**Notice of Water Quality Certification**

The Kansas Department of Health and Environment (KDHE) has drafted a water quality certification per Section 401 of the Clean Water Act (CWA) as requested by the United States Army Corps of Engineers (USACE) Environmental Resources Section. A Power Point presentation containing a summary of the activities for the Tuttle Creek Reservoir Water Injection Dredging Demonstration Project can be found at <https://usace.contentdm.oclc.org/utis/getfile/collection/p16021coll7/id/25655>.

*(continued)*

The objective is to investigate the feasibility and potential positive and negative environmental outcomes from injecting water into the basin of the lake to restore storage. The USACE would calculate flow regimes of the lake to meter out sediment into the Big Blue River and ultimately the Kanas River. Willow Lake below the dam may also be impacted. Pre-project water quality, basin and biological condition data have been collected from in-lake, lake inlets, and downstream into both rivers. An adaptive management plan has also been developed to address extreme weather conditions or other circumstances that may jeopardize the integrity of the demonstration including environmental impacts.

The draft conditional 401 certification will be posted on the KDHE website at <https://www.kdhe.ks.gov/1095/Section-401-Water-Quality-Certification> on or before October 17, 2024. Persons wishing to comment on the referenced draft document must submit their comments in writing by email to the Kansas Department of Health and Environment at [KDHE.NPS@ks.gov](mailto:KDHE.NPS@ks.gov) by November 17, 2024, if they wish to have their comments considered in the formulation of final determinations for 401 regarding this public notice. Notice to Contractors

Electronic copies of the letting proposals and plans are available on the Kansas Department of Transportation (KDOT) website at <https://kdotapp.ksdot.org/Proposal/Proposal.aspx>. The website will allow the contractor to request approval from KDOT to bid as a prime contractor and be included on the “Bid Holders List,” or to be included on the “Non-Bid Holders List” as a subcontractor/supplier. KDOT’s approval is required to bid as a prime contractor. To bid as a prime contractor, KDOT needs to be notified of the intent to bid no later than the close of business on the Monday preceding the scheduled letting date. Failure to obtain prior approval to bid as a prime contractor on any projects listed below will be reason to reject your bid. The Secretary reserves the right to reject bids that do not comply with all requirements for preparing a bidding proposal as specified in the 2015 edition of the Kansas Department of Transportation Standard Specifications for State Road and Bridge Construction.

KDOT will only accept electronic internet proposals using the Bid Express website at <https://bidx.com/ks/main> until 1:00 p.m. (Central Time) on letting day. The KDOT

(continued)

bid letting will be conducted remotely by audio broadcast only at 3:00 p.m. (Central Time) on letting day. For the conference call information see <https://www.ksdot.org/bureaus/burconsmain/lettinginfo.asp>. KDOT has tested the process, but in the event of an unforeseen issue, KDOT will provide updates.

Each bidder shall certify that such person, firm, association, or corporation has not, either directly or indirectly, entered into any agreement, participated in any collusion, or otherwise taken any action in restraint of free competitive bidding in connection with the submitted bid. This certification shall be in the form of a required contract provision provided by the state to each prospective bidder. Failure to complete the required contract provision and certify the completeness of the preceding statement when electronically signing the proposal will make the bid nonresponsive and not eligible for award consideration.
