#### **Background and Purpose of Project**

Section 303 of the Passenger Rail Investment and Improvement Act of 2008 (PRIIA) requires states to develop Federal Railroad Administration (FRA) accepted state rail plans and encourages state involvement in rail policy, planning, and development. KDOT last completed an update of this plan in 2017. An update is required every four years, which slates KDOT for an approved update by the end of calendar year 2021.

The Fixing America's Surface Transportation Act (FAST Act) requires each state to develop a freight plan that provides a comprehensive plan for the immediate and long-range planning activities and investments of the state with respect to freight. KDOT last completed an update to this plan in 2017. The Federal Highway Administration (FHWA) requires an update every five years, which positions KDOT for a final plan update by the end of calendar year 2022.

#### Scope of Services to be Performed

KDOT is seeking proposals from qualified firms to develop both the 2021 Kansas Statewide Rail Plan (KSRP) Update and the 2022 Statewide Freight Plan (KSFP) Update. The KSRP must be structured to meet all requirements of PRIIA as well as additional guidance from the FRA outlined in the FAST Act. The KSFP update must be structured to meet all requirements of the FAST Act and, as applicable, Moving Ahead for Progress in the 21st Century Act. It is expected that the selected consultant will identify opportunities that support both planning processes simultaneously while producing documents that meet both FRA and FHWA's requirements.

#### **Anticipated Schedule for Subsequent Events**

Proposals are due by 12:00 p.m. (CST) October 23, 2020. Based on the qualifications submitted in the proposal and other information available, on or about November 11, 2020, KDOT will shortlist three to five firms and notify all firms submitting proposals of the names of the shortlisted firms by return email. Thereafter, at KDOT's option, shortlisted firms may be interviewed through a virtual meeting. Negotiations with the selected firm will commence on or about December 9, 2020. #### **Background and Scope of Projects**

The rehabilitation and shoulder widening projects have been identified in the Eisenhower Legacy Transportation Program Expansion Pipeline. These projects are scheduled for letting in FY 2023 (July 2022 – June 2023). KDOT intends to select the most highly qualified firms to perform professional services associated with the design of these expansion projects. The projects are packaged into groups, each group includes one or two projects anticipated to be bundled for letting. Project groups and KDOT project numbers are included in Table 1. Firms can submit on any and all groups and may express preference(s) for up to two groups; however, there is no guarantee that a firm will be selected for any group or any expressed preference(s). Available as-built plans for each project can be obtained by contacting David Lutgen, P.E. at kdot.designcontracts@ks.gov and for questions.

## Vol. 39, No. 42, October 15, 2020

KDOT is seeking consultant services to prepare construction drawings for pavement rehabilitation and widening for the addition of shoulders for the projects listed above. The scope of the services will vary for each project and may include culvert extensions, traffic engineering, hydrology/hydraulics, designer construction services, and permitting assistance for some projects. Safety analysis may be required to validate the shoulder width based on traffic and crash histories for each location. Survey will be completed for all projects by December 31, 2020. Geotech will be provided by KDOT early in the project development.

The project scopes include:

- Visit the project site location.
- Perform preliminary road and bridge design for plans to field check, to include determining the size, type, and location of any bridges located within the project limits.
- Develop final plans.
- Provide electronic plan files compliant with KDOT Graphic Standards Manual, including CAD conformance checks and ControlCAD indexed DGN files with ProjectWise attributes.
- Provide construction cost estimates bi-annually as well as at every major project milestone.

#### **Special Conditions**

Project Manager Consultant: These projects are being managed by a Project Manager Consultant (PMC) on behalf of KDOT. The PMC will be the primary contact for the selected firms.

Schedule Reporting: Project schedules will be developed during project negotiation. A basic schedule template, prepared by the PMC, will be reviewed and specific dates will be defined by the consultant in order to achieve the critical milestones. Monthly schedule progress reports and updates will be required throughout the project from the consultants and reviewed with the PMC to track progress for KDOT.

Quality Control: Consultants will be required to provide a Quality Control (QC) plan at project kick-off. QC audits will be conducted by the PMC throughout the project. The audits will check compliance with the consultant's QC plan.

#### Schedule

These projects are scheduled to be let in FY 2023; therefore, the design activities must be scheduled to deliver complete plans between July 2022 and December 2022. These projects may follow an accelerated delivery schedule with some submittals required earlier than a typical KDOT design project to meet the letting requirements.

#### **Instructions for Proposal**

The main text of consultant's proposal must not exceed twelve (12) pages (not including the cover letter) to address the topics listed in Table 2 below. The following outline is the expected submittal organization, content and page length for the technical proposals for each bridge group. Duplication of content in technical proposals is expected.

