about each of these partners at <http://kansaspreventioncollaborative.org/About/Partner-Information>.

With the use of Substance Abuse Block Grant funds, the Kansas Prevention Collaborative has a primary objective to help communities plan, implement, and evaluate activities that prevent and treat substance abuse. Integration of other identified priority behavioral health areas is encouraged when possible to supplement substance abuse prevention. These funds are intended for the focus of primary prevention efforts directed at individuals not identified to be in need of treatment services.

This initiative will utilize the five steps of the SAMHSA Strategic Prevention Framework (SPF) with focus on Steps 1, 2, 3 and 5. The SPF is a community-based approach to substance abuse prevention that cuts across existing programs and systems. SPF executes a data-driven, five-step process known to promote youth development, reduce risk-taking behaviors, build assets and resilience, and prevent problem behaviors across the life span. The SPF was initiated by SAMHSA and the Center for Substance Abuse Prevention (CSAP). The five steps of the SPF are designed to help states and communities build prevention competencies and infrastructure necessary to implement and sustain effective prevention policies, practices, and programs. An outline of the five-step process of the Strategic Prevention Framework follows.

Click <https://www.samhsa.gov/sites/default/files/20190620-samhsa-strategic-prevention-framework-guide.pdf> to learn more about the Strategic Prevention Framework.

Step 1: Assessment—*Profile population needs, resources, and readiness to address needs and gaps.*

Step 2: Capacity Building—*Mobilize and/or build capacity to address needs.*

Step 3: Strategic Planning—*Develop a comprehensive strategic plan.*

Step 4: Implementation—*Implement evidence-based prevention programs, policies, and practices.*

Step 5: Evaluation—*Monitor, evaluate, sustain, and improve or replace those that fail.*

The SPF is guided by two cross-cutting principles that should be integrated into each of the steps that comprise it:

- **Sustainability**—The process of building an adaptive and effective system that achieves and maintains desired long-term results.
- **Cultural competence**—The ability of an individual or organization to understand and interact effectively with people who have different values, lifestyles, and traditions based on their distinctive heritage and social relationships.

I. Purpose

The KPCCI Planning Grant is intended to reduce and prevent substance abuse in identified communities and enrich prevention efforts across the state through the implementation and sustainability of effective, culturally competent prevention strategies. The grant is intended for primary prevention only.

Community coalitions that are awarded this grant, will be better prepared to apply for, and secure, other state and national resources to support the implementation and evaluation of their comprehensive plans and efforts to continue work with their communities. KDADS and the Kansas Prevention Collaborative will provide communities with support to make the best use of their efforts throughout the implementation phase.

Utilizing funding and technical assistance, community coalitions will analyze local data that is contributing to substance abuse within their identified geographic area. Resources and technical assistance will be provided to review local assessment profile, logic model, and action plan to address these issues using the five-step SPF process (i.e., assessment, capacity building, planning, implementation, and evaluation). This will also include reviewing plans for sustainability, cultural competence, and evaluation.

II. Eligibility

Kansas Department for Aging and Disability Services invites applications from private, nonprofit and/or community organizations.

Eligible applicants and their fiscal agents must be community coalitions and may include local government agencies, schools, public universities and colleges, private and/or not-for-profit 501(c)(3) organizations based in the targeted community. Community coalitions shall be defined as a multiple sector partnership, mobilized at the local level to make their communities safer, healthier, and drug-free. Effective community coalitions must possess a stable and effective organizational structure with clearly defined roles, responsibilities, and may include multiple geographic areas or school district boundaries

that are efficiently and effectively able to work together (e.g., a rural, multi-county partnership).

III. Outcomes/Goal(s)

Reduce and prevent substance abuse in identified communities and enrich prevention efforts across the state through the implementation and sustainability of effective, culturally competent and diverse prevention strategies. Implementation grantees will demonstrate progress made toward community assessment and readiness, building capacity, addressing cultural competency, by developing a solid coalition infrastructure to create a comprehensive strategic plan that will make positive change in their community. This will be done by utilizing the Strategic Prevention Framework model. Emphasis will be placed on steps one, two, three and five as planning grantees will not be implementing strategies during this grant phase but preparing for the implementation process.