	Content	Pages
Cover Letter	Within the cover letter, indicate project group preferences	1 page
Overview	<ul> <li>Qualifications and Experience         <ul> <li>Project manager for the group (and for each project, if needed)</li> <li>Names, qualifications, education, training, and expertise of proposed team members</li> </ul> </li> <li>Past performance on similar projects, including references and contact information</li> <li>Group Delivery Process         <ul> <li>Approach to schedule</li> <li>Quality control process</li> </ul> </li> </ul>	4 pages
Project Approach	Highlight concepts for cost-effective and optimized solutions for projects in each group of projects on which the consultant is proposing. Include unique qualifications or experience that may inform the selection of firms and assignment of project groups.	1-2 pages per group

#### **Selection Process**

No cost or pricing information shall be submitted with the proposal. Proposals including cost or pricing information will not be considered in the selection process to rank proposals. Per standard KDOT consultant selection process, consultants will be selected from the technical proposal submitted for each project group and awarded all projects in that group. Selected consultants will proceed quickly through scoping, fee negotiation, and NTP. Each project within a group will be contracted separately. Fee negotiation will include estimates for preliminary engineering and final design; there will not be a contract pause for final design negotiation after field check.

Technical proposals will be evaluated based on the factors listed in Table 3 below to select the most qualified firms. All evaluation factors are weighted equally.

**Table 3: Evaluation Factors** 

Evaluation Factor		
Qualifications and Experience		
Past Performance		
Group Delivery Process: Approach to Schedule		
Group Delivery Process: Approach to Quality Control		
Project Group Approach: Unique Qualifications and Solutions		
Familiarity with KDOT Design Standards and Project Area		

The KDOT Consultant Selection Committee will select the most highly qualified firms expressing interest based on Qualifications and Experience, Past Performance, Group Delivery process, Project Group Approach, and Familiarity with KDOT design standards and project area. The PMC will not be on the KDOT Consultant Selection Committee.

The selected firms will be asked to enter into negotiations with KDOT for an agreement. In the event KDOT cannot reach agreement with a selected firm, it will terminate negotiations and commence negotiations with the next highest ranked firm, and so on, until either agreement is reached for a satisfactory scope of services for a fair and reasonable price, or KDOT decides to pursue other alternatives.

## **Contract Terms and Conditions**

A standard KDOT agreement for engineering and technical services will be used for this project. Special attachments for the Kansas "Tax Clearance Certificate," the "Certification of Final Indirect Costs," and the Special Attachment No. 10 ("Policy Regarding Sexual Harassment") will also eventually become attachments to the contract.

The firm's accounting systems must have the following capabilities before the firm may be awarded a contract.

- Valid, reliable, and current costs must be available within the system to support actual costs and pricing data.
- Capability to provide a means of measuring the reasonableness of incurred costs.
- Capability to identify and accumulate allowable costs by contract or project records which will reconcile with the general ledger.
- Ability to provide supporting documentation of actual expenditures for each billing, based on costs.

Questions can be sent to kdot.designcontracts@ks.gov.

## **Kansas Development Finance Authority**

#### Notice of Hearing

A public hearing will be conducted at 9:00 a.m. Monday, November 2, 2020, in the offices of the Kansas Development Finance Authority (KDFA), 534 S. Kansas Ave., Suite 800, Topeka, on the proposal for the KDFA to issue its Agricultural Development Revenue Bond for the project numbered below in the respective maximum principal amount. The bond will be issued to assist the borrower named below (who will be the owner and operator of the project) to finance the cost in the amount of the bond, which is then typically purchased by a lender bank who then, through the KDFA, loans the bond proceeds to the borrower for the purposes of acquiring the project. The project shall be located as shown:

**Project No. 001065 Maximum Principal Amount: \$174,500.** Owner/Operator: Benjamin P. and Dallas L. Jantzen; Description: Acquisition of 80 acres of agricultural land and related improvements and equipment to be used by the owner/operator for farming purposes (the "Project"). The Project is being financed by the Lender for Benjamin P. and Dallas L. Jantzen (the "Beginning Farmer") and is located at the North Half of the Northeast Quarter of Section 32, Township 22 South, Range (continued) 3 East, Marion County, Kansas, approximately 3 miles south of Peabody, Kansas on Old Mill, east 2 miles on 30th, and north <sup>3</sup>/<sub>4</sub> of a mile on Quail Creek.

The bond, when issued, will be a limited obligation of the KDFA and will not constitute a general obligation or indebtedness of the state of Kansas or any political subdivision thereof, including the KDFA, nor will it be an indebtedness for which the faith and credit and taxing powers of the state of Kansas are pledged. The bond will be payable solely from amounts received from the respective borrower, the obligation of which will be sufficient to pay the principal of, interest and redemption premium, if any, on the bond when it becomes due.

All individuals who appear at the hearing will be given an opportunity to express their views concerning the proposal to issue the bond to finance the project, and all written comments previously filed with the KDFA at its offices at 534 S. Kansas Ave., Suite 800, Topeka, 66603, will be considered. Additional information regarding the project may be obtained by contacting the KDFA.