IV. Terms of the Grant

Grantees are eligible for 4 years of funding total. This RFA reflects the first 12- month grant year. Grantees successfully completing the first grant year will be eligible to

transition into Implementation year 1 and so on and will receive additional grant funds the following years based on performance, budget and compliance. The awarded Planning grantees will enter a binding legal agreement between the Kansas Department for Aging and Disability Services and the awarded recipient annually. The agreement requires the awarded grantee to comply with specific grant criteria, which includes mandatory trainings, weekly reporting, quarterly reports, monthly fiscal reports, and data collection. Should a community coalition not meet these requirements, they will be placed on high-risk status which could delay expense reimbursement, and/or affect future funding opportunities provided by the Kansas Department for Aging and Disability Services.

V. Overview of Grant Awards

Planning grants will be awarded to four (4) Kansas communities. Amounts will be \$15,050 per community for one year.

Grantees will be required to engage in a multidisciplinary partnership committed to collaboratively work through each of the five steps of the SPF process identified community. To ensure diverse representation within SPF community coalitions, KDADS has elected to align the SPF award process with the 12- key community sectors required through the national Drug-Free Communities Support Program. This approach ensures the involvement of representatives from key community organizations and institutions who provide varying perspectives and interests in substance abuse prevention and related consequences.

Alignment with federal grant program requirements is hoped to position Kansas communities for additional resources to support and sustain local efforts. The 12 sector representatives required as member participants in each community coalition funded through the KPC are provided in Figure 2.

This coalition of coalitions is led by a steering committee comprised of community coalition members and other professionals. This peer led committee incorporates local level needs into the resources provided during these quarterly events.

Prevention TalkS is a monthly podcast that is offered and led by experts who address a variety of topics around Behavioral Health issues and other factors associated to prevention and promotion.

Kansas Department for Aging and Disability Services views KPCCI community grant applicants and grantees as learning partners; while specific guidance, consultation, and deliverables have been identified by federal and state partners, much will be learned as community leaders engage in building sustainable capacity within targeted populations to infuse a prevention mindset into multiple disciplines. This will have a direct impact on attitudes, beliefs, and actions related to substance abuse prevention specific to their community. The Kansas Prevention Collaborative is committed to working mutually with community coalitions to provide clarity through email, telephone or in person, as needed. As part of its commitment to lead and foster learning, KDADS will strive to create an environment in which the expertise of community stakeholders is honored and supported through competent supports both face-to-face and virtual settings.

Kansas Prevention Collaborative-Community Initiative (KPCCI) Substance Abuse Prevention Implementation Grant-Cohort IV

Overview

The Kansas Department for Aging and Disability Services (KDADS), Behavioral Health Services Commission, announces the release of a Request for Applications (RFA) for Implementation grant (Cohort IV) that will allow eligible applicants to engage in a comprehensive community-based strategic plan that will result in community driven strategies to reduce underage drinking, youth marijuana use, shared risk and protective factors and produce sustainable systems change.

This Kansas Prevention Collaborative-Community Initiative (KPCCI) is intended to reduce and prevent substance abuse in identified communities and enrich prevention efforts across the state through the implementation and sustainability of effective, culturally competent prevention strategies. Grantees will be supported by each of the Kansas Prevention Collaborative partners.

With the use of Substance Abuse Block Grant funds, the Kansas Prevention Collaborative has a primary objective to help communities plan, implement, and evaluate activities that prevent and treat substance abuse. Integration of other identified priority behavioral health areas is encouraged when possible to supplement substance abuse prevention. These funds are intended for the focus of primary prevention efforts directed at individuals not identified to be in need of treatment services.

This initiative will utilize the five steps of the SAMHSA Strategic Prevention Framework (SPF) with focus on all steps of the (SPF) 1, 2, 3, 4 5. (Step 3 grantees must be passed the planning stage). SPF is a community-based approach to substance abuse prevention that cuts across existing programs and systems. SPF executes a data-driven, five-step process known to promote youth development, reduce risk-taking behaviors, build assets and resilience, and prevent problem behaviors across the life span. The SPF was initiated by SAMHSA and the Center for Substance Abuse Prevention (CSAP). The five steps of the SPF are designed to help states and communities build prevention competencies and infrastructure neces-

sary to implement and sustain effective prevention policies, practices, and programs. An outline of the five-step process of the Strategic Prevention Framework follows.

Click <https://www.samhsa.gov/sites/default/files/20190620-samhsa-strategic-prevention-framework-guide.pdf> to learn more about the Strategic Prevention Framework.

Step 1: Assessment—*Profile population needs, resources, and readiness to address needs and gaps.*

Step 2: Capacity Building—*Mobilize and/or build capacity to address needs.*

Step 3: Strategic Planning—*Develop a comprehensive strategic plan.*

Step 4: Implementation—*Implement evidence-based prevention programs, policies, and practices.*

Step 5: Evaluation—*Monitor, evaluate, sustain, and improve or replace those that fail.*

The SPF is guided by two cross-cutting principles that should be integrated into each of the steps that comprise it:

- **Sustainability**—The process of building an adaptive and effective system that achieves and maintains desired long-term results.
- **Cultural competence**—The ability of an individual or organization to understand and interact effectively with people who have different values, lifestyles, and traditions based on their distinctive heritage and social relationships.

I. Purpose

The KPCCI Implementation Grant is intended to reduce and prevent substance abuse in identified communities and enrich prevention efforts across the state through the implementation and sustainability of effective, culturally competent prevention strategies. The grant is intended for primary prevention only.

Community coalitions that are awarded this grant, will be better prepared to apply for, and secure, other state and national resources to support the implementation and evaluation of their comprehensive plans and efforts to continue work with their communities. KDADS and the Kansas Prevention Collaborative will provide communities with support to make the best use of their efforts throughout the implementation phase.

Utilizing funding and technical assistance, community coalitions will analyze local data that is contributing to substance abuse within their identified geographic area. Resources and technical assistance will be provided to review local assessment profile, logic model, and action plan to address these issues using the five-step SPF process (i.e., assessment, capacity building, planning, implementation, and evaluation). This will also include reviewing plans for sustainability, cultural competence, and evaluation.

II. Eligibility

Kansas Department for Aging and Disability Services invites applications from private, nonprofit and/or community organizations.

Eligible applicants and their fiscal agents must be community coalitions and may include local government

agencies, schools, public universities and colleges, private and/or not-for-profit 501(c)(3) organizations based in the targeted community. Community coalitions shall be defined as a multiple sector partnership, mobilized at the local level to make their communities safer, healthier, and drug-free. Effective community coalitions must possess a stable and effective organizational structure with clearly defined roles, responsibilities, and may include multiple geographic areas or school district boundaries that are efficiently and effectively able to work together (e.g., a rural, multi-county partnership).

III. Outcomes/Goal(s)

Reduce and prevent substance abuse in identified communities and enrich prevention efforts across the state through the implementation and sustainability of effective, culturally competent and diverse prevention strategies. Implementation grantees will demonstrate progress made toward community assessment and readiness, building capacity, addressing cultural competency, by developing a solid coalition infrastructure to create a comprehensive strategic plan that will make positive change in their community. This will be done by utilizing the Strategic Prevention Framework model. Community Coalitions will be implementing strategies during this grant phase. Strategies that are currently in place will be reviewed by the KPC team.

IV. Terms of the Grant

Grantees are eligible for 3 years of funding total. This RFA reflects the first 12-month grant year. Grantees successfully completing the first grant year will be eligible to transition into Implementation year 2 and so on and will receive additional grant funds the following years based on performance, budget and compliance. The awarded Implementation grantees will enter a binding legal agreement between the Kansas Department for Aging and Disability Services and the awarded recipient annually. The agreement requires the awarded grantee to comply with specific grant criteria, which includes mandatory trainings, weekly reporting, quarterly reports, monthly fiscal reports, and data collection. Should a community coalition not meet these requirements, they will be placed on high-risk status which could delay expense reimbursement, and/or affect future funding opportunities provided by the Kansas Department for Aging and Disability Services.

KPCCI Implementation Grantees

Note: *Additional coalition-specific training and technical assistance events, on site, may be scheduled in coordination with individual coalitions to select ideal dates, times, and locations.*

Deliverables and Reporting

- To assist the State's compliance with federal and community level evaluation requirements, grantees will participate in the Kansas Communities That Care (KCTC) Student Survey and achieve a 60% participation rate.

- Community coalitions will be expected to assess school district(s) in the area to be served as to whether there is an agreed upon plan for administration of the KCTC Student Survey. If not, the Community coalition will work with the KPC in obtaining a Memorandum of Understanding with that school district(s).
- Community coalitions will participate in evaluation, as directed, through documentation which will be submitted weekly on Fridays at the end of business or 5:00 p.m.
- Community coalitions will be required to submit quarterly reports and monthly budget reports as specified in the Notification of Award.
- Implementation coalitions will use data to identify at least one ‘at risk’ population within their community and implement prevention strategies to reduce

risk among the identified at risk population taking into account diversity and health disparities.

- Designated coalition members must demonstrate an ability to participate in all required training and technical assistance provided by the Kansas Prevention Collaborative. Training may be offered virtually or face to face. Funds may be used to assist with travel to and from these events. (see section IV)

Grant Deliverables/Key Components:

Although all five steps of the Strategic Prevention Framework will be implemented, grantees will not be expected to place emphasis on Step 3: Applicants applying must be past the planning phase of the SPF.

Community Coalitions will be required to engage in a multidisciplinary partnership committed to collaboratively work through each of the five steps of the SPF process identified community. To ensure diverse representation within SPF community coalitions, KDADS has elected to align the SPF award process with the 12- key community sectors required through the national Drug-Free Communities Support Program. This approach ensures the involvement of representatives from key community organizations and institutions who provide varying perspectives and interests in substance abuse prevention and related consequences.

Alignment with federal grant program requirements prepare Kansas communities to obtain additional resources to support and sustain local efforts. The 12 sector representatives required as member participants in each community coalition funded through the KPC are provided in Figure 2.

**Notice of Hearing on Proposed
 Administrative Regulation**

The Kansas Department of Health and Environment (KDHE), Division of Health Care Finance, will conduct a public hearing at 9:00 a.m. Thursday, July 9, 2020, in the Room 560, fifth floor, Landon State Office Building, 900 SW Jackson, Topeka, Kansas, to consider the adoption of proposed permanent regulation K.A.R. 129-9-9.

Summary of Regulation

K.A.R. 129-9-9 External independent third-party review for providers. The regulation provides procedure for implementing the statutory provisions of K.S.A. 39-709i involving the independent, third-party review of a denial by a KanCare managed care organization of a request for reimbursement of a claim for care provided to a Kansas Medicaid recipient or a request for a specific healthcare service.

Economic Impact

K.S.A. 39-709i provides that the loser of the review process, either the KanCare managed care provider or the KanCare managed care organization, will pay the costs for conducting the review. The decision to pursue the review process is at the discretion of the Kansas Medicaid managed care provider affected by the denial decision of the KanCare managed care organization. Since the decision of the independent, third party review can be appealed to the Kansas Office of Administrative Hear-

ings, KDHE anticipates hiring additional staff to handle the workload. A detailed economic impact is provided in the economic impact statement that is available from the agency contact person listed below.

Notice and Contact

The time period between the publication of this notice and the scheduled hearing constitutes a 60-day public comment period for the purpose of receiving written public comments on the proposed regulation. All interested parties may submit written comments prior to 5:00 p.m. on the day of the hearing to Dorothy Noblit, Kansas Department of Health and Environment, Division of Health Care Finance, 900 SW Jackson, Suite 900, Landon State Office Bldg., Topeka, KS 66612, by email to Dorothy.noblit@ks.gov, or fax to 785-559-4258. During the hearing, all interested parties will be given a reasonable opportunity to present their views orally on the proposed regulation as well as an opportunity to submit their written comments. It is requested that each individual giving oral comments also provide a written copy for the record. In order to give each individual an opportunity to present their views, it may be necessary for the hearing officer to request that each presenter limit an oral presentation to an appropriate time frame.

Complete copies of the proposed regulation and the corresponding economic impact statement may be obtained from the KDHE website or by contacting the contact person noted at the address, email, or fax number above. Questions pertaining to the proposed regulation should be directed to the contact noted above.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulation, economic impact statement, and environmental benefit statement in an accessible format. Requests for accommodation to participate in the hearing should be made at least five working days in advance of the hearing by contacting the contact person noted above.
